7-mile fence goes up overnight

HESELTINE DEFENDS CRUISE RAID

1,750-strong force seizes peace camp

By JAMES WIGHTMAN Political Correspondent

IN the face of a barrage of criticism from Labour MPs, Mr Heseltine, Defence Secretary, yesterday defended the lightning operation by troops and police the night before to evict "peace camp" protesters from RAF Molesworth, Cambs, Britain's second cruise missile base.

He told the Commons the clearance of the demonstrators and the erection of a 7½-mile barbed wire fence round the base had been carried out because the Government would not countenance the cruise deployment "being frustrated by a small, unrepresentative minority within our society."

Conservative MPs praised Mr Heseltine for his masterminding of an operation effected by 1,500 Royal Engineers and some 250 Ministry of Defence and local police.

But the Defence Secretary, who had visited the site earlier in the day, was accused by Labour MPs of over-reacting and using "fascist jack-boot tactics of a police state."

Labour also claimed that to remove about 100 demonstrators — many women and some with children — the Government had used more troops than at Goose Green in the Falklands.

Mr Heseltine described the action to evict the demonstrators, whom he described as "trespassers." He reminded MPs that major construction was to begin at Molesworth this autumn if deployment by 1988 was to be achieved.

He added: "RAF Milesworth, as an unfenced and open site, has been the scene of continued trespass by individuals an dgroups opposed to its use as a cruise missile base. "Their activities have given rise to muc hlocal anxiety. The anti-nuclear protest groups have made clear their intention to engage in a systematic programme of deliberate delay and disruption, not excluding unlawful means, in order to prevent its development.

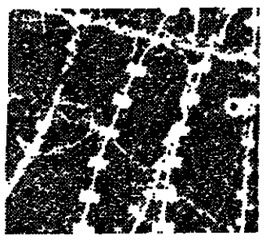
"It would have been quite wrong to allo wsuch a protest to build up on Ministry of Defence land and to accept that the serious inconvenience to local people would continue."

Deliberate delay and disruption

It had been necessary to act with speed and secrecy to prevent serious problems arising from the threat of reinforcement of the protestors.

Mr Heseltine described the clearing of trespassers from the site and said Royal Engineers had begun erecting fences and were providing observation platforms and perimeter lighting to assist Ministry of Defence guards.

In addition the Property Services Agency and civil contractors had moved in heavy equipment to begin the construction of a permanent weldmesh fence for which planning agreement had already been given.



The German-made "razor" wire erected at Molesworth yesterday.

To calls of approval from Conservative MPs he said no responsible Secretary of State for Defence, or government, could countenance preparations for the deployment of the cruise missiles "being frustrated by a small unrepresentative minority within our society."

He had visited Molesworth that morning to pass on the Government's thanks to those concerned.

With Labour MPs jeering Mr Heseltine, Mr Denzil Davies, Shadow Defence Secretary, told him: "When you strutted round Moleworth this morning in your flak jacket, you were not evicting some wild Baader-Meinhof terrorist gang but 100 British citizens, most of them Quakers with a long religious tradition of honourable protest against weapons of war.

"All you have done is sown 100 dragons' teeth. Protests will not only go on but will intensify because of what you did this morning."

Mr Heseltine replied that what he h ad done was secure the maintenance of law and order and the legitimate rights of his department to use its own land for its own purposes.

He added that the whole House would have noticed that the determination to live within the law of the country was "wholly repugnant to the Labour party."

He also said that, if he had acted with less despatch, the demonstrators would have been able to call on additional resources from other parts of the country. He added: "We could

Fence too sharp to handle

By JOHN SHAW

TWO makeshift camps of 150 to 200 protesters were cleared by Ministry of Defence police at RAF Molesworth and 1,500 Royal Engineers erected a six-foot high fence of razor wire around the 7½-mile perimeter in 12 hours on Tuesday night.

The Engineers used two types of barbed wire, the old-style familiar to generations of servicemen and the new-style 'S' or Sabre wire sprung steel coils.

S wire is manufactured in W. Germany by a form of pressing process. The end product is a central tape wire on which are attached small spaced-out sharp-cornered blades. The blade intervals are much closer than the barbs on lnorma barbed wire and so the wire is much more difficult to grasp and handle without getting cut.

Molesworth, an unfenced, derelict former wartime airfield, is intended to be the second cruise missile base in Britain. Construction work will begin in the autumn. It is intended to take 64 missiles and to be opjerational by 1988.

The Campaign for Nuclear Disarmament has said it intends to make the site the focus of a major protest campaign and

Parliament—P6.

plans a 20,000-strong demonstration at Easter.

The fence-building operation was carried out swiftly during darkness to secure the perimeter and minimise the risk of a large-scale confrontation with the campers.

The security operation began at 11.30 p.m. on Tuesday when a 400-strong convoy of army vehicles was escorted by the police to the so-called Rainbow Village peace camp. Royal Engineers erected the fence under the light of arc-lamps and although it was set up without incident, some protesters attempted to prevent vehicles leaving the site later and lay down in the road.

The campers' first 40 vehicles, of all shapes, sizes and condition left the site at first light. They were led by police to the A1 and then south out of the county, but most drivers had no idea where to go. Some said they would head for Glastonbury.

Vehicles break down

Within three hours the remainder were on their way. Some of the vehicles were unroadworthy and broke down. The police had to provide petrol or diesel feel for others, many of which had broaded-up windows.

As some of the vaos left three protesters climbed on the roof of one vehicle in an attempt to prevent it being towed away. Police had to provide ladders to bring them down.

Among the protesters was Miss Pat Arrowsmith, the veteran peace campaigner and

COAL FACE AND 300 JOBS LOST

By GUY RAIS

THE three-week battle to save the fire-damaged main face at Seafield Colliery, Fife, was lost last night when Coal Board officials decided to seal it off.

About 300 jobs will be lost immediately and another 1,500 are at risk.

The face provided half the colliery's output and there must now be doubts about its economic viability.

An estimated 500 jobs were lost only three days ago after a fire at the Frances Colliery, which adjoins the Seafield pit.

Return to work

A total of 1,800 men work at Seafield, in the heart of the Fife coalfield which has remained behind the strike with only a small drift back to work.

Throughout the country another 30 7miners joined the retur nto work yesterday, bringing the total this week to 3,307.

BRITISH YARDS WIN CUBA SHIPS ORDER

By Our Shipping Correspondent

Cypriot agents acting for Cuba yesterday gave British Shipbuilders a £32 million fourship contract that will keep the Smith's Dock shipyard on Teesside busy until the end of next year.

Four Cypriot companies are each ordering a standard-design 15,150-ton cargo ship for charter to Cuba.

Smith's Dock is one of the few merchant yards of British Shipbuilders which has never lost the confidence of shipowners. It has a reputation for quietly delivering good ships on time. Engines for the ships will be built by another British Shipbuilders subsidiary, Clark Kincaid, at Greenock and Wallsend.

SPAIN IN CRIME WAVE TALKS

By Our Diplomatic Correspondent

Mr Renton, Foreign Office Under-Secretary of State, flies to Madrid today to discuss protecting British tourists from the crime wave which has afflicted Spanish resorts.

He will see the Minister of the Interior and national police force commander. It is expected the talks will also cover a new extradition treaty between Britain and Spain.

POLICEMAN HURT IN BRIXTON

By Our Crime Staff

A policeman who approached a white youth he suspected of carrying a knife was severely bruised during a scuffle involving black youths in Effra Road, Brixton, yesterday. Many schoolchildren were in a crowd of about 50 youths around him, but not all took part.

Pc Mark Howells, 23, received hospital treatment. Two youths were later helping police inquiries.

£55,000 IN AID FOR TIGRE'S STARVING

By Our Diplomatic Staff

A little known British charity has raised £55,000 in the last three months for famine victims in Ethiopia living beyond Government control and thus beyond reach of Western aid programmes.

The Relief Society for Tigre is the only organisation working on the ground in the largely rebel-held province in northwest Ethiopia.

The society, headquartered in the Sudanese capital of Khartoum, has channelled around 1,200 tons of food a month over the last 18 months to the estimated five million population of Tigre, almost all of whom are suffering from drought and civil war.

The society works closely with the War on Want organisation, which has campaigned for a tougher British attitude toward the Ethiopian Government's selective relief effort, and for more direct aid to the rebel provinces.

SHARES SUSPENDED

Acorn, the computers group, yesterday stopped Stock Exchange dealings after its shares hit an all-time low of 23p before a partial recovery left them 7p lower on balance at 28p. The group said it was planning a major shake-up.

£1m Lloyd's fine on ex-underwriter

By R. BARRY O'BRIEN

A FORMER underwriter has been fined £1 million by Lloyd's disciplinary committee, which recommended that he should be expelled from Lloyd's for life.

Mr Peter Dixon, former chairman of PCW Underwriting Agencies, a subsidiary of the Minet Holdings insurance group, was found guilty by the committee of misapporpriation and taking personal benefit from money belonging to members of syndicates managed by his firm.

The committee awarded costs against him of £200,000. Mr Dixon is abroad, and did not attend the disciplinary hearing. He has 14 days to lodge notice of appeal.

A total of £38,170,000 paid in re-insurance premiums on behalf of syndicates managed by PCW Underwriting Agencies is alleged to have been misappropriated and used for financial operations vy Mr Dixon and others for their personal benefit.

As a result of the misappropriation, more than 300 members of the syndicates were threatened with insolvency because of inability to meet cash calls and insurance claims.

Inquiries and legal action in several countries including Switzerland and Liechenstein have recovered £25,030,000 of the syndicates' money which had been chaneled into a trust fund in Gibraltar.

Legal claims

The money has been refunded by Minet Holdings and an American company, Alexander and Alexander Services Inc. to 1,500 members of the syndicates who renounced their legal claims in return for reimbursement.

The balance of £13,140,000 was refunded to syndicate members by the two companies from

MEDICAL CHECK FOR AIDS JAIL

By T. A. SANDROCK

THE Home Office has banned the reception and transfer of prisoners at Chelmsford jail until tomorrow while a medical team carries out investigations after the AIDS scare at the prison.

Staff refused on Tuesday to move prisoners following the death last week of the Rev Gregory Richards, 38, the prison chaplain, who died in hospital after it was confirmed he was suffering from AIDS.

But a Home Office official said yesterday that Chelmsford, a youth custody centre, holding more than 300 prisoners aged between 17 and 21 had not been "put into quarantine."

His statement followed a three-hour meeting between representatives of the Prison Officers Association and Home Office Prison Department chiefs yesterday as the Association sought assurances and guide lines to protect staff and prisoners against the disease.

Prisoners' fears

Mr Phillip Mawer, head of Prison Department industrial relations, said Home Office officials would visit the prison tomorrow after medical checks in an attempt to allay fears that prisoners and staff might be at risk from the killer disease.

After the meeting Mr Colin Steel, POA chairman, said: "Previously, there had been parrot-like statements from the Prison Department that the only way you could contract AIDS was by homosexual contact. It is now accepted by the Prison Department that that is not true."

AIDS VICTIM NAMED

By Our Health Services Correspondent

The Aids victim whose death was announced at Ham Green Hospital, Bristol, earlier this week was named yesterday as Mr John Lewis, 40, former assistant musical director of the Ballet Rambert. He had recently been working at a Soho recording studio.

Attempts to quell fears—P2

Dr RUNCIE STIFLES No 10

By DAVID ADAMSON
Diplomatic Correspondent

LAMBETH PALACE yesterday stifled an attempt by No. 10 to capture some of the credit for the success of Mr Terry Waite's mission to Libya.

The Archbishop of Canterbury, Dr Runcie, took the unusual step of issuing a statement making it clear that he had initiated the visit more than two-and-a-half months before Mrs Thatcher wrote to him suggesting the same thing.

The statement was almost certainly promoted by concern that the Church might be seen as the instrument of the Prime Minister.

The Lambeth Palace statement said: the Archbishop's first letter to Col Gaddafi concerning the four Britons was written on Aug. 2, 1984. "From that day onwards active negotiations were under way to arrange for Mr Waite to visit Libya."

The Archbishop's intervention followed reports that Downing Street sources were saying that Mrs Thatcher had written to Dr Runcie suggesting Mr Waite's visit after she had met the relatives of the four men on Oct. 17.

Terry Waite profile—P15

GUARD'S £111,000

By Our New York Staff

A guard on a New York commuter rail line, Mr Fred Lucas, who does all the overtime work going, earned $124,965 (£111,575) last year. Nine other Metro-North employees earned between $66,000 and $91,000.

Royal smoking warrants at risk

By GRAHAM JONES

BUCKINGHAM PALACE is to review the granting of Royal warrants to cigarette manufacturers following Princess Margaret's lung operation.

The Lord Chamberlain's office has told Mr Ernie Roberts, Labour MP for Hackney North and Stoke Newington, that the policy of "by appointment" endorsements on cigarette packets will be reviewed firm by firm.

Other members of the royal family are known to be concerned at the effect of heavy smoking on the health of Princess Margaret, now recuperating on the Caribbean island of Mustique after her surgery.

A number of cigarette manufacturers have the royal warrant as suppliers to guests at royal residences. They include Dunhills, Benson and Hedges, and John Player.

Not the Queen

The Lord Chamberlain's letter follows a Commons motion which Mr Roberts sponsored, calling on the palace to abandon its policy, and a concerted anti-smoking campaign by the British Medical Association.

The MP was told: "Your concern over the health aspect of smoking is well understood, and, of course, as you no doubt know, neither the Queen, the Duke of Edinburgh, Queen Elizabeth the Queen Mother nor the Prince and Princess of Wales smoke.

"It is only for the supply of cigarettes to official guests at royal residences that the granting of warrants of appointments to tradesmen have been given.

"This policy is under review." Mr Roberts said: "I take it from the letter that the matter i sgoing to be reviewed urgently."

Loss of life

He hoped the "by appointment" warrant would now disappear from cigarette packets.

"I assume account will be taken of MPs and the British Medical Association's concern about the considerable less of life due to smoking which is encouraged by the use of the Royal Warrant.

Mrs Renee Short, chairman of the Commons select committee on Social Services, and Labour MP for Wolverhampton North-East, said: "The whole medical profession will he absolutely delighted, as will the Royal College of Obstetricians and Gynaecologists, who are very concerned about expectant mothers smoking."

HOW TO PROTECT YOUR FAMILY, AND THEN CLAIM £21,000.

Have you ever felt that life assurance was a tiny bit unfair; that you can never reap the financial benefits of your own life policy?

Well, Abbey has a plan that lets you do just that.

For only £20 a month you can insure your life for over £58,000.* You also have a guarantee that if you are laid up by lengthy illness or injury, we'll pay your contributions for you. (This facility lasts right up to the age of 60.)

And should you survive to retirement you'll get a lump sum of over £21,000.*

Let us tell you how you can insure your life and live to enjoy it.

Just fill in the coupon.

*Based on age 25 next birthday, and 7½% growth rate per annum projected to age 65.

Peace of Mind.
I want to protect my family and build up a substantial cash sum. Please tell me how.

Pupils caught in pay row sent home early

By MARGOT NORMAN Education Staff

THOUSANDS of children were sent home at lunchtime yesterday because of disruptive action by members of the National Union of Teachers in their pay dispute.

The pupils in Cumbria and parts of London, were sent home early because there was no one to supervise them.

'Pay cut' warning

But the general response to the union's call for disruption of school timetables was patchy. Many members appeared to be waiting until Monday's pay talks before refusing to cover for absent colleagues or supervise at lunch hours.

More than 50 education authorities have warned teachers that they risk deductions from their pay for taking sanctions, though this in Conservative-controlled East Sussex and Labour-controlled Bolton.

Here the warnings were deemed "provocative," and teachers who had previously been lukewarm about the union's action, backed it fully.

CRIME WRITER DIES

James Hadley Chase, the crime and thriller writer, died yesterday aged 78 at his home near Corseaux - sur - Vevey, Switzerland. The author whose real name was Rene Raymond, wrote some 80 novels.

LAYMAN'S VOICE TO DOMINATE LAW REVIEW

By TERENCE SHAW Legal Correspondent

A REVIEW of civil justice in the High Court and the county courts with the aim of cutting delays, costs and the complexities of litigation was announced yesterday by Lord Hailsham, the Lord Chancellor.

It will involve factual studies commissioned from management consultants into the conduct of the main areas of civil litigation, such as personal injuries, small claims, debt, housing and commercial cases.

Work on personal injuries will begin immediately to enable Lord Hailsham to take any necessary policy decisions for reform by the end of 1986.

Reviews into the other areas of civil business will begin while the personal injuries review is still continuing and Lord Hailsham hopes the whole review will be completed within three years.

Advising the Lord Chancellor and his officials on matters arising during the review will be a 10-strong independent committee, headed by Sir Maurice Hodgson, chairman of British Home Stores.

Speed and costs

A majority of its members represent consumers and court users, with practising lawyers and the judiciary in a clear minority.

Announcing the review in a House of Lords written answer yesterday, Lord Hailsham said he intends that each class of business is considered in three stages.

First there would be a factual study of the progress of cases through the courts in order to establish the time taken, the cost at various stages, and factors that significantly affected progress.

This would be followed by an opportunity for consultations on the basis of a published document analysing the results of the factual study and outlining proposals for change, and then Ministerial decisions on implementation and legislation if necessary.

The form of the review differs significantly from the traditional approach to legal reform, which normally involves appointing a commission or inquiry headed by a senior judge or lawyer, which then invites evidence from interested parties.

Government plans for an inquiry under the control of the Lord Chancellor's office came under heavy criticism at a seminar of judges and senior practising and academic lawyers organised by the Law Commission last September.

But Lord Hailsham has stuck by his department's outline proposals for the review, though with an expanded advisory committee on which consumers and court users will have a much bigger say.

The other members of the Advisory Committee are: Sir Kenneth Bond, deputy managing director of General Electric; Mrs Gillian Boothe of the National Association of Citizens Advice Bureaux; Lord Justice Griffiths; Mr Peter Jacques from the Social Insurance and Industrial Welfare Department of the TUC; Mr Bob Kerr, Guardian Royal Exchange; Mr Rodney Pampallon, a solicitor; Mr Mark Potter, QC; Prof. Ian Scott, Barber Professor of Law at Birmingham University; and Mr Richard Thomas, solicitor at the National Consumer Council.

Deadlock in 'Daily Mail' dispute

By MAURICE WEAVER
Industrial Staff

THE dispute which has stopped production of London editions of the DAILY MAIL became deadlocked last night with neither management nor union prepared to give way in pay and hours negotiations.

The company has offered £5 a week to the 600-strong Sogat '82 clerical chapel and said it will not discuss the claim further until the 500 striking members return to work so that established dispute procedures can be used.

Union and chapel officials, on the other hand, insisted on an improved offer, acceptable to the members, before calling off the stoppage and lifting the pickets who have put a stranglehold on newsprint deliveries to the paper's plant near Fleet Street.

Vote of confidence

The Sogat clerical chapel met during the day, gave its negotiators a vote of confidence and adjourned until Monday, putting a question mark over this weekend's issue of the MAIL ON SUNDAY.

The chapel, whose members include wages staff and switchboard operators, have persuaded Transport Union lorry drivers who deliver newsprint reels not to cross picket lines.

The reel handlers' chapel of the Sogat machine branch also agreed not to allow newsprint deliveries unless normal checking arrangements are made.

The checkers are members of the striking clerical chapel, effectively meaning there would be a block on deliveries until the clerks go back.

Following a High Court injunction ordering the clerical chapel to reduce picketing to that necessary for "peaceful persuasion," the numbers standing directly outside each of the plant's loading bays and doorways was reduced to six yesterday.

Members dismayed

Chapel officials, who were individually named in the injunction, asked others to stand away from the picket lines. A group of about 40 at one stage gathered on the opposite side of the road to the loading bay.

Mr Christopher Robins, secretary of the Sogat clerical branch covering Fleet Street, said: "Our members have no wish to defy the law and have instructions to cooperate totally with the police."

He said his members were dismayed by the circulation of leaflets by the extreme Left-wing Socialist Workers party urging strike supporters to ignore the court ruling.

"We find the presence of such people offensive," said Mr Robins. "We don't want their involvement and if they turn up at our meetings they will be asked to leave and their documentation destroyed."

The 2-cwt solid silver bell for the fifth Ark Royal being hall-marked at the Goldsmiths' Hall in the City yesterday by Mr John Ryder, foreman silver marker. Watching are two crew members, Radio Operator Nicholas Durrant and Chief Petty Officer David Taverner.

Nation put first, Rees tells Ponting jury

A CIVIL servant has a greater loyalty to the nation than to Ministers or the Government, Mr MERLYN REES, the former Home Secretary, told the Belgrano secrets trial jury at the Old Bailey yesterday.

Mr Rees—now a Labour MP, said that a civil servant must be loyal to Ministers and Government.

"But his loyalty to his nation is far greater than those two put together."

Mr BRUCE LAUGHLAND, QC, defending Clive Ponting asked Mr Rees if Parliament would be assisted if a civil servant resigned and said nothing when Ministers might not be "playing fair" with Parliament.

Mr REES replied: "No. Assuming that the avenues have been followed through, I would put accountability and truthfulness to Parliament above all else."

Defence witness

The civil servant should first have approached the Permanent Under-Secretary or the head of the Civil Service, said Mr Rees, who was called as a defence witness.

He added: "I believe that a politician has to protect security to the 'nth degree and if I felt there had been a breach of security I would not have come this morning."

But ministers were responsible to Parliament and accountable for their actions.

Ponting, 38, of Cloudesley Road, Islington, has denied a charge under Section Two of the Official Secrets Act alleging he sent two Ministry of Defence documents to the Labour MP, Mr Tam Dalyell, who was not authorised to receive them.

Earlier, LORD RAYNER, chairman of Marks and Spencer, had praised Ponting's "outstanding" work as a civil servant.

In a statement read to the court, Lord Rayner said the Prime Minister had personally requested Ponting to report to her Cabinet, which was "highly unusual."

Lord Rayner said Ponting was sent with other "high flyers" from Civil Service departments to help him eliminate waste inside government in 1979.

The trial was adjourned until today.

'BONGO LAND' ROW

By VALERIE ELLIOTT
Political Staff

MR ALAN CLARK, Junior Employment spokesman with responsibility for race relations, yesterday admitted that he might have made the controversial remarks about Britain's blacks originating from "Bongo Bongo Land."

His admission immediately incensed members of Labour's front bench team and Miss Clare Short, one of the Shadow Employment spokesmen, said she would be writing to the Prime Minister asking her to sack Mr Clark.

The Shadow Cabinet learnt of the remark in a report in the anti-fascist magazine SEARCHLIGHT which said that during a meeting with officials in his department Mr Clark was told about black opposition to ethnic monitoring at unemployment benefit offices.

The Minister was alleged to have retorted, "You mean to say that they don't want us collecting their names and addresses because they're afraid we are going to hand them over to the immigration service so that they can send them all back to Bongo Bongo Land."

Editorial Comment—P14

Health chief tries to quell fears of catching AIDS

By DAVID FLETCHER Health Services Correspondent

AIDS is still rare in Britain and is not highly infectious like smallpox used to be, Dr Donald Acheson, Chief Medical Officer to the Department of Health, said yesterday in a statement intended to quell growing public fears about the risks of catching the fatal disease.

There had so far been 118 cases in Britain of whom 51 had died, he said.

Dr Acheson added: "You cannot get it from sitting in the same room as, or sharing a meal with, a person with Aids, since it is not transmitted through the air by coughing or sneezing.

"Nor can you get it by shaking hands. The most important way that Aids has been passed from one person to another has been through sexual intercourse between male homosexuals, particularly those with many different partners."

It had also been transmitted between drug abusers who shared needles and through contaminated blood products.

"It is nonsense to say, as has been suggested, that homosexuals should not eat in restaurants for fear of passing on the disease.

"While it is true that the virus has been found in saliva, there is no evidence that the disease has been transmitted from plates or cups."

Extensive action

Dr Acheson said the DHSS had taken extensive action to minimise the spread of the disease, including advice to blood donors and to staff caring for Aids patients.

A blood test was being developed so that donors could be screened to prevent infected blood being used. The test would be introduced as soon as possible.

All blood products used for the treatment of haemophiliacs would be heat treated from April to make it safe from contamination by Aids.

'SERIES OF BLUNDERS' Staff not told

Dr Tony Kirkland, District Health Officer for Mid-Essex, admitted yesterday that staff at the Chelmsford and Essex Hospital should have been told that the Rev. Gregory Richards, 38, who died of Aids last week, was a suspected victim of the disease.

Union officials at the hospital have accused the area health authorities of "malpractice" over the case. Mr Brian Bolton, vice secretary, Mid-Essex branch of Nupe listed a catalogue of alleged blunders at the hospital where the clergyman was treated and died.

Staff caring for the dying man were not told for five days that Aids was suspected.

Soiled bedding and medical equipment used in the case were left lying around for several days before it was burned.

Equipment used to clean his room was later used on a general ward.

A nurse who handled blood samples pricked her finger on a drip needle used on the clergyman.

Blood tests

OUR MEDICAL CONSULTANT writes: In my comment on Aids in yesterday's DAILY TELEGRAPH the word "not" was omitted from a sentence which should have read: "It should be emphasised that a positive blood test does not mean symptoms of Aids will ultimately develop."

Reparations-for-crime scheme to be tested

By OUR LEGAL CORRESPONDENT

FUNDS are to be made available to test the feasibility of schemes under which criminals can make direct reparation to their victims, Mr Brittan, Home Secretary, announced yesterday.

In a Commons written answer he said the Government had offered a total of £100,000 over two years to four direct reparation projects in Carlisle, Coventry, Leeds and Wolverhampton.

The first three have been proposed by the probation service an dthe fourth by the Crypt Association, a voluntary organisation that runs a range of community services.

Mr Brittan said the Carlisle scheme aimed to develop existing arrangements for keeping juveniles out of the courts where reparation to the victim was made. The others envisaged reparation by a convicted adult offender as part of a court order.

The repartition might involve the offenders carrying out some substantial job of work for the victim, or in very minor cases the victim might be satisfied with an explanation and an apology, said a Home Office spokesman later.

Defence Ministry buys Russian components

By Our Political Staff

THE Government has admitted it is still buying components from Russia for use in the manufacture of Ministry of Defence military equipment, including the Chieftain tank, eight years after protests in the Commons at such purchases.

Mr Kenneth Eastham, Labour MP for Blackley, who was alerted to the continuing trade by the Engineering Workers' Union, expressed his anger yesterday after Mr Butcher, Trade and Industry Under-Secretary, had confirmed that Britain was importing ball-bearings

Mr Butcher's disclosure came the day after Mrs Thatcher appealed in the Commons to people to buy more British goods.

He confirmed that of all ball-bearings imports into Britain some two per cent. were from Russia, Eastern bloc countries and China.

He said that of the two per cent. some 0·06 per cent. of supplies was directly from Russia. The remainder are from European countries and America.

The Minister acknowledged that there were firms in Britain who could quite adequately deal with the work.

He wrote: "We do believe that United Kingdom industry has more than adequate capacity to cope with the needs."

The Ministry of Defence last night would not go into details on the ball-bearing contracts.

A spokesman said: "We procure on the basis of best value for money and that is what governs military material."

HOME OFFICE MAN FOR TRIAL

Alan Lowther, a Home Office official, was committed on unconditional bail yesterday for trial at the Old Bailey accused of passing on confidential information.

He is alleged to have passed information to an unauthorised person, another civil servant, in June last year. The information concerned findings of a report on ivil Service corruption, Bow Street Magistrates were told. Lowther, 44, of Broomfield Road, Surbiton, Surrey, denies the allegation.

News round-up

Pay plea rejected

UNION leaders have rejected a Government plea for pay restraint and disputed claims that lower settlements would create more jobs and reduce unemployment.

Mr Norman Willis, TUC General Secretary, said unions were suspicious that the Government wanted to see a cut in wages.

He was speaking at a meeting of the National Economic Development Council where the TUC delegation opposed a Treasury and Department of Employment paper which claimed that every 1 per cent. cut in pay settlements would create an extra 150,000 jobs.

Universities scramble eases

The intense scramble for university places eased a little last year as fewer candidates applied, and looks like easing further this year, according to the Universities Central Council for Admissions.

The number of British applicants dropped slightly last year while 2,500 extra places were added to the 1983 total. "Fortunately the universities were able to begin to reverse the declining trend in acceptances which began in 1981," says the latest UCCA report.

New NHS drugs to be screened

A scheme to vet new drugs as they become available in areas covered by the blacklist of medicines to be withdrawn from the NHS has been announced by the Health Department.

The Department is shortly to announce its blacklist of medicines that may no longer be prescribed by NHS doctors from April. A system will be set up to assess any new drugs as they become available.

QC for inquiry

Mr David Widdicombe, QC, was yesterday appointed chairman of the Government inquiry into procedures and practices in local government, which will look into what Conservative Ministers regard as abuses of local Government.

Defence appointment protest by unions

The appointment of Mr Peter Levene, former chairman of United Scientific Holdings, as £95,000-a-year Chief of Defence Procurement raises a "strong prima facie suspicion of patronage," the Council of Civil Service Unions has alleged in a letter to Sir Robert Armstrong, Head of the Home Civil Service.

The eight trade unions represented on the council felt "concern and disquiet" at the fact that the Government had found it necessary to import a man from private industry to fill such an important post. Mr Levene was previously a personal adviser to the Defence Secretary, Mr Heseltine.

Willis 'weak and pathetic'

Divisions within the TUC over the Government's offer to reimburse trade union ballot costs widened further yesterday with a scathing attack on the movement's leadership by Mr Gavin Laird, general secretary of the Engineering Union, which has claimed £1 million in ballot costs retrospective to 1981. He charged Mr Norman Willis, TUC general secretary, with levelling "weak and pathetic" arguments to try to persuade his union not to accept the money, and said opposition to ballot cash by the Transport Workers' Union and the General, Municipal and Boilermakers' Union "smacks of the lowest form of hypocrisy."

Court ruling sought on GLC lorry ban

The GLC decided to start a High Court action to try to stop Mr Ridley, Transport Secretary, blocking its plans to ban heavy lorries on most routes through the capital during the night and at weekends from June.

The council has ignored calls from the Road Haulage Association for a public inquiry, so Mr Ridley has exercised his powers to order the council to seek his permission before introducing the restrictions.

'Pay strike' poll

In the first secret ballot to be held in Scotland under the Government's trade union laws, the vast majority of the 1,330 engineering workers at the giant Highland Oil platform yard near Inverness have voted for strike action if their wage claim is not settled. The men have been offered rises of 7·8 per cent. this year and five per cent. next.

Homes slump

Fewer council houses will be built this year than at any time since 1919, according to projections published yesterday by the Institute of Housing. It says only 19,000 will be started in England in the coming year, compared with 25,000 in the current financial year.

PUBLIC NOTICES

Competition Act 1980
Competition References under Section 5
British Broadcasting Corporation
Independent Television Publications Limited

The Director General of Fair Trading has published a report under Section 3 of the Competition Act 1980 stating that in accordance with section 3(10) of the Act that a course of conduct pursued by the British Broadcasting Corporation ("BBC") and a course of conduct pursued by Independent Television Publications Limited ("ITP") each constituted an anti-competitive practice and that it was appropriate for him to make references under section 5 of the Act. The BBC and ITP have not offered any undertakings to the Director General which cover the respective courses of conduct described in the report. Therefore, in exercise of his powers under section 5 of the Act the Director General has made two references to the Monopolies and Mergers Commission in the following terms:

In relation to the BBC:

(a) the person whose activities are to be investigated by the Commission is the BBC;

(b) the goods to which the investigation is to extend are publications containing BBC programme schedules in whole or in part;

(c) the course of conduct to be investigated is the pursuit by the BBC of a policy and practice of limiting the publication by others of advance programme information, including BBC programme schedules, and of not granting licences which would allow others to publish such information for periods in excess of those specified by the BBC.

For the purpose of this reference "BBC programme schedule" means a guide as to the time and particulars of programmes to be broadcast by the BBC to all or any part of the UK during any specified period.

A report on this reference is to be made within a period of six months beginning 29 January 1985.

In relation to ITP:

(a) the person whose activities are to be investigated by the Commission is ITP;

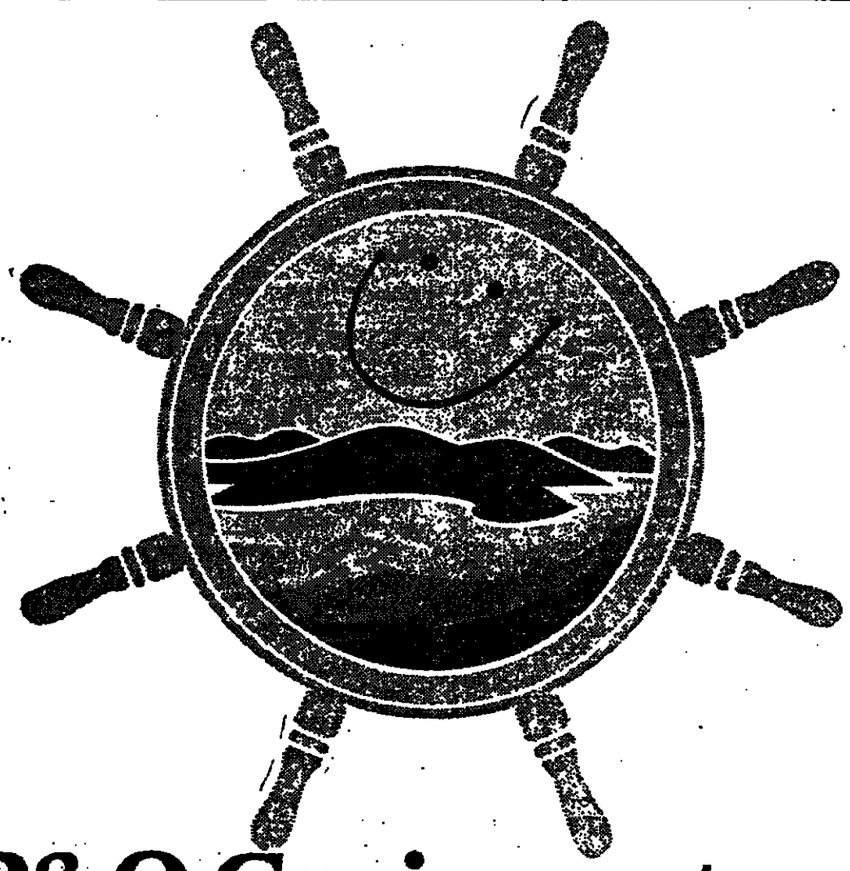
(b) the goods to which the investigation is to extend are publications containing IBA programme schedules in whole or in part;

(c) the course of conduct to be investigated is the pursuit by ITP of a policy and practice of limiting the publication by others of advance programme information including IBA programme schedules, and of not granting licences which would allow others to publish such information for periods in excess of those specified by ITP.

For the purpose of this reference "IBA programme schedule" means a guide as to the time and particulars of programmes to be broadcast by the Independent Broadcasting Authority to all or any part of the UK during any specified period.

A report on this reference is to be made within a period of six months beginning 29 January 1985.

If you have any information which would help the Commission in their enquiries please write as soon as possible to: The Secretary, Monopolies and Mergers Commission, New Court, 48 Carey Street, London WC2A 2JT.



P&O Cruises set sail for Jersey.

"We find that even with the cost of getting here it's cheaper to meet in Jersey than in London,"
so says Richard Esdale, General Marketing Manager, P&O Cruises.

They hold regular sales meetings at one of Jersey's well equipped 4-star hotels and find that apart from the good value Jersey offers there is a distinct benefit in their delegates being able to fly in from all over the UK and from the Continent.
Although some prefer to come by sea, of course.

VETS DESTROY 34 DOGS FROM HORROR HOUSE

THIRTY-FOUR dogs had to be destroyed yesterday after health officials broke into a verminous terraced house where the animals lived in filth with their 80-year-old recluse spinster owner.

Two other dogs were already dead, and only three now remain from the pack which roamed the house. Many had eye defects, and it is thought they had never been outside.

The house was without gas or electricity, and Miss Madeline Hart had been sleeping on the floor with the dogs on top of her to keep warm.

She spent all her pension feeding the pack, with nothing left to pay bills.

The animals, all poodles, had gnawed all the furniture, carpets and curtains in the house in Old Tovil Road, Maidstone, Kent.

Health officials, animal experts, social welfare officers and council workmen forced their way in after neighbours complained of the noise and smell.

Three van loads of dogs were taken away to private kennels, where 34 were later put down.

Leader of pack

One council official said: "The dogs have been roaming the house in a pack. The old lady was the leader of the pack."

Maidstone council obtained a court order to gain access under public health regulations. Several inches of water covered the ground floor from a burst pipe which had not been repaired.

Council officers first visited the house almost four years ago following complaints from neighbours, and Miss Hart was found to have 19 dogs.

A court order was served, restricting the number to eight, but the pack had inbred since. Health officials said the smell from the house in summer caused nausea at 40 yards.

Miss Hart, a former accountant who used to own a string of florist's shops, was said to be very distressed, and was treated by a doctor before being taken to an old people's home in Snodland and given a bath and her first proper meal in months.

Strangers to daylight

A council spokesman said: "She is a very stubborn woman. She used to be very well off, and is highly educated.

"We have an order to cleanse the property. It will probably be necessary to hose it down completely."

Huge amounts of excrement—one estimate put it at two tons—will have to be moved.

A neighbour, Mr Keith Smith, said: "I have never seen the dogs exercised. When they were brought out that was the first time in daylight for many of them."

Some of the 37 dogs which were "evicted" from a Maidstone house where they had eaten the furniture, carpets and curtains. Their elderly mistress, Miss Madeline Hart, had used her pension to buy them food.

TRIMBOLE IS SET FREE

IRELAND'S highest court, the Supreme Court, yesterday ordered the release from prison of ROBERT TRIMBOLE, who is wanted in Australia on murder and drugs charges.

After listening to legal submissions for 90 minutes, the five judges said they did not have the power to grant a stay of execution on a High Court order that Trimbole be released. They said the High Court was correct in ruling that Trimbole's arrest in Dublin last October under an anti-terror law was illegal.

Extradition order

The judges also said they did not have power to order Trimbole's re-arrest pending any further legal proceedings. He was awarded costs.

There still exists an order that Trimbole be extradited to Australia. But, following yesterday's ruling, he is entitled to his freedom pending hearing of an appeal against the extradition order.

Trimbole, 53, was driven to freedom from Mountjoy Prison, Dublin, within one-and-a-half hours of the verdict.

Armed detectives were on duty as Trimbole, crouching low in the back seat with his head covered with a blue anorak, was driven away at high speed by his solicitor, Mr Con O'Leary.

Car bomb 'wired to ignition'

By COLIN RANDALL

THE car bomb which seriously injured a farmer's wife, Mrs MARGARET BACKHOUSE, would have required a "high degree of technical knowledge and skill" to make and install, Dr ALEXANDER GRANT, a forensic scientist, said at Bristol Crown Court yesterday.

Dr Grant, of the Home Office laboratories, Chepstow, Gwent, described the device as being in effect "an electrically-fired, very short-barrelled shotgun, loaded with a considerable weight of lead shot."

It was wired to the fuse box and, with the car heater set at maximum, would have exploded when the ignition was switched on. About 4,500 shotgun pellets had been loaded into two pieces of metal piping, threaded together and measuring about 4in. in all.

The piping, which included a detonator containing explosives, probably from shotgun cartridges, was aimed upwards to discharge the shot through the driver's seat of the famoly Volvo.

Mrs. Backhouse's husband, Graham, 43, of Widden Hill Farm, Horton, near Chipping Sudbury, Avon is accused of attempting to murder his wife, causing her grievous bodily harm and murdering a neighbour, Mr Colyn Bedale-Taylor, 63, whom he is alleged to have chosen as his "scapegoat" for the explosion. Backhouse denies all charges.

Lead shot and debris weighing about 11 oz, most of it removed by surgeons from the lower body of Mrs Backhouse, 37, after the explosion last April, was shown to the jury. Dr Grant said an under-seat heater may have slowed down some of the pellets as they travelled upwards on detonation.

Dealing with a red-handled handyman's knife which the Crown alleges was used to make self-inflicted injuries to Backhouse's face and chest, to make the shooting of Mr Bedale-Taylor seem an act of self defence, Dr Grant said the initials "CBT" had been scratched crudely on to the knife, probably less than two weeks before the farmhouse shooting.

Mr Bedale-Taylor's widow, MARGARET, has told the court that her husband hardly ever put his initials on tools and that, when he did, he would stamp or diecast them.

The trial was adjourned until today.

Quayside killer used boy's baseball bat

A BOY of 13, murdered with his parents in a flat above their harbourside club, was bludgeoned from behind with his own baseball bat as he tried to escape, medical tests indicated yesterday.

Det. Supt. John McConnell, deputy head of Sussex CID, said: "He was savagely beaten from behind, and he was obviously trying to escape through patio doors in the lounge.

"He was wearing pyjama trousers, and it is likely that he was desperately trying to escape after seeing his mother and father murdered. They were also killed by the baseball bat, which belonged to the boy."

Tests have shown that Mr George Teed, the club licensee, 48, his wife, Hilda, 38 and their son, David, were killed between 3 a.m. and 8 a.m. on Monday at their flat above the Lighthouse Club in Shoreham, Sussex.

Borrowed car

The bodies were found by Mr Teed's elder son, Paul, 23, and his wife Helen, 20, returning from a visit to relatives in Bradford. They live in another flat over the club.

Mr Paul Teed, who helped his father run the club, has told detectives he last saw him at 2.30 a.m. on Monday when he borrowed his father's Range Rover and drove north to collect his wife and three-year-old daughter.

Video pirates 'nearly broke film industry'

VIDEO pirates came close to breaking the British cinema industry two years ago, Judge CHRISTOPHER HILLIARD said at the Old Bailey yesterday.

Sentencing four people for video piracy, he said that in 1983 almost every major film on show in Britain was illegally copied and the pirates made £100 million a year.

They caused closures, redundancies and losses of £70 million.

But the police smashed two major syndicates and "the flood has been staunched and hopefully the industry saved."

'Unthinking people'

The judge added: "Unthinking people might consider such piracy only affects large, rich film companies well able to take care of themselves by sueing for breach of copyright.

"But the evidence in this case has shown that up and down the country lots of ordinary men and women in ordinary jobs were made redundant, cinemas closed and wages reduced and there was a knock-on effect in associated industries."

Backed by organised crime, pirates had "reaped a rich, dishonest harvest."

He described the four men he was sentencing as major suppliers to one of the two syndicates.

Police raided a shop in Plumstead and found a copy of "The Missionary" stolen from the Odeon in Barking by SYDNEY LLOYD, the cinema's chief projectionist.

The mastermind of the operation, said Mr JOHN LLOYD-ELEY, Q.C, prosecuting, was the shop's owner, GULAM MUSTAFA, who until the raid in March 1983 had used the shop extensively for video piracy.

He had installed nearly £200,000 worth of copying equipment and police estimated his turnover as £1 million a year.

Feature films

Mustafa, 38, of Bannockburn Road, Plumstead, admitted conspiracy to steal feature films and was jailed for 21 months with nine months suspended. He has already served a 12-month sentence for VAT offences and now faces Customs and Excise claims for £84,000 unpaid VAT.

Lloyd, 57, unemployed, of Oxlow Lane, Dagenham, Essex, was found guilty of conspiracy to steal and jailed for 15 months with six months suspended.

Also before the court were Mustafa's two shop assistants, RANJEET BHUE, 29, of Milward Walk, Woolwich, who was jailed for 12 months with four suspended, and MOHAMMED ALI, 30, of Plumstead, who was given a six-month suspended sentence. Both had been found guilty of conspiracy to steal.

It is the first time conspiracy charges have been used against video pirates in Britain.

STUDENT WINS DAMAGES OVER SEX SLUR

Jeremy Pitts, 26, an architectural student, won £11,000 libel damages in the High Court yesterday over a sex slur in MISTER, a homosexual magazine, which published an article about the sexy adventures of "Jeremy Spits" in December 1982.

Although his name had been changed, his picture was next to the article which referred to him seeking solace "in the arms of a professional cabaret performer." Mr Pitts, of Gainsborough Road, Chiswick, said it made him out to be a practising homosexual.

The publishers, Millivres Ltd., and Christopher Graham, and Ian Baker, the editor, all of Camden High Street, admitted the article was defamatory. Mr Pitts said that he was definitely not a homosexual and liked girls.

RAF PILOT DIES IN AUSTRALIA

Flight-Lieutenant Charles Chubb, 38, an RAF helicopter pilot from Dorset, died yesterday from his injuries after a Royal Australian Air Force Chinook he was flying crashed into Perseverance Dam, near Crows Nest, Queensland, on Monday. Three others on board were slightly injured.

Mr Chubb, married with four children, had been in Australia with his family on 18 months exchange duty. He died in the Royal Brisbane Hospital from extensive brain damage and respiratory problems.—A.P.

VILLAGE EVACUATED

A village was evacuated yesterday after four cartons of nitroglycerine were found in a garden shed. An Army bomb disposal team safely dealt with the explosive found near the village green in Hipswell, North Yorkshire.

RAPE CASE MAN 'TAUNTED BY VICTIM'

A rapist accused of murdering his victim in another attack two years later told Leeds Crown Court that she had stripped and taunted him. James Pollard said Zoe Wade, 42, had lain naked on the top of her bed and asked: "What are you goin gto do?"

Pollard, 26, of Hillcrest Drive, Bradford, said: "I took my trousers off and sat next to her. She had gone upstairs of her own free will, and I told her to get dressed."

He said that later he put his hands around her throat for "a couple of seconds" to stop her screaming because he was scared about jeopardising his parole. He had been released 14 months earlier from prison after serving part of a 4½-year sentence for raping Miss Wade.

When he left her home in Bradford he thought she was still alive. He denies raping and strangling her last June. The case was adjourned until today.

£150,000 AWARD FOR MAN HURT IN POOL DIVE

A man who broke his neck and was paralysed after he dived into a shallow swimming pool in India was awarded £150,000 agreed damages in the High Court yesterday.

In 1976 Mr Graham Raphael, 37, of Ealing Village, Hanger Lane, Ealing, dived into a kidney-shaped swimming pool at the Holiday Inn in Bombay where it was marked five foot but the water was only three feet deep.

Mr Raphael, who can now walk again, had sued Holiday Inns Incorporated, of Memphis, Tennessee, and Eastern International Hotels Ltd., of Bombay, who both denied liability.

BRITISH YOUTH DIES IN CRASH

By Our Madrid Correspondent

A London-born youth died in hospital yesterday after his motorcycle hit a wall in the Spanish resort of Marbella. Paul Evans 17, had lived on the Costa del Sol since childhood. His father, Mr Frank Evans, runs Frank's Corner bar known to thousands of tourists and local British residents.

FISHERMEN DROWN

Two Jersey fishermen were drowned when a 40ft crabber, Tracy's Dawn, hit rocks and sank off Cherbourg yesterday. They were named as Keith Crocker, 36, and Raymond Ward, 31.

The Cathedral alone took 43,435 days to complete. And most of those were in the 12th century.

Peterborough has been important since Roman times, giving it the kind of charm that only comes with 2,000 years of natural growth.

Today it's continuing to develop at a human pace, whilst keeping up with modern needs. The brand new shopping centre, Queensgate, is widely considered to be England's finest.

LIKE ROME, PETERBOROVGH WASN'T BVILT IN A DAY.

New facilities include England's biggest ice-rink, a tennis centre with hotel and a 1,000 metre rowing course.

Find out how your business can enjoy the next 2,000 years in Peterborough.

NEW higher interest rates and passbook flexibility

9·25%=9·46%=13·51%

Net rate — Net effective annual rate when half-yearly interest remains invested — Gross equivalent annual rate to basic rate tax payers

If you're investing, then you'll want top interest. And you'll either want to take that interest as monthly income, or leave it in your account to make your money grow. And that's exactly what Nationwide offers you.

Top rate 9·25%

The Nationwide Bonus-90 rate has just gone up:* it's now 9.25%, which is 1.75% extra above the variable Share Account rate.

Real growth 9·46%=13·51%

Nationwide adds the interest to your account every six months and it then earns interest itself at the Bonus-90 rate. So you get 9.46%, which is worth 13.51% to basic rate income tax payers.

Monthly income

Alternatively, if it's monthly income you want, then Nationwide is happy to pay your interest direct into your bank account, or into a Nationwide Share Account where it earns interest until you withdraw it. You need to invest at least £2,000 if you want monthly income.

Passbook flexibility

Nationwide Bonus-90 gives you passbook flexibility: you can withdraw your money as you wish and you can add to your investment at anytime. The minimum investment is £200.

No-notice withdrawals

There are no-notice withdrawals, with a loss of 90 days' interest on the sum withdrawn. Or you can give 90 days' notice and lose nothing.

The big investor

In addition, you can withdraw from balances above £10,000 without notice or penalty provided £10,000 remains invested.

Come to Nationwide: call in at any branch or agency, or use the coupon. And get what really matters - big interest for monthly income or real growth.

*All rates quoted including the extra interest are variable.

To Nationwide Building Society, Postal Investment Department, FREEPOST, London WC1V 6XA.

I/We enclose a cheque for £_____ to open a Bonus-90 Account (£200 to £30,000 or up to £60,000 in a joint account).

☐ Interest to be paid monthly

MX TESTS ON DESPITE HAWKE BASE SETBACK

By RICHARD BEESTON in Washington

WASHINGTON, in a move to defuse a new dispute with its Anzus ally Australia, announced yesterday that it would go ahead with its MX missile tests in the South Pacific without support from Canberra.

The decision was made after Mr Bob Hawke, the visiting Australian Prime Minister who was under strong political pressure at home, had already declared his intention of withdrawing Australia's offer of airfield and other facilities to monitor the missile tests.

The mutual agreement followed a meeting in Washington yesterday between Mr Hawke and Mr Shultz, ecretary of State.

The United States is already in dispute with New Zealand, the other Anzus partner, over Wellington's refusal to allow American warships to use New Zealand ports, but a Washington official said yesterday that the problem with Australia had "not become an issue."

The official spoke of "a variety of ways" in which the tests could be monitored when the huge intercontinental MX missile is fired from California into the Tasman Sea.

During yesterday's talks, a spokesman said, America "brought out a variety of ways" to monitor the MX tests which need not include the provision of Australian support.

The tests would be conducted later this year or in 1986, and the target area would be in international waters or the Tasman Sea.

Mr Hawke said the announcement would not affect co-operation between Washington and Canberra under the 34-year-old Anzus treaty, embracing Australia, New Zealand and the United States.

"It would be a great mistake for anyone to conclude that the decision of the United States has any impact on the Anzus relationship," he said. "It has none."

A senior Reagan Administration official, after speaking of the President's "high regard" for Mr Hawke, said Washington had been aware of the controversy in Australia over providing airport facilities to monitor the missile tests, and was now "looking into the availability of alternatives."

New Zealand, on the other hand, could no longer expect to benefit from being treated by Washington as "a loyal and faithful ally," but declared: "We are not out to punish New Zealand."

Officials insist that the MX missile tests involve America's global responsibilities, but that barring American ships from New Zealand ports was at the "very core" of the treaty alliance.

Key to defence

"Ship visits are something that are absolutely esential to meeting our responsibilities in that region," one official said. There was "no ally, until New Zealand, who denied access to our ships."

In the Anzus region, naval forces were the key to defence.

An ally, he declared, could not tell American ships, 12,000 miles from home, that "it was fine to come and exercise, but after that's over your ships can't come in.

American policy was "to preserve our Anzus relations with Australia," to try to limit the damage to the alliance, and to restore co-operation with New Zealand as soon as possible.

The United States, however, was not going to alter its worldwide policy of neither confirming nor denying that American ships were carrying nuclear weapons for the sake of New Zealand.

Anzus pact is close to collapse

By DENIS WARNER in Melbourne

THE future of the Anzus alliance was hanging in the balance yesterday on the eve of Washington talks between Mr Bob Hawke, Australia's Prime Minister and President Reagan.

For although Australia and New Zealand will soon begin exercise Sea Eagle the Americans will be absent. And some officials believe the United States might not participate in any future Anzus exercises.

As the Left-wing of Australia's Labour party and anti-nuclear groups celebrated Canberra's decision to withdraw support for American MX missile tests off Tasmania many other Australians feared the prospect of the possible collapse of the treaty, which, since 1951, has brought the two nations plus New Zealand into a loose but important alliance.

Although ministers in Canberra believe Washington does not want to raise the MX issue to the level of anger it feels with New Zealand, which has banned American nuclear ships, and Mr Hawke was expected to suggest that Australia was not breaching the Anzus treaty, others are much less sanguine.

United attack

The principal Australian newspapers yesterday presented a united front in criticising the backdown.

The MELBOURNE AGE, a traditional Labour supporter, said the Government could not unilaterally reverse decision to help America monitor the tests without imperilling Australia's credibility as an ally.

The paper's banner headline read: "A defenceless Australia would never forgive Mr Hawke and the A L P."

The MELBOURNE HERALD, which supported Mr Hawke at the last election, said: "There was always the suspicion that Bob Hawke at times confused charisma with leadership.

"The suspicion may have been unfair but we are going to find out in the next few days."

TREATY'S IMPORTANCE

Intelligence shared

OUR DEFENCE CORRESPONDENT writes: The Anzus treaty, which was signed on Sept. 1, 1951 in San Francisco, is vitally important to the shared security and strategic interests of the three partners and greatly enhances the stability of the region.

In particular, the resulting interchange of intelligence information between Washington, Canberra and Wellington is an essential ingredient in the formation of the member governments' foreign and defence policies.

Australia and New Zealand appreciate that there are great advantages to be had in working with America's larger force capabilities.

Hence the value of major Anzus programmes, such as Exercise Kangaroo held in 1983 off Australia, in which the naval, land and sea forces of all three nations participated.

In today's constrained defence budgets it is difficult for any one nation to maintain the full spectrum of necessary defence capability in the three modes—sea, land and in the air. Sharing is a way of overcoming this weakness.

The treaty is for no fixed duration of years but any termination would severely affect the security of South-East Asia and the South-West Pacific in general, and the standards of capability of both the Auscapability of both the Auslians and New Zealand.

Mr Shultz, United States Secretary of State, in conversation with Mr Hawke, Australian Prime Minister, his guest for dinner at the State Department in Washington.

Reagan disowns jibe at Pentagon pensions

By DAVID SHEARS in Washington

PRESIDENT REAGAN did not agree with the White House official who claimed that American military chiefs were more concerned with protecting their pensions that defending the nation, the White House said yesterday.

The heresy was uttered at a Congress hearing by Mr David Stockman, the White House budget director, who called the Pentagon's devotion to pensions a "scandal" and an "outrage."

Mr Stockman's outburst reflected his frustration with the Defence Department's refusal to consider changing the pension system, which next year is due to cost taxpayers $17·8 billion (£16 billion) and more than twice as much by the year 2000.

A personal opinion

Acknowledging that "I'll probably be in hot water" for speaking out so candidly, the young budget director said he was voicing a personal opinion. But he did not mince his words.

In a reference to the Pentagon's senior officers, he complained: "The institutional voices in the military are more concerned about protecting their retirement benefits than they are about protecting the security of the American people. When push comes to shove, they'll give up on security before they give up on retirement."

Asked if Mr Stockman would keep his job, Mr Larry Speakes, White House spokesman, declined to comment, hastily adding that his silence should not be interpreted one way or the other.

He tried to play down the affair, saying that Mr Stockman had been expressing a personal opinion not shared by the President.

Second income

According to a Pentagon spokesman a lieutenant-colonel retiring after 20 years draws $1,706 (£1,530) monthly. He is able to start a new career in his early 40s and enjoy a second income.

Recent Congressional Budget Office figures show that an average Lieutenant-colonel retiring after 20 years' service could expect to receive $576,000 (£517,000) in pension benefits in his lifetime.

A Pentagon commission last year urged substantial cuts in retirement pay for future military personnel who leave after two decades of service. But senior military leaders resisted the plan, and Mr Caspar Weinberger, Defence Secretary, has not recommended any change in the system.

Mr Weinberger himself refused direct comment on Mr Stockman's words, saying only that he was unaware of any "scandal" in military pensions.

Mr Stockman, a former Republican Congressman, drew fire early in Mr Reagan's first term by openly criticising "Reaganomics."

After the siege a £200m pointer to Gibraltar revival

By CON COUGHLIN in Gibraltar

A MULTI-MILLION pound investment programme is being launched in Gibraltar to revitalise the Rock into one of the foremost centres of tourism, offshore banking and ship repair in the Mediterranean.

Gibraltar is primed for massive redevelopment.

This follows the setbacks of the "siege" years, which have seen the erosion of Gibraltar's tourist industry and the closure of the Royal Navy dockyards.

As a direct consequence of the border with Spain being fully reopened investment packages worth a total of £200 million for new hotels, yachting marinas and flats are to be put into operation.

And the Navy dockyard, which closed at the end of last year and is halfway through a £28,000,000 conversion for the private sector, is already proving a remarkable success following its commercialisation. In its first month of operation it handled 20 ships, twice as many as expected.

Good news for Britain

All this is good news for the British Government, which is subsidising Gibraltar to the tune of £41,000,000 in development aid and is now anxious for the colony to become quickly self-sufficient.

And a Gibraltar capable of standing on its own feet will be heartening for Nato, which is determined to maintain its hold on this key Mediterranean fortress.

Meanwhile the Gibraltar Government is pressing ahead with plans to develop the Rock's attractiveness to tourists, bankers and shipping operators. bly recently passed a comprehensive body of legislation enhancing the Rock's advantages as an offshore banking centre.

Gibraltar's House of Assem-

Five big international banking organisations have set up shop in Gibraltar in the last five years, and about nine more are expected to do so soon.

REPORT BY HOWE

No Falkland parallel

TWO things were insisted on by Sir Geoffrey Howe, Foreign Secretary, when he reported to the Commons yesterday on talks in Geneva on Tuesday with Senor Fernando Moran, Spanish Foreign Minister:

Spanish emphasis

That Britain's "commitment to honour the freely and democratically expressed wishes of the Gibraltarian people" stood unchanged.

That there was no parallel between the agreement with Spain and Britain's relations with Argentina concerning Falkland sovereignty.

Sir Geoffrey said that Senor Moran had also "underlined the importance he attaches to the interests and feelings of the Gibraltar people."

Senor Moran had raised the sovereignty issue and they had agreed to hold annual meetings on matters of mutual interest. Senor Moran had said he would make some formal proposals later.

The Foreign Secretary paid tribute to Gibraltar's Chief Minister, Sir Joshua Hassan, who watched from the public gallery, and said: "This result is good for Britain, good for Spain and, above all, good for the people of Gibraltar."

WARSAW ATTACKED TRIAL BIAS

By ROBIN GEDYE in Warsaw

POLAND'S Roman Catholic bishops protested officially yesterday over ing the capitalists" and coverage of the trial of four secret policemen in Warsaw accused of murdering a pro-Solidarity priest.

A letter sent to the State-owned radio and television network, to the official PAP News agency, and to the Interior Ministry's office for religious affairs accused the media of attempts to manipulate public opinion.

The biased coverage, including attacks on the Church and the lack of space granted to submissions by lawyers representing the family of the murdered priest, "cannot help but cause concern about prospects for national reconciliation."

The letter said there was "an irresistible conclusion to be drawn that someone is especially interested in disturbing relations between Church and State.

Murder 'in background'

"Tendentious prominence is being given to statements by the accused, some witnesses and the prosecutor's submission in which the Church and its representatives are attacked.

"Examples of manipulation include the omission by the official PAP news agency of speeches by the Roman Catholic auxiliary prosecutors defending the murdered priest and the Polish Church."

Their method of coverage turned the murder into "an item of secondary importance relegating it to the background of the trial."

The protest follows a series of verbal attacks on the Church by the Chief State Prosecutor and Capt. Irzegors Piotrowski, the self-confessed ringleader of the three policemen accused of murder.

Anti-West diatribe

Both men had sought to explain the motives behind the murder by attacking elements within the powerful Roman Catholic Church for their extremism.

The chief prosecutor, during his summing up on Tuesday, delivered a political diatribe in which he attacked Western radio stations, West German "revanchism," and the West as a whole for encouraging conflicts in Poland.

The speech, shown in full during a 45-minute television programme, was seen as the strongest sign yet that the trial, which ends today, had become an excuse to attack the Church and the murdered priest.

Mitterrand blamed for Communists' decline

By MICHAEL FIELD in Paris

M. GEORGES MARCHAIS, the French Communist leader, yesterday accused President Mitterrand of conducting "social democratic policies benefitting the capitalists" and blamed him for the Communists' "severe election setbacks."

In a five-hour speech opening the Communists' 25th Congress at St Ouen, north of Paris, M. Marchais absolved his own party, whose four ministers left the government last July, of all responsibility for the "deterioration" of France. They had not been running things, he said.

He painted a disastrous picture of the results achieved by the austerity policy of the Socialist government, first under M. Pierre Mauroy and now under M. Laurent Fabius.

"It is not we who have switched policy into one-way austerity and who are plunging the country into crisis. It is Francois Mitterrand and the Socialist leaders," M. Marchais declared.

In a run-down of relations between the Communist and socialist parties since 1965, he set out how, from the beginning, the Socialists and M. Mitterrand, had used the "common programme" to their advantage and bring the Communists into decline.

M. Marchais called for "the real democratisation" of French institutions, notably by removing the President's right to stand again for re-election after completing his term. The mandate should still be for seven years, however.

ThePrime Minister should be given more power as should the National Assembly but the Constitutional Council, a body of sages who have supreme authority on laws, should be abolished.

He said the Prime Minister, not the President, should preside at Sabinet meetings and, though appointed by the President, should choose his own Government and be responsible before the Assembly for its policies.

Parliament should be elected by proportional representation. This change which would isolate the Communists but at least guarantee their survival, observers said.

TEHERAN BOMB ATTACK KILLS 2

By A Special Correspondent in Athens

Two people died and two more were injured when terrorists on a motorcycle threw two hand-made bombs at the State building in northern Teheran yesterday, the fourth such incident reported from Iran within a week.

A policeman on duty shot dead one of the attackers. Another person was killed when one of the bombs exploded, while two workers inside the building were injured.

JACKPOTS 'RIGGED'

A gang employed fast-working mechanics using wires, magnets and keys to rig gambling machines and won more than £3 million in illegal jackpots in Nevada and New Jersey, the prosecution claimed yesterday at the trial of the eight accused thieves.—UPI.

HITCH-HIKER HUNT

South African police were hunting for a hitch-hiker yesterday, after the bullet-ridden body of a French Roman Catholic priest, Fr George Bodinier, 43, was found in a culvert outside Johannesburg.—AP.

STATE VISITOR

President Sandro Pertini of Italy will make a state visit to Egypt beginning on Saturday week, it was announced in Rome yesterday.—UPI.

Battle to save missile from Congress critics

By DAVID SHEARS in Washington

THE Pentagon is trying to convince a sceptical Congress that its new MX strategic missile is proving highly accurate and likely to be less vulnerable in its underground lair than critics allege.

With the controversial missile's fate due to be voted on next month, Mr Caspar Weinberger, Defence Secretary, told the House Armed Services Committee that recent tests had shown the MX to possess "extremely good accuracy."

The 10-warhead missile, dubbed "Peacekeeper" by President Reagan, is claimed to be able to strike within a few hundred feet of a target at 6,000 miles range. It is thus seen by the Air Force as an effective weapon against Soviet missile sites.

But Congressional critics say the plan to deploy 100 MX's in existing silos built for Minuteman rockets would expose it in its turn to a Russian first-strike attack.

One Congressman reminded Mr Weinberger that he himself had said in early 1981 that using Minuteman sites was "not the answer."

Mr Weinberger conceded that this had once been his belief. But he added: "I misjudged the ingenuity of American science. We do have methods of hardening those silos vastly beyond what we could at that time."

The Defence Secretary may be exaggerating since a Pentagon official said that such forcing the sites would not be advanced techniques for reinavailable until 1990 three years after the first missiles are due for deployment.

President Reagan is seeking funds to build 48 MX missiles in the 1986 financial year. Congress approved funding 21 in the 1984 budget and another 21 last year subject to further votes this Spring.

Mr Reagan argues that abandoning the missile would weaken America's hand at the arms control talks which resume with Russia in Geneva on March 12. But Congress has heard this argument before and some members are unimpressed.

With the Pentagon requesting an additional £27 billion this year these critics say the MX programme could be cut and the Air Force told to concentrate on producing mobile, single-warhead "Midgetman" missiles that would be less vulnerable to attack.

Much could depend upon the line taken by Rep. Les Aspin, the new Democratic chairman of the armed services committee. He saved MX from total defeat last year by producing a compromise solution.

'Slave labour'

On another topic, Mr Weinberger said the Warsaw Pact's ability to produce more weapons for less money could be due to the use of "slave labour." Manpower costs were nine or 10 per cent. of the Soviet defence budget against 42 per cent. in America.

Rep. Aspin said this explanation was far-fetched. He noted American wage rates were used in calculating comparative weapons spending. He suggested perhaps Nato spent money less efficiently or produced higher quality weapons.

LANGE LASHES OUT AT WEINBERGER

By Our Auckland Correspondendent

Mr Lange, New Zealand's Labour Prime Minister, has reacted sharply to the comment by Mr Weinberger, American Defence Secretary, that in banning a visit by the nuclear-capable American destroyer Buchanan New Zealanders are "following a course that can only be of great harm to themselves."

Any attempt by the United States to force his Government to accept nuclear-capable ships would only strengthen New Zealanders opposed to nuclear weapons, Mr Lange said. He interpreted Mr Weinberger's comments as a "straightforward threat."

New Zealand meanwhile has decided not to replace her navy of frigates with submarines in the next 10 years. Some Navy experts have said submarines would be more effective. "We're not buying submarines in conjunction with the Australians, the Americans, or anyone," Mr Lange said.

NICARAGUA SEEKS HOWE's HELP

By Our Diplomatic Correspondent

Dr Sergio Ramirez, a leading member of the Nicaraguan government, had talks with Sir Geoffrey Howe, Foreign Secretary, yesterday to urge Britain to use its influence with Washington in the search for a settlement in the Central American region.

Sir Geoffrey stressed Britain's support for the Contadora peace process initiated by a number of Latin American states.

POLICE TRIBUTE TO ACCUSED GENERAL

By Our Staff Correspondent in Manila

The Philippine Armed Forces Chief of Staff, Gen. Fabian Ver, 64, who goes on trial today on charges of involvement in a "cover-up" of the assassination of the Opposition leader Benigno Aquino, has received a "most distinguished alumnus" award from a local police association.

Accepting this from the Southern Police Institute Alumni Association of the Philippines only hours before the trial began, the general thanked a gathering of police who, he said, had "kept faith" in him. The award claimed he had contributed greatly "to the stability, security, development, public safety and social defence" of the Philippines.

Gen. Ver denies any involvement with the shooting of Mr Aquino seconds after he stepped from a plane at Manila's international airport in August, 1983. Like Gen. Ver 25 other accused have all pleaded not guilty to involvement in the assassination and the killing of a man identified as Rolando Galman and initially said by the military to be the assassin.

£100m DRUG HAUL IN NEW DELHI

Police in New Delhi have seized heroin and hashish with a street value of £100 million in India's biggest illegal drugs haul, according to the Press Trust of India.

Two men were arrested when 12lb of heroin and 320lb of fashish were found in a car that was stopped on the outskirts of the capital on Tuesday night. The men said they received the drugs from a courier near the Pakistan border.—Reuter.

Cocaine paste seized

Bolivian security forces have seized nearly 175lb of cocaine paste and arrested more than 100 people during raids in Cochabamba province since Sunday. The paste is an intermediate step inu the refinement of coca leaves into pure cocaine. —Reuter.

FOUR ACCUSE PREMIER OF DRUG SESSION

By Our Toronto Correspondent

Mr Richard Hayfield, 55, the Conservative Premier of New Brunswick, who was acquitted last week of having marijuana while boarding the Queen's plane, was reported yesterday to have invited four young under-graduates for an all-night drug-taking session.

Two of the four students said the group met the premier in 1981 late one night at a restaurant in a Fredericton Motel. The premier said he did not have a car and asked one student to drive him home.

The students said the premier, once home, served several drinks and then brought out some marijuana. Later that night, Mr Hatfield produced cocaine which he and three of the students used.

PARTY PROBLEM IN PORTUGAL

By Our Lisbon Correspondent

Portugal's Deputy Prime Minister and Defence Minister, Prof. Carlos Mota Pinto, who has resigned as leader of the Social Democratic minority partner in the country's two-party coalition has been invited by the Socialist Prime Minister, Dr Soares, to stay in the Cabinet until his party's problems are clarified.

Prof. Mota Pinto resigned because of "constant internal guerrilla war" against his party leadership. He is expected to be the only serious contender for the leadership at an emergency party congress to be called next month.

JEWISH ACTIVIST IN LABOUR CAMP

By NIGEL WADE in Moscow

A Jewish activist who had been campaigning for the right to emigate had been sent to a Russian labour camp for three years, friends said yesterday.

Mr Mark Nepomneshi was convicted in Odessa on Tuesday of defaming the state in open letters to American Jewish groups, appealing for their support. He was arrested last October.

Pope urges radicals to 'help poor'

By TONY ALLEN-MILLS in Lima, Peru

THE POPE was back in Rome yesterday after a successful Latin-American pilgrimage that shed new light on the Vatican battle against radical priests who adopt Left-wing ideas.

In contrasting speeches in Caracas, Quito and Lima, the Papal message to the Church on the thorny subject of "liberation" theology was clear —Go and help the poor, but do it for God, not Karl Marx.

"Today there is no lack of those who, abusing the mission they have been given by the Church, spread not the word of Christ, but their own theories," he said in Caracas.

Exploitation attacked

"Nor is there a lack of those who disfigure the evangelical message, putting it at the service of ideologies and political strategies."

Time and again, in meetings with slum-dwellers, peasants, Indians and other disadvantaged groups, the Pope stressed the Church's commitment to fighting for the underprivileged.

In Venezuela he denounced the exploitation of workers. In the Ecuadorean Andes he sympathised with long-suffering Indians.

In the slums of Lima on the last day of his visit he urged the authorities "to redouble their efforts in favour of a more just order that does away with imbalance . . . in the distribution of wealth."

'Integral' doctrine

But the important question which followed these passionate pleas for social justice was how the Pope would distinguish between priests who fought for the poor because it was their Christian duty, and priests whose fight was based on a Marxist vision of a classless society.

The phrase he chose was "integral liberation," a doctrine urging priests not just to seek an improvement in the physical condition of their flock but in their spiritual condition as well.

"Freedom must be internal and external," he told priests and nuns in Caracas. "The poor need both bread and conversion . . . material help and liberation from sin."

MAOIST ATTACKS

Police die in Peru

A group of 40 Maoist guerrillas blew up a remote police post at Gogor, 125 miles from Lima in the foothills of the Andes, on Monday, killing three police officers.

The attack was one of several carried out during the Papal visit to Peru. Members of the Shining Path movement blew up four electricity pylons which blacked out Lima and knocked out airport runway lights six minutes after the Pontiff's plane had landed.—A P.

'Unrest' at Vatican

OUR ROME CORRESPONDENT reports: A "state of permanent Labour unrest" was declared by the Vatican's industrial union yesterday in another effort to persuade the administration to apply the reforms approved in October, 1984. The package included pay rises to offset higher living costs, better overtime pay, and promotions on merit.

Science Graduates

At Wiggins Teape, R&D is vital. That's why we want your skills.

Wiggins Teape is internationally acknowledged as a world leader in manufacturing a wide range of speciality papers. Here at Butler's Court, Beaconsfield, our Research and Development Centre is committed to keeping the company at the forefront of the 'quality paper' industry.

That's why our offer to newly qualified or experienced graduates is such an exciting opportunity. Because, if you have a good degree in one of the sciences, preferably Chemistry or Physics, you could be starting work immediately on a variety of challenging projects – anything from investigative work on novel additives to assessing the printing performance of finished products.

You will be involved in pilot trials and liaising with production units or suppliers, so your social skills will also need to be well developed.

Salaries are competitive and will reflect qualifications and experience.

Our comprehensive range of benefits include flexitime, non-contributory pension, generous luncheon vouchers and relocation assistance where appropriate. Opportunities for further career development within the Wiggins Teape Group are excellent.

For an application form, please write to David Price, Senior Personnel Officer, Wiggins Teape Research and Development Limited, Butler's Court, Beaconsfield, Bucks. Tel: Beaconsfield (04946) 5652.

WIGGINS TEAPE

Contracts Manager

Lead the success of our dynamic high technology expansion

Solartron, a major part of the international Schlumberger organisation, is a progressive and rapidly expanding company in the high technology sector. Our successful products include precision digital voltmeters, frequency response analyser systems, laboratory and large-scale data logging equipment.

Our impressive rate of growth has now created a need for a well-qualified Contracts Manager who will be expected to make an immediate contribution to the continuing success of our business. This is a responsible management position in which you will be supervising all contractual transactions between the company and our customers, clarifying existing agreements and continually developing the professionalism of the contracts function.

We are therefore seeking a contracts professional with a thorough understanding of electronic high technology products and EEA/NA/CEGB contractual terms and conditions. A knowledge of MOD procedures would be an additional advantage, but not as important as the commercial drive, initiative and communication skills to formulate agreements at senior level.

Probably aged in your late 20s/early 30s and qualified to degree or equivalent level, your background in the electronics industry should indicate a clear potential to assume responsibility in a fast-moving environment where achievement will be recognised and fully rewarded.

We are offering a salary that will undoubtedly attract an individual with the qualities we seek. Excellent prospects of further career progression are possible, both in the UK and internationally.

If you match our demanding requirements, please telephone Alan Smith on (0252) 544433 or write to him at: Solartron Instruments, Victoria Road, Farnborough, Hants GU14 7PW.

Schlumberger — Solartron Instruments

District Credit Manager

Central London and

Credit Controllers

Birmingham * Basingstoke * Welwyn

Effective credit management and control is vital to the success of any business. As the world's second largest computer company, we lay great importance on the calibre of our Credit Management team and, with a current growth rate within the UK of over 40%, we are looking to strengthen the credit control function with the following appointments:

District Credit Manager

Aged 30-40 years, you will have the professional experience and personal attributes that thrive within a fast-moving, rapidly changing high technology environment. You should demonstrate the ability to liaise closely with the sales function, the affinity with customer needs to anticipate and resolve problems and be able to bring creative thinking to credit assessment. Excellent negotiation skills and the ability to lead and motivate a team are essential, as is the ability to understand and interpret financial information.

Credit Controllers

We are looking for 3 experienced people, based in the locations stated, to be responsible for the prompt collection of all due and overdue district ledger accounts. 2/3 years' relevant credit/financial experience, cash collection and sales/bought ledger operation is required.

All positions carry attractive salaries and benefits, with company car and assistance with relocation for the District Credit Manager.

In the first instance, please forward a comprehensive C.V. to our consultant, B. Kelly at Moxon Dolphin & Kerby Limited, 178-202 Great Portland Street, London W1N 5TB, quoting reference BK/4226/DT.

Engineering Manager

c. £15,000 + Car
Cambridge

Torvac Ltd. is a leading U.K. manufacturer of electron beam welding equipment and high vacuum furnaces for world-wide markets. It also has associated companies throughout the U.K. providing sub-contract vacuum processing and welding services.

Sustained profitable growth both in the U.K. and overseas, combined with exciting plans for advanced product development has created this position. Responsibility is to the General Manager to manage the established engineering facility which is made up of graduate level mechanical and electrical/electronic engineers, and to develop this function further to meet our expanding requirements.

Leadership and confidence are personal prerequisites for this role in a progressive, medium sized, informal company. Graduate technological qualifications (preferably electrical/electronic) are essential with considerable project management and industrial design experience.

Preferred age range is 30 to 40.

The attractive employment package includes excellent career prospects and assistance with relocation if appropriate.

Please apply in writing or telephone Dr. Bob Wright, to discuss your application.

A challenging and rewarding career in

Food Production

Salary c.£10,000

A chance to work for a market leader in the fresh food processing, packaging and distribution industry where the promotional opportunities, based on merit, are excellent.

We are looking for several energetic individuals who are good with people, quick to identify problems and to implement workable solutions. A robust personality and the ability to lead a team and achieve results through others are essential qualities. Successful candidates will be aged 23-30, with some previous management/supervisory experience. They will probably be educated to degree or equivalent level in food technology/business studies or other related subjects.

What do we offer? Good career progression and rewards from a national company committed to the development of its staff.

Applications with a current cv to: J. B. Norman & Associates, The Manor, Longborough, Moreton-in-Marsh, Gloucestershire GL56 0QR.

Final interviews will be held on 7th and 8th March 1985.

J. B. Norman & Associates

Electrical Field Service Engineers

Overseas

Attractive Benefits

ISCOSA, part of the Westinghouse Group, is responsible for a number of major projects throughout Saudi Arabia, including the installation, commissioning and maintenance of plant and equipment for the power generation, petro-chemical, utility and construction industries.

To be responsible for field check-out, commissioning, start-up repair and test of electrical equipment and systems for the following:

Power transformers (dry-type and oil filled) 50 KVA up three 750 MVA voltage class 480 KV to 115 KV; motor general centres (high and low voltage) 50 HP up three 20,000 HP voltage class 480 KV, 13.8 KV, 34.5 KV, 69 KV; switchgear (high and low voltage) voltage class 480 up three 69 KV.

Must also be able to calibrate and set switchgear and MCC protective relays, and be familiar with test equipment and procedures. A minimum qualification of HNC in Electrical Engineering is necessary.

The positions are offered on a one year renewable contract basis and offer a wide and attractive range of benefits including salaries free of local tax, free accommodation, car, medical cover and regular home leave with paid air fares.

Please write giving full career details to: Brian Pimm-Smith, Westinghouse Electric SA, Regal House, London Road, Twickenham, Middlesex TW1 3QT. Tel: 01-891 1151.

Westinghouse ISCOSA

Chief Engineer

Systems Engineering to spearhead developments for an advanced product range

Beckenham, Kent

Quality Engineering and an impressive product base have made Muirhead Vectric a secure market leader. We are Europe's largest manufacturer of precision servo components, shaft encoders and related devices for control systems for aerospace defence and commercial applications. Our product developments are increasingly microprocessor-based, demanding advanced technical expertise to meet the needs of the future.

Now we'd like to meet a senior professional to head up our Systems Engineering Department and to manage and control a multi-disciplinery team engaged in the design and development of a wide range of advanced systems. You'll be expected to provide a high level of technical direction together with the necessary motivation and leadership to ensure quality is maintained within time and cost constraints.

Probably aged 35 years+, and qualified to degree or equivalent level in Electronics, we would expect you to have in-depth relevant technical experience, proven man-management skills and the ability to communicate effectively at all levels both, internally and with customers.

The salary and benefits package reflect the challenging nature of the positon and include assistance with relocation where appropriate and generous allowance for overseas business travel.

Telephone for an initial discussion, or write with full CV to Mrs Ann Turner, Senior Personnel Officer, Muirhead PLC, 34 Croydon Road, Beckenham, Kent BR3 4BE. Tel: 01-650 4888.

MUIRHEAD

Product Managers

Marketing our consumer products is a challenge for the best young professionals

£12 – £14,000 + car
Kent

At Kimberly-Clark, you won't need to prove the importance of marketing to us. Our products are brand leaders with familiar household names including Kleenex* facial tissues, Kleenex* Velvet* toilet tissue and the Kotex* range of feminine hygiene products which have achieved their success through careful marketing.

Our marketing professionals have total responsibility for one or more of our products. Reporting to a Group Product Manager they are accountable for the profitability each of those products achieves, controlling every aspect of the mix from advertising and promotion techniques to production standards, reformulation, packaging and distribution methods.

Formal, disciplined marketing skills, based on graduate qualifications and more than three years' practical experience in a similar blue chip environment will be tempered with a highly creative personal approach. Familiar with large company methods of working, and multi-million turnovers, you'll find the challenge of product management in Kimberly-Clark well deserves the high reputation for marketing professionalism we enjoy in the fast moving consumer industries.

Career prospects, naturally, are substantial with opportunities to meet the challenge of wider marketing or management roles. Starting salary, between £12,000 and £14,000, depending upon experience is accompanied by a company car and large company benefits including pension and life assurance scheme, free BUPA, and full relocation expenses.

Please telephone for an application form or send your c.v. to Jacqueline Endersby, Kimberly-Clark Limited, Larkfield, Maidstone, Kent. Tel: (0622) 77700 Ext. 4197.

Chief Development Engineer

Dowty Electronics is an expanding and highly profitable member of the International Dowty Group of Companies and a leader in the design, development and manufacture of advanced electronic systems for aerospace, defence and industrial applications. At the Controls Division in West London, we now have a vacancy for a Chief Development Engineer. This is a key technical position with wide ranging design activities but which also includes proposal and marketing aspects together with the supervisory and financial responsibilities associated with managing a high calibre design team.

You will be a graduate with approximately seven years' electronics experience in the military systems area, preferably with a naval bias. A background in microprocessor based equipment is essential with preferably some experience of MIL1553B data bus and/or Coral/ADA based software.

This position represents an ideal opportunity to enhance your career prospects within the Dowty Group, and will be rewarded with an excellent salary, pension/life assurance scheme, relocation expenses where applicable, and all the benefits you'd expect from a major international company.

In the first instance please send a full CV or telephone for an application form to: Ian Percy, Dowty Electronics Limited, 136 Mansfield Road, Acton, London W3 0RT. Tel: 01-992 3434.

Dowty Limited

Management Accountant

c.£13,000
Hants

Our client is part of a major international food group who operate in the UK blending, packing and distributing a range of beverages which are household names. They now wish to recruit an experienced Management Accountant to be based at their Headquarters in Hampshire.

Reporting to the Financial Director and being responsible for a staff of about 30 you will prepare the management reports and associated accounting and office administration.

Ideally, aged between 28 and 35, you should have in depth experience of all elements of general accounting in particular cash flow, budgeting control, standard costing, stock control, credit control and computer-based accounting in a high volume manufacturing environment. Membership of a recognised accountancy body would be an advantage, although a finalist with commercial experience would be considered. The ability to communicate at all levels and work within time constraints is important.

A salary of around £13,000 will be negotiated and benefits include pension and life assurance schemes, sickness payment, twenty days leave, and where appropriate assistance with relocation expenses to this pleasant part of Hampshire.

Please write enclosing details about yourself and your career to date to: A. Whitbread, Moxon Dolphin & Kerby Ltd, 178-202 Great Portland Street, London W1N 5TB. Quote reference 4223/DT. Please state in a covering letter any companies to whom you do not wish your application forwarded.

MOXON DOLPHIN & KERBY LTD

CIVIL ENGINEERS

Due to an increased workload, Taylor Woodrow International Limited require young qualified Civil Engineers and Chartered Civil Engineers for the following vacancies both abroad and at home.

PLANNING ENGINEERS

To work on tender and contract planning at various levels of responsibility. These posts will be either UK or overseas based.

SENIOR CIVIL ENGINEERING ESTIMATOR

Applicants must be experienced in the estimating procedures for major civil engineering projects *overseas* and be able to carry out all aspects of tendering work. This post will be UK based but some overseas travel will be required.

SITE ENGINEERS

To work on civil engineering projects overseas. Applicants should have had overseas experience.

For further details please telephone Alan Thornley on 01-991 3154 or write to him at Taylor Woodrow International Limited, Western House, Western Avenue, Ealing, London, W5 1EU.

Taylor Woodrow International

COMPUTER SERVICES MANAGER

London

Howard Doris is a leader in the offshore construction industry and enjoys an enviable record of achievement within this highly specialised field.

As a result of both expansion in our London Head Office and our current work load, we have identified the need for a Manager to head up the Computer Services Department. This is a newly created position and, reporting to a Main Board Director, the successful candidate will be specifically responsible for the co-ordination of data processing and will be expected to make a positive contribution to the future development of the function in London and our fabrication yard in Scotland.

The need is for someone with significant experience of Data General, IBM PC's or Hewlett Packard installations with particular emphasis on Metier Artemis planning systems. An important aspect of the position will be to assist users in the interpretation and implementation of solutions to problems. Clearly, good communicative and problem solving skills are essential.

In return, you can expect an excellent salary plus a company car. More importantly, success in this position will ensure positive career development.

Male or female candidates should send a concise c.v. to: Martin Yallop, Personnel Manager, Howard Doris Limited, 17 Grosvenor Gardens, London SW1W 0BD.

HD

Sales Engineers

Ruston Gas Turbines Ltd. is a world leader in the design and manufacture of industrial gas turbines and the engineering of gas turbine packages. Products including driving alternators, pumps and compressors, often in combined heat and power projects, are supplied to all major oil and gas producing areas of the world.

The company is strengthening its sales force and requires a number of engineers at varying levels of seniority to operate from the Headquarters in Lincoln and to travel as required to various overseas territories.

Candidates, who will be qualified in an engineering discipline, should have enthusiasm, initiative and drive. Preferably they should have some experience of handling technical enquiries and negotiations related to capital plant in the electrical utility or oil and gas markets. For some posts a bilingual ability would be an advantage, e.g. German or Spanish.

Pay and conditions will reflect the importance of these appointments and will include relocation assistance, as appropriate, to the historic Cathedral City of Lincoln.

Male and female candidates should write with a full c.v. or telephone Richard Palmer, Ruston Gas Turbines Ltd., P.O. Box 1, Lincoln LN2 5DJ (0522) 25212 Ext. 4232.

RUSTON GAS TURBINES LTD

A PATH INTO MANUFACTURING MANAGEMENT

The Engineering Industry Training Board is looking for the next generation in Manufacturing Managers. It offers Fellowships which combine intensive preparation at Cranfield Institute of Technology, with a period of focussed problem-solving in an engineering company. Fellows will receive an award of £8,800 per annum and the Board covers the costs of tuition, tutoring, accommodation and travel over the period of some 17 months.

Entry requirements are as demanding as the business of management. Fellows should have:

- a degree (or its equivalent) in engineering or a related discipline
- at least three years relevant experience in industry
- an acceptable record of progress in employment
- the ambition, drive, personality and communication skills necessary for a future senior manager.

The next programme begins on 20th May and the closing date for applications is 8th March 1985. Selected candidates, women and men aged between 25 and 35, will be interviewed in March and early April. Companies can nominate their employees, or personal applications will be treated in complete confidence.

Further information and Application Forms from:-

Fellowships Office
Engineering Industry Training Board,
PO Box 176, 54 Clarendon Road,
Watford WD1 1LB.
Telephone: Watford (0923) 38441

RFI/EMC ENGINEER

Buckinghamshire

HM Government Communications Centre at Hanslope is engaged in the R and D of electronic communications equipment and installations to meet the special needs of HMG at home and abroad. A vacancy has arisen for a Radio frequency interference/Electromagnetic compatibility test engineer to work at the centre.

THE WORK involves the RFI/EMC testing of development or production electronic communications equipment and preparing reports on the results. In particular, the engineer will operate complex receiving equipment to detect low level radiation. As much of the equipment is controlled by an HP9845 computer the person appointed will be able to concentrate on resolving difficulties and problem areas.

THE PERSON we require should preferably have relevant experience and be educated to Graduate or equivalent standard however those without relevant experience or with lower qualifications but showing suitable potential may be considered.

THE APPOINTMENT will be as a Scientific Officer or a Professional and Technology Officer depending on qualifications and experience. Salary is dependent upon qualifications and experience and is on an incremental and promotional scale rising to over £10,000. For an application form please write to:

The Recruitment Officer,
HM Government Communications Centre
Hanslope Park, Milton Keynes MK19 7BH.

The Professional Engineers' Appointments Directory

Mechanical Engineers

Are you an Engineer looking for a job?

Are you an Employer looking for an Engineer?

P-E is operating a Directory which is sponsored by the Institution of Mechanical Engineers. The Directory offers professional engineers access to both advertised and unadvertised jobs which have been notified to us by clients. It also offers employers introductions to appropriately qualified engineers.

Mechanical Engineers seeking a new job are invited to apply for inclusion in the Directory. The qualifications and experience of every applicant are compared with the requirements of each notified vacancy. Candidates whose details match the requirements will be contacted to ascertain their interest in a particular vacancy. Only with specific approval will their details be submitted to prospective employers. This service is free to all applicants and is confidential.

Employers with a vacancy for a professional mechanical engineer are invited to discuss their requirements with P-E who will search the Directory. A short list of qualified applicants who have confirmed their interest in a particular post will then be presented to the client. There is no charge for searching the Directory or for the shortlist which is prepared. A fee is only charged when a candidate accepts an offer.

For further information please telephone Egham (0784) 34411 or write to The Professional Engineers' Appointments Directory, P-E Consulting Group Ltd. Park House, Wick Road, Egham, Surrey TW20 0HW.

HESELTINE BLOCKS A-BASE 'DISRUPTION'

By WILLIAM WEEKES Parliamentary Staff

MR HESELTINE, Defence Secretary, told the Commons yesterday that anti-nuclear protesters could not be allowed to engage in a "systematic programme of deliberate delay and disruption" to try to stop the development of the Molesworth cruise missile base in Cambridgeshire.

Defending the decision to clear protesters from the site, Mr Heseltine insisted that preparations for the deployment of "cruise" had to continue until progress in arms control negotiations made them unnecessary.

"No responsible Secretary of State for Defence or Government could countenance such preparations being frustrated by a small, unrepresentative minority within our society," he added to Conservative cheers.

Labour MPs angrily condemned what had occurred at Molesworth as a serious erosion of civil liberties and jackboot tactics reminiscent of a police state.

Countering protests about the secrecy of the operation—which he revealed had been planned in November—Mr Heseltine said that had advance notice been given tens of thousands more demonstrators might have gone to the base.

Tradition of protest

Mr DENZIL DAVIES, Shadow Defence Secretary, said the operation demonstrated once again how heavy-handed, insecure and insensitive Mr Heseltine was when trying to deal with those whose only offence was their wish to protest peacefully against nuclear weapons.

"When you strutted round Molesworth this morning in your flack jacket you were not evicting some wild Bader Meinhof terrorist gang but 100 British citizens, most of them Quakers with a long, religious tradition of honourable protest against weapons of war.

"All you have done is sown 100 dragon's teeth. Protests will not only go on but will intensify because of what you did this morning."

Mr HESELTINE said what he had done was secure the maintenance of law and order and the legitimate rights of his department to use its own land for its own purposes.

The whole House would have noticed that this determination to live within the law in this country was wholly repugnant to the Labour party.

Mr Heseltine said that had he acted with less despatch the demonstrators would have been able to call on additional resources from other parts of the country.

Labour attacked

Rounding on Labour, he added: "All we have heard is the petty response of a party whose only real cause for complaint is that they have been deprived of one more opportunity to support lawlessness."

Mr JOHN CARTWRIGHT (Soc. Dem., Woolwich) said the events at Molesworth had to be kept in proportion.

"In a democracy, protesters have a perfect right to demonstrate against aspects of Government policy with which they disagree, but the authorities are equally entitled to outwit the demonstrators.

"Is that not what happened at Molesworth last night?"

Mr WEDGWOOD BENN, the former Labour Cabinet Minister, said the decision to build a "Berlin Wall" around the camp, associated with the Minister's readiness to shoot those who might try to get inside, was an indication that the Government was prepared to use the full apparatus of the State to obliterate opposition to its policies.

But Mr HESELTINE told Mr Benn, who claimed the peace camps in Britain were respected throughout the world: "What is respected about this country throughout the world is our love of law and order and respect for democracy."

MPs question logic of water policy

By Our Parliamentary Staff

THE Government's policy towards the water supply industry was challenged from both sides of the Commons yesterday in a foretaste of today's debate on Orders which would force up water charges.

Mr ROBERT HICKS (C., Cornwall, SE) questioned the logic of the Government pursuing a strict anti-inflation policy on the one hand and, on the other, imposing higher water charges on both business and domestic users.

His views were shared by Dr JOHN CUNNINGHAM, the Shadow Environment Secretary, who accused the Government of imposing a "naked tax" on water users.

Dr Cunningham said that on normal accounting methods Thames Water Authority was the seventh most profitable business in the country.

'Higher than needed'

Ministers were taken to task by Mr ROGER SIMS (C. Chislehurst) over proposals which would mean a 10 p.c. rise in charges in the area served by Thames Water Authority instead of the three per cent. which the authority had planned.

He asked Mr Gow, Minister of State for the Environment: "Are you seriously asking me to vote this evening in support of Orders to limit the extent to which local authorities can increase their rates, and asking me tomorrow to vote for Orders which will impose on Thames Water Authority a duty to impose far higher rates than they wish or need to do?"

Mr GOW said the rate of return required of Thames in the current financial year, 0·5 per cent., was the lowest target for any water authority.

He added that the target for the coming year, 1·37 per cent., remained the lowest for any of the 10 water authorities.

'Modest' proportion

Replying to Mr Hicks, Mr Gow said a one per cent. increase in water charges added 100th of one per cent. to the Retail Price Index. Water charges were a modest part of the average household budget.

Mr Gow rejected an assertion from Mr Gerry Bermingham (Lab. St Helens, S) that the Government was imposing a water tax.

The consequences of a higher rate of return on assets would be higher investment and a lower borrowing, he said. "A reduction in borrowing is a central objective of the Government's economic policy."

TV first for Chapple

By Our Parliamentary Staff

LORD CHAPPLE of Hoxton yesterday became the first peer to have his Parliamentary introduction televised.

The former Mr Frank Chapple, lately leader of the Electrical Electronic, Teecommunications and Plumbing Union, plans to sit on the cross-benches.

"I think it would be very hypocritical of me to take the Labour whip here, when the party wants to abolish the House of Lords," he said.

"I daresay there are people who would like to see me expelled from the party, but I can't help that. I see my peerage as a chance to have a political platform, and I shall use it as such."

Jenkin moves Order to rate-cap councils

By PETER PRYKE Parliamentary Correspondent

THE rate capping of high spending local authorities moved a step nearer in the Commons last night, when Mr Patrick Jenkin, Environment Secretary, moved an Order limiting the amounts that four Labour-controlled bodies can raise by rates.

The Order covers the Greater London Council, the Inner London Education Authority and Merseyside and South Yorkshire County Councils, all precepting authorities.

Mr JENKIN told MPs that the four will be given a month in which to decide on their budgets and declare their precepts.

"To be legal they must not be higher than the figures in this Order," he declared. An order covering 14 rating authorities, which were to be rate-capped, would be published in a few days.

'Unprecedented step'

Dr JOHN CUNNINGHAM, Shadow Environment Secretary, accused the Government of taking an unprecedented step in imposing centralised control on the lives of over 9½ million people.

"The second guessing of every council in Britain is now the norm and chaos is the result," he said.

Moving the Rate Limitation (prescribed maximum) (precepts) Order, Mr JENKIN said that rate-capping would curb the spending of the more extravagant overspenders and protect ratepayers.

The GLC, which had doubled its spending in three years, would be limited to total spending of about £785 million, compared with its own proposed budget of over £860 million.

The ILEA, "unique in its unrivalled extravagance," had increased its spending by almost a third to over £900 million in the last three years, despite a school population which had fallen by 10 per cent.

The Order would hold their spending at £900 million, instead of the proposed £957 million.

Merseyside Countyy Council had an annual transport deficit of £82 million yet it had decided to fund Liverpool's first novelist in residence, and given a £1,500 grant to the makers of a gramophone record attacking the police.

South Yorkshire had been proposing to spend £206 million next year and rate-capping would reduce their precept to about 35p in the pound below what it would have been.

PILL-FOR-ALL BILL INTRODUCED

Contraceptives will be available to everyone over 18 in the Irish Republic under a Bill to be introduced in the Dublin parliament today.

At present, they can only be obtained from chemist's by married couples with a doctor's prescription. The opposition Fianna Fail party will resist the changes but Government sources are confident the Bill will become law within weeks.

PLEDGE ON CIVIL DEFENCE

By WALTER ABURN Parliamentary Staff

THE progress of Civil Defence arrangements which local authorities were required to make will be monitored extremely closely said Lord ELTON, Home Office Minister, yesterday in the Lords.

He reaffirmed the Government commitment to introduce legislation to make Civil Defence resources available to meet peacetime emergencies.

But the response of some local authorities was less than wholehearted. They were often slow to pick up the funds available to them.

Declaring a nuclear free zone no more absolved councils from making reasonable Civil Defence preparations than declaring a rain free zone would absolve them from carrying an umbrella.

The Government was determined that responsibilities laid on local authorities by Parliament for emergency planning and the provision of resources to protect and care for people should be carried out.

Peacetime risks

In opening the debate Lord RENTON (C.) said that peacetime emergencies had to be in the forefront of our thinking.

People properly equipped to deal with a war would also be better able to help emergency services to deal with such peacetime risks as fire, floods, blizzards, railways accidents, motorway pile-ups or aircraft crashes.

Lord MISHCON (Lab) said that there should be some sort of organisation to deal with threats of a conventional war.

But when Government had cut into the local purse at the expense of old people, school children and the disabled, it was extraordinary that local authorities should be urged to spend money on Civil Defence.

The Government was evading its own responsibility by putting the burden and blame on local authorities.

CLOSED SHOP FOR STUDENTS STAYS

By Our Parliamentary Staff

The Government had no present intention of legislating to abolish compulsory membership of students' unions, said the Earl of SWINTON, Government Education spokesman, in the Lords yesterday.

But he noted the view of the Federation of Conservative Students which wants voluntary membership and sympathised with its aim to stop small, unrepresentative groups from determining policies.

Cash injection puts forces 'at pinnacle'

By Maj.-Gen. Edward Fursdon Defence Correspondent

THERE has been a sustained increase in the capabilities of the Armed Forces over the past few years through increased funds, new equipment and the help of the Falklands Supplement.

And there has been a real growth of 21 per cent. since 1978-79 in the resources available for defence.

Field Marshal Sir Edwin Bramall told the Commons Defence Committee yesterday: "All this has given us a pinnacle to work from, whose benefits will be felt in later years: it is very relevant to the way ahead."

He was being questioned as part of the Committee's examination of the effects of the Government's plan to abandon the Nato target figure of three per cent. real growth in defence expeditude after the 1985/86 financial year.

If growth was completely lost, it did not mean we must then think in terms of a complete and destructive defence review, he said.

Obviously it made life much more difficult, but it did not immediately mean that the defence programme became too difficult to manage or the consequences became too serious to contemplate, he said.

Sir Edwin said that we must be absolutely convinced that our defence programme was completely lined up in accordance with our priorities. The new MOD defence reorganisation would make the job easier.

Crucial matters

Preservation of a clear, cohesive Nato Alliance; the prevention of war; and the comprehensive protection of the United Kingdom were all crucial matters—and the pressure on us would be to do as well as ever.

"Our current general balanced defence framework is right. If I had to choose between a salami slice reduction or the major surgery of a part of it, my answer is that I much prefer the salami slice," he said.

Trident "was badly needed, it is an essential comprehensive insurance into the future in an uncertain world," he said.

Today in Parliament

HOUSE OF LORDS

3: Insolvency Bill, cttee (3rd day); Recreational Gardening Bill, report; Wildlife (NI) Order.

HOUSE OF COMMONS

2.30: Water Authorities (Return on Assets) Orders; GLC grant to London Regional Transport motion; London Regional Transport (Levy) Order.

DEATHS, IN MEMORIAM

Continued from Back Page

TILL.—On Feb. 4, 1985, aged 95 years, GERTIE TILL, of 18, Mount Pleasant, Wallington, Surrey, eldest daughter of the late Samuel and Matilda Till, of Bridgnorth, Shropshire, beloved sister of Gladys, Nell, Elsie and the late Bill, and much loved Auntie to the Southwell and Parry-Williams families. Funeral service at Wallington Parish Church 1.30 p.m., Friday, Feb. 8, followed by committal at St Mary's Church, Arlon, near Nantwich, at 3 p.m. R.I.P.

TODD.—On Feb. 5, after a short illness, IAN CAMPBELL TODD, beloved husband of Joan and brother of Kate. Funeral private. Donations if wished to Kathleen Mackey Unit, St John and St Elizabeth Hospital, N.W.8.

TUKE.—On Feb. 5, 1985, in hospital, at Tavistock, NORA MARIEL, formerly of Little Bredcot, Keston, aged 86 years, beloved wife of Robin John and dear mother of Rosie. Funeral service at the Exeter and Devon Crematorium, on Monday, Feb. 11, at 3 p.m. No flowers, please. Donations, if wished to Cancer Research Campaign, c/o Mr M. J. Hender, Strand Chambers, Dawlish.

WARNER.—On Jan. 29, at Kingston Hospital, MARGARET ELLEN (née Taylor), aged 85 years, of Court Way, Twickenham. Cremation at South Middlesex Crematorium, Feltham, at 2.30 p.m. on Wednesday, Feb. 13. Flowers to Wake & Paine, 31, Church Street, Twickenham, or donations to Hands (Help a Neighbour in Distress).

WHEATLEY. — On Feb. 5, JOHN EDWARD (Jack), aged 77 years, dearly loved father of Richard. Memorial service, Friday Feb. 15, 2 p.m., at St Mark's Church, Archers Road, Southampton. No flowers, please. Donations to British Heart Foundation.

WHITE.—On Feb. 5, 1985, peacefully at his home, in Tunbridge Wells, HARRY WHITE, aged 94 years, dearly loved husband of Joan, founder and former Pastor of Calvary Free Church. Thanksgiving service at Calvary Free Church, Victoria Road, Tunbridge Wells, on Thursday, Feb. 14, at 2 p.m., followed by interment at the Borough Cemetery. No flowers by request but donations for Christian Missions may be sent to E. R. Bickmore & Son, 41, Grove Hill Road, Tunbridge Wells.

WILLIAMS.—On Wednesday Feb. 6, 1985, at Yeovil Hospital, Somerset, ELSIE MARGARET WILLIAMS, dearly loved wife of the late Dr C. B. Williams, formerly of 3, The Croft, Kirkcudbright. Funeral service will be held at Kirkcudbright Parish Church on Friday, Feb. 15, at 1.30 p.m. to which all friends are respectfully invited.

ACKNOWLEDGMENTS

HILLIARD, O. M.—Mrs RACHEL SACKS wishes to thank everyone for their kind letters and flowers. Please accept this as the only acknowledgment, letters are too numerous to answer individually.

PERRIAM.—The family of the late EDITH PERRIAM wish to express their sincere thanks to all friends and neighbours for the kindness, sympathy, letters and floral tributes received in their recent bereavement.

THANKSGIVING SERVICES

CASTELL, ROBERT ERIC, C.B.E.—A Service of Thanksgiving for the life of ERIC CASTELL, formerly a director of Inclescape & Co. Ltd. and a High Sheriff of Madras, will be held at St Helen, Bishopsgate, on Monday, March 4, at 12 noon.

LANE.—WYNDY, of White House Farm, Crowborough. Service at Rotherbrace, Sunday, Feb. 10, 2.30 p.m. at Withyham Church.

IN MEMORIAM

APTED, ROYALD WILLIAM JOHN.—A greatly loved Husband, Father, Father-in-law and Grandfather, died Feb. 7, 1984. "Say not in grief — alas he is dead." "But rather say with gratitude — he lived."

BRIGGS, CECIL. — Feb. 7, 1982, remembered today and everyday with love and affection by all his family and friends.

BUDDEN, E. W., M.B.E.—Feb. 7, 1961. Remembered with love.—M.

GORDON, JOAN MYLES.—On the occasion of the third anniversary of her death, with love from Monica, Martin, Annette and family, Paul, Sarah and Louise.

HARRIS.—In loving memory of dearest Eve.—Mortie and Philip.

HOWE, CHARLES KENNETH, late of Cambridge.—Remembering my darling Miss, with love, today his Birthday and always.—Carmelita.

JACKSON, JOSEPH.—Feb. 7, 1983. Greatly missed and remembered always with love by his Wife, Mum, Dad, Sister and Brothers.

MORGAN-JONES. — DAVID S. MORGAN-JONES, F.R.C.S., dearly beloved, remembered today and everyday, with abiding love and thanksgiving.

SPIERS, DOROTHY IRENE.—Remembering a dear friend.

STEPHENS, MILLIE.—Feb. 7, 1984. Beloved Aunt and friend. "And when you smell the flowers I loved. Then let your heart beat fast for me, and I shall not be dead." Dearer to me than a mother.—Heather.

WILSON, GEORGE, Wing Commander.—Darling Fish, always at my heart and prayers dear. "Until."—Gretch.

WOOLLVEN, ROWLAND THEODORE PERCY.—Feb. 7, 1885-March 29, 1940. Remembered with love by his Sons and Daughters.

SENIOR GEOPHYSICIST

Explore our International Prospects

We are looking for a geophysicist with 5-10 years experience.
We are offering an interesting and challenging position based at the London headquarters of Murphy Eastern Oil Company (subsidiary of Murphy Oil Corporation, a U.S. International Oil Company).
The company is involved in exploration activities in Europe, Middle East, Africa and Far East. Some travelling may be involved.
Ideally, applicants will possess a good degree in Geology, Geophysics, Mathematics or Physics with sound working experience of seismic interpretation and acreage evaluation in several international exploration areas. Field experience will be an asset.
The successful applicant will join a small, active team, allowing a wide involvement in all aspects of the work.
An attractive salary and generous benefits plus relocation expenses, if necessary, will be paid.
Please write to:
Personnel Manager, Murphy Eastern Oil Company, Winston House, Dollis Park, Finchley, London N3 1HZ.

MURPHY
EASTERN OIL COMPANY

W & G Instruments, one of the leaders in the supply of Telecommunications Measurement & Test Equipment, are expanding their R.F. Components manufacturing operation in Plymouth.

COULD YOU CONTROL THE PRODUCTION AND TEST ACTIVITIES OF THE Hatfield R.F. COMPONENTS DIVISION?

South Devon · Electronics Industry · To £13,000 p.a.

This is an ideal opportunity for an enthusiastic person to control our expanding R.F. Components Division with a turnover increasing to £1 million over the next few years.
This newly created position involves overall responsibility for the manufacture and test of our full range of Hatfield R.F. Components.
You must be able to demonstrate success in a managerial role within an electronics manufacturing environment.
This challenging and interesting position would ideally suit candidates aged at least 30 years, qualified to H.N.C. in Electronics, and able to communicate at all levels, possessing the ability to motivate and maintain efficiency in quality standards.
In return we are offering an excellent salary and benefits package. Generous relocation assistance to this superb location is also offered where appropriate.

Applicants should write with full cv to MT Craven, Personnel Manager, Reckitt's Colours Ltd, Morley Street, Hull HU8 8DN.

Field Sales Manager

Negotiable salary + car — **Brentford**

Trico has the enviable position of being a market leader in the manufacture and supply of windscreen wiper and associated equipment. But we're not content to rest on our laurels. We're going out to win new orders. As part of this drive we are seeking a Field Sales Manager to take over the responsibilities of developing selected areas of the heavy goods and commercial vehicle side of the company's business.
Applicants must be self-motivated, have negotiation skills, be able to obtain results, and ideally have a technical/engineering background. The successful applicant can look forward to a demanding, yet interesting career with a progressive company enjoying excellent employment conditions including a pension scheme, life assurance and 25 days' annual holiday.
Send full cv to Ralph Basham, Personnel Manager, Trico Folberth Ltd, Great West Road, Brentford, Middlesex TW8 9HP. Tel: (01) 560 2111 ext 112.

Sales Engineer

Excellent package + car — **Cambs**

The company, manufacturers of high quality draught excluders and energy efficiency equipment, has a new opportunity for a Sales Engineer to promote their products throughout the UK. You will have a proven sales record, preferably with experience of specifications, OEM and selling to building and refurbishment industries. If you are seeking job satisfaction and excellent rewards for hard work:
Send full cv to Sylvia Markham, PER, Block A, Brooklands Avenue, Cambridge CB2 2HL.

Works Metallurgist

Somerset

We are Europe's leading supplier of high technology control systems to the aerospace and defence industries. Plans for future expansion have created this opportunity within our Heat Transfer Division. Responsible for the drawing up of brazing techniques and procedures for heat exchanger manufacture and metal joining processes, you will control all processes used within the division, including chemicals and crack detection, and establish the parameters to enable the successful vacuum brazing of aluminium heat exchanges. With a degree in metallurgy or material science, you will be capable of drawing up techniques sheets, taking and sentencing x-ray NDT photographs for light and dense metal welds and, although training is offered, ideally possess brazing aluminium and/or appropriate x-ray experience. Attractive rates of pay and usual large company benefits including relocation.
For an application form, contact The Personnel Department, Normalair Garrett Limited, Yeovil, Somerset BA20 2YD. Tel: Yeovil 75181 ext 3195 or 3361.

Production Executive

Negotiable salary — **Wiltshire**

If you are a young graduate seeking your first sharp-end production management role, this career opportunity is for you. Roussel Laboratories Limited wish to strengthen their production management team at their prestigious Wiltshire manufacturing plant. Initially you'll provide technical support to the Packaging Manager, investigating, designing and developing new equipment, products and procedures in line layout and materials handling. You'll possess a degree in a technical or practical science discipline with at least two years' practical problem-solving experience. An attractive salary and benefits package is offered together with ample scope for progression, as expected of a leading member of an international group involved in pharmaceutical and associated health care activities.
Send full cv to Peter McMahon, PER, Grosvenor House, Station Road, Gloucester GL1 1TA.

Sales Engineer

c£15,000 package + car — **E Anglia/South**

Based in the West Midlands, my client manufactures strainers, filtration equipment and separators for a variety of applications, particularly in oil and petrochemical industries. This senior position has now arisen for a person with an engineering background and sales experience gained in selling within these industries, in an area covering the South East and East Anglia, but Central London in particular. An excellent salary package is offered together with other company benefits.
Send full cv to Doug Knowles, PER, Fountain Court, Steelhouse Lane, Birmingham B4 6DS.

Senior Design Engineer

Pumps

c£12,500 — **West of London**

Our client, part of a large international group, is seeking a qualified Engineer to strengthen the existing team in order to cover the introduction of a new and expanding product range. The person will have to demonstrate both practical and theoretical experience in rotating machinery and hydraulic engineering and should be capable of undertaking design projects and seeing these through research and development to successful implementation in the field. There is no age limit but the successful candidate must be capable of progression within the total organisation structure. Assistance with relocation will be given.
Send full cv to Ronald Bridges, PER, 53 West Street, Brighton, Sussex BN1 2RL, enclosing a list of companies to whom your application should not be forwarded.

Chemical Sales Manager

c£12,000 + car — **North West**

Manufacturing surfactants and other functional chemicals, this successful group needs a Sales Manager with proven experience within the industry. The job involves developing the services of custom manufacturing as well as launching and selling the company's own products. This will require UK and overseas travel to negotiate with customers at all levels. Ideally 30-45, with a degree or equivalent in chemistry or a similar discipline, you must have proven laboratory experience, followed by a successful sales career. Knowledge of surfactants or custom synthesis advantageous. Excellent prospects with a very successful private company.
Send full cv to Neil Ewart, PER, Lowry House, Marble Street, Manchester M2 3AW.

Sales Executive

c£10,000 + car — **Home Counties**

Burralls of Wisbech, is a well-established and profitable company selling a range of horticultural print, tags, tickets and labels. Having recently embarked on a one million pound expansion programme, we now seek an ambitious Sales Executive aged 25-45, to develop new and existing business. Good basic salary + bonus + car + profit share.
Write to Mr M Mitchell, Burralls of Wisbech, PO Box 7, Oldfield Lane, Wisbech, Cambs PE13 2SZ.

Project Engineering Manager

Negotiable salary — **Sittingbourne**

EPS (Research & Development) Limited, is the leading company in design and development of specialised packaging and ground handling equipment for items varying from guided weapons to communication satellites and from pryotechnics to sophisticated electronics. A vacancy has arisen for a Project Engineering Manager to lead a team of experienced Project Managers and report to the Technical Director. The Project Managers are responsible for all aspects throughout the life of a project including cost control and programming. The successful applicant will be ideally a Chartered Mechanical Engineer aged between 30 and 40, with a background of working in the defence industry. A knowledge of CAD would be an advantage. The company offers a salary commensurate with ability and a contributory pension scheme and relocation expenses. Genuine career prospects are available within the company.
Send full cv to Tom Bedford, EPS (Research & Development) Limited, Bell House, Bell Road, Sittingbourne, Kent ME10 4DH.

Mining Engineer

Planning

Cleveland Potash Limited is involved in mining, processing and distribution of potash, primarily for use in fertiliser manufacture. Using sophisticated mining technology, and modern machinery, some two million tonnes of potash are produced annually by the mine's 900 employees. Applicants will be responsible for the operation and development of computer facilities used in a wide cross-section of activities necessary for the effective operation of a mine of this size. The successful candidate will be a qualified Mining Engineer, aged 26-30 years, with several years' post-graduate experience in mining, in both a production and technical services capacity, ideally in potash or coal mining. In addition, applicants should have training and experience in computing, and be capable of programming in Fortran and Basic.
Please send brief cv in confidence to Mr TJ Hunt, Personnel Manager, Cleveland Potash Limited, Boulby Mine, Loftus, Saltburn, Cleveland TS13 4UZ.

Chemicals Sales Representatives

Northern/Southern England

Atochem UK Ltd, a wholly owned UK manufacturing and marketing subsidiary of Atochem, a leading French chemicals and plastics producer and part of the Elf Aquitaine Group, wish to expand their team with the appointment of Chemicals Sales Representatives. Requirements: aged 25-40, with successful sales experience in chemical industry. Self-motivated with sound commercial skills. Good presence and ability to communicate at all levels. Knowledge of French an advantage but not essential. Newbury and Manchester based, after a period of training, the persons appointed will be required to maintain a number of existing sales contacts and to seek and develop new outlets for a wide and expanding range of base chemicals, intermediates and petrochemicals. The positions carry an excellent salary, fringe benefits, company car, BUPA membership and assistance with relocation if required. If you feel that you meet our criteria and wish to join a successful, growing team,
Phone now or write with cv to Stan Cunliffe, Atochem UK Ltd, Colthorp Lane, Thatcham, Newbury, Berkshire. Telephone (0635) 65533.

ATOCHEM groupe elf aquitaine ATO

Works Manager

Excellent salary package + car — **Derbyshire**

This senior appointment involves full responsibility for the management of a successful minerals processing works in Derbyshire employing approximately 40 people. You will manage a cost-effective operation including raw material purchasing, processing and packing and be involved in project planning. Applicants must have mineral/chemical processing experience combined with successful management skills and the ability to maintain harmonious labour relations. Develop your career with an expanding company offering a five figure salary, quality company car and benefits package.
Send full cv to Carole Tansley, PER, Lambert House East, Clarendon Street, Nottingham NG1 5NS.

Development Engineer

Hardware/Software

Cambridge

Grant Instruments Limited are the UK's forerunners in the design and manufacture of laboratory and data recording equipment. Expansion has created an interesting opportunity for a Development Engineer to carry out a project from conception up to manufacturing stage. You will be qualified to degree or equivalent level with at least a few years' experience in design of microprocessor systems and equipment. Attractive salary, non-contributory pension, relocation allowances.
Write enclosing cv to Derek Pine, Technical Director, Grant Instruments (Cambridge) Limited, Barrington, Cambridge CB2 5QZ.

Economic Development Officer

£13,326-£14,358 — **Grimsby**

Great Grimsby Borough Council invite applications for this newly created post, reporting directly to the Town Clerk and Chief Executive, who has overall responsibility for the Council's economic development function. The work will involve the co-ordination and implementation of the Council's economic development strategy, liaison with relevant outside bodies and the direct control of the industrial development unit. We are seeking a dynamic, self-motivated person with extensive knowledge and experience of industrial/commercial development and some knowledge of the funding agencies involved (EEC, private sector, etc). This experience should be combined with relevant qualifications - probably a degree in economics or similar. Removal expenses are reimbursed and up to £450 is paid towards the cost of legal fees, furnishings etc. Housing accommodation is available for a limited period of six months, or alternatively a separation allowance is paid where appropriate. Great Grimsby, now connected to the national motorway network, enjoys low-cost housing, first-class shopping facilities and combines all the advantages of an urban community with the attractions both of the coast and countryside.
Application forms and further details of the post are available from the Personnel Officer, Municipal Offices, Town Hall Square, Great Grimsby DN31 1HU. Tel: (0472) 59161 ext 335. The closing date for applications is the 28th February 1985. (Re-advertisement).

Production Manager

Floorcovering Industry

Five figure salary + benefits — **Lancashire**

A household name company in consumer durables, needs a highly professional Production Manager. Leading a multi-skilled production team, you will ensure that all targets are effectively achieved through the control and co-ordination of production resources including the control of warehouse operations. Age range 30-40, you should have experience of 'leading from the front' a modern, fast-moving production team in the rubber, plastics or textile trade. You should be a confident, articulate motivator who understands today's technology and who enjoys the challenge of a multi-union environment. If you can make a positive impact on this fast-growing and very ambitious company - the rewards will fully reflect your contribution. Relocation assistance is available.
Send full cv to Cathy Horner, PER, Victoria House, Ormskirk Road, Preston PR1 2DX. Tel (0772) 59743. Closing date 18th February 1985.

Sales Engineer

c£9,000 + car + commission — **NW England**

Selling the Hoybide range of tungsten carbide cutting tools and wear parts - responsible for existing accounts/distributors, developing sales in the area and providing technical advice. Engineering and selling experience - ideally living in Manchester area.
Send full cv to Mrs E E Mitchell, Anderson Strathclyde plc, PO Box 1, Princes Risborough, Bucks HP17 9EA. Tel: (08444) 5171.

Hoybide

Selling to the Construction Industry

c£9,000 + car — **South East**

Tucker Fasteners - a leader in the field of industrial fastening systems - needs a sales professional to market a range of high quality products to the construction industry and specifiers in the South East. Working from home, you'll sell to existing customers and develop new business through following company leads and 'cold' calling. You should have a proven sales record - preferably in the construction industry - and must be used to negotiating with architects, contruction engineers, specifiers etc. HNC in building or allied discipline preferred. Excellent rewards and prospects with a market leader.
Send full cv to Bronagh Curtis, PER, Fountain Court, Steelhouse Lane, Birmingham B4 6DS. Tel (021) 236 6971.

Sales Engineers/Area Managers

Competitive salary + benefits + car — **South East England The Midlands**

Harland Machine Systems Ltd, is a leading designer and supplier of pressure sensitive labelling equipment, and a member of the Harland Group. Our sales are expanding world wide. As part of a redeployment programme to the UK field sales force, we are seeking two additional Sales Engineers to improve and maintain area coverage in Southern England and the Midlands, and to sell the proven and well-established range of Phoenix label applicators, and Phoenix in-line labelling equipment, with the opportunity of contributing towards capital equipment sales. Their sales activities will be supported by Regional Service Engineers, ensuring on-site demonstrations, commissionings, and after-sales service. These positions require mechanical/engineering knowledge and proven sales experience, ideally from within the packaging industry. The successful applicants will be 25-40, and will be energetic and self-motivated, they will ideally be located in Hertfordshire/Essex and Central England, respectively. In-depth product training will be provided, together with field support from the National Sales Manager.
Replies with cv to The Sales Director, Harland Machine Systems Ltd, Agecroft Trading Estate, Langley Road, Salford M6 6JQ.

Harland Group

Sales Manager

Competitive salary + car — **Derbyshire**

Company manufacturing iron oxide pigments for the concrete, paint, plastics and rubber producing industries has an opportunity for a professional to manage UK and overseas sales operation.
Send full cv to Carole Tansley, PER, Lambert House East, Clarendon Street, Nottingham NG1 5NS.

Design Engineering Manager

Attractive package — **South West**

This is a new opportunity with a leading manufacturer of graphic display panels, fascias and membrane switch assemblies, who are presently embarking on a major expansion programme at their West Country facility. You will be responsible for the design and engineering development of all products and the building of a proficient design engineering team. You will be involved in projects from initial customer concept and be responsible, where necessary, for the recommendation/implementation of new manufacturing techniques. A practical 'hands-on' design approach, experience in metal/plastic fabrication, and an appreciation of electronics are essential.
Send full cv to Mike Trembath, PER, Coburg House, Mayflower Street, Plymouth PL1 1SG.

General Manager

Pharmaceutical Products

Northern Cyprus

A mature and experienced General Manager is required to assume full responsibility for all aspects of a small sophisticated, efficient pharmaceutical factory situated in Northern Cyprus and producing an excellent range of generic, ethical and OTC brand products including antibiotics, diuretics and analgesics in tablet, capsule or alixie form. The ideal candidate will have gained 15-20 years' experience in either the pharmaceutical or allied production industries, preferably with a major blue chip multinational manufacturer and will now be seeking the challenge of this autonomous position. The successful applicant will be responsible for the appointment of his own team of technicians and administrative staff so a level of staff-management experience is also essential. Reporting directly to the Board of Directors of the parent company, a £multi-million international trading company, the General Manager will hold total responsibility for the successful running of the company together with identification of market opportunities. This senior management position offers an excellent salary and terms of employment combined with the climate and atmosphere of a Mediterranean setting. Initially subject to (a renewable) contract for a two year period.
Send full cv to Barry Johnson, PER London West, 319-327 Chiswick High Road, London W4 4HH.

Nuclear Design Engineering

National Nuclear Corporation Ltd. undertakes the design and construction of nuclear power stations and associated facilities.

The Company is engaged in the design, construction, commissioning and support of Advanced Gas-cooled Reactors (A.G.R.) at several sites. It is also working in collaboration with the Central Electricity Generating Board, on detailed design and safety studies for the introduction into the U.K. of the Pressurised Water Reactor (P.W.R.) system, at Sizewell 'B'.

A programme of European collaboration has now been launched to develop the Fast Breeder Reactor (F.B.R.) and NNC is engaged with others, in the design of fast reactor demonstration plants to be built in France, Germany and the U.K.

The Company is actively involved in a variety of nuclear and related projects, other than power stations in the U.K. and throughout the world, and so can offer a wide range of challenging tasks in a high technology field.

There are currently vacancies for several posts in NNC design teams at: Whetstone, Leicestershire, and Knutsford and Risley, Cheshire for suitably qualified engineers and scientists seeking to extend or consolidate their experience in the following areas:

SYSTEMS ENGINEERS AND SAFETY ANALYSTS
PLANT DYNAMICISTS AND CONTROL ENGINEERS
RADIATION AND RADIOLOGICAL PROTECTION ANALYSTS
OPERATIONAL ANALYSTS
ENGINEERS, *with experience in mechanical handling, including the design of refueling equipment.*
PIPEWORK ENGINEERS, *familiar with high pressure systems and pipework support structures.*
In addition, Engineers experienced in the design, specification and selection of valves.
C & I ENGINEERS, *with experience in Control Systems, Logic Equipment, Process Instrumentation, Microprocessor Applications, Data Handling and Presentation.*
CABLING ENGINEERS
QUALITY ASSURANCE ENGINEERS, *for the management of Q.A. audits.*

Applicants for the above positions should be qualified to degree level, with a minimum of 5 years experience in the appropriate discipline.

Where applicable an excellent relocation package will be offered including agents and legal expense fees, plus removal costs.

Candidates who wish to apply for the above vacancies should write/telephone for an application form (quoting reference no. R073/DT) to the following address:
Mr. K. A. Sykes, National Nuclear Corporation Ltd., Warrington Road, Risley, Warrington, Cheshire WA3 6BZ.
Telephone: Warrington (0925) 51291 ext. 288/337.

NNC
National Nuclear Corporation Limited

SIEMENS

Electronic Instrumentation Sales Engineer

A ground floor opportunity for an Electrical/Electronic Engineer in a business building role

Top-flight rewards — **Company Car**

Siemens is one of the top five electrical and electronic engineering organisations in the world, spending daily around £4m on research and development. This speaks volumes for the pedigree behind the comprehensive range of highly developed electronic measurement instruments and diagnostic equipment, marketed by our Control and Instrumentation Unit based at Congleton in Cheshire. It also underlines the importance of a newly created position within the team dedicated to fully exploiting a rapidly expanding market.

Our determination to grasp the opportunities the marketplace offers will call for the total commitment of a self-motivated Electrical/Electronic Engineer who can combine the qualities of relevant technical expertise with the business acumen necessary to maximise our sales drive.

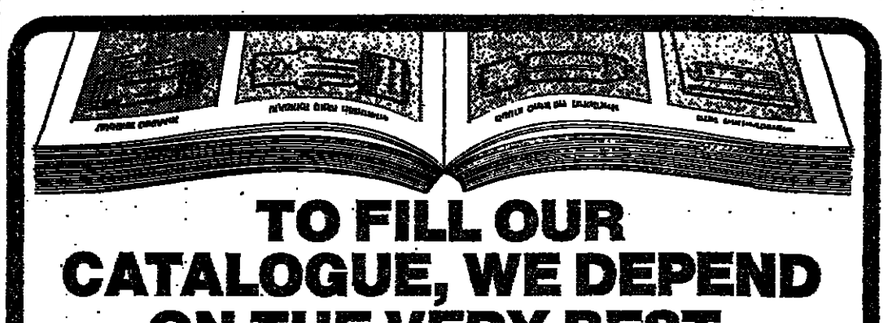
Based at our Power Engineering Headquarters at Congleton you'll enjoy a free-ranging autonomous role involving extensive travel around the UK with the full support of our technical and administrative facilities.

To equip you for the success which will guarantee your further career progress we'll provide appropriate product training, with regular updating both here and in Germany. This will rapidly make you an expert in the field, and enable you to contribute towards new products and product development. For someone able to make technical presentations at all levels of management and aiming to make their mark, this represents a definitive challenge.

The remuneration package reflects our desire to recruit only the best, with a competitive salary and an attractive range of benefits including a non-contributory pension scheme and generous relocation assistance will be provided where appropriate.

To develop your career to the fullest potential, please write or telephone for an application form to Andrew Fletcher, Deputy Personnel Manager, Siemens Limited, Siemens House, Varey Road, Congleton CW12 1PH. Tel: (0260) 278311 ext 150. Please quote ref 103/441.

Siemens, where the future happens first



TO FILL OUR CATALOGUE, WE DEPEND ON THE VERY BEST.

Use your specialist electrical or electronics engineering experience to define our new product ranges as a Marketing Engineer

Our catalogue of over 10,000 electronic and electrical products is ever growing and expanding to keep us ahead as Europe's leading distributor.

Teams of engineers, each responsible for specialist product categories, keep abreast of market requirements and new product innovations and control the introduction of new lines into the catalogue.

Two additional engineers with commercial awareness are now needed to become fully involved in market research, product and vendor selection, technical evaluation, pricing, cataloging and final presentation to the sales force, always ensuring that our range reflects the changing needs and pace of the industry.

Housing/Packaging of Electronic Equipment

You will be aware of the whole spectrum of electronic equipment packaging, from component/board level to system cabinets. Working closely with suppliers, your experience should include areas such as metal and plastic forming techniques, enclosure design, racking systems, panel hardware, prototype printed circuit boards and wiring systems.

Your background could currently be with a housing manufacturer, or with an OEM where responsibilities include both design/development prototypes and final production housings.

A good working knowledge of national and international equipment standards would also be of benefit.

Electrical Products

As well as our comprehensive electronics business, our catalogue contains a growing range of electrical equipment. A practical electrical engineer is now needed with sound experience in the design, development and specification of industrial electrical contract installations, control panels and lighting systems. Knowledge of motor control gear, switchgear and related products, industrial lighting, terminal and connector systems is essential.

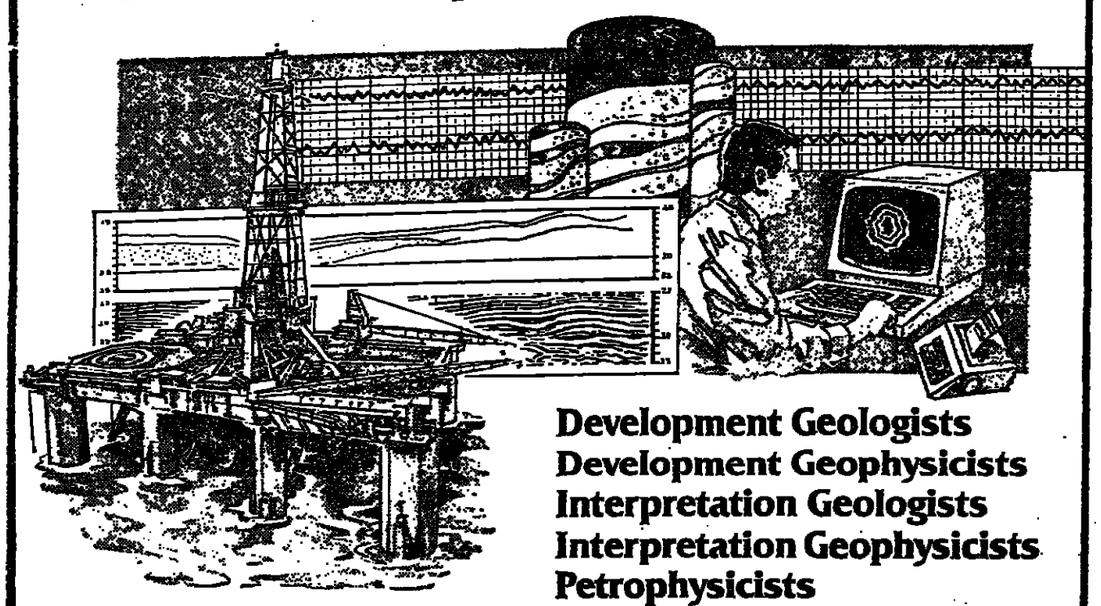
For HNC level engineers, we offer a negotiable salary of c.£11,000, pension, private health insurance and generous relocation expenses to this attractive rural, but central location, with excellent recreational facilities on hand.

Please write, with full career details to Mrs M.A. Ludbrook, Senior Personnel Officer, RS Components Limited, PO Box 99, Corby, Northants, NN17 9RS.

RS Components Limited

Geologists, Geophysicists and Petrophysicists

Broaden your horizons in Oil and Gas Exploration & Development



Development Geologists
Development Geophysicists
Interpretation Geologists
Interpretation Geophysicists
Petrophysicists

Conoco—a subsidiary of the Du Pont company—has an enviable reputation for success and innovation in oil and gas exploration, development and production.

We have a strong acreage position, both onshore and offshore in the UK, Europe and Africa, and a positive approach to evaluating open acreage. We operate the Hutton and Murchison oilfields and two major gas fields—Viking and Valiant—with a third currently under development.

The continuing growth of our activities has created the above opportunities at our London offices for highly motivated individuals at various experience levels, but with a minimum of three years in the oil industry.

Our explorers have a database of over ½ million kms. of seismic and several hundred wells on which to develop new exploration plays using the very latest computer-aided interpretation methods. In addition, they have access to a multi-national exploration and research organisation to provide state-of-the-art back up for their ideas.

Interpretation projects range from detailed 3-D interpretations to regional stratigraphic evaluation of complete depositional systems and acreage evaluations. Emphasis is placed on the integration of geological and geophysical interpretation.

The opportunities to build on your skills and experience working on a variety of challenging projects are considerable: so too are the opportunities for advancement, both at home and overseas. We also provide training in advanced techniques.

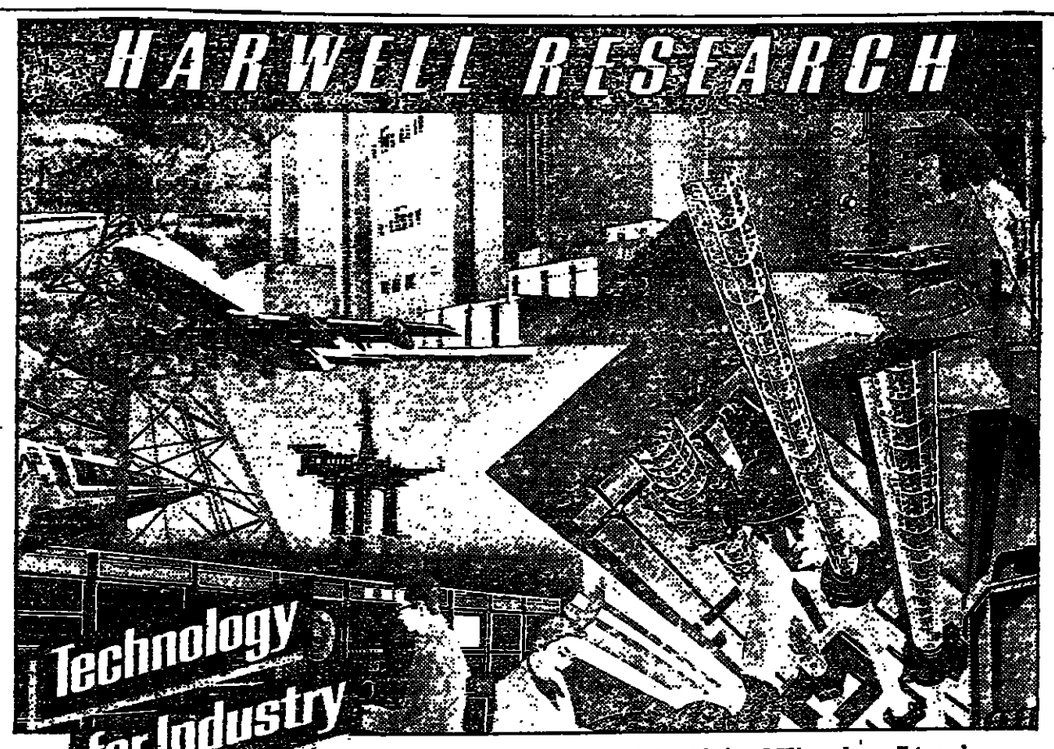
Salaries are competitive and designed to reflect experience. Our attractive benefits package includes non-contributory pension scheme, optional stock purchase plan and generous relocation to the London area, where appropriate.

Please telephone (01-730 7584/7749 at any time) or write in the first instance for an application form to Ian White ref FA/93, HAY-MSL Selection and Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

conoco — **The Energy Company**

CONOCO (UK) LIMITED

HARWELL RESEARCH



The Harwell Laboratory of the United Kingdom Atomic Energy Authority has become one of the largest and most diverse contract research laboratories in Europe. Building on the skill and experience amassed in its work on the civil nuclear power programme, Harwell now offers industry a unique research and development service.

In order to continue this transfer of technology and to maintain our continuing research programme in the field of nuclear power, we are looking for a number of able scientists and engineers.

ENGINEERS

Professional or graduate mechanical, electrical, chemical, biochemical and electronics engineers are required:

To work in areas as diverse as robotics and remote handling, instrumentation and power distribution.

As project engineers involved with assessment, design and development.

To assist in the operational management of Harwell's materials testing reactors.

For the design and optimisation of chemical engineering processes. There are also opportunities in the commercial application of biotechnology.

As project engineers on a variety of novel materials projects.

ENERGY TECHNOLOGISTS

To act as project managers on energy research, development and demonstration projects.

SCIENTISTS AND ENGINEERS FOR MARKETING

To provide commercial support to research teams, assess customer requirements, appraise new technical programmes and negotiate agreements.

SCIENTISTS

Physicists, chemists, metallurgists, health physicists, materials scientists and electronicists are needed:

To provide radiological protection assessment and operational services to the Harwell site.

For research into all aspects of the nuclear fuel cycle.

To provide a service to industry and local government in such areas as landfill research, waste management planning and modelling, hazard assessment and reclamation of contaminated land.

To work on the design of novel instrumentation techniques.

For materials research work, for example, into fracture processes, the development of catalysts or novel inspection techniques.

COMPUTER SCIENTISTS

To work on one of the largest scientific computer installations in the country, including IBM 3084Q, CRAY S/2200 and DEC VAX computers, with an extensive communications network.

Harwell offers an excellent recruitment package including competitive starting salaries, generous contributory pension scheme and leave arrangements and, where appropriate, relocation assistance.

To learn more about Harwell please write to Miss J A Mason, Recruitment Branch, Harwell Laboratory, FREEPOST Oxon OX11 0BR

Please send me details of opportunities at Harwell in:

HARWELL

SENIOR OFFSHORE ENGINEERS

The Ocean Services Division of Fluor (G.B.) is a major force in the offshore industry and we owe much of our success to a positive approach and to our international reputation for reliability and quality. Due to a continuing increase ig our workload we are seeking experienced offshore personnel at senior and principal engineer level in the following disciplines:

Corrosion/Offshore Metallurgist

Experience of offshore production platforms, pipelines and terminals

Structural

Engineering and design of offshore structures, terminals and harbour facilities

Offshore Piping

Layout and piping for topside facilities with knowledge of pipe stress

Electrical

Design of power generation and distribution systems involving high, medium and low voltage systems

Pipeline

Submarine pipelines, subsea tie-in and riser analysis

Subsea

Experience related to engineering and equipment and controls

These challenging positions will be well rewarded in proportion to their significance. Further real career advancement would be anticipated within this large international Company.

Please write enclosing full career details to the Personnel Department, Fluor (G.B.) Ltd., Euston Square, P.O. Box 309, London NW1 2DJ, quoting reference number OSD 1.

FLUOR

DESIGN ENGINEER

YORKSHIRE

We require a Design Engineer for new generations of packaging machines which work at high speed and high efficiency in the factories of the world's major food manufacturers.

The successful applicant will be aged 28-35, with a degree or equivalent qualification, who can interface mechanical design of such equipment with electronic control and monitoring systems. You will lead a small design group and be responsible for new projects from outline design through to field trials of prototype equipment.

Design experience in a similar field is desirable, and familiarity with microprocessor and PLC based control systems and CAD would be advantageous. Working conditions are excellent in a modern office and factory with good career prospects and the usual big company fringe benefits.

Please send full C.V. which will be forwarded to our client unopened.

To D.E.18824, Daily Telegraph, E.C.4.

Product Design Engineer

Circa £9,000

TALBOT, a member of the Portals Water Treatment Group, is a market leader in the design and supply of water service connections in the U.K. and many other countries.

To maintain our execellent performance we wish to appoint a Product Design Engineer. The applicant will be qualified to honours degree standard and hold graduate membership of the Institute of Mechanical Engineers. Practical knowledge of metal and plastics design and fabrication techniques is essential. The successful applicant will design new products to meet specified market requirements, requiring a high degree of drive to achieve end results through engineering and inter-personal skills.

This new position provides an ideal opportunity to join a small successful Company, and to play an important role in shaping our future, and developing your own career.

Location, Winchester. Starting Salary £8,000-£9,000 depending on experience, plus an excellent package of ancillary benefits.

Please write in the first instance with full C.V. to:
Managing Director,
F. W. Talbot & Co. Ltd.,
Winnall Valley Road, Winchester,
Hampshire, SO23 8LL.

EXCITING CAREER OPPORTUNITIES IN HIGH TECHNOLOGY MANUFACTURING

FOR GRADUATES IN ENGINEERING OR THE PHYSICAL SCIENCES

Challenging opportunities for well qualified graduates seeking to develop their careers in industry are offered through the Teaching Company Scheme. Successful applicants will be offered 2 year appointments in a university or polytechnic department but will work full time in a manufacturing company under joint academic and industrial supervision. These posts will entail working in progressive areas forming part of companies modernization and development Programmes. Typical projects include the introduction of new technology, CAE, production management, product and process development and technical marketing. The posts should form the basis for accelerated career development possibly within the partner company. The vacancies will be arising from the establishment of new academic/industrial partnerships within the Teaching Company Scheme. There are currently over 160 such Programmes in the Scheme many of which involve internationally known companies. Through these partnerships the Scheme aims to improve companies manufacturing performance, extend the academic institutions teaching role and develop potentially high calibre managers.

VACANCIES
These are vacancies arising throughout the year as new partnerships (Programmes) are formed. Applications will be held on a central register for 3 months and Programmes in the process of recruiting will contact those applicants they wish to interview. You will be asked to state in your application whether there are any companies to whom you would not wish your details to be forwarded. You may also indicate any geographic preferences.

SALARY
Competitive for the industry concerned.

AGE
Up to age 28.

QUALIFICATIONS
A first or upper second class degree in engineering or the physical sciences. Applicants are normally expected to have at least one year's industrial experience although in some cases this may not be necessary.

TEACHING COMPANY SCHEME — SCIENCE AND ENGINEERING RESEARCH COUNCIL AND DEPARTMENT OF TRADE & INDUSTRY

If you have the right experience and qualifications and wish to be considered send for further details and an application form quoting reference SERC/6 to:—
The Teaching Company Directorate Science and Engineering Research Council
North Star Avenue, SWINDON SN2 1ET
(0793) 26222 EXT 2335

Would you like to join a National Finance Company that is really expanding?

Facts
Each year we have
* grown in size
* made more profit
* promoted staff
* opened branches

As part of our continued expansion we intend, before our financial year starts on 1st April 1985, to appoint a substantial number of experienced
NEW BUSINESS REPRESENTATIVES
and
BRANCH ADMINISTRATORS.

If you have the relevant experience and want to join a progressive company where initiative and hard work are recognised and rewarded, then you could be one of the successful applicants.

The positions carry excellent remunerative packages and Representatives will be supplied with a car.

Vacancies exist throughout the U.K. and are open to applicants of either sex, age 25 to 55, providing they have the necessary finance house experience.

Interviews will be held locally, but in the first instance please write in the strictest confidence giving full c.v. to Mr. D. Whittick, Administration Controller, General Guarantee Corporation Limited, Ambassador House, Brigstock Road, Thornton Heath, Surrey CR4 7JG.

General Guarantee
FOR MORE OF THE THINGS YOU WANT

Part of the Great Universal Stores Group whose net assets exceed £1.1 billion.

General Manager

(Container Industry)

£ negotiable + company car

Container Repairs Limited, part of a major container shipping group, is a leading operator in the container and trailer repair industry throughout the UK.

We now seek to appoint a General Manager to head this rapidly developing enterprise. Reporting directly to the Board of Directors, the post holder will be responsible for all aspects of the Company's operations and will be expected to consolidate and extend the commercial viability of this expanding undertaking. They will also be required to develop the present scope of the company's activity.

To achieve the demands of this challenging position, applicants must possess a high level of managerial ability and have a proven track record in a profit centred commercial environment. They should also be accustomed to exercising budgetary controls and be capable of instituting comprehensive policies on such matters as costing, marketing, sales and capital expenditure.

This position will be based at our Head Office in Southampton, although it will involve extensive travel throughout the UK.

The remuneration package for this senior position will include all the usual large company benefits, including a company car. Relocation expenses to the Hampshire area will be paid where appropriate.

Please write or telephone for an application form to:
Mrs. L. Lisney, Container Repairs Limited,
Richmond House, Terminus Terrace,
Southampton SO9 1GG.

Sales Engineer

(MIDDLE EAST)

The company require an individual with initiative and technical ability to join their successful and developing sales team, reporting to the district manager. You will make follow-up visits to clients and endusers to advise on technical matters and prepare quotations. Applicants should have a mechanical engineering background, preferably a knowledge of the rotating equipment industry and should also have the following:

(1) Experience of travel in the Middle East.
(2) End user contact experience.
(3) Qualified to O.N.C. mechanical minimum, but H.N.C. preferred.

Attractive salary will be offered and is negotiable.

In the first instance, please forward basic details and C.V. for the attention of Mr. W. S. Bryan at North House, North Street, Carshalton, Surrey SM5 2HW.

A direct line to the executive shortlist

The one who stands out

MERRION

SALES PROFESSIONALS

London and Home Counties area

Merrion, based in London NW2, has carved out a unique market for high value, new technology video information systems, and in the last 2½ years has experienced a dramatic expansion.

As a result, Merrion is seeking top calibre sales professionals, to cover London and Home Counties. Able to work under their own initiative to create both new business and success in selling capital equipment, at director level. Full product training will be given to help you sell this exciting new concept.

The package includes a basic salary with excellent additional commission structure, a company car and business expenses. Present average earnings are £20,000 per annum.

In addition to your sales ability, we are seeking people with the potential to grow with the company and help develop new projects in the pipeline.

If you feel bound by the price-cutting and commission-trimming in your present market and want to join an enthusiastic, close-knit, specialised and professional team, then write or call:

John Whitehouse on 01-450 2844
Merrion, Cricklewood Lodge
1, Cricklewood Broadway, London NW2 3JX

NEW HYBRID PLANT

Key opportunities in design and manufacture of hybrid circuits using surface mount and thick film technology under full CAD/CAM.

Southern Home Counties

ALLEN-BRADLEY

Factory automation and telecommunications are driving the electronics industry toward greater packing density, better reliability and lower cost. The hybrid circuit and growing range of surface mount devices together offer unique cost effective solutions to circuit designers, as the cost and minimum order quantities of custom built, densely packed, integrated circuits rises. As a consequence the hybrid and the surface mount PCB's will dominate circuit solutions of the future.

Now, with a major investment and growth programme in this market, our client Allen-Bradley Electronics, part of a major US multinational and a world leader in quality electronic components, is expanding significantly its hybrid production capability and establishing a new hybrid circuit plant in an attractive Southern Home Counties location. Operational in June 1985, the plant will be totally computer driven, flexible and fully automated. State of the art equipment will be installed for thick film circuit manufacture, robotic assembly and automatic test. Subsequently other manufacturing elements will be added to establish an integrated electronic packaging operation which will be one of the most advanced of its type in Europe.

Manufacturing Manager
c.£20,000 + car

The most senior appointment and a platform for development which entails total profit accountability for the run up and operation of the plant, with emphasis on the development of a plant culture in which talent will flourish. Specifically there will be close involvement in sales and marketing, responsibility for the manufacturing programme and the integration of advanced quality and materials management systems. Degree qualified candidates must demonstrate a record of team leadership, problem solving and achievement in production management, in electronics or a comparable automated, high tempo, progressive manufacturing operation. *Ref: 42572/DT.*

In this instance all applications will be forwarded directly to our client Allen-Bradley Electronics for their immediate consideration.

Chief Engineer
c.£18,000

Accountability in this vital position covers all product design and process engineering in the new plant and involves essential liaison with sales and marketing, applications engineering and customers. Degree qualified in Electronics or a closely related discipline, the successful candidate will have wide based knowledge and experience of product design, manufacturing engineering and plant layout, in a computer driven, automated manufacturing and assembly facility. Experience of thick film technology and surface mount techniques would be distinctly advantageous. *Ref: 42573/DT.*

Product Development Engineer
c.£18,000

The role carries overall responsibility for all product and process development. The appointee will bring together a team of well qualified specialists and, in liaison with R & D and marketing, will initiate and manage development programmes from inception to implementation. Responsibility will also cover all new product introduction. Essential requirements include a degree in Electronics together with design, R & D and product development experience in passive or active electronic components. Previous close involvement in surface mount technology and circuit applications would be particularly beneficial to development prospects. *Ref: 42574/DT.*

Software Systems Engineer
c.£15,000

This key position carries responsibility for preparation and commissioning of all software associated with the extensive computer control of manufacturing processes. Age 25+ and qualified to degree level (in Electronics, Physics or Computer Science) candidates must be experienced in software preparation for industrial/process control applications, including supervisory data acquisition on distributed systems. The appointee will also be closely involved in hardware specification. It is a role giving a high degree of individual freedom, an oversight of all plant operations and full accountability for the success of software projects. *Ref: 42575/DT.*

Circuit Design Engineers (2)
£12,000 — £14,000

Qualified to degree or HNC level in Electronics, candidates should have 3/4 years' experience in analogue and digital design, ideally involving thick film circuits. They will form a key part of the plant team and be specifically responsible for custom design of thick film resistor networks and hybrid circuits. Development prospects for able designers with leadership skills are excellent. *Ref: 42576/77/DT.*

Buyer/Materials Controller
c.£14,000

The person appointed will report to the Manufacturing Manager with full responsibility for materials planning, procurement, scheduling and inventory control. This is a sharp end role which impacts directly on plant efficiency and calls for a high achiever with direct experience of purchasing in the electronic components market place. A close practical understanding of on-line computerised materials management systems (including MRP II) is essential. *Ref: 42578/DT.*

These are clearly exceptional greenfield opportunities for professionals with a high degree of initiative and self motivation. Strong team players and high achievers who meet the technical criteria specified and also have the necessary vision, resourcefulness, commercial and management attributes, will be able to progress significantly in this major international organisation well beyond the initial roles. The employment benefits are excellent and relocation assistance, where required, will be comprehensive.

Male or female candidates should immediately forward a comprehensive cv or telephone for a Personal History Form quoting the appropriate reference number to *G. T. Walker, Hoggett Bowers plc, Sutherland House, 5/6 Argyll Street,* LONDON, *W1V 1AD.* Tel: 01-734 6852.

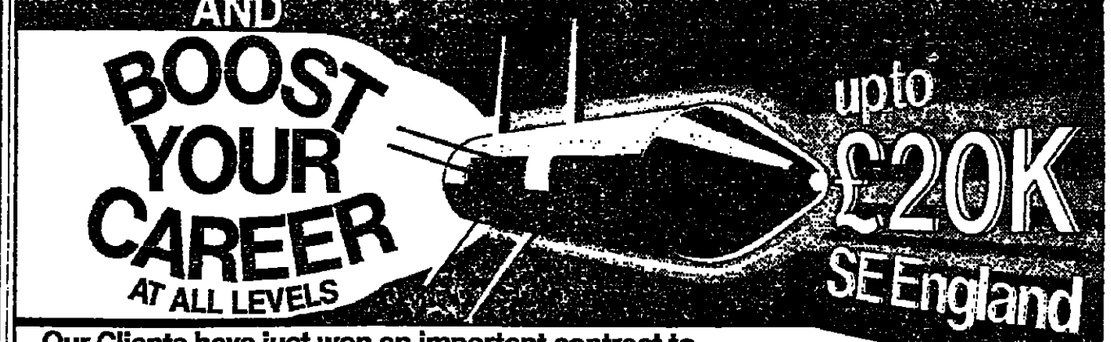
Participate in the Early Stages of an

EXCITING NEW WEAPONS SYSTEMS PROJECT AND BOOST YOUR CAREER AT ALL LEVELS



Our Clients have just won an important contract to develop the new warhead for the multilaunch Rocket System

Your expertise in any of the following or allied fields will qualify you for a flying start with one of Britain's most progressive manufacturers of sophisticated defence equipment who along with other companies in France, Germany and America will develop this highly versatile weapons system.

Microwave Antenna Design, Automatic Test Equipment, Platform Engineering, Algorithm Development, 6 DOF Modelling, Millimetric Radar, Signal Processing.

Genuine opportunities are offered for ambitious engineers at all levels. Many teams are in their formative stage and our clients will be particularly interested if you are looking for more responsibility. There may also be opportunities for working on assignment in the USA.

Salaries and allied benefits are highly competitive and assistance will be given with relocation where necessary. These new and important posts are open to Graduates in Physics or Engineering with at least three years experience gained through working in the Defence, Electronics or Aerospace industries.
Other more junior openings are also available.

To find out more and obtain an early interview please telephone John Prodger in complete confidence on Hemel Hempstead (0442) 47311 during office hours or one of our duty consultants on (0442) 212630 evenings and weekends. Alternatively write to him at the address below.

THE INTERNATIONAL SPECIALISTS IN RECRUITMENT FOR THE ELECTRONICS, COMPUTING AND DEFENCE INDUSTRIES
25-33 Bridge Street, Hemel Hempstead, Herts., HP1 1EG.

Advance your career in Telecommunications Network Engineering

South Manchester Salaries up to £13,200 p.a.
(Inclusive of Shift allowance)

Shell

Shell U.K. Limited, operates its advanced telecommunications network and computing centre from a base in South Manchester. The network uses analogue and digital circuits to carry computer data, electronic mail, telephone, telex and facsimile traffic both to and from sites throughout the U.K. and Europe.

Included on-site are broadband local area network systems with access to national and international services via PSS/IPSS.

The Company currently has several vacancies for Engineers to maintain the network and diagnose faults.

Applicants should have a minimum qualification of HNC Electrical/Electronic Engineering or equivalent, together with several years practical experience in data communications. Opportunities also exist, at a lesser starting salary, for young graduates wishing to be trained within telecommunications fault finding and diagnosis.

The ability to work quickly and accurately is essential and considerable interpersonal skills are required.

Attractive salaries are offered dependent upon qualifications and experience, plus an additional allowance for the present 5 day shift system. There is a first class pension scheme, 5 weeks annual holiday and subsidised lunches are available within our excellent new sports and social complex.

Relocation expenses will be paid where applicable.

Candidates, male or female, with the necessary qualifications and experience should 'phone or write for an application form to:

Shell U.K. Limited,
Ref. UKPCD/621,
Manchester M22 5SE.
Telephone: 061-499 4454.

Outstanding Development Prospects for Renishaw and you

Development Engineer

To assist in the development of a broad range of new mechanical and electro-mechanical products in the field of manufacturing technology. Duties will include the build, test and evaluation of prototypes and development of new products to production standard. The work will involve close liaison with Design and Manufacturing departments as well as some contact with customers and suppliers. Specification and procurement of test and development equipment will also be required. Applicants should have BSc (Hons) in Mechanical Engineering and a minimum of 3 years experience in a modern technology engineering environment. Self-motivation and the ability to work in an organised manner with minimum supervision are essential.

Process Development Engineer

To specify, evaluate and implement new manufacturing processes and equipment for the production of a wide range of new products ranging from small electro-mechanical assemblies to complete machine tools. The prime function of the job is to ensure that when new products are ready for production, all aspects of the manufacturing and assembly processes have been proved-out.

Qualification to BSc (Hons) level in Production or Mechanical Engineering with a comprehensive knowledge of modern materials, processes and manufacturing equipment are essential. The job will involve very close liaison with Design and Development Engineers and the ability to communicate clearly and to operate in a team environment are essential.

These posts offer direct personal involvement in some of the most interesting and exciting development programmes anywhere in the world – including high precision robotics and flexible manufacturing systems.

Renishaw has a well deserved reputation for its competitive edge and our salary levels and benefits package (which includes generous relocation assistance) reflects this.

For a company application form please write or telephone:- R.S. Roberts, Group Personnel Manager, Renishaw plc, Gloucester Street, Wotton-under-Edge, Gloucestershire, GL12 7DN. Telephone (0453) 842533.

RENISHAW

PRODUCT DEVELOPMENT MANAGER

Industrial Equipment — ***c.£15,000 + Bonus + Car***

Our Client is a successful Midlands-based engineering company. Succession planning makes it necessary to appoint a Product Development Manager whose brief will include product design and development plus close involvement in uprating manufacturing plant and equipment. You will have responsibility for a small engineering team.

You should be aged 28 to 45, an engineering graduate, with at least five years' product design and development experience.

It is likely that industrial design will have formed a part of your degree course or post-graduate training.

A substantial part of your experience should have been gained within the engineering industry, ideally in high volume metal forming. You will need to demonstrate your abilities in generating new products, developing existing products, and operating as a commercially aware manager.

Basic salary will be around £15,000 with benefits including bonus, car, pension scheme, private medical cover, and relocation if applicable.

You should write giving full personal and career details, quoting reference 63/6523, listing any companies to whom your application should not be forwarded, to:
Ken Pitcher,

RSG
Rex Stewart Granger (Birmingham) Limited
The Old Brew House, Castle Bromwich Hall, Castle Bromwich, Birmingham B36 9DX.

SOFTWARE DEVELOPMENT TEAM LEADERS

Are you looking for a job with a challenge? Do you have the necessary skills and experience? Are you currently earning between **14-15K? — then read on.**

We are specialists in the design and manufacture of high integrity control systems using state of the art technology. Our exciting development of advanced "next generation" control systems requires three senior level real time Designers who will report directly to our Technical Manager.

Ideally you will have had at least three years SYSTEM DESIGN/IMPLEMENTATION/TEAM LEADERSHIP experience on large scale real time software systems.

Experience of the following would be an advantage:—

PLM/PASCAL/ASM 86
MTOS
INTEL 8085/86/186

Previous experience with a formalised structured design methodology is essential.

To find out more join us for an informal drink and chat at these premises any time between 5.30-8.30 on Tuesday 12th February or alternatively please send detailed CV for the attention of:—

Mrs Y. Moore,
Personnel/Administration Manager,
GP-ELLIOTT ELECTRONIC SYSTEMS LIMITED,
8 Deer Park Road, Merton,
London SW19 3TU.
Tel: 01-543 1241.

GPE ELECTRONICS

Vickers Systems is a worldwide market leader in electro-hydraulic components and systems. Due to continued success with our industrial controls range in Europe, we are planning to make significant further investment in our U.K. manufacturing facilities at Havant, Hants. An advanced manufacturing technology team is being established to spearhead this programme, which could exceed £10 million.

Manufacturing Engineer Manager

Reporting to the Operations Manager, you will be responsible for planning and implementing manufacturing engineering strategies for flexible integrated manufacturing systems.

A degree in Production Engineering or related discipline is a pre-requisite for the job coupled with experience in metal cutting industries with emphasis on CNC lathes, machining centres and automated assembly and storage systems. A knowledge of the techniques used in the assembly and test of electronic products would be an added advantage.

Proven leadership and man-management skills plus the ability to communicate, both written and orally, to all levels of Management is essential.

A company car will be provided.

Principal Production Engineer

Reporting to the Manufacturing Engineering Manager, you will be responsible for projects related to the flexible Manufacturing system, new product introduction, new machine selection and justification and cost reduction programmes. Minimum education level is HNC in Mechanical/Production Engineering with minimum of 5 years' relevant experience which will include the application of CNC and FMS Technology to the production of high volume, precision engineered components.

Previous applicants for this post need not re-apply.

Systems Project Supervisor

Reporting to the Manufacturing Engineering Manager, you will be responsible for manufacturing software strategy for advanced manufacturing systems. CAD/CAM and mini/micro FMS systems, provide direction for existing and future trends in computer integrated manufacturing and give training in these advanced systems.

Senior Industrial Engineers (Temporary)

A limited number of temporary positions are open for suitably qualified and experienced Production Engineers for a variety of tasks associated with process planning, machine tool methods, and plant layout plus machine tool specification, justification procurement and installation arrangements. HNC/ONC education is essential coupled with relevant experience.

The salary and benefits package is impressive, commensurate with those expected from a major company. Generous relocation assistance to this most attractive part of the country will be offered where appropriate.

Please apply in writing to Sam Davenport, Personnel Department, Vickers Systems Ltd., P.O. Box 4, New Lane, Havant, Hants. PO9 2NB.

Executive Search and Selection Consultants

BIRMINGHAM, CARDIFF, GLASGOW, LEEDS, LONDON, MANCHESTER, NEWCASTLE and SHEFFIELD

Sales & Marketing Director

Volume Engineered Products
North West, to £25,000 + bonus + car

This progressive and successful company, part of an international group, is currently embarking upon a significant change in its general business strategy, and in particular, its marketing approach. Employing approximately 700 people and with an annual turnover approaching £25m, of which a high percentage is exported, the company manufacture and distribute a broad range of electrical/mechanical products. Key responsibilities are for formulating the company's sales and marketing policies and with the assistance of a large well structured department, ensuring that the long term business objectives are achieved. The ideal candidate will be aged around 35-40, qualified to degree level, with a strong and successful marketing background within a fast moving engineering environment. Benefits are in accord with such a senior appointment.
G. Sable. Ref: 29605/DT. **061-832 3500,**
St. John's Court, 78 Gartside Street, **MANCHESTER,** *M3 3EL.*

General Manager

Glass Products
Yorkshire, package c.£20,000 + car

This is an excellent opportunity to take overall responsibility for the management and development of a successful, autonomous division (turnover £5m) of a major National group of companies. The company merchandises and distributes a wide range of high quality glass products to the home improvement market, construction industry, and architectural specifiers. Reporting to the Divisional Managing Director, you should be commercially aware, have the ability to motivate and communicate effectively at all levels, and be adept at recognising and capitalising on new business opportunities. Candidates should be aged 30-45, preferably qualified to degree level and have a background in merchandising and distribution. The will and determination to succeed in this cost competitive environment are essential personal qualities. Benefits are as expected from a major group and include relocation expenses where necessary.

7 Lisbon Square, **LEEDS,** *LS1 4LZ.*

Sales Training Professional

Location open, to £17,000 + car

Our client is an expanding subsidiary of a major international blue chip organisation, marketing a diverse range of high value, technologically advanced systems and products to a wide variety of end users and specifying authorities. To maintain their expansion they now wish to appoint a Sales Training Professional to develop and implement a comprehensive training programme for their 150+ specialist sales staff. You should have wide knowledge of the sales and marketing function and at least 2-3 years' experience of sales training within a large company that has a well developed sales training Function. Familiarity with the latest training techniques, including role playing and formal classroom presentations, is essential. The comprehensive benefits package is as expected of a major organisation and includes relocation expenses, if required.
P.A. Adderley, Ref: 11633/DT. **01-409 1610,**
10 Hanover Street, **LONDON,** *W1R 9HF.*

Chemical Engineers

South Wales, excellent salaries

An international chemical company with a high investment programme needs high calibre young engineers with potential and ambition. Engineers are needed for design work in an on site design group, to support maintenance of several plants and general process improvement. Candidates in their mid 20's should have a good degree working towards chartered status, with 2-3 years' experience in process improvement or project work. There are very good employment conditions including non-contributory pension and excellent relocation assistance.
J.H.E. Davies. Ref: 37399/DT. **0222-700633,**
3A Hickman Road, Penarth, **CARDIFF,** *South Glamorgan, CF6 2AJ.*

Industrial Relations Officer–Media

North of England, c.£13,000 + car

This is a rare opportunity for career development within this exciting very attractive leading media organisation and will appeal to those seeking real exposure to the many facets of IR. Acting as number two to the Head of IR you will need to have the personal presence, maturity and communications skills to work effectively in this multi-union environment. Candidates should be aged 26-30, be degree qualified and have from around 3 years' IR experience preferably gained within a professional, blue chip company either in manufacturing or a service industry. A well balanced tactful and totally flexible personality will be needed to suit the clients style. An excellent range of benefits is offered including relocation expenses.
P.A. Adderley, Ref: 11630/DT. **0532-448661,**
7 Lisbon Square, LEEDS, LS1 4LZ.

These positions are open to male or female candidates. Please telephone for a Personal History Form to the relevant office, quoting the appropriate reference.

ENGINEERING OPPORTUNITIES

SUSSEX — £ NEGOTIABLE

APV International Limited is a world leader in the design and manufacture of contracts providing automated process plant for the dairy, brewery, food and pharmaceutical industries.

In order to strengthen our technical team we wish to recruit for the following positions. All require formal engineering or computing qualifications and relevant background experience.

Automation Development Engineer

To develop software for new products, intelligent interface cards and new packages for a micro computer executive operating system.

Proposals Engineer

To engineer and prepare technical specifications and estimates for major projects.

Process Engineer

To undertake detailed process design for the preparation of proposals and contracts. Site commissioning both in UK and overseas can be involved.

Technical Programmer

To join our computing support team working on a wide range of applications covering inter-active graphics, data base and engineering design, using mini and micro computers. Languages used – Fortran, Basic and Information.

Senior Planning Engineer – FMS

To identify the benefits to be gained from the introduction of advanced manufacturing technology, leading to the provision and implementation of a plant replacement programme using the latest techniques including FMS.

These are key positions and the company offers an attractive negotiable salary, scope for future career development and a range of benefits including relocation assistance expected of a major company within the British owned APV Group.

Do You Offer a Rare Combination of Technical Ability and Management Potential

THE CLIENT

Our client is a respected European manufacturer with a proven track record of successful growth and an enviable reputation in the field of dermatological products. Its major product, which is a brand leader in its country of origin, was launched in the U.K. in the late 1970's and has developed into one of the major O.T.C. products in this market. It has an excellent reputation for effectiveness and acceptability in a range of indications covering a wide base of patients from infants to geriatrics.

In order to accelerate its impressive rate of growth, the company will intensify its promotional effort behind the product in the U.K. in the next few years and a new sales team of 15 professionals will be promoting the product actively to medical and paramedical customers in 1985 and beyond. The continued success of this major brand will provide the ideal platform for new product introductions in the imminent future.

THE POSITION

In order to supervise these increased marketing efforts, a new position of U.K. MARKETING CO-ORDINATOR has been established. The key responsibilities of this senior position will be:-

- *To recommend appropriate marketing strategies and plans for the U.K.;*
- *To co-ordinate promotional activities;*
- *To provide technical customer service back-up to the product;*
- *To liaise with key clinicians and senior health care professionals;*
- *To assess market potential for new products.*

This spectrum of activities allows a health care marketeer to gain broader commercial experience and to develop the all-round skills necessary for consideration for a more senior management role in the company. The salary and fringe benefits package is highly competitive and reflects the current importance of the new post and its envisaged expansion in the future.

THE CANDIDATE

The successful candidate, aged between 25 and 35, will be an experienced sales and marketing professional with a proven track record in the U.K. pharmaceutical/health care or toiletries industries. A minimum of 2 years' product or brand management experience will be required. Moreover, our client is seeking an individual with a degree or equivalent qualification in a scientific or paramedical discipline who has the necessary maturity and ability to structure one's own work with only a limited amount of periodic supervision.

Please telephone John Davies for an application form. Local interviews will be held in mid-February. Please quote ref. J/85.2.

55 High Street, Marlow, Bucks, SL7 1BA
Telephone: Marlow (06284) 75204

Resourcing and Development Specialist

S.W. London — **£12-14,000 + Car**

An operating division of a well-known FMCG company wishes to appoint a Resourcing and Development Specialist for its Production and Distribution Management Staffs. In recent years the Company has transformed the management style which was traditional in its industry, ensuring it continued to be successful in an increasingly competitive market. This new position is part of that process and has been created to cater for the changing needs of the Personnel Organisation.

The Resourcing and Development Specialist will provide a personnel service which will encompass Recruitment, Salary Administration, Development (including the graduate programme) and Training – in fact, most aspects of professional personnel work with the exception of Employee Relations. The scope of the job will be as broad as the encumbent wishes it to be and will suit an innovative individual anxious to consolidate his/her experience.

That experience should include at least 3 years of recruitment and development in a company with acknowledged professional personnel expertise, preferably supported by exposure at shop-floor level. Ideally, candidates should be graduates or IPM qualified.

The remuneration for this position is a salary up to £14,000, a company car, annual bonus, BUPA and other large company benefits. Relocation will be paid where appropriate.

Anyone interested in this position should send full career/salary history details to E.P. Larder or telephone for an application form quoting ref. 87/27.

Production/Technical Development

Coates success depends on developing and manufacturing high technology chemical products which are sold into competitive markets throughout the world.

We know how to develop people to their full potential and we have built a successful £ multi-million international organisation by promoting from within. Right now we need more young talent to support further growth and so have several training opportunities to offer exceptional graduates who can meet the following specification – with a view to appointments in production management or technical development.

— 1-2 years experience in a chemical physical laboratory or in industrial production (paint, printing ink, plastics, rubber or resin industries preferred)
— a willingness to learn the business from the bench up
— a desire to take responsibility in production or technical development early in your career
— a willingness to work overseas if required
— a good degree
— ability to lead by example, a capacity for hard work and a determination to succeed

If your background and experience fit, I will arrange to talk to you and introduce you to some of our managers who have met the challenge. Write with full personal and career details to:- Brian Meadows-Smith, Divisional Personnel Manager, Coates Brothers PLC, Cray Avenue, St. Mary Cray, Orpington, Kent BR5 3PP.

Ferrari Formula

Ferrari Formula, a division of Cartier Limited requires a young and enthusiastic Sales Executive to promote its expanding range of accessories (watches, leathers, pens, lighters, glasses) to retailers throughout the U.K.

Candidates age 25 to 35 will have experience preferably in the luxury goods trade. Outstanding drive and determination are essential.

Attractive salary package, company car, BUPA, and usual fringe benefits.

Please forward detailed CV including present salary to:

P. Leopold Metzger,
Sales Director,
Cartier Limited,
175/176 New Bond Street,
LONDON W1.

PRODUCTION MANAGER DIRECTOR DESIGNATE

SLOUGH, BERKSHIRE

We are a long established Confectionery Company specialising in the manufacture of childrens' sweets for the home and export markets.

We intend to develop our operations through improved efficiencies and product development in our Slough factory.

To assist us in these objectives we require a first class Production Manager (male/female) with experience in the food processing or allied industries. A manufacturing background with strong leadership skills is essential, with practical experience in dealing with the day to day problems associated with a busy factory.

The salary plus car will reflect the importance of the appointment. Good benefits, conditions and a good working environment.

Apply in writing to the Managing Director, Chix Confectionery Co. Ltd, 99 Farnham Road, Slough, Berks. or telephone Slough (0733) 24156.

PRODUCT LINE DIRECTOR–ULTRASONICS

Forward Technology Industries plc is a holding company which owns the leading European industrial ultrasonics Group. Our Group currently comprises:

Forward Ultrasonics Ltd. in the UK,
KLN Ultraschall GmbH in Germany,
Mecasonic Inc in the USA
Mecasonic SA in France.

We wish to strengthen our market position in Europe still further and also to build an effective marketing organisation on a worldwide basis. To carry out this new assignment we are seeking a Product Line Director to assume marketing and commercial responsibilities for the ultrasonics Group.

The candidate should:

—have technical aptitude
—have education to degree standard
—be able to organise and negotiate at top level
—be totally fluent in English and German and preferably also in French
—be between 30 and 45 years old
—be prepared to undertake substantial worldwide travel

The position will be with KLN Ultraschall GmbH based in the Frankfurt area of Germany and the terms and conditions of employment will be commensurate with the importance of this position to our future development.

Please reply in writing only in strict confidence to the address opposite enclosing detailed C.V. and telephone numbers for contact both day and evening.

The Chief Executive,
Forward Technology Industries plc,
Two Pont Street,
London SW1X 9EL.

THEATRE / The Young Vic

Hamlet to treasure

HOWEVER you slice the cake at £3·95 a ticket the Young Vic currently offers the best theatre value in London. They are giving a 3¾-hour Shakespeare "Hamlet"—itself the greatest play in the world—in a clean, vigorous production with an interesting young Prince and a quite remarkable Ophelia at the head of a generally good cast.

The production is in a small house and in modern dress — all uniforms and lounge suits. This diminishes the feeling of an awesomely squalid court and a corrupt Denmark. It domesticates the tragedy to drawing-room size.

The Prince and his sweetheart become discordant moderns. Claudius is less a murderer-king than the unctuous uncle spying on them, and the play scene not at all up to a slap-up ceremony which ends in disaster but a suburban party sputtering out in quarrels and recrimination.

What is lost in grandeur is gained in immediacy. At 30, the blond, hollow-cheeked, strikingly virile Matthew Marsh speaks Hamlet's rôle with the conviction of a barrister in command of his case who occasionally scares the jury with outbursts of calculated anger.

He should guard against monotony of tone. The barograph of his voice varies little up or down. Cadences repeat. Hands in pockets, cigarette in hand, he does not excite—for instance, by giving us the ravaged contempt of a man who can regard himself as slave's offal. In some, he does not "unpack his *heart* with words" only his mind. Yet it is a good mind, and a compelling presence.

At 21, Natasha Richardson (Vanessa Redgrave's daughter) has inherited the family's genius for translating inner disturbance into visible, audible emotion. Her fine-drawn Ophelia, nervously twitching at her oatmeal cardigan, fingers trembling and in tears, awakens more than sympathy.

The dignity of her response, when Hamlet says he does not love her — "I was the more deceived"—sends a pang through the heart. Equally impressive are her spasmodic transitions, in the mad scenes, from bawdy song to gentle *politesse* and then bottomless sorrow. A remarkable debut.

With Michael Cronin's astute, bow-tied Polonius, David Boyce's doubling of First Player and gravedigger, and the warmth of Harry Secombe's son Andrew as Horatio, the director, David Thacker, has here staged the best Shakespeare at the Young Vic for years.

John Barber

Vanessa Redgrave's daughter Natasha Richardson and Matthew Marsh in "Hamlet" at the Young Vic.

TELEVISION / Blott on the landscape

Not such a Sharpe shot

IT DOES NOT take long in Handyman Hall to establish that this is cartoon territory. Sir Giles Lynchwood, M P for South Worfordshire, and his wife Lady Maud sit at opposite ends of a very long breakfast table. He endeavours to hide behind his newspaper and is pleasced to note it has covered "my speech on prison overcrowding." "I suppose you are in favour of it," snaps Lady Maud.

Thus Malcolm Bradbury, who has quite freely adapted Tom Sharpe's **Blott on the Landscape** (BBC-2) as the six-part serial which opened last night, points the finger at an old-fashioned reactionary stereotype of the kind liberals loved to scorn before the Thatcher era began to invest such knights of the shires with a nostalgic glow.

The casting of George Cole as Sir Giles does not quite fit with this. True he is the kind of backbencher whose business interests take precedence over his parliamentary duties. He also looks right. But he should have the sound of the grandee he becomes in Blott's impersonations of him.

Elsewhere the grotesque inflations of Sharpe's original black farce are softened, as they partly have to be, by television visualisation. Stanage Park near Ludlow, doing duty as the monstrous Handyman Hall and threatened by a rogue motorway, actually looks rather desirable. So does its redoubtable defender Lady Maud.

The good therapeutic reasons for wanting to move on, from Sarah Layton of "The Jewel in the Crown" to something completely different, are understandable. But Geraldine James cannot look the huge and hideous, off-Rodin figure Lady Maud is supposed to be. Her face still betrays the sensitivity which a year ago had the nation at her feet.

In updating the story from the mid-1970s to the mid-1980s Bradbury has had to re-invent the uncertain history of the eponymous Blyott. Sharpe made him an ex-prisoner of war who chose to remain the Handyman handyman rather than be repatriated. Here his new past is gradually revealed by monochrome flashback and David Suchet ,wonderfully disguised as ever, does not reject the mannerisms of comic film Nazis.

The script supposes that all politicians, lawyers and bureaucrats are either crooked or silly or both. Against this Establishment team it set an equally ruthless fuedal squirearchy led by Lady Maud. Both sides are manipulated, as if on puppet strings, with anarchic abandon. Sharpe fans may find it funny even without the rude word of the original. For me it also looked, despite Roger ("Auf Wiedershen Pet") Bammord' directorial invention, desperately unfunny.

Sean Day-Lewis

MUSIC / LPO, Brendel, Tennstedt

ALFRED BRENDEL and Klaus Tennstedt began Tuesday night's LPO concert at the Festival Hall, also heard on Radio 3, with no routine account of Beethoven's Fourth Piano Concerto, but a bold and daring one, quite out of the ordinary, with rhythmic emphases taken to an extreme of possibilities and articulation so pronounced that often passages were heard in an unfamiliar light.

In the opening movement, the orchestra found Brendel, at his most waywardly imaginative, hard to follow. Once everyone had settled in, the rewards were unusually rich, nowhere more so, perhaps, than in the second and less well known of Beethoven's two cadenzas, where Brendel—and the composer—seemed to summarise all the originality to be found in the movement.

The moments of lumpiness in that first movement were banished from mind in the stark, beautifully shaped dialogue that is the Andante. Then the Rondo, treated in a spontaneous manner and thus somewhat sectionalised in feeling, brought a sense of incredible freedom possible only to one with Brendel's complete understanding of the thoughts behind the notes. All in all, it was not a conventional or even comfortable reading, yet full of intuitive insights enthralling to hear.

Since Tennstedt conducted Bruckner's Fourth Symphony with the LPO four years ago, he may have even further broadened his interpretation, so that the lulls and climaxes now sometimes inhibit the needs of structure. But it remains a towering performance that wholly comprehends Bruckner's quirky genius in detail and sum, the work's lofty yet [illegible] message amply conveyed, even if Tennstedt allows the spurious cymbal in bar 76 of the finale.

The London Philharmonic's playing yielded little in technical control or sumptuousness to the Berlin Philharmonic in the conductor's record of the work. In particular, conductor and players responded to the awkwardly constructed finale with utter conviction, putting out of mind its disparate nature, and brought a special evening to a triumphant close.

Alan Blyth

BALLET / Diversions Dance Company

MODERN DANCE activity is increasing all over the country and a Welsh group based in Cardiff, Diversions Dance Company, gave a sampling of its repertoire at the **Laban Centre Theatre, New Cross,** on Tuesday night.

It is typical in size, three men and three women with backgrounds of Rambert and Scottish Ballet or London Contemporary Dance Theatre and typicallly their main problem is over choreography. On this showing their creative contribution is not particularly strong.

The home produced works all suffered from conventional dance ideas and an inability to bring variety and development to a composition.

One of the more ambitious, Roy Campbell-Moore's "Quartet" used the third movement of Beethoven's String Quartet in A minor with great solemnity and a lack of any felicitious or inventive parallels between dance and music.

Ann Sholem scored better with "Green Chair, Red Socks." Someone should compile statistics as to how often choreographers have had recourse to a chair or chairs to help them along, and it might be good for everyone if a close season were declared on their use.

Sholem's piece, however, had another element interesting although not fully exploited — a comparison of pace and movement linked with the wearing of green or red socks. A musical collage of old popular songs worked well and the ending was neatly macabre.

"Free Speech" by American guest choreographer Rosalind Newman, who worked with Merce Cunningham and Dan Wagoner before touring her own company, was inevitably the most successful production.

A confident ensemble piece making predictable satirical statements about America with conviction, vitality and experienced control, it displayed the dancers to excellent advantage.

K. Sorley Walker

Four brave faces

FOR artificial light comedy "Natural Causes" at the **Watford Palace** takes some beating. The author Eric Chappell beats his brave theme into pulp. But his company of four, directed by Kim Grant, puts an equally brave face upon it, so that although we cannot believe a word of what they are up to, we can at least admire their resource.

And what are they up to? Well, suicide, mostly. Mostly? Yes. It is a curious situation.

The long-married husband and his girlfriend would like to see the wife, who has money, out of the way. It so chances that the wife has often spoken of suicide.

The lovers, therefore, summon a man "from Exodus" who supplies by appointment and for a fee pleasant, if deadly, poison. This character, played by Michael Robbins in an entertaining manner which reminds us of Max Wall, is engagingly off-hand and observant enough to see what is maritally up.

And the wife, played by Toby Robins, as simultaneously gullible and shrewd (a truly testing role) soon cottons on as well. But not before suggesting a suicide pact to the trusted husband (Ian Lavender) whose character is equally hard to fathom as he tries not to swallow the presumed poison and never really seems to have the heart of a murderer.

Theatrically, the point is that this cast has to stretch its art to breaking point to keep the mildly "black" humour from looking desperately pale; and we must therefore salute them for their efforts. Miss Robins has the most personality and exercises it smoothly. Mr Robbins has the most actable role, as a class-conscious dispenser of euthanasia to the cultured classes.

Mr Lavender, who is supposed to be an author (in Ken Harrison's tome-laden drawing room), looks all too far from home as he mugs his way through an outrageously underwritten role.

It is only fair to say that a lot of people seemed to find the implausibility of the evening mildly amusing—and one is bound, as I say, to respect the players.

Eric Shorter

Jones and Light

NICHOLAS JONES and Gayle Light prefaced the two big sonatas in their cello and piano recital at the **Purcell Room** on Tuesday night with short pieces by English composers. In the first of these, Granville Bantock's "Hamabdil," Mr Jones immediately established his stature as a considerable musician, warm of tone and capable of flexibility in dynamics. This is a soliloquy on a long-drawn sustained line. By contrast, the other introductory work, later in the programme, Lennox Berkeley's Andantino had the fragile elegance of shifting melodies.

In the broad lines of Beethoven's Sonata in D major, Op. 102 No. 2, there was a predominance of the piano part in the first movement and the cellist's definition lacked complete certainty. The Adagio, however, had a true cantabile and the fugal finale was finely balanced. The other major work, Shostakovich's Sontata in D minor, Op. 40, had strength and expressiveness.

David Money

Hanson String Quartet

THERE is more than one example of creative "cribbing" in the music of Bartok, as we were reminded on Tuesday night when the Hanson String Quartet gave a rare performance of Kodaly's Second Quartet in their **Wigmore Hall** recital.

The work's slow movement afforded us a startling foretaste of the central movement of Bartok's Fourth Quartet, which it pre-dates by 10 years, presenting a rich, fully formed poetic vision contained in a passionate improvisatory line and evocative background harmony which was warmly characterised by the players.

If the opening movement adopted for all its pleasant flow a more anonymous tone, the piquant finale brought the work to a vivacious conclusion, and again was performed with relish.

For the rest, we heard Mozart's Quartet in E flat, K.428 and Brahms's A minor, and if the ensemble's intonation was occasionally a little suspect, there was, overall, much to enjoy.

The greater textural weight of the Brahms drew an ardent response, and if tone coarsened a little under pressure in the finale, there was no doubting the urgency of the playing; while the more intimate lyricism which balances the quartet's often turbulent emotion was touchingly presented.

Anthony Payne

Some of these reviews appeared in yesterday's later editions.

Crisis-hit Opera House limited to £12½m aid

By KEITH NURSE Arts Correspondent

THE Royal Opera House, which has already announced an emergency increase from next month in opera and ballet seat prices to preserve its programme. will receiver £12,593,000 from the Arts Council for the 1985/86 financial year, it was confirmed yesterday.

In common with the allocations to the other three national companies, it represents a rise of 1·9 per cent.

Mr Luke Rittner, the Arts Council's Secretary General said: "The minimal increase in our grant-in-aid from the Government prevent us from passing on to these vital organisations a grant which meets the cost of inflation.

"Each of the four national companies is facing its own grave difficulties, of which the Council is acutely aware but is powerless to help resolve. The Council is taking every opportunity to alert the Government to the consequences of such a minimal increase."

The National Theatre, which has already indicated that there will have to be a radical change in the way it operates, is to detail its cut back proposals today.

The National's 1985/86 grant will be £6,705,200, while the Royal Shakespeare Company will receive £4,997,000 and the English National Opera will act English National Opera will get £6,034,500.

The Arts Council also said yesterday that the two per cent. increase for the 12 Regional Art Associations was far from adequate to meet their needs in the coming year.

Share of £23 million

Allocations to the R A A include £1,891,000 to Northern Arts, £1,557,500 to the Greater London Arts and £1,145,000 to West Midlands Arts.

But the associations will receive a share of the £5 million available from the Council's "Glory of the Garden" development.

In Edinburgh, the Scottish Arts Council said it would find it very difficult to manage on the 2·19 per cent. increase in its base grant and it would be considering over the next few weeks how it could make the best use of its available funds.

Art Sales

Dear Valentines as dealers fall for cards

By ALISON BECKETT Art Sales Correspondent

THE finest private collection of Valentine cards to be auctioned ranging from the 18th to the 20th century was sold yesterday at Phillips for for £8,034.

The prettiest and most romantic were the favourites, such as an 1827 puzzle card which unfolded to show hidden verses and was hand-painted with a lovers' knot and cherubs. Estimated at £30-£60, it fetched £160.

American dealers were bidding strongly. One from Texas spending £3,000. The only unpopular cards were the "Black" Valentines with derogatory images and words. Amng the latter an 1870 example made the lowest price of £15.

The collection of 450 cards was sold for a London couple who formed it over a period of 15 years. Other highlights included an 1845 Joseph Addenbrooke paper lace example depicting a young couple with a church scene concealed beneath them whihc realised £110.

£7,800 A SURPRISE
Holes in canvas

At Sotheby's a Harry Hall portrait of a racehorse and its jockey in a rural landscape, painted in 1873, was purchased anonymously for £7,800 in spite of several holes in the canvas.

It had been estimated at £700-£900 but turned out to be the star lot in a Victorian and Modern British picture auction which totalled £345,805 and brought a number of high bids for sporting paintings.

BISHOP'S MEMORIAL

A memorial to Thomas Bloomer, Bishop of Carlisle from 1946 to 1966, is to be erected in Carlisle cathedral in the form of a panel inscribed with the names and dates of the bishops of the diocese since its foundation in 1133. Contributions can be sent to "The Thomas Bloomer Memorial Fund," c/o The Diocesan Registrar, 19 Castle Street, Carlisle, CA3 8SY.

Lord Justice Sachs Entrance Exhibition: PME Gibbs.

WAY OF THE WORLD

Free for Some

ACCORDING to ILEA CONTACT, organ of the Inner London Education Authority and a bottomless well of Leftist thinking, the Authority has received an award for promoting freedom of information. The award was presented to Mrs Frances Morrell, the noted ogress and leader of the Authority, by Mr David Steel, leader of the Liberal party — a wonderful never-to-be painted picture.

The citation from the new Campaign for Freedom of Information" commends the ILEA as an "authority which has done most to further the right of access to personal files in 1984." This refers to its decision to let parents and older secondary school pupils have access to these files from the end of this year.

There is a good deal of irritation about this award at Stretchford University, where students have been promoting freedom of information for years by systematically ransacking administrative offices and copying, removing, and if necessary burning all the personal files they can lay hands on.

Last year Ken Slabb, the 18th year sociology student who is perpetual president of the students' representative council and commander-in-chief of the demonstrational forces, received information that the administrative officers of the university, though terrorised, had evidently not learned their lesson fully and were again trying to conceal personal files.

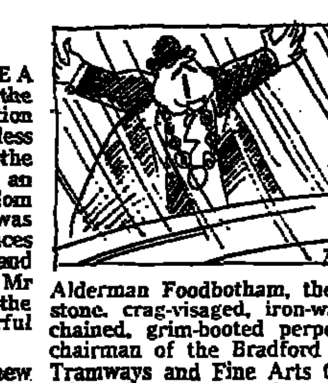
He ordered a general offensive which ended in total victory, with all the files removed and the cowering administrators locked in their own filing cabinets. He has retained the files for his own personal use.

That, he says, is what "freedom of information" means. Why has the Campaign for Freedom of Information not given him an award, he asks, with an implied threat that their own personal files may be at risk, as well as themselves.

Greatness

A PROPOSAL by Tories on Manchester City Council to make two long-serving councillors "honorary aldermen" was turned down by the Labour leader of the Council, who said it was not Labour party policy to create "honorary freepeople and honorary alderpeople."

It goes without saying that



Alderman Foodbotham, the 25-stone, crag-visaged, iron-watch-chained, grim-booted perpetual chairman of the Bradford City Tramways and Fine Arts Committee in the great days, took little or no "cognisance" of Manchester, though he admitted that it was larger in area and population than his own city.

So it is as fruitless as it is painful to wonder what he would have made of grown-up men talking about "honorary alderpeople." To him all aldermen were honorary; to occupy that great and mystic office was itself a supreme honour.

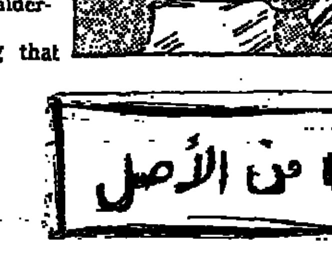
Did he not once declare, in a speech from the balcony of Bradford Town Hall—now a pallid travesty of the magnificent, soot-black edifice he knew—did he not once declare, to thousands of loyal citizens in the rain-swept, tram-crowded square below—did he not once declare—yes, he did—that he would rather wear the sombre black overcoat of a Bradford alderman than the purple toga of a Roman emperor?

It was one of those rare occasions when the natural reticence—to put it no stronger—of his cloth-capped subjects dissolved in deafening cheers. Some, though they afterwards denied it, wept.

Then, at his dismissive gesture, they began to shuffle out of the square, few daring a backward glance, some to their humble homes, some to saloon or public bars, some to the sarsaparilla or ipecacuanha shops then common in the city, all conscious that they had partaken of a mysterious greatness which would irradiate their lives forever.

Country Lore

BADGERS, explains an article in the CROYDON MIDWEEK POST, "dig out tons of earth to make complexes



of interconnected tunnels, or 'setts,' with as many as 60 entrances and numerous chambers allocated to specific purposes, such as bedrooms, nurseries and 'lounges'."

"REDSHANK" writes: "Some of the more well-to-do badgers in our part of the countryside are said to have setts with bedrooms and bathrooms 'en suite,' dining-rooms or 'dinettes' and 'patio areas' with garden sculptures which Old Brock, who has prodigious strength, will drag from the nearest garden centre.

"Old Frank the poacher, a veritable human inferno of woodland lore, told me the other day in the 'Three Tuns' that some 'upwardly mobile badgers'—a country phrase whose origin is lost in the mists of antiquity—have now got 'TV and video lounges,' snooker rooms, swimming pools, jacuzzi and bars with toilet facilities marked 'boys' and 'girls.'

"When I demurred at this Old Frank got quite offended, hitting me on the head with a decoy duck he produced from one of the innumerable pockets of his poacher's overcoat. He even threatened to 'come and do over my nature diarist's typewriter.' He then stalked out of the inn, slamming the door behind him.

"I was surprised at this uncharacteristic behaviour. But it is a fact that the mention of badgers often seems to rouse strong passions among our country folk, whereas you can talk about widgeon or sandpipers 'in a cordial atmosphere' as the old saying has it, for hours."

Ever Onward

"DEAR Editor—we are writing with reference to the article 'Is your bicycle up to Standard?', which edition of your magazine.

"Whilst appreciating the points that the article made about safety standards, we would like to object to the cartoon used to illustrate it. It is, even to the most undiscerning eye, blatantly sexist in its use of a very obviously female figure 'helplessly' accepting the expert skills of no less than four mechanics, who are presumably involved with the 'purely masculine' pursuits of ascertaining tyre pressure (by squeezing the tyres); and the suitability of the batteries in the rear light (by switching it on)" (from a joint letter to the periodical SAFETY EDUCATION from the staff of a Lincolnshire school).

Peter Simple

CHALLENGE FOR BLUE RIBAND

By TONY FAIRCHILD Yachting Correspondent

RICHARD BRANSON, who served more than 700 bottles of champagne on the inaugural flight to America of his Virgin Atlantic Airline last year, used his jumbo jet yesterday to announce a British challenge for the Blue Riband of the Atlantic by motorboat.

Mr Branson, wearing pirate rig — including a parrot—flew 30 invited guests from Gatwick to the Isles of Scilly, announcing the challenge over the Bishop Rock, which will be the finishing point for the 3,000-mile record attempt.

He will be among the eight crew for the crossing, in July or August, which is to cost £1,500,000.

Others with him aboard the specially-built 65ft twin-hulled craft, Spirit of Britain, will nclude Ted Toleman, five times the British powerboat champion, and Chay Blyth who has rowed the Atlantic and crossed it several times under sail.

The Blue Riband Trophy has been won 87 times by Britain, the last time in 1938 when the Queen Mary crossed the Atlantic in 1938 in 3 days, 20 hr. 42 min. The American liner United States captured it on her maiden voyage in 1952 in 3 days, 10 hr. 40 min.

The trophy is bolted in a secure case in an American maritime museum which has been alerted about the latest British attempt.

66-hour target

The Branson - Blyth - Toleman team, supported by the Royal Navy and Royal Marines who supply three other crew members, are aiming at a time of 66 hours, averaging between 40-50 m.p.h. from the Ambrose Light Tower, off New York, to the Bishop Rock.

The record attempt is the idea of Mr Toleman, known for his Grand Prix motor racing team and whose Cougar Marine, at Hamble, Southampton, are building the catamaran.

The craft is due to begin trials in the spring. With British manufacturers unable to supply the necessary engines, it will be powered by twin German M T U turbo-charged diesel engines, each of 1,960 h.p.

The crossing will use 41 tons of fuel, which will mean three refuelling stops

SOTHEBY'S CHIEF LEFT £361,665

Mr Peter Wilson, chairman of Sotheby's from 1958-80, and architect of the company's rise to dominate the international auction market of antiques and works of art, left estate in England and Wales valued at £361,665 net (£366,840 gross) in his will published yesterday.

Mr Wilson lived at Chateau de Clavary, Auribeau-sur-Siagne, Grasse, France, and died last June, aged 71.

City man's £1·4m

Mr Luke Meinertzhagen, of The Old Rectory, Swarraton, Hampshire, late member of the London Stock Exchange, who died last November, left estate valued at £1,400,076 net (£1,405,076 gross) in his will published yesterday. He left his property mostly to his wife Sheila, who has been granted probate.

CHURCH ELECTRONIC

By Our Churches Correspondent

A Christian Resources Exhibition opened yesterday at the Royal Horticultural Hall, Westminister, and continues until Saturday. Firms supply goods and services used by the churches have stands, ranging from bell ropes and stained glass to the latest in electronics and publishing.

Obituary

EATING IN WITH BON VIVEUR

Making a meal that's nice as pie

THE MENU

Soufflé with tomato sauce
Trout with lemon juice and capers
Rabbit or chicken pie
Mixed fried vegetables
Orange pancakes

IN our early February menu we are not, for once, coming all out in favour of a filling main course dish for the family. Rather, we are suggesting the nicest rabbit or chicken pie we know, which will be eaten either hot or cold.

The first course is a delicate soufflé, followed by a simply-cooked fish dish. The English trout farms are doing a yeoman service to home cooks by producing excellent trout at surprisingly reasonable prices. Small trout or red mullet are an excellent choice for following the egg dish we propose. They are quick to cook and need few ingredients to support them.

THE RECIPES

SOUFFLE WITH TOMATO SAUCE

INGREDIENTS: 4 No 3 eggs; 1oz butter; boiling water; ½ pint milk; 2oz butter; 2oz flour; salt; pepper; fresh grated nutmeg; 2oz grated Parmesan cheese; 1 tablespoon concentrated tomato purée; dried thyme.

METHOD: Make a roux with the 2oz butter and flour. Thin down gradually to form a very thick sauce with ½ pint given milk. Set remainder aside. Season sauce to taste with salt, pepper and freshly grated nutmeg. Separate the four eggs. Beat sauce a little to cool it down slightly then beat in the yolks and half the cheese. Whisk the egg whites stiffly and quite quickly beat them into the sauce. Butter a 6 to 7in-diameter soufflé or charlotte mould liberally. Turn in the foaming mixture, level it off and stand chosen dish in an ordinary meat baking tin. Pour in hot water to within ½in of mould's rim. Sprinkle remaining Parmesan over top surface. Cook at 375F (Gas 5), one shelf above centre, for about 15min or until mixture is just set.

For the sauce, beat the remaining milk into the very thick sauce residue with the concentrated tomato purée, quite a strong seasoning of black pepper and a generous pinch of dried thyme.

TROUT WITH LEMON JUICE AND CAPERS

INGREDIENTS: 1 small trout or red mullet per person; butter; lemon juice; capers.

METHOD: Split each fish down its belly. Gut throughly, wash, wipe and dry. Close up and make 3 or 4 slant-wise cuts across the saddle on both sides. Melt 1oz butter in a smallish pan. Spoon on 1 teaspoon lemon juice and stir in 1 level teaspoon capers having pressed them to expel the vinegary juices. Stir mixture a moment or two, then slide in the prepared fish. The butter will bubble up immediately. Leave for 2 to 3min, turn fish over and repeat. Remove and lay fish on to a serving dish. Fry on, adding a little more butter, lemon juice and pressed capers as you cook your required numbers. By this time the pan butter will be far too black and bitter for service, so pour the pan juices away and begin again, having wiped the pan well. Add fresh slice of butter, allow to bubble, add lemon juice and capers as before, stir well and, while foaming, pour over the fish and send immediately to table. Small sprigs of fresh parsley, sizzled for a moment in hot vegetable oil, make a delicious garnish.

RABBIT OR CHICKEN PIE

INGREDIENTS: 2 plump rabbits with heads, innards and rib cage pieces used for the stock; 4oz scalded mushrooms and their stalks sliced thinly; ¼ pint inexpensive dry white wine or cider; 1 rounded teaspoon Dijon mustard; 2 hard-boiled eggs, thinly sliced; 4oz pork chipolatas, nipped centrally then twisted and snipped in halves; 2 rashers streaky bacon, derinded and diced small; ¼ pint single cream or top-of-the-milk; 1 rounded dessertspoon potato flour or arrowroot; 2 pints reduced stock; ½ pint milk; ground nutmeg and cinnamon; salt and pepper to season; 10 small shallots; 12 small carrots, sliced.

INGREDIENTS FOR SHORT-CRUST PASTRY: 2oz pure lard; 2½oz unsalted butter; 1 small cup chilled water; 8oz self-raising flour, sifted twice; a fat pinch of salt; milk or beaten egg to glaze.

METHOD: Insert a pie funnel at centre of a large pie dish. Put prepared carrots, shallots, rabbit innards, heads and rib pieces into a roomy pan with sufficient water to cover. Simmer until shallots are tender. Remove both vegetables and immerse best rabbit back, legs and saddle pieces into strained liquor and simmer on until flesh is very tender. Cut flesh from rabbit bones, mix with thin sliced carrot rounds, little chipolatas and shallots and pack round central funnel in the pie dish. Strain liquor. Taste and correct seasoning with salt and black pepper. Add a fat pinch each of nutmeg and of cinnamon. Stir in chosen wine or cider. Make a thin paste with given milk and potato flour or arrowroot. Stir until thickened. Stir with mustard into pan liquor and finally stir in cream or top-of-the-milk. Pour over pie meat and vegetables, holding back any surplus. Sprinkle on top the raw bacon dice and hard-boiled eggs. To make short-crust pastry lid, rub slightly softened fats into flour sifted with salt and continue until very fine-grained. Bind cautiously with small additions of water until mixture forms a good rolling dough. Roll on to a lightly-floured board, being careful in the interest of lightness to roll out only once. Lay pastry over wetted pie dish edge, leaving a 1in surplus all round. Tuck this in and pinch fatly between thumb and finger. Brush with milk or beaten egg. Cut a little cross over the pie funnel top and fold back the four little tips to enable a little extra fluid to be poured in after baking. Bake at 375F (Gas 5) until very lightly coloured, then reduce heat to 325F (Gas 3) and bake until richly browned. Hand any surplus sauce separately. For chicken pie, simply replace the rabbit with a 3½ to 4lb chicken; a boiling fowl will do.

MIXED FRIED VEGETABLES

INGREDIENTS: 1 teacup scraped then shredded celery sticks; 2 teacups bean sprouts (bought or home-sprouted); 1 teacup scraped, coarse grated carrots; 1 teacup finely chopped or grated onion; 1 small bunch spring onions, diced; 1 small bunch watercress, scissored coarsely; 2 teacups shredded white cabbage; 2 tablespoons vegetable oil; 1 tablespoon sesame oil; 3 tablespoons soy sauce.

METHOD: Put a wok or large frying pan over a very low heat. Add the vegetable oil. Add the sprouting seeds, mix in all remaining prepared vegetables, add 1 spoonful of the soy sauce and the sesame oil. Stir/fry until just nibble-crisp, which takes about 5min. Add remaining soy and serve. The variations are almost endless and very popular indeed.

ORANGE PANCAKES

INGREDIENTS: 4 heaped tablespoons self-raising flour; 1 No 3 egg; 1 extra No 2 egg yolk; unsweetened orange juice; sifted icing sugar; 2 to 3 thin-skinned oranges; 1 small piece of raw unsalted pork fat on the rind, castor sugar.

METHOD: Peel, then slice oranges into thin de-pipped rounds. Set aside. Sift flour into a small bowl. Make a central well, drop in the whole egg and extra yolk, add a splash of orange juice and beat up to a very smooth runny paste adding more juice as necessary. Strain, then rest in refrigerator for 2hr. Heat largest pancake pan dry over very low heat. Burnish base and sides with the piece of pork fat and make one large, very thin pancake per person. Lift each pancake on to a heat-resistant plate and cover the upper surface with prepared orange slices. Put some castor sugar into a small sieve and sift very evenly over orange slices until each one is completely covered. Put plates under a low grill and keep a firm eye on each as sugar bubbles and turns to a crisp skating rink of thin sweet brown ice. Hand more orange juice separately for service. This unfolded fruit pancake can also be made with peeled, sliced banana rounds in exactly the same way.

Cooking good

THE French may have offered a serious challenge to British apples with their standardised Golden Delicious product, but gradually, in subtle ways, we are striking back.

The Bramley, held by experts to deserve the title of "the best cooker anywhere" because of its firm texture and sharp flavour, is making inroads into French taste in the unlikeliest of ways. In that country of endless patisseries, where everything is made fresh at the crack of dawn, Mr Kipling's standard individual apple pies — filled exclusively with Bramleys since introduced here 17 years ago — are gaining in popularity.

"We have been exporting them to Europe for over two years now and consumption is increasing all the time," said Mr John Archer, marketing controller of Manor Bakeries which, together with other producers, sells 80 per cent. of the £30-million worth of branded apple pies eaten each year.

ADVANTAGEOUS START FOR YOUR CHILD

Simply by studying the famous Montessori method, you will be able to guide your child successfully through the vital formative years from birth to the age of eleven. And give him or her many future advantages, the value of which cannot be overestimated.

Many qualified teachers and students are also being helped by the London Montessori Centre. Here, Maria Montessori's remarkable teaching methods are augmented by the latest developments in education and psychology. Full-time, evening and correspondence courses are explained in a prospectus available now from The London Montessori Centre, 18 Balderton Street, London W1Y 1TG (telephone 01-493 0165).

Top priority for today's desks

GIVE your desk a pretty, personal touch with accessories that are both practical and pleasing to the eye.

Novel paperweights and brass-plated staplers are useful and fun to use. Flower-patterned inkwells and quill pens are a reminder of more leisurely times. A hi-tech quartz watch with large-scale digits will remind you that you have spent too much time poring over bills.

Specialist stationery shops, such as Walton Street Stationery (London SW3), offers an intriguing array of items for the well-dressed desk. Eximious, in West Halkin Street (London SW1) has a number of new desk-accessories including cut-glass inkwells with silver-plated, hinged lids, at £23·75 (including engraved single initial) and boxes of one dozen H B pencils in navy blue, with name gold-blocked on each, at £4.

Marks and Spencer has bright, fun stationery items in bold primaries and pastels, priced from £1·99 for a Pen Pot assortment that contains two paper clips, two pencils, two pens and an eraser in a squat glass jar.

Hilary Alexander

PICTURED, clockwise from bottom left: wooden pencil case with chocolate and ivory-leaded pencils £25 (pencils available separately at 25p each), brass-plated stapler, £33·50 and brass-plated pencil sharpener £66, all from Walton Street Stationery Shop, London, SW3; black wire pencil/pen holder £2·95, from Astrohome, Neal Street, London WC2; wooden crossword paperweight £13·50, from Walton Street Stationery; square, Limoges "insect" inkwell with feather quill pen £21·99, from Edwina Carroll, Central Avenue, The Market, London WC2; glass jar Pen Pot set £1·99, from Marks and Spencer major branches; African blackwood letter opener £30, from Walton Street Stationery; black, wire spiral ballpen £11·50, from Astrohome. CENTRE: Quartz LCD clock with jumbo digit display £9·95, from Astrohome; Limoges paper clip tray £13·99, and stamp box £24·99 (matching inkwell), from Edwina Carroll; enamelled, hand-painted, round inkwell, £26·50 from Walton Street Stationery. Pencil and pens in wire holder are part of Marks & Spencer's "Pen Pot" set.

NO WAY OUT

THE PIT STRIKE has entered its final phase. Whether the miners' agony is long and drawn-out or ended quickly depends in part on today's meeting of the NUM executive in Sheffield. The NUM leadership fully understands that it is beaten and that it has only to choose which of a number of humiliating dénouements is the least awful to contemplate. The members of the executive, including even Mr SCARGILL, are conscious of the need to move quickly—that is why they are meeting today instead of next week as was planned earlier.

The events of the past week have demonstrated to the miners who are still out on strike that unless they are prepared to concede formally that the Coal Board has the right to close down uneconomic capacity, no further negotiations will take place. They also realise that although the Government would like a settlement of the dispute for financial reasons, it is under no great pressure to find one. It is the awareness on the executive that morale has reached a critically low ebb, accompanied by the brute fact of the accelerating return to work and the probability that within weeks the Coal Board will be able to claim that only a minority of miners are still on strike, which is concentrating minds so powerfully. With plans well advanced for the formation of a "breakaway" union, Mr SCARGILL and his colleagues are facing a fate even worse than defeat—the disintegration of the NUM.

For men confronted with Nemesis, the idea being touted by the hitherto solid South Wales miners of ordering a return to work without any agreement with the Coal Board and with the intention of resisting individual pit closures must have attractions. Let nobody think, however, that such an outcome would represent a draw, let alone the victory which Mr SCARGILL will doubtless attempt to claim. The miners will have been out on strike for almost a year and will not have succeeded in keeping even one clapped-out pit open for a day longer than would otherwise have been the case. Moreover, the ability of a debilitated and divided NUM to bully its impoverished and exhausted members into further opposition to the Coal Board's plans is a nonsense. The striking miners have been misled and their interests betrayed. That is all there is to it.

A SIGNAL FROM SHIPS

"SELLING the family silver to pay the servants' wages": such is the verdict of great critics from Lord STOCKTON downwards on the Government's programme of privatisation. They have a point. There is no merit in disposing of State assets simply in order to reduce the Government's apparent need to borrow. But this is not the whole story. Consider the evidence from two adjacent shipyards. Austin and Pickersgill of Sunderland last week won an order to build two ships worth nearly £30 million for a foreign customer. Brussels suspects that it took a scale of subsidy exceeding current Community rules to clinch the contract. That is contested in London: but that substantial subventions from the taxpayers were involved is evident. Tyne Shiprepair, on the other hand, which was losing nearly £13 million a year very recently, has in the past 12 months won orders worth £19 million, and made a modest profit on them without benefit of subsidy. The difference is that Tyne Shiprepair was privatised while Austin and Pickersgill was not.

Or take the case of the National Freight Corporation until 2½ years ago NFC was "owned by the people," and it could not pay the interest on the cash that it had borrowed.

Today instead it is "owned by the people" in the sense that half of those who work for it are shareholders, and the proportion is growing all the time. And small wonder, since each share bought for £1 when the employees took the business from the Government is now worth £8·60. Last year they ploughed back three times as much as NFC invested in any previous year while in the public sector (just as Tyne Shiprepair has doubled its labour force). Some State-owned businesses may bear comparison with the private sector. But to the extent that they can do so it must be in defiance of their nature, since they are always open to the temptation to place the convenience of employees before the satisfaction of consumers. The National Freight Corporation and Tyne Shiprepair have no such option. But ask those who work for them which culture they would rather work in, and there is not much doubt what the answer would be.

STORM OVER BONGO

MR ALAN CLARK has offended some Labour MPs, and been invited to resign, because he is alleged to have referred in private to "Bongo Bongo Land." On the face of it they would seem to have a point, since Mr CLARK is the Minister responsible for race relations at the Department of Employment, and perhaps the last man in the world who should lay himself open to misunderstanding. He is supposed to have suggested that black opposition to ethnic monitoring at unemployment benefit offices arises from a fear of being sent back to "Bongo Bongo Land." As it happens most immigrants in this country, and indeed most blacks, do not come directly from Africa, which in Mr CLARK's boyish mind is presumably "Bongo Bongo Land."

Yet setting aside his slap-dash sense of geography, it is not easy to appreciate why this alleged remark should seem so offensive to Labour MPs. The important question is whether it is in a proper sense offensive to blacks who live here. There is an ancient English tradition of referring to other races (and the French above all) in jocular and genially abusive terms. This tradition has not been suspended in respect of inhabitants of these islands. There are of course limits: certainly there are offensive ways of describing different races. Does "Bongo Bongo Land" come in this category? It is at least a phrase which accurately conveys something of Africa, since the Bongo are a people of the eastern Sudan.

If Mr CLARK's alleged remarks have really harmed the self-esteem of blacks in this country then he should be sorry. But has he? He has not after all delivered a public speech with malicious references to "Bongo Bongo Land" but a private, off-the-cuff remark—if reports are to be believed. The Labour MPs who rush to smooth the supposedly ruffled sensibilities of immigrants should ask themselves whether they thereby serve to increase the self-confidence and self-respect of the people whom they say they wish to defend. Surely these people are sophisticated enough to be permitted to laugh—or groan—at Mr CLARK as they think fit.

THE INDIAN WAY WITH INDUSTRIALISATION—II

Mr Gandhi and the white-hot technological revolution

INDIA'S Left wing was ready to blame the mass poisoning from the Union-Carbide plant on the multinational corporations. Some foreign businessmen that I met in India blamed it instead on Indian mishandling, as for instance the West European: "The Bhopal disaster didn't surprise me a bit. It had happened many times before.

"It's the same with that bomb explosion at Madras airport. Indian airports have very sophisticated security systems, better than most in Europe — but the bomb went off because nobody wanted to take responsibility for the numerous warning phone calls.

"Indians are very good at doing things but they're not good at finishing things. The management are good but the workers are hopeless, and you can't sack them.

"Even in the private sector, an employee's lot is protected but in the public sector it's unassailable."

He went on to compare Indian industry most unfavourably with that of the Asian countries further east. The South Koreans, he said, turned out ships at many times the rate of India.

India could not compare in electronics with Singapore and Hongkong, let alone Japan.

Other Western businessmen complain that Indians are too ambitious and hasty in their attitude to technology. "They think they can do a fortnight's course and then do a job that's taken years of experience to command."

★

I heard comments on certain expensive projects undertaken that would not bring any immediate benefit. "They want deep-water exploring equipment to study the ocean bed when they haven't cleaned out Bombay harbour," one man remarked.

Another foreigner said that the 60-man Indian Antarctic expedition in ice-breakers purchased from Finland was mainly composed of Indian army personnel training for warfare in the Himalayas; though why they had to go to the Antarctic and not the Himalayas he did not explain.

However the commonest beef among foreign businessmen relates to the overmanning, the slow bureaucracy and the constant demand for taxes and duties. In theory, duty is payable mainly on imports of luxuries (such as whisky or stereos) or of goods that are produced in India. However one company needing a piece of equipment only available abroad had to pay 350 per cent. in duty.

In fairness it should be said that much of the irritating spirit of India is a heritage of the British. We provided a fine judiciary, civil service and army, as well as roads, railway, and canals. But that was in the imperial time.

India actually got independence during a Labour Government, and her leaders, like Nehru, were much under the influence of the Fabians and the NEW STATESMAN; they were believers in high-minded State socialism. It is from such people that India acquired her dislike of the business community, her faith in bureaucracy and in the sanctity of jobs.

Much of the business community and Press believes that such ancient pieties will be overthrown by the new Prime Minister, Rajiv

RICHARD WEST

completes his survey

Gandhi, who has been hailed as "Mr Clean" and "Mr Computer." He is said to be an enthusiast for every kind of gadget from the jet plane, which he used to fly, to the word processor. Indeed some of the articles praising Mr Gandhi's faith in technology and his "dynamism" are hauntingly reminiscent of what was said about Harold Wilson in 1964.

Certainly "Mr Clean" has sacked some of his more corrupt party officials. His aim to get more technology has been set back by the United States Government, which does not want to export the most advanced material to a country such as India, having military ties with the Soviet Union.

Apparently this has meant, to quote an Asian business magazine: "Requests even for non state-of-the-art computers and hi-tech equipment frequently have been bogged down in red tape."

Apparently the United States believes that some of the private computer companies in India may be trying to join in the lucrative business of selling American know-how to the Soviet Union.

Because of United States reluctance to trade with India, the way has been open to other Western countries to sell India new technology, especially of the military kind, that interests Mr Gandhi. Rivals in the field said that the most successful exporters in this field were Canada and France — pouring finance into the market.

I was told this only a few days before the Indian Government

revealed what it called a major spy ring, whose mastermind was said to be a military attaché from the French Embassy. He was accused, after his sudden departure, of having corrupted a group of senior civil servants, using inducements such as bottles of whisky.

Although this story was given excited treatment in the New Delhi Parliament and Press, it excited only mirth in foreign businessmen I met. All it meant, they said, was that the French had been caught out giving the bribes and sweeteners that are necessary to obtain any contract in India.

They ridiculed the idea that any foreign power wanted to gain Indian military secrets, most of which can be found by satelite viewing.

They still more ridiculed the idea that the French might be acting on behalf of the CIA or any other American intelligence agency. The Americans do not trust the French. Indeed I heard it suggested that the French had been "shopped" to the Indian Government by the CIA, if not by a West European business competitor.

★

In one branch of technology, India possibly leads the world but it is not a field with many competitors: computer astrology. According to BOMBAY magazine "A couple of firms have sprung up at Bombay promising you the moon and saturn on the computer monitor, and if reports are to be believed, many more agencies have mushroomed throughout the country offering instant *jyotishis*."

According to Ramesh Vasurari, of the Maker group of companies, computers are logical, whereas humans are intuitive and are likely to play up to the customer, telling him what he likes to hear.

The manager of a word-processing bureau, Ashuir Merchant, says that computers can manage the astronomical side of compu-astrology, but unless good astrologers come together and write effective and proven "predictions" programs into the computer, the service will be mundane and generalised.

But would not good astrologers then be doing themselves out of business?

LONDON DAY BY DAY

Ministers unnerved by undertones

WITH Parliamentary behaviour reaching unwelcome depths, I learn of the deployment of new tactics to unnerve Government spokesmen as they address the Commons.

Mrs Thatcher has complained to the Tory whips about the practice which involves Opposition front-benchers whispering to one another — just low enough to avoid being picked up by the radio microphones, but quite loud enough to ensure that a Minister can easily lose his thread.

Apart from being discourteous the practice hampers free debate. Mrs Thatcher has been giving the advice to worried colleagues that they should just get their heads down and try to ignore it.

Although some whispering has always gone on, the practice appears to be getting out of hand. Senior Tories hope that the Speaker will tell the Opposition front bench that they must at least listen to the other side's arguments.

Lynch mob

A NOMINATION for the bravest Tory backbencher during the coal strike should go to Ken Warren, the chairman of the Trade and Industry Select Committee, who has volunteered to visit the Yorkshire coalfield and talk to miners' meetings to find out what they are seeking.

He approached some NUM-sponsored Labour MPs for help in this project which they welcomed on the grounds that it was a healthy sign that senior Conservative backbenchers were prepared to listen to the strikers' case.

It would undoubtedly have meant a rough ride for Warren in the mining communities but it would have been highly worthwhile if it had helped bring an early end to the dispute.

Only when the idea was put to the mining union itself was opposition encountered. Officials told him bluntly: "If you come here we'll lynch you."

The new Fantail Restaurant at Locks Bottom, Farnborough, Kent, is not, to my knowledge, listed in any of the better-known food guides but it clearly is in great demand. According to an advertisement in last week's KENTISH TIMES *the establishment is "now accepting bookings for Christmas."*

Bognor's turn

A NEW PLAY celebrating the efforts of the Greenham peace women is to be premiered tonight in Bognor Regis the south coast resort not usually noted for its progressive views.

The play, called "The Fence" after the perimeter wire of the missile base so often attacked by the women has, inevitably I suppose, been supported by the Arts Council. Its joint authors are Richard Bowden, a poet, and his wife Regine who is a clerk with the staunchly Tory West Sussex County Council.

The director, George Rawlins, is also an employee of the county — their drama adviser — but ratepayers will be pleased to learn that he is staging this production in his own time.

New deal?

GEORGIAN not Victorian values, it seems, provide the driving force behind the Government according to the Right-wing Adam Smith Institute.

They have advised the Chancellor to stick to policies put forward in a government report published 175 years ago during the Napoleonic wars which identified inflation and a plummeting exchange rate, like today, as the chief dangers to the nation's prosperity.

The 1810 Bullion Committee report reprinted by the Institute today backed sound money and laid down the foundations of an economic policy which lasted until the middle of this century. Perhaps the Left will now claim that the Government is heading towards another Peterloo.

Welsh window

MANFRED ROMMEL, son of the Field Marshal, will be leading a delegation to Cardiff next week in his role as Oberburgermeister of Stuttgart to unveil an £80,000 stained glass screen in a gesture of friendship between the two cities.

The screen, which is 16 metres long, has been made by Prof. Hans Gottfried von Stockhausen, the head of the school of glass design at Stuttgart. The two cities are twinned and the money for the screen was raised by Stuttgart businessmen. It has been installed in Cardiff's new St David's concert hall.

Drawn to a close

EIGHT YEARS after the Folio Society commissioned him to illustrate all 15 of Dickens's novels, Charles Keeping has just handed in his last batch of drawings, with mixed feelings.

The 60-year-old Cockney, who has won many awards for his work in some 120 books, did just under 800 illustrations for the Dickens series which the Society is publishing at the rate of two a year. "Hard Times," just out, contains 19 Keepings, including the one I reproduce of Slackbridge the orator.

Oddly enough, none of the great 19th and 20th century Dickensian

Keeping's orator

illustrators — Phiz, Cruikshank, Rackham and Ardizzone among them — completed the task. "In a way I'm rather sad it's over," says Keeping. "After eight years reading the whole of Dickens, you do get rather attached to him."

Running out the editor

THE DEATH at the weekend of Bob Putnam, this newspaper's former chief cashier, ends another link with the old MORNING POST which merged with the TELEGRAPH in 1937.

His great enthusiasm was cricket which he played to a high standard and as a young man he was quickly to play for the Editor's Eleven, captained by the distinguished MORNING POST editor H. A. Gwynne.

Shortly after joining the accounts department in 1926, Putnam, who retired in 1978, was batting with Gwynne at Dunmow and called for a run. The editor, then in his 60s, was run out for a single. It is a tribute to both Putnam's playing ability and Gwynne's tolerance that he was invited to play with the side again.

Late start

NIGEL HAWKES, the Royal Thames Yacht Club's representative, has arrived in Perth, Western Australia to spy out the waters in preparation for the British challenge for the America's Cup in two year's time.

But already, in this sport of multi-millionaires, Britain seems to be lagging behind—the favourites America and Italy have been there for months and already have their headquarters set up.

Although sponsorship from industry is now materialising, the late start for our yachtsmen has been delayed by the familiar problem of lack of funds.

Squaring the circle

SECTION 4 of the Irish Republic's Road Traffic (Insurance) Disc Regulations 1984 states: "Every Insurance disc shall be in the shape of a rectangle."

PETERBOROUGH

LETTERS TO THE EDITOR

Unwanted caucuses within party

From Mr EDWARD LEIGH, MP (Con), and Mr PIERS MERCHANT, MP (Con)

SIR—One of the strengths of the Conservative party over the years has been its freedom from the constraints of ideology and rigid programmes.

This has enabled the party and its Governments to react swiftly to changing circumstances, to respond readily to changing public opinion and to show flexibility in the pursuit of its general aims.

It has imbued the party with an unequalled strength resting on an amalgam of pragmatism and loyalty to certain fundamental concepts and attitudes.

Mrs Thatcher herself has shown a skilful pragmatism in dealing with the deep-seated problems inherited from her predecessors. Her efforts have met with remarkable success and have always allowed her to remain loyal to her personal vision.

It is therefore concerning to see the intrusion of new and intolerant hard-line caucuses into some aspects of the party organisation. The people involved seek to impose an inflexible ideological "line" on the whole party.

They seem to want to rid the Conservative party of all "deviants" who do not follow their line and "denounce" dissenters as "unsound," worthy only of "purging."

It is not so much their views that provoke concern — most are perfectly acceptable within the Conservative consensus — but their methods, attitude, language and tone. Their expressions would be more at home in the Central Committee of the Communist party than in the broad-church Conservative party.

We condemn equally the recently reported attitudes of the ruling cliques in the Federation of Conservative Students and the Young Conservatives, the Tory Reform Group and the Monday Club, whose views are at opposite extremes but whose techniques and intolerance at times are remarkably similar.

As Conservatives we must work together loyally behind the Prime Minister to reveal the fallacies peddled by the opposition parties, not attack each other as being "unsound."

EDWARD LEIGH, PIERS MERCHANT
House of Commons.

Observations on a 'peace' tribunal

From Baroness COX

SIR—On Jan. 3 in a letter, you published a denial by the secretary of Lawyers for Nuclear Disarmament, Mr Edward Rees, that his group's self-appointed Nuclear Warfare Tribunal was involved in the Soviet propaganda campaign begun in 1981 "to spread the belief that nuclear weapons are illegal under international and domestic laws" (your report, Dec. 31).

While it is not for me to challenge the sincerity of this denial, the attitude of official Soviet propaganda to LND and its staged tribunal should be placed on the record, now that it has been published.

The Soviet international affairs weekly NEW TIMES is a principal organ of the Politburo's "peace" campaign. In its latest edition (No. 4, 1985), one M. Bogdanov reveals how in 1982 he "happened to be present at the inauguration of the British organisation Lawyers for Nuclear Disarmament" along with just "two (other) journalists — one from Bulgaria and the other from the British Communist party's MORNING STAR newspaper."

After noting the subsequent expansion of LND, Bogdanov relates how witnesses at its tribunal "stressed the mortal danger to peace of the . . . doctrines the United States has hatched. The participants in the London forum expressed their special concern over the U.S. Administration's intensive deployment of the latest nuclear missile systems on other countries' territories and its plans to spread the arms race to outer space."

In his letter, Mr Rees assured us that his group should not be seen as a "pawn of the Politburo," and even claimed that the Soviet Union might regard the pronouncements at its tribunal as "dangerous."

This latest exploitation of LND activities by Soviet propaganda suggests, on the contrary, that the Kremlin's chess players are rather more subtle than he imagines.

CAROLINE COX
House of Lords

Ingenious accounting no longer wanted

SIR—Your surveys on unemployment (Jan. 29 and 30) were important contributions to the difficult process of persuading readers that there are cost-effective, low-risk ways of alleviating the unemployment problem.

Unfortunately the chances of persuading the Government of this have worsened considerably since your articles appeared, since the exchange rate crisis has now prompted some City commentators to demand a tightening in the fiscal stance and the abandonment of the tax cuts planned for the Budget.

The Government must not be allowed to act on the assumption that this is a universal City view. Our belief at Simon & Coates—and this is a view shared by a surprising number of our more monetarist-inclined competitors—is that any tightening in the fiscal stance would be a very sad mistake, and one which would backfire on the Chancellor.

We believe that budgetary policy is already over-tight from the point of view of the long-term control of inflation, and that an easing in tax or public spending would both help to stabilise sterling and create jobs.

As the United States has found since 1981, an expansionary fiscal stance can be compatible with a rising exchange rate, falling inflation and rapidly improving unemployment rates, provided that it is combined with prudent monetary policy.

Some economists (not ourselves) have expressed doubts about whether British monetary policy was sufficiently prudent before Christmas, but the present level of interest rates is surely high enough to convince everyone that monetary policy is now super-tight. To pile on the agony of a tighter budgetary stance as well would unnecessarily worsen the job prospects of the unemployed without making a sterling recovery any more likely.

However, I would add that if the Chancellor did wish to accept some of your proposals on unemployment and to finance them through a higher public sector borrowing requirement, he should spell out to his City and international audience exactly what he is doing and why.

While they would probably be willing to accept (or even welcome) a sensible easing in budgetary policy, they would react very differently if the Chancellor tried to dupe them with a further dose of ingenious Treasury accounting designed to prove that a sizeable tax cut was somehow compatible with a £7 billion PSBR.

This may have worked in the past but, in the present sceptical market mood, honesty is very definitely the best policy even if for very good reasons, it involves a higher PSBR target.

GAVYN DAVIES
Chief U.K. Economist,
Simon & Coates,
London, E.C.2.

Lack of mobility

SIR—Your examination of the unemployment problem and the recommendations for action by the Government omitted one important factor, lack of mobility. This must be partly responsible for increasing the unemployment figures.

In many parts of the country there are job vacancies (six-and-a-half pages of advertisements in your issue of Jan. 31). It is impossible to move to these areas owing to the high cost of buying a new home and the shortage of rented accommodation.

Surely it is high time there was more Government and public discussion on the way in which the Rent Act is working to the detriment of the unemployed?

(Mrs) DIANA ANDREWS
Hindhead, Surrey.

Safety on the roads

SIR—The letter from Mr John Weston (Jan. 30) claiming that the United States has the best safety record in the world (because of its low speed limits), is an example of wishful thinking.

It is not many weeks since you published statistics of road accident victims by country for 1984, in which the United States came third overall after Yugoslavia and Australia, well in front of West Germany with no *autobahn* speed limits.

In the United States deaths per 100,000 were 21·4, while the United Kingdom with higher limits as at present enforced were well down at 9·7, among the lowest.

In my view, the inferior design of American freeways and interchanges is, together with their consequently low speeds, responsible for their high accident rate.

M. B. E. GODWARD
Upminster, Essex.

Decisions on under-16s

SIR—Of those who are vociferously taking part in the debate on contraceptive prescribing for the under-16s, very few have actually had to make the decision.

In over 35 years in an inner city, multi-racial practice, I have only found this problem three times. The girls hadn't two brains to rub together and came from families incapable of emotional or practical support. Failure to meet the request would undoubtedly have resulted in illegitimate offspring and the State would have had to foot the bill.

Herein lies society's hypocrisy — and anti-pill and anti-abortion lobbies would encourage illegitimacy and yet fail to support these girls to the maximum when they have had their babies.

Come and see what it's like to raise an illegitimate child on State finance in the back streets of a city, and then hang your head in shame.

H. W. ASHWORTH
University of Manchester.

Noted exception

SIR—To end the one pound note saga could we not ask the Scottish banks to flood England with their £1 notes? Are there others besides me willing to accept these in place of the coin?

L. H. ORR
Sheffield.

Drug delivery

SIR—I noted with some concern, Dr David Farrow's assertion (Jan. 31) that rural patients would be disadvantaged by Government proposals to limit the variety of drugs available on the National Health Service.

At present, an expert committee of doctors and a pharmacist are considering the size of the list and patients may be assured that no drug will be withdrawn unless an equally effective alternative is available.

Dr Farrow's statement that rural patients will have to make long and expensive journeys to buy drugs from a chemist is simply not true. Provision exists under Post Office regulations for postmen to deliver medicines, *etc.*, and informal arrangements are often made with a local pharmacist. Most country chemists deliver oxygen and urgent drugs can be delivered in the same way.

In my experience, many dispensing doctors require their patients to call in at the surgery in order to pick up a dispensed medicine; the fact that they may well have had to pass one or two pharmacies on the way in seems not to bother the rural medical practitioners.

DAVID W. HOYLE
Buxton, Derbys.

Report on Ethiopia

SIR—Your leader stating that the Government of Ethiopia denies food to the provinces of Eritrea and Tigray describes a filmed report prepared by CBS News.

In fact, the report you cite, aired by the BBC broadcast "Newsnight," was produced by the CBC Canadian television programme "The Journal," and not by the American network CBS.

While CBS News has indeed frequently reported on the famine conditions in Ethiopia, we feel in this case the reporting should be properly attributed to the Canadian network.

MARK HARRINGTON III
Chief of Bureau, CBS News,
London, S.W.1.

Uneconomic pits

SIR—If it is fair and right to continue working uneconomic pits, then the same logic could be applied to all the uneconomic cotton mills, steel works, railway stations and workshops which have been closed during recent years.

This creation of "jobs" might reduce unemployment, but it would not solve the country's economic problem.

JOHN DEARDEN
Llandudno, Gwynedd.

Father's advice sustained tenacious Terry Waite

By JAMES ALLAN in Tripoli

A VILLAGE policeman in Cheshire told his son when he tired of singing in the local church choir: "If you start something, see it through to the finish."

These words spoken to a young Terry Waite will bear fruit today when he brings home the four Britons detained in Libya for the past nine months.

The young chorister is now a strapping 6ft 7in 45-year-old, but his father's early advice has remained one of the cornerstones of his personal philosophy in a variety of demanding circumstances.

"It was one of the early lessons I learnt," said Mr Waite in Tripoli this week and it sustained him through an agonising 24 hours during which the Libyans put off freeing the four men.

Mr Terry Waite.

Source of strength

He recognised that his personal reputation as well as the lives of the four Britons were involved and that cynics in Britain would be ready to scoff if his mission faltered at the last hurdle.

Mr Waite heeded his father's advice and remained in the church choir. "I'm rather glad I did, because I learnt a lot about the Anglican Church and its liturgy and in particular the old Common Prayer Book which has been a great source of strength to me throughout the years."

At 16 he left Stockton Heath County School where he was head boy and had played cricket and tennis. He confesses he had no clear idea of what he wanted to do and fairly quickly joined the Grenadier Guards but an allergy to khaki dye dumped him back in Civvy Street.

"Somehow I wanted to live my life as a vocation and not just to do a job. I knew without understanding why that I did not want to be ordained and then I discovered the Church Army.

"It appealed to me as an organisation which tried to do some practical caring for people and helped them with their difficulties."

He joined, studied theology and adult education and married Frances, the daughter of a Belfast solicitor, whom he met while they were both students in London. Then came an invitation from the then Bishop of Bristol, the Rt Rev. Oliver Tomkins, to become responsible for adult education in the diocese.

African trip

The work took him to America and Africa and after five years in Bristol he agreed to go to Uganda to advise the Anglican community there on how to develop and achieve greater independence from Europe.

Three years in Uganda were followed by seven in Rome coordinating educational and development programmes for the Roman Catholic Church which involved Mr Waite in extensive globe-trotting.

It was no surprise when he was invited by Dr Runcie as Archbishop-designate to join his staff as international affairs adviser, a post he took up in March 1980.

Within months he was off to Iran where the revolutionary turmoil had led to the Anglican bishop's secretary, Miss Jean Waddell, a missionary doctor Mr John Coleman, and his wife Audrey, along with four Iranian members of the Anglican Church being seized and thrown in various jails.

As with Libya, there were repeated trips to make contact with key people of power and protracted negotiations during which his patent honesty penetrating through the bushy beard, sense of humour and evident sincerity ultimately secured their release in March, 1981.

That mission also involved a Christmas away from his wife, three daughters and son as it did with Libya. And there were endless hours of waiting around in a hotel room to meet the right people.

Infinite patience

One of his associates has marvelled at Mr Waite's infinite patience. "He has the ability quickly to understand the differences in other people's cultures that make them behave the way they do," said the colleague.

"And he has an uncanny knack of thinking on his feet. His concern for an individual's welfare is a strong motivation in what he does and you don't have to be important to merit his attention."

He has been in the limelight over the Iranian and Libyan missions and has been described as the Church's Dr Kissinger. But Mr Waite says many of the Church's tasks call for quiet diplomacy away from the glare of headlines.

"I don't particularly enjoy the publicity. I recognise it as a mixed blessing. My wife and family positively dislike it."

He still finds solace in the countryside and yearns to own a cottage to which he could retreat with his family after his arduous trips abroad.

But there will be little time for rest after today. He will be busy completing arrangements for Dr Runcie's tour of Australia starting early in April.

Comedienne Marti Caine, 40, and Mr Ken Ives, 50, a television director, after their marriage yesterday at Birmingham register office.

'Illustrated London News' sold for £1·4m

By JOHN PETTY Commercial Correspondent

THE ILLUSTRATED LONDON NEWS was bought for £1,400,000 yesterday by Mr James Blair Sherwood, the American shipowner.

He controls the Venice-Simplon Orient Express, some of the world's top hotels, and fleets of Sealink and Sea Containers.

"It could become one of the most profitable magazines in the world," he said after acquiring from International Thomson Publishing the 143-year-old monthly, which sells at £1·30.

A few years ago he tried to buy The TIMES and SUNDAY TIMES from Thomson.

Mr Sherwood, 52, is an Anglophile with homes in London and Oxford. He has just bought a resort in the Bahamas, and is negotiating with the Chinese government to run a version of the Orient Express from Peking to Hongkong.

He is a gourmet whose book "The Discriminating Guide to London" has sold 45,000 hardback copies. His English wife Shirley is a research scientist and writer.

The ILLUSTRATED LONDON NEWS makes a profit of about £250,000 a year on turnover of £1,400,000. It has a staff of 26. About half its 60,000 circulation goes abroad. Mr Sherwood intends to make changes slowly but to increase circulation to 100,000 within a year.

Offices of Sea Containers in 91 lands will be used to market the magazine, with a drive in America.

"There will be significant investment in the next two or three years, which will mean operating at a loss, but after that profits will be much higher than now," Mr Sherwood forecast. And much of the losses would be tax-recoverable.

'No Orchids' author dies aged 78

By DAVID HOLLOWAY

RENE RAYMOND, who wrote "No Orchids for Miss Blandish" and 81 other thrillers under the pseudonym James Hadley Chase, has died at his home near Lake Geneva aged 78.

More than 20 books were turned into films, their tough plots, though not his lame dialogue, inspiring good directors like Joseph Losey. Among them were "Eve" and "Outback."

Raymond, the son of an Indian army officer, left home at the age of 17. His first job was selling encyclopaedias from door to door. For several years he worked for the wholesale bokselle Simpkin Marshall.

Seeing the success of American gangster novels he tried his hand during his summer holiday in 1939. This was "No Orchids" and it proved an instant sensational success.

Massive outfit

More than 500,000 hardback copies were sold before the end of the 1939-45 war, and had the distinction of being attacked by George Orwell in a famous essay.

Though his output was prodigious — he used several other pseudonyms — he was never to enjoy the same recognition with his later books. When gangster novels went out of a fashion he turned to spy novels of the sub-Bond sort but pleased his faithful readers with an occasional "private eye" story.

During the war, Raymond served as an officer in the R A F but this did not stop his writing. His fellow officers, acting as postal censors, were enthusiastic readers.

For the last 30 years he lived abroad, mostly in France and Switzerland. He leaves a widow.

1,000 WHALES SAVED

A Russian icebreaker had freed more than 1,000 white whales, trapped near the Bering Strait, IZVESTIA reported yesterday. The whales found their way barred by ice floes after following fish into Senyavina Sound.—Reuter.

Fractured jaw for a burglar lands grocer in the dock

By HEATHER MILLS

A SHOPKEEPER who was being driven out of business by burglars set out to ambush one of them in the act — and found himself put on trial for it yesterday.

JOHN O'CONNELL, 40, broke the 19-year-old thief's jaw with a lead pipe, a jury at Inner London Crown Court was told.

"He took on the role of judge, jury and executioner. In other words, he gave the burglar a working over," said Mr CHARLES BYERS, prosecuting.

The jury had to decide whether he used reasonable force to protect his property or to prevent a crime, or in self defence. "Was that unfortunate burglar given punishment that night rather than reasonable force?"

O'Connell denies inflicting grievous bodily harm.

Seven raids

Mr Byers said O'Connell had become "heartily sick" after his grocery shop in Half Moon Lane, Herne Hill, had been raided seven times in just over a month.

So he installed a video camera and kept watch from the cellar at night. In the early hours of May 12 he caught unemployed ALAN ATKINS after he broke in, and beat him with the pipe, said Mr Byers.

Grey-haired O'Connell, a father of two, of Sunset Road, Denmark Hill, was close to tears as he described to the jury how, after 10 years at the shop, he is selling up.

"I had overdrafts at the bank, and with only a small annual profit things were looking pretty bad. I didn't make insurance claims because the losses from the burglaries were usually less than £100 and I had to pay the first £100 of a claim.

"I also worried about the premiums being increased. I reported one of the burglaries, but there was not much the police could do. If it carried on, I stood to lose everything, including my home."

As Atkins broke in, "I wished I had never started it. I was very afraid and crawled up the cellar stairs. Then I saw a piece of lead piping at the top. I had not thought to put anything aside as a weapon and when I picked up the piping I only intended to threaten the burglars."

Tied up till dawn

He admitted tying Atkins up and keeping him in the garage. "I called the police at daylight when I thought it was safe to come out," said O'Connell. He feared Atkins might have had friends with him.

He never intended to cause any injury: "It never entered my mind to hurt Atkins with the lead piping," he said.

Atkins, of Norwood Road, Herne Hill, sat in court, wearing a leather jacket and four earrings in one ear. He had admitted four burglaries, including two at O'Connell's shop, and been sentenced to 80 hours' community service.

The hearing was adjourned until today.

CHANNEL FERRY STRIKE GROWS

The six-day strike by French seamen on the Newhaven-Dieppe route won the support of other French seamen yesterday. Dunkirk was halted and colleagues at Calais and Boulogn began a 72-hour sympathy strike.

The Dieppe seamen are protesting against new manning arrangements when the Newhaven ferries pass entirely to French Railways. The dispute puts in doubt the sale of the ferry Selac to France.

Hostages bask in sun before flight home

By JAMES ALLAN in Tripoli

THE four Britons released after nearly nine months as political hostages in Libya spent their first full day of freedom yesterday breathing in fresh Mediterranean air and basking in sunshine.

Mr Terry Waite, the Archbishop of Canterbury's special envoy, who negotiated their release, intended it to be a day of relaxation to prepare them for their homecoming today.

There were excited telephone calls to loved ones in England, hot baths, a change of clothing and a medical examination as the necessary documents for their departure were prepared.

Mr Malcolm Anderson, 27, an oil engineer from Wallsend, shaved off his beard while Mr Michael Berdinner, 52, an English lecturer at Tripoli University, returned to the campus to collect his belongings.

Mr Robin Plummer, 55, a telephone engineer from Royston, Herts, did not sleep until dawn for "sheer excitement."

Mr Alan Russell, 49, an English teacher from Holbrook, near Ipswich, declared with obvious emotion: "I feel great."

Divorce granted

Another Briton who had cause to smile yesterday was Mrs Susan Swezi, 55, of Salisbury, Wiltshire, who was given a divorce by a Libyan court.

Under Libyan law a married woman cannot leave the country without her husband's permission, but now Mrs Swezi has secured a divorce she is free to leave.

Mrs Swezi, who married a Libyan and moved to Tripoli seven years ago, was given a suspended sentence for alleged adultery with her brother-in-law, which she strenuously denied.

But Mrs Swezi's pleasure at leaving the country, probably early next week, will be tinged with deep sadness. She has to leave behind her two sons and it is unlikely she will ever see them again.

Two Britons who remain in Libyan jails are Robert Maxwell of Glasgow and Michael King of Fife.

Maxwell is serving a 12-year sentence for industrial espionage and King was jailed for five years last month for possessing a small quantity of marijuana.

But Mr Ron Brown, the Left-wing Labour MP for Leith, Edinburgh, has arrived in Tripoli with Mr Tony Gilbert, Secretary General of Liberation (formerly the Anti-Colonial Movement), to discuss the two Scotsmen's situation.

£2m 'tax hostage'

The departure of the four Britons today will still leave behind Mr Malcolm Pike, 51, of Blandford St Mary, Dorset. Directors of the company which employed him in Libya, Lemond Engineering which has offices in Regent Street, have fled the country leaving him responsible for £2 million in unpaid taxes.

Until the money is paid, and it is increasing at the rate of one per cent. interest a month so that the figure is now nearer £3 million, he is "a tax hostage."

Mr Pike is virtually penniless and has been taken in by the British Consul who has given him a flat in the former Ambassador's residence in Tripoli.

JOB PROMISE

Wife's plea pays off

Mr Malcolm Anderson, one of the freed hostages, is returning to his home in Chelford Close, Wallsend, Tyne and Wear, with the promise of a job as a welder with his former employer, Charlton Leslie.

It follows a plea from his wife, Andrea, who urged local industry to give him a job so he would not have to consider working abroad again. She said her husband took the job in Libya because of a slump in the offshore engineering industry.

PRINCE'S PRESSING CHANGE

By JENNY SHIELDS

PRINCE PHILIP has been forced to change his handshake because years for formal greetings have left him in considerable pain.

Now, instead of his firm handshake, the prince, 61, has adopted a less vigorous and painful grip.

The change was disclosed during a visit to Cambridge yesterday when he also told doctors at the Strangeways Arthritis Research Laboratory that he may be suffering from the condition.

Dr John Dingle, director of the laboratory, said: "He told us he has had to change his handshake because he has been suffering pain when people's thumbs press repeatedly on the same spot on his hand."

Prince Philip has a history of trouble with his right wrist. In 1967 he underwent an investigative operation on a cyst at the King Edward VII Hospital for Officers, Marylebone.

Three years later synovitis, an inflamation of the membrane that secretes lubricating fluid in a joint, was diagnosed and treated.

But the pain persisted and in 1972 the Prince was forced to give up polo, one of his favourite pastimes. Last October, the Prince of Wales was advised not to shake hands for a while after he injured a tendon in his right wrist while he was fishing.

RANGE OF CAUSES

Wear and tear on joints

OUR MEDICAL CONSULTANT writes: Several conditions may cause pain on shaking hands. Osteo-arthritis, a degenerative condition of joints due to wear and tear, could follow an injury or repeated injuries or result from over-use of a joint.

Rheumatoid arthritis is an extremely painful condition which commonly affects the hands. It affects about two per cent. of men and five per cent. of women.

Teno-synovitis or inflammation of a tendon sheath is another condition of the wrist or hand resulting from over-use.

£500,000 half-share in salmon beat

By ROBERT BEDLOW Estates Correspondent

A SALMON beat on the River Casseley, west of Lairg, Sutherland, has been sold for an estimated £500,000.

The half share in fishing rights on less than two miles of the lower part of the river could work out at about £2,800 a fish.

At a time when conservationists have indicated that the number of salmon entering Scottish rivers is declining, prices are reaching record levels.

Neither the seller nor purchaser of the Casseley beat were named by land agents Brodies of Edinburgh. But land agent Mr Tony Campbell said: "The asking price was £380,000. It consisted of 1¾ miles of double-bank fishing with a ten-year average catch of 364 salmon."

Part of the beat was purchased by Mr Niall Graesser, chairman of the Highland River Purification Board, and owner of the Rosehall Estate.

The sale confirms the continuing upward spiral in the market for salmon fishings, the price of which has increased by more than 350 per cent. since 1977.

The Casseley is a fine river, but not in the same league as the Dee or Spey. When one of the foremost beats does come onto the market, more records will be set, it is forecast.

Mr Campbell said: "One can't expect to make an income from buying a salmon beat. The only return on capital is when you sell it. It's very much like buying a painting or any work of art. You can appreciate it, but it isn't providing any return until you sell."

£10,000 BONDS

The winning £10,000 Premium Bonds in this months' draw are: 3BB 144428 (winner lives in Co. Durham); 6CP 107522 (Nottingham); 8EB 454458 (Portsmouth); 16CP 764064 (Brent); 19WK 873398 (Manchester).

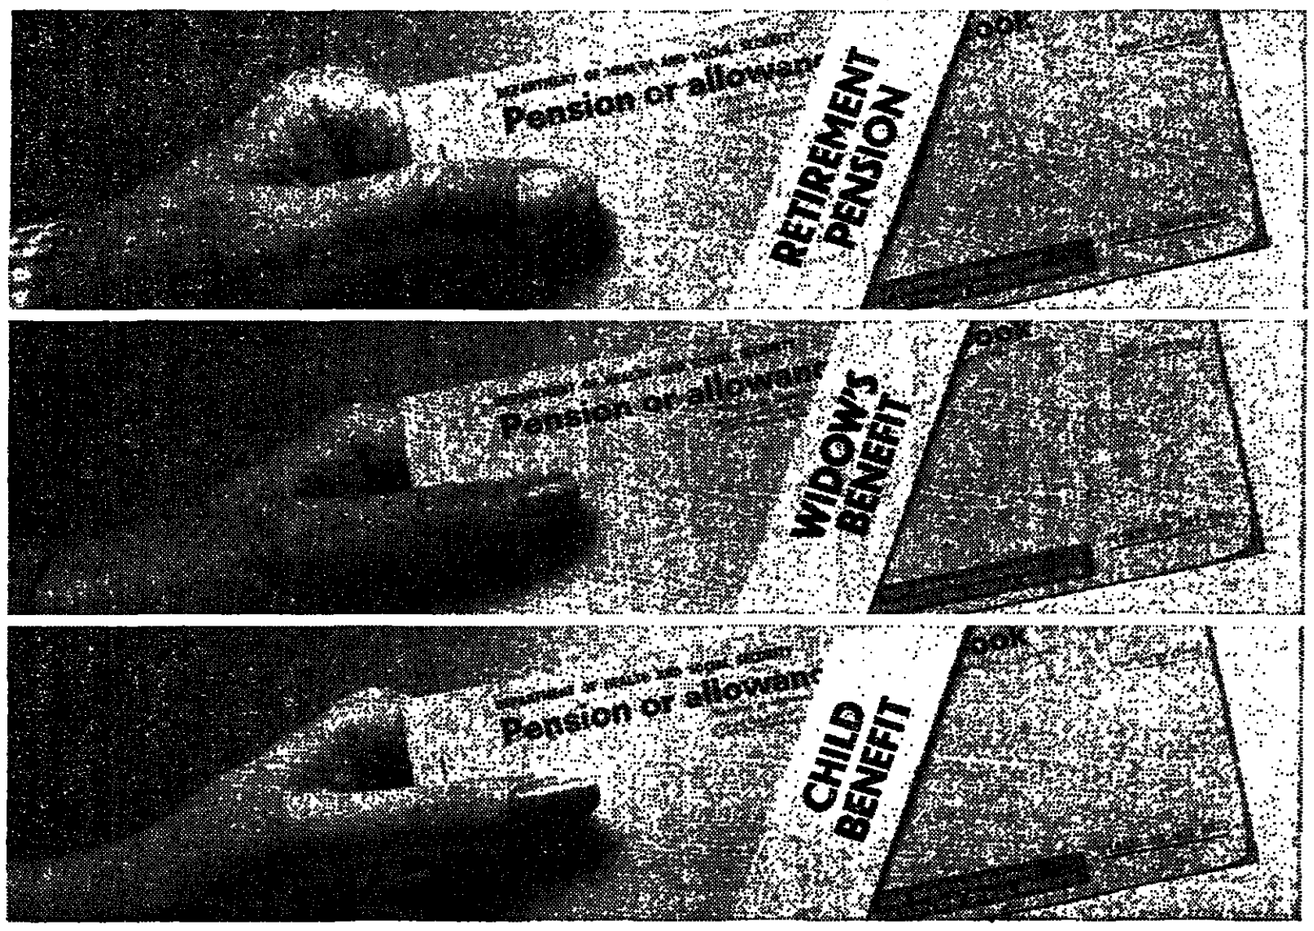
PRINCESS AIDS CURRENCY INVESTIGATION

By Our Madrid Correspondent

Princess Maria Teresa de Baviera, a second cousin of King Juan Carlos of Spain, was among prominent people being questioned yesterday in the investigation of an alleged multi-million-pound currency transfer racket.

Francisco Palazon, 55, a former Consul General in Geneva, was detained at Madrid airport at the weekend, and on Tuesday police arrested Eduardo Garcia de Enterria, a leading lawyer and his wife, who were freed on bail of £127,000 each as an inquiry by a monetary court judge started.

The princess, a well-known "jet-set" figure, said in a radio interview yesterday that she had handed over "some money" and had received "income" but had no idea where the money concerned had been invested.



Recovery from DHSS industrial action.

We are making good progress in clearing the backlog of work following the ending of industrial action at our Newcastle computer centre.

We are grateful for your co-operation and patience. Please continue to help by not writing to Newcastle (unless you are paid 4 or 13 weekly and your circumstances change) or to the Child Benefit Centre, Washington. Only get in touch with your local social security office if you need urgent advice or payment, or to report a change in your circumstances.

PENSIONS

Normal payment arrangements for pensions will be fully resumed as quickly as possible. Until this can be done, emergency payment arrangements will remain in operation as follows:

☐ Until your new order book is available, the post office will continue to pay on your old book. We have started issuing new books but it will be June before all old books are replaced by new ones. So don't worry if the post office doesn't have yours before then.

You can find out when your new book will be available from posters displayed in most post offices. When the post office gives you your new book, tell them if you have missed any payment on your old book.

☐ If you're receiving payment from your local social security office or by Girocheque from Newcastle, for example in place of payable orders normally issued by the Newcastle computer, you will continue to get payment on the due date until your usual method of payment is resumed. Newcastle has started issuing 4 or 13 weekly payable orders.

Payments by credit transfer to a bank or building society account are now being made normally.

CHILD BENEFIT

Normal payment arrangements for child benefit have been restored for most people and will be fully back to normal by early February.

Watch for further announcements, which will be made in the newspapers as necessary.

Issued by the Department of Health and Social Security.

Focus on bid prospects

STOCK market dealers seemed resigned to a longer-than-expected wait for a reduction in base rates after the money supply statistics, hence a mood of caution at the opening yesterday. With sentiment also adversely affected by Mexico's oil price changes, jobbers lowered values over a fairly broad front, with oil shares themselves worst hit.

However, the now familiar pattern of no real selling pressure soon resulted in calmer conditions and subsequent selective support prompted a somewhat brighter tone.

A new spate of takeover speculation in shares such as Debenhams and Thorn E M I attracted a good deal of attention, while **Imperial Chemical Industries**, whose second quarterly is due on February 28, rallied from early dullness at 855p to close 7 up at 869p after 874p.

The electrical sector remained under the shadow of recent discouraging statements, notably by Racal Electronics and Unitech. **Racal** slipped 4 more to 198p and **Unitech** 12 further to 256p, while **A B Electronics** dropped 45 to 425p, **Ferranti** 9 to 145p, **G E C** 6 to 198p, and **Plessey** 6 to 172p.

Acorn Computers plummeted to 25p on renewed concern about the price war in the industry, but the shares rallied to 28p, at which level dealings were halted, pending a statement on the company's position.

Blue chips ended the day on a mixed note and this was reflected in the market indices: the "30" closed 0·9 firmer at 983·3, after 977·0 and the "100" 0·4 up at 1,289·5, after 1,280·5.

Initially easier at 430p, **Thorn E M I** enjoyed a surge of interest (including sizeable "call" options) on talk of a possible joint bid from Racal Electronics and Grand Metropolitan; the shares were finally 18 to the good at 457p.

Debenhams jumped 21 to 216p on suggestions of a bid from Hanson Trust, but some dealers were very sceptical about Hanson's desire to increase its activities in the stores sector.

Government securities opened slightly easier, with jobbers on the defensive, but little business developed and the market recovered its poise, although without much in the way of buying activity. The printed price lists showed little notable alteration.

Leading bank shares had firm spots in **Lloyds**, 7 up at 594p, after 597p, and **National Westminster**, 9 better at 678p, while money brokers were featured by **R P Martin**, 20 to the good at 405p, after 420p, on confirmation of another bid approach. Among hire-purchase issues, **First National Finance Corporation** were 4 higher at 99½p, after 100p.

Changes in building issues were usually limited to a few pence either way, but **Burnett & Hallamshire** responded to demand in a thin market and closed 20 up at 190p.

B T R jumped to 677p on the company's statement about Dunlop financing arrangements before closing 25 better at 672p. **Dunlop** ended 2 easier at 36p, after 34.

Following a late overnight reaction to 206p on a brokers' (W Greenwell) downgrading of their profit forecast, **T I Group** met active two-way business and closed 8 better at 214p. There were whispers that a major stake was about to change hands.

Solid demand left gains in **Glaxo** £¼ better at £12, and **Fisons**, 13 higher at 308p, while **B A T Industries** gained 7 to 383p and **Hanson Trust** 6 to 220p. **Imperial Group** (results due next Thursday) were a shade firmer at 207p, after 209p, but **British Telecom** slipped 1½ to 124½p, after 123½p.

Following Tuesday's advance on the Entrad takeover offer, **Tootal** were consolidating at 77½p, down 1½ on the day. The lapsing of the British Land tender offer for Stylo left the latter 3 easier at 165p, after extremes of 150p and 175p. **Town Centre Securities**, which owns a major stake in Stylo, were 4 better at 47, after 50p.

Unibond returned to the market after the takeover offer from Beecham Group and closed 65 higher at 218p. **Prince of Wales Hotels** were firmer in late dealings at 108p on news that Quality Inns had increased its stake in the company.

Flurries of bid speculation prompted strength in **Appleyard**, 8 up at 48p, **W Canning**, 10 better at 104p, and **J Hewitt**, also 10 higher at 74p, but **East of Scotland Onshore** ended 2 easier at 76p, after 80p, on the offer from **Industrial Finance & Investment**, 4 off at 181p.

Fading takeover hopes saw the closure of speculative positions in **James Halstead**, which ended 6 down at 79p, after 76p. On the other band, buyers held the stage in **Lep Group**, 13 up at 255p.

De La Rue, also 13 higher at 845p, and **Pilkington Brothers**, 7 better at 310p. Suggestions of possible developments accompanied support for **Ocean Transport**, 6 to the good at 159p.

The announcement of the sale of four small subsidiaries encouraged new support for **Cable & Wireless**, finally 17 higher at 530p. **Highland Electronics** were wanted in late business and ended 7 up at a new peak of 96p. **Turner & Newall** also met support at 115p.

In the insurance sector, **Minet Holdings** advanced 12 to 279p on renewed speculation linked with the St Paul's stake in the group, **General Accident**, at 546p, and **Legal & General**, at 573p, both ended 8 higher, while **Reed Stenhouse** (a very limited market) ended £1⅛ higher at £14½, after £15.

Dee Corporation gained 12 to 205p as dealers suggested that the company was preparing another bid for **Booker McConnell**, 9 up at 278p. Elsewhere in the food section, **Rowntree Mackintosh** ended 3 firmer at 366p, after 368p, on continued takeover speculation.

Apart from the aforementioned action in Debenhams, the stores sector was fairly quiet, but **Our Price** were wanted and closed 9 up at 361p ahead of next Monday's interim figures.

Leading oils were off the bottom, but were still in cautious mood at the end of the day. **British Petroleum** were 5 down at 545p, after 538p, and "**Shell**" 8 off at 760p, after 758p. **Falcon Resources** showed renewed strength at 537p before closing 5 easier at 515p, but **New Court Natural Resources** advanced 11 more to 61p.

Gold shares took a turn for the better as small buying interest had effect in a thin and sensitive market. **F S Geduld** rose to £19½, **Vaal Reefs** to £80, **Randfontein** to £80½, and **Western Deep** to £32⅞.

Tailpiece

WITH the benefit of hindsight, shareholders in Premier Consolidated Oilfields must regret turning down last October's takeover bid worth around 70p per share from Carless Capel. After the recent £16 million rights issue, Premier languish at a mere 46p, with the new at 6½p premium. This poor performance can be partly explained by uncertainties surrounding the overhanging stake held by New York arbitrageur, Ivan Boesky, but some operators obviously believe that the shares are oversold and have placed bids for the rump of the rights issue.

Premier's basic business seems on course for strong expansion, with cashflow increasing at a significant rate, particularly from the Wytch Farm development. The chairman, Roland Shaw, has just purchased 176,000 shares, while director Rupert Lascelles has bought 126,000. All this leads to the TAILPIECE conclusion that shareholders should take up their rights.

BTR agrees on deal with Dunlop bankers

By JOHN RUDOFSKY

THE EXTRAORDINARY battle for control of Dunlop took a fresh twist yesterday when bidder BTR reached agreement with Dunlop's own principal bankers on financing for [illegible] if it wins control.

[illegible]erred, Sir Michael Edwardes and his board at Dunlop announced an hour later that the same principal bankers have also "reconfirmed their support for Dunlop's financial reconstruction including the extension of facilities beyond March 31 and the possible revisions to the reconstruction proposals."

Clearly bankers are playing both sides. Barclays and National Westminster are the two leading lenders concerned and Barclays spelled out the position.

"Shareholders can either back Dunlop as a going concern on its own or back the company as an important part of a successful BTR" said a spokesman. "The two are not mutually exclusive."

However Dunlop despite reaching amicable arrangements with its main bankers on the one hand, yesterday "deplored" BTR's announced deal with the same banks, the terms of which are to remain secret.

"This information is highly pertinent to Dunlop and its shareholders and BTR should provide it without delay," said Dunlop.

Dunlop shareholders are scheduled to attend a special meeting tomorrow morning to vote on Dunlop's original reconstruction plans.

But as an added complication Dunlop now wants to revise those plans and adjourn the meeting straightaway in order to circumvent BTR's intended blocking tactics at that meeting.

Barclays defended the decision to keep banking plans with BTR secret arguing this is normal banking practice and irrelevant to Dunlop shareholders.

They have been offered either £35 million cash or shares, and even if all took BTR shares would still end up with only 1 p.c. of the enlarged group.

Although the deal between the banks and BTR were not disclosed it was yesterday made clear BTR would stump up more than the £72 million cash due to be received by Dunlop under its original plans to offer new shares by way of rights and to place new shares. The original plan also included a £70 million conversion of bank debt into equity which BTR seems prepared to take on its balance sheet instead.

Although the principal bankers among Dunlop's 53 lending banks have not been formally revealed, they are understood to include all four clearers owed just over £100 million between them.

Also thought to be involved with BTR are Standard Chartered, Citibank and Credit Lyonnais owed some £40 million. The principal bankers are now trying to persuade the other 46 lenders to agree the arrangements with BTR.

Although the focus of attention switches to tomorrow's meeting, it is in fact still early days in the bid battle.

BTR's 20p cash offer does not even reach its first closing date until February 21 although it is dependent on Dunlop's finance plans being voted down. But a vote does not now look likely for some time.

In any case the Dunlop share price is well above BTR's terms although it slipped on news of BTR's banking coup, closing 2p lower yesterday at 36p.

WITH most of the big acquisitions in the stockbroking world now out of the way, it was only a matter of time before London's elite group of foreign exchange and money brokers began to attract the attention of those anxious to play a key role in the City revolution.

Yesterday's big news was that R. P. Martin, itself the smallest and most specialised of the big four quoted money brokers, has been approached by a potential bidder. Martin shares rose 20p to 405p for a two-day gain of 40p.

This is the second time Martin has been involved in bid talks in the space of just over two months. The first time involved plans for a management buy-out but these foundered, City experts believe, because the management could not afford the sort of price demanded by Martin's major institutional investors.

They include the Bierbaum partnership, a German group with roughly 42 p.c.; Touche Remnant, with just over 9 p.c.; and the Merchant Navy Officers' Pension Fund, with 10·3 p.c. After the collapse of the buy-out talks in January, Martin shares slumped to 340p.

Martin management remained tight-lipped yesterday about the identity of the company's suitor. Security Pacific, the Californian banking giant, has long been regarded as the most likely bidder, but some City observers believe the latest approach has come from an unexpected source.

Meanwhile, Norwich Union has increased its stake in Mills and Allen, another London money broker, from 5 p.c. to 6½ p.c. Clive Hollick, managing director of Mills and Allen dismissed the suggestion that the Norwich move had any particular significance, arguing that Norwich is "just an institutional holder."

The City took a different view, however, marking up the shares of Mills and Allen, Mercantile House and Exco International in sympathy with the news from R. P. Martin.

Anthony Munns, analyst with leading stockbroker Grieveson Grant, argues that London's four big money brokers are attractive bid targets because they dominate the world in their field and are currently earning big profits from the volatile state of international currency and money markets.

R. P. Martin is now valued in the stock market at £39 million, but could be worth at least £44 million — 450p a share — if a bid goes through, analysts believe. Mills and Allen is capitalised at £14·6 million, Mercantile House at £300 million and Exco at £510 million.

CITY COMMENT

Mystery suitor comes calling on R. P. Martin

Trajectory of the dollar

NO ONE doubts that at present levels the dollar is "grossly overvalued" in the Chancellor's words on any kind of economic reckoning. But when and how fast it will fall is anybody's guess. European finance ministers and central bankers have bitten their nails to the quick over the past few months worrying about the disruptive consequences of a dollar collapse. Many currency forecasters, by contrast, think a "soft landing" quite likely.

High American interest rates, and the perceived riskiness of alternative investments, have continued to attract foreign buying of dollars in ever increasing quantities to finance the widening current account deficit. This situation is not going to change because of European breast-beating about the damage it is doing to their economies.

The key lies with the attitude of the Americans themselves and this is, to say the least, ambivalent. On the one hand, Paul Volcker, Chairman of the Federal Reserve Board, worried out loud on Tuesday about the potentially confidence-sapping accumulation of foreign debt and said the strength of the dollar was "unfortunate."

On the other, the Economic Report of the President claims the strong dollar has been good for the economy by keeping inflation down and stimulating production and investment in sectors less involved in international trade.

If a lower dollar same about by a gradual easing of interest rates following decisive action to cut the swollen Federal budget deficit, both sides might be satisfied. But this looks unlikely. The two other options to bring the dollar down — large-scale intervention and deliberate easing of money policy — risk triggering an uncontrollable run on the currency which would push up inflation, drive up interest rates and stifle economic growth.

The sight of the United States authorities undermining their own currency would almost certainly be too much for the markets, which helps explain the half-hearted American approach towards concerted central bank intervention.

Marriages of convenience

GIVEN the fashion for marriages between building societies, it comes as something of a surprise to hear of one couple which has broken off its engagement.

The Coventry and the Heart of England, in an unrevealing statement, said that the resources and time needed to merge the two could at present be better deployed in devloping their independent roles.

That could be translated by the more hard-nosed as meaning that the senior men on each side decided they did not in the event relish the proposed new way of life, preferring to stay swimming in the ponds they know so well.

But the norm is to merge. The number of societies halved between 1910 and 1950, halved again by 1974 and again by 1985, leaving fewer than 200 today.

Yet does this path create a more efficient, tighter run industry? Does it mean a better deal for the customer, one which, for example, results in lower mortgage costs?

Life for the staff seems to go on much as before. In the case of the Coventry and Heart of England the staff at each society were assured that there would be no compulsory redundancies arising from the merger.

The Leicester and the Alliance, which yesterday started consultations with senior men and the staff associations, have stated that they will keep open the two head offices with their staff and intend to offer continuity of employment to everyone.

So no cost savings there to pass on to the customer. And having a wider network of branches means little to the individual investor.

All this merger mania might not matter to the customer if he had true freedom to take his mortgage elsewhere at a lower rate. But the majority of borrowers are effectively locked in for their term or until they buy a new house.

St Martins sells offices for £65m

ST MARTINS Property Corporation has sold Winchester House, a freehold office building of 225,000 sq ft on the corner of Old Broad Street and London Wall, City for £65m to Friends' Provident and Wates City of London Properties.

Paul Wates, chief executive of Wates City, said yesterday: "We are the minority partner. We still have a lot of loose ends to tie up but it is a very exciting deal."

St Martins, controlled by the Kuwait Investment Office, is developing the London Bridge City complex on the south bank of the Thames in Southwark. It had placed Winchester House on the market at £70m.

IFIC goes East

INDUSTRIAL Finance and Investment Corporation has launched its expected bid for East of Scotland Onshore on a basis which gives investors up to 118 p.c. of net asset value if they accept IFIC shares at 180p. East of Scotland says the bid does not reflect the underlying worth.

Questor—P18

Peat in Britannia

THE GUINNESS Peat Group is further increasing its stake in Britannia Arrow Holdings through the purchase of 5m shares from the London and Manchester Assurance.

The deal is on the same basis as the one agreed last month with Britannia's major investor, United Kingdom Temperance and General Provident Institutions, namely three GPG shares for every two Britannia.

The deal brings the equity stake to 26·8 p.c. rising to 28 p.c. on conversion on loan stock.

Questor—P18

Martin Ford loss

WOMEN'S wear retailer Martin Ford, which swung from a pre-tax profit of £115,100 to a loss of £199,600 in the opening half and passed the 0·35p interim, made the return to profitability expected in the closing months.

At the operating profit level it made £150,300 and at the pre-tax £50,800 but this still leaves it with full year deficits of £63,900 (profit £272,400) and £48,800 (profit £23,200) on sales of £7·28m (£7·47m).

There are losses per share of 0·5p (earnings 1·61p). Holders get a nominal 0·05p dividend on April 18 (total of 1·05p).

Back to dividends

CHRISTIE-TYLER, the furniture and upholstery group which resumed dividends last July after a two-year absence from the list with a 1·5p payment for 1983-84 following a strong second half, is now paying its first interim for four years—1p on April 9.

Background is a continued recovery during the traditionally more difficult opening half, which this time included reorganisations, with pre-tax profits up from £18,800 to £22,600. Sales were up 13 p.c. to £39·9m and market share increased.

Spurs score

TOTTENHAM HOTSPUR, the first football club to obtain a full stock market listing, reports half year profits to Nov. 30 of £195,000, against £33,000 a year ago.

The pre-tax figure is £821,000 against a £459,000 loss, taking into account total net transfer fees for players.

Acorn shares frozen after hectic trading

By BARBARA CONWAY

SHARES in Acorn Computers were suspended yesterday after chaotic trading which saw the price, which peaked at 187p last year, down as low as 25p at one point as the speculation of major cash flow problems swept the market.

The shares, traded on the unlisted securities market, were frozen at 28p, down 7p, and the Stock Exchange is expected to mount an inquiry into recent dealings.

Acorn itself said only that it was "actively taking steps to reorganise the company's affairs" and confirmed that, last Friday, "Acorn informed Lazard Brothers that it was changing its financial advisers to Close Brothers."

Cazenove the broker which with Lazard brought Acorn to the USM, resigned its association with the company last Friday.

The events at Acorn follow a disastrous start to the year for the computer industry and, only two weeks ago, Acorn itself held a special Press conference to quell suggestions that it had cash problems.

But fears about the implications of a new price war in home computers, started last month with a price cut for the revamped Sinclair Spectrum, and disappointment over the reception given to Acorn's new range of business machines continued to depress the Acorn share price.

The company has made another 30 of its staff redundant, *following the cutbacks* made last December when it acknowledged failure in its attempts to break into the American home computer market with the BBC "B" model, and slashed the price of its Electron computer by £70.

Alarm over the implications of yesterday's actions also caused a 45p slump in the share price of A B Electronics which has the contract to manufacture the BBC micros.

A further statement is hoped for today but City analysts have been switching their 1985 profits forecasts for Acorn, which made £10·8 million pre-tax last year, to loss estimates. Expectations are that, at the best, the company will announce a major financial reconstruction.

Acorn has been unable to join in the price-cutting as far as the BBC "B", which is now in many schools, is concerned because the machine is very expensive to produce. The BBC itself takes a royalty, of up to 10 p.c. on sales of the computer which bears its name, and BBC Enterprises made large profits from the operation last year.

Brit. Land Stylo bid lapses

FOLLOWING the failure of British Land to attract sufficient acceptances from Ordinary shareholders of Stylo its tender offer has automatically lapsed.

A spokesman for British Land said yesterday: "It is not so much a victory for Mr Ziff (Stylo's chairman) as a loss and a reverse for Stylo shareholders for the second time within 12 months."

British Land obtained acceptances from the holders of only 6·7 million Stylo shares and the spokesman for British Land said: "The Ziff purchases in the market for Town Centre Securities have frustrated the acceptance of the tendered shares, as unfortunately, while the Takeover Panel permitted Mr Ziff and his associates to canvass their own shareholders and to buy some 2·3 million shares, British Land was denied the right of reply or permission to buy shares.

Stylo shares yesterday closed 3p down at 165p. British Land eased 1p to 138p, while Town Centre Securities, another company headed by Mr Ziff closed 4p up at 47p after reaching 50p.

Wall St drifts ahead of Reagan

By JAMES SRODES in Washington

WALL STREET'S share prices drifted in ambivalent trading yesterday as investors paused in advance of President Reagan's State of the Union address to Congress.

Investors hoped that the President's speech would clear up questions surrounding the Administration's resolve to reform the tax system and cut the government's budget deficit.

There was also concern that the Reagan team intends to make the Federal Reserve's autonomy from the White House a major policy issue in the next four years and investors anticipated that Mr Reagan would shed some light on this as well.

In its letter to Congress which accompanied the budget on Monday, the White House issued a strong statement criticising Federal Reserve Board policy.

In addition, the Council of Economic Advisers report to Congress blamed the central bank policy for past recessions and said there was a distinct relationship between Federal Reserve monetary clampdowns and the severity of subsequent recessions.

A Bill has been introduced in Congress to appoint the Treasury Secretary as an *ex-officio* member of the Fed's governing board and Mr Reagan was expected to endorse that controversial proposal in his State of the Union message.

Investors also had to contend with a revised forecast on government budget deficits from the Congressional Budget Office. The office said it now estimates that America's government budget overruns in fiscal 1985 will be a record $214 billion. The new projection was up $23 billion from earlier estimates.

The Dow closed 4·64 lower at 1,280·59. Volume totalled 142 million shares.

Unocal, an oil company that was rumoured to be the next target of Texas Maverick T. Boone Pickens, was among the most actively traded. Its stock dropped 2⅛ to $45⅞ as investors decided that the speculation of Mr Pickens' takeover intentions were without merit.

Investors backed off Phillips Petroleum stock in the wake of an announcement that financier Carl Icahn had offered $8·5 billion for the Oklahoma-based oil concern.

Though Phillips shares were among the most actively traded the price was up only ¼ at $50, far below the $55 a share offered by Mr Icahn.

Traders in New York said speculative investors appear to be holding back in anticipation that Mr Icahn's takeover bid could force Phillips to buy its own stock or seek another outside suitor.

Phillips recently emerged from an unwanted takeover war with T. Boone Pickens. Many Wall Street speculators took a bath when the Pickens-Phillips battle ended in a controversial settlement that many believe weakened the oil giant.

There was some concern that Phillips could reach a similar agreement with Mr Icahn and thus investors were nervous about the $55 in cash and securities bid.

Bumper reception for Hillsdown

THE OFFER for sale by tender of some 25 p.c. of Hillsdown Holdings, Britain's largest privately owned foods group, has been "heavily oversubscribed" with around 100,000 applications received.

Kleinwort Benson, the merchant bank handling the offer of 47 million shares at a minimum tender price of 100p per share, said "the registrars think this is probably the largest number of applications they have ever seen for a tender offer.

The final striking price and allotment details are expected to be announced today.

Britain moves to head off U.S. trade war

BRITAIN is attempting to act as a "peacemaker" to avoid an increase in the risks of a trade war developing between the Common Market and the United States.

Government ministers, alarmed by the growing strength of United States protectionist lobbies and the hawkish noises from members of the Reagan administration, are supporting moves for a new round of world trade talks under the umbrella of the General Agreement on Tariffs and Trade.

The United States wants GATT to discuss liberalisation of trade in high technology and service and British ministers feel that a new initiative could cool the protectionist pressures. But there is opposition to talks on services liberalisation in the developing countries, led by Brazil and India, and any initiative is unlikely before February next year.

British observers at last weekend's Davos management symposium detected a "new arrogance" in United States attitudes. Mr R. P. McNamar, a Treasury assistant secretary, urged Europe to put its house in order and predicted that oil prices would be down to $15 a barrel by the start of next year.

The British Government is also moving towards supporting a phasing out of the multi-fibre arrangement, the textile trade pact, although it is likely to support an extension after next year.

Russian cutback in Western oil based deliveries

RUSSIA is cutting oil product deliveries to West Europe this month it was disclosed yesterday but the reduction had little effect in limited spot market trading yesterday.

A Russian telex to customers blamed internal reasons for the cut. Russia has reduced deliveries in the past when faced with a big domestic demand because of bad weather.

Common Market officials in Brussels said the slowdown was unlikely to have any great impact because of mild weather and adequate stocks.

Spot market crude prices marked time in quiet trading after the announcements of the Mexican $1·25 price cut and the Nigerian increase which poses some competitive problems for North Sea oil.

But North Sea Brent crude continued in demand although prices for delivery next month were unchanged at $27·30 a barrel while April quotations were five cents higher at $26·45.

Guinness chief gets £40,000 rise

A PAY rise of more than £40,000 — from £110,700 to £150,900—is shown for chief executive Ernest Saunders in the annual report of Arthur Guinness and Sons as a reward for revitalising the business.

It compares with a £5,000 increase from £25,000 to £30,000 for the chairman, the Earl of Iveagh.

The company will be renamed at the annual meeting on Feb. 28 under a resolution making it simply Guinness. But the brewing division will continue to use the name Arthur Guinness.

"Guinness Plc will be used as a corporate name, reflecting the broader base of the group organised in four identified divisions," say the directors. It has been developing in retailing, publishing and health products as well as in brewing.

Mr Saunders says that "a strong platform for growth" has been built over the past three years. Recent takeovers in retailing and health sectors "provide an enterprising start for our plans." He adds that dynamic international growth is planned.

Sterling has a better day

THE pound held up well on the exchanges yesterday, supported by the view that there will be no early cut in British bank base rates from their present 14 p.c.

The pound rose from $1·1115 to $1·1138 and its international value, as measured by the sterling index, improved from 71·4 to 71·5. This reflected gains in terms of the Deutschemark and other key currencies.

The dollar initially looked like reaching new peaks, but fears of central bank intervention sent it into reverse towards the end of the day.

In London money markets a big liquidity shortage on the day caused by the heavy oversubscription for Hillsdown Holdings shares kept short-term money costs high. Period rates also firmed as hopes of an early cut in bank base rates were set aside.

The cost of one-month and three-month money rose by roughly ¼ p.c. to 13½ p.c. for three-month funds and 14 p.c. for one-month.

● Sterling in New York closed at $1·1145, against $1·1110.

Unibond accepts £13m bid

BEECHAM Group took the development of the British and of its "third arm" home improvement products division a stage further yesterday with an agreed £13·7 million offer for the Unibond adhesives and sealants group.

The terms, 45 Beecham shares for every 71 Unibond Ordinary, or 225p a share cash, are worth more than double the 105p Unibond's shares were placed at when joining the usm a year ago.

Unibond returned from suspension to close 63 higher at 218p, against the 227p valuation put on them with Beechams unchanged at 358p, after 360p.

The offer, which has been accepted by the Bushby family and others in respect of 60·2 p.c. of the equity, is conditional on Unibond making £850,000 against £688,000 pre-tax and extraordinary items, for 1984.

Beecham is paying around 24 times prospective earnings, assuming a likely 35 p.c. tax charge, but the acquisition, following the addition of Copydex to its UHU glue operations last summer, takes it into the "first division" in this line of home improvement products along with the likes of Evode and "Polycell."

Cable & Wireless £10m Bell deal

CABLE and Wireless has reached agreement in principle to sell four maintenance subsidiaries to Bell Canada International for under £10 million.

The companies—Cable and Wireless Services, Eurotech BV, Eurotechnica SA and Eurotech (Italia) handle maintenance for computer terminals and mini-computer installations. Their net assets account for less than 2 p.c. of Cable and Wireless's total.

None of the companies is in the mainstream of Cable's operations, while Bell Canada has been building up its interests in the computer maintenance field.

WITH EFFECT FROM 1st FEBRUARY 1985:

1. Investments and Deposits

Interest rates on Investment and Personal Deposit accounts are increased by 0.75% per annum (Save As You Earn bonuses and interest rates remain unchanged).

New Ordinary Paid Up Share Rates (including Homelink)

7.50% per annum (equivalent to a gross rate of 10.71% to basic rate tax payers).

British Medical Association Group Membership Accounts — Special Introductory rates now reduced by 0.25% per annum on Homelink accounts (prefixed 17) and 0.50% per annum on ordinary accounts (prefixed 13).

2. Mortgages

Basic mortgage rates are increased by 1.125% per annum.

Borrowers are recommended to increase their payments by approximately 7% (e.g. current repayment £100 increased to £107) with effect from February to avoid extended mortgage terms.

Former London Commercial Building Society borrowers will be advised individually how the rate change will affect them.

THE QUESTOR COLUMN

Opportunities in Aerospace

ANYONE—British nationals preferred—wanting to build up a respectable stake in British Aerospace might as well take advantage of the recent drift in the share price now.

When the Government finalises its plans to offer its current 48·4 p.c. holding in BAe, there will be a restriction on the percentage that a single shareholder can be offered, thus avoiding a repeat of the BTR-Enterprise Oil situation.

The package is being put together now in the form of an offer for sale of old and new shares. The Government will retain a golden share to block any foreign raid, and there will be preferential rights so that current shareholders can retain their percentage in the group.

Interested parties have until the late spring or early summer to stock up and thus be well placed, not only to apply in the second round but also to follow through on the rights leg of the package. A one-for-four issue is, at most, proposed.

Two hurdles have to be cleared before the spring sale starts — the March 19 Budget and BAe figures for the year ended December, due late March or early April. The latter are expected to show BAe at between £115 million and £125 million pre-tax for 1984 after £82·3 million, and will undoubtedly include a few teasers to whet the appetite. The civil side is not a black hole and is looking brighter and 1985 looks like being an active year on the order front.

Profits for 1985 should be in the £140 million region, helped in part by interest saved following the funding exercise.

At 350p, down 5p yesterday, BAe sits on a prospective price-earnings ratio of 6·7. The price certainly enjoyed a jump when GEC started to sniff around, but has at least virtually held higher ground and should respond further in its own right as the pre-sale publicity campaign gets under way.

Bagging East of Scotland

THE SUPPLY of small, poorly performing, investment trusts suitable for picking off as disguised rights issues is drying up, and would-be bidders are having to scrape the barrel.

If that were not the case, Industrial Finance and Investment Corporation would not have tilted its cap at East of Scotland Onshore, a trust that will not only be hard to bag but also difficult to liquidate.

East of Scotland has no great claim to shareholder loyalty. Its performance since it came to market with a misleading prospectus in 1981 has been poor, reflecting the fortunes of its chosen sector specialisation, oil service companies.

But East of Scotland can claim that the "formula" bid based on net asset value understates the potential in its embryo portfolio: the question being whether its patient band of investors will be prepared to wait for that potential to be realised.

At present, holders of more than a third of the shares prefer the IFIC terms, which with IFIC shares standing at 181p represent an 18 p.c. premium over net assets. Based on the underwritten price of 150p for IFIC, the terms are worth 98·3 p.c. of net assets.

Given the start which the bid has from 34·4 p.c. of holders planning to accept, it will probably succeed and the door has been left open for a marginal improvement to be made in the terms in exchange for a recommendation.

But even so IFIC will have to fight for it, and will then have the problem of liquidating an essentially illiquid portfolio. East of Scotland has around 30 p.c. of its funds in cash, however, which IFIC will be able to put to immediate work in its growing commercial credit operations.

Arrow holders should sit tight

SPECULATORS in Britannia Arrow Holdings can forget the idea of a contested bid by Guinness Peat Group. Since both parties each own one of the few accepting houses of the City, the Bank of England would never allow it.

But that does not mean that there will be no bid at all, even if that is not the present intention of Guinness Peat. It all depends on how Guinness overtures are treated by Britannia Arrow.

Guinness Peat likes to see its 26·8 p.c. holding as the basis of a relationship. It is used to having associates, and Britannia would give it a substantial extension to its business for a relatively modest investment.

But for that to work, Guinness has to bring something to Britannia other than a certain amount of muscle as the largest shareholder. A steady flow of investment funds, perhaps, but it is hard to see what else it has to offer.

Even with Britannia as an associate, there would be the in-built conflict of interest between the two accepting houses. That is not as great as it first appears, because Singer and Friedlander, the Britannia subsidiary, is strong in the regions and Guinness Mahon is better known for international business.

But nevertheless, there are substantial areas where the two would compete, head on.

If Britannia is not prepared to be the passive associate, Guinness Peat needs to make other plans. It can deliver a knock-out bid, but would need to double the number of shares in issue to do so and would risk the market being overloaded with its paper.

Or it can pass the stake on to another, for cash, and make a tasty profit at the same time as achieving a back door rights issue. Britannia Arrow shareholders should sit tight and await events.

COMPANIES

Astra Industrial

ASTRA Industrial Group, where accountant Peter Dellar carried out a major restructuring last year after taking on the chairmanship in March, has weighed in with a first half pre-tax loss of £62,900 against one of £1·46m for the 18m-84 year.

Stocklake Holdings

STOCKLAKE Holdings, the steel stockholder whose 1983-84 outturn fell from £4·25m to £3·55m, has recovered slightly in the opening half with pre-tax profits up from £1·47m to £1·56m, despite a fall in turnover to £11·8m (£12m).

Meantime, the interim dividend is being held at 3p from earnings of 16·9p (16·5p).

Webber Electro

WEBBER Electro Components, the U S M quoted electronic component manufacturer, has had another record year. Full year pre-tax profits are up from £544,000 to a new peak of £474,000 and the total dividend rises from equal to 1·75p to 2p with a 1p final on April 1. Earnings were 6·62p (6·48p). Turnover advanced from £1·4m to £1·92m with exports accounting for 24 p.c.

IN BRIEF

English and New York Trust: Full year gross revenue £3·89m (£4·43m). Net earnings £2·19m (£2·02m) or 2·75p (2·52p) per share. Nav 115·4p (104·2p). Final dividend 1·5p, payable April 11, making 2·5p (2·5p).

Scottish and Mercantile Investment: First half pre-tax profit £516,000 (£229,000). Eps 5·65p (2·6p). Nav. 414·8p (390·7p and 448·6p on Jan. 25). Interim dividend 3·5p (2p) payable March 1.

Fleming American Investment Trust: Full year pre-tax profit £1·88m (£1·98m) after interest charge of £1·52m (£539,000). Gross income £3·64m (£2·76m). Eps 6·19p (5·39p). Nav. 625·2p (494·1p). Final dividend 3·25p making 5·25p (4·25).

BIDS AND DEALS

Cookson

COOKSON Group has paid some $8m (£5·39m) for two United States companies — Advance Industries, a maker of precision products for the electronics industry, and Vennerbeck and Clase, a producer of bonded materials. Both have annual sales of some $10m (£8·99m).

General Manager – Precision Engineering

c. £20,000 + CAR

HAY-MSL MANAGEMENT SELECTION

Our client is one of the UK's leading manufacturers of sophisticated engineered components used principally in the power generation and aerospace industries. Substantial capital investment, and the ability to meet customers' stringent quality standards often at very short notice, have led to rapid and profitable growth in recent years. Current turnover is approximately £4-million p.a.

Responsibility will be to the Managing Director for the effective management of all manufacturing and related operations in accordance with specified business objectives.

The appointment calls for a graduate mechanical/production engineer, aged 32 to 40, with an outstanding record in manufacturing management, and in-depth knowledge of machining processes. Man management skills and experience of union negotiations are essential.

Remuneration package includes usual benefits and relocation expenses will be paid to a very attractive Midlands location.

Please write – in confidence – stating how you meet our client's requirements to Richard Crosby ref. D.25050. HAY-MSL Management Selection, Union Chambers, 63 Temple Row, Birmingham B2 5NS.

Export Sales Manager

EDINBURGH: FROM £20,000 + CAR

DISTILLERS COMPANY (CEREALS) LIMITED

An experienced Export Sales Manager, preferred age 30 to 45, with the skills and ambition to justify an early Board appointment is required to promote the sale of malted barley and other cereal products, to brewers, distillers and the food industry worldwide.

A knowledge of EEC Agricultural Policy, particularly in respect of restitutions and rebates, is essential together with either a formal qualification in agriculture, botany or brewing techniques, or experience of commodity trading in cereals. Fluency in one or more European languages would be an added advantage, and regular visits abroad will be necessary, normally not exceeding four months each year.

In addition to the salary specified relocation expenses will be payable where appropriate and the Company operates a non-contributory pension scheme with life assurance and BUPA membership.

Please telephone for an application form to Mr. M. G. Ward at The Distillers Company p.l.c., 21 St. James's Square, London SW1Y 4JF on 01-930 1040.

Production Control Manager

c. £20,000

High Technology Capital Equipment

HAY-MSL MANAGEMENT SELECTION

Our client is an international organisation and acknowledged leader in the manufacture of a wide range of sophisticated capital goods marketed in the defence, aerospace, and engineering industries. Considerable investment in product design and development has led to the most extensive use of advanced technology.

An outstanding opportunity has arisen for a suitably qualified and experienced mechanical or production engineer to take responsibility for production control and purchasing in their UK operations. Reporting in at Director level, the successful candidate will ensure an effective supply of materials, parts, and components for manufacture, and a key priority will be a strong link with all levels of manufacturing management. Computerised production control systems are in operation throughout the company.

The person appointed, aged 28 to 40 and educated to HNC/HND or degree level, will have substantial production control experience, within a batch engineering environment. A thorough knowledge of machine shop and assembly operations is essential, as is comprehensive experience of computerised production control systems. A considerable man management background, and the ability to lead a large department, will also be necessary.

The attractive remuneration package includes usual large company benefits. Location: West Midlands.

Please write – in confidence – stating how you meet our client's requirements to Richard Crosby ref. D.25043. HAY-MSL Management Selection, Union Chambers, 63 Temple Row, Birmingham B2 5NS.

Cartographic Draughtsman/Woman

LONDON: WEST END

International Exploration Services Division

CONOCO (U.K.) LIMITED

Conoco is one of the world's leading energy companies and part of a unique natural resources, high technology enterprise ranking amongst the 10 largest industrial corporations in the world.

We now need a cartographic professional with a progressive approach to interpretation presentations and cartographic design to join the International Exploration Services Division which is involved with exploration, development and new ventures in Western Europe, Africa and the Mediterranean areas.

Working with a high degree of initiative, your duties will be varied and will include preparation of geological and geophysical maps, cross sections, diagrams and visual aids from authors' originals to a high level of competence and accuracy. Conditions are pleasant with frequent contact with our oil exploration team.

Probably in your 20's or early 30's you should have at least 4/5 years' experience in a recognised cartographic establishment, preferably in the oil industry or related field involving sub-surface mapping procedures. Education to GCE level is preferred.

Starting salary will be highly competitive and will be accompanied by a first class benefits package which includes free staff restaurant, interest free annual season ticket loan and non-contributory pension scheme.

Please telephone (01-730 7584/7749 at any time) or write in the first instance for an application form to Ian White ref. D.83, HAY-MSL Recruitment Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

Develop your Sales Career with Cresco

c.£9200 + CAR

British Tissues

CRESCO, the hygiene division of British Tissues Limited, manufacture and market leading brands of disposable paper products to Industry, Local Authorities, Hospitals, Education Authorities and Commerce. Following a restructuring of our Sales Operation to further increase our market share we have opportunities based in:

South Essex/North Kent
North West/South West London

As a Territory Manager you would be responsible for creating new business and increasing sales to our already extensive customer base, with full professional support of a major company, including product marketing, technical development, national distribution network, telesales and continuous personal training.

This is an exciting opportunity for an experienced Sales Representative who can make an impact on the success of the Company. Candidates should be aged 25 to 40, enthusiastic, able to build trading relationships with a wide range of new and existing customers, with some sales experience preferably with repeat industrial goods.

We offer a starting salary c.£9-9,500 p.a. plus incentives, company car, 25 days' holiday, BUPA, pension scheme and life assurance and in particular the opportunity to develop your career with a growing company.

Interviews will be held locally.

Act now in writing or telephoning for an application form, to: Tony Watts, Central Personnel Manager, British Tissues Ltd., Lowlands House, 43-51 Lowlands Road, Harrow, Middlesex HA1 3BW. Tel: 01-864 5411.

Northern Sales Manager . . . Marketing and Distribution

An achiever with industrial sales experience

c.£15,000 + EXECUTIVE CAR

HAY-MSL CONFIDENTIAL ADVERTISING

This new senior appointment will play a key part in the growth plans of a thriving £110m. turnover marketing and distribution company whose range of quality products have established them as pace setters in their field. Operating in a rapidly changing and highly competitive market place, they are now seeking to exploit new business opportunities and increased sales penetration in the North.

Reporting to the Sales and Marketing Director your challenge will be to lead and direct a team of Area Sales Managers to increase sales and profit performance through an established sales force. You will translate the company's marketing objectives into positive sales plans and through your own efforts achieve them. Success will be easily recognised and well rewarded.

Aged 28 to 40 and possibly a graduate with a business qualification, you must be able to demonstrate a record of success in industrial sales management. Some experience of the construction or allied industries or specifying authorities would be valued. A high energy level and the commitment to achieve early success are essential personal qualities.

Starting salary is negotiable; executive car and comprehensive benefits include relocation help to a Yorkshire base in suitable cases.

Please write with full details. These will be forwarded direct to our client. List separately any companies to whom your application should not be sent. A. L. Brown ref. D.1891. HAY-MSL Confidential Advertising, Oak House, Park Lane, Leeds LS3 1EL.

International Banking

CITY BASED: NOT LESS THAN £18,000

Management of People

HongkongBank

HongkongBank is one of the world's leading financial institutions. The Bank has a major office in the City and a further seven branches in London and the United Kingdom.

There has recently been a substantial re-appraisal of strategy and re-orientation of business. The management of staff is critical to the success of this initiative.

We are seeking an executive to strengthen the Personnel function and to contribute to the management of the vital human resource. The staff number 900 and the complement of the Personnel Department is 20.

We prefer a graduate aged between 30 and 40 and having a mix of line and personnel experience within an international financial organisation. Specific skills are required in the management of remuneration, and in manpower planning.

In addition to the salary mentioned above, there is an attractive package of benefits including a housing loan, company car, non-contributory pension and BUPA. The prospects for the future are bright for an executive who produces results. The Group is developing new business in the UK, and continues to expand globally.

If you match the requirements, please contact the International Recruitment Controller by 20 February for an application form at: The Hongkong Bank Group, 99 Bishopsgate, London EC2P 2LA. Tel: 01-638 2366, ext. 2922.

Market Development – Packaging

BRISTOL

DRG PACKAGING BAGS

If you have a practical industrial marketing background, a keenly developing business mind and are aged around 30, you may be looking for the next opportunity to develop your skills.

From a firm trading base and a proven production capability, DRG Packaging Bags is seeking to exploit its position as a leading supplier to food producers, medical and industrial users by extending into new applications.

The brief is to pursue totally new market opportunities and by applying thorough investigative and reporting techniques via potential customers, suppliers and machinery manufacturers, to contribute to management decisions and greater profitability.

You will have several years' experience in a marketing related field, ideally some knowledge of the packaging industry – or the ability to quickly assimilate the environment – a high standard of communication and presentation skills and will be self-sufficient in generating your own activities and results.

We offer a competitive salary, company car, personal expenses and other large company benefits.

Please send a full CV or telephone John Bullock, Sales & Marketing Manager, DRG Packaging Bags, Argus Road, Bedminster, Bristol BS3 3PB. Tel: Bristol (0272) 669571.

Retailing Professionals

SUBSTANTIAL EARNINGS INCLUDING BONUS + CAR

. . . to promote a retail credit card — in the Thames Valley and Kent areas

HAY-MSL CONFIDENTIAL ADVERTISING

Our household name client is the acknowledged pacesetter in the High Street fashion revolution. Its retailing concepts lead the market and the inhouse credit card has been a major factor in this success. Further expansion is planned and exciting new developments are currently underway to increase accounts nationwide.

Through lively and innovative sales promotions, your challenge will be to create customer awareness of this concept in credit cards and to maximise recruitment of new accounts utilising the company's extensive network of retail outlets. There will be the freedom and scope to demonstrate training, promotional, retailing and field sales skills in a fast moving environment. Success will open up further career prospects in retail and business management.

Age 25 to 35 with a retailing background – experience in men's/women's fashion may be an advantage – you should be a highly motivated individual with the commitment and enthusiasm to make an early contribution to achieve sales success in this venture.

The rewards are there . . . excellent salaries; bonus up to 15% of salary; profit share; company car; staff discount. Assistance with removal expenses where appropriate.

Please write with full details. These will be forwarded direct to our client. A. L. Brown ref. D.1898. HAY-MSL, Confidential Advertising, Oak House, Park Lane, Leeds LS3 1EL.

Aluminium Bahrain (ALBA) is the major aluminium producer in the Arabian Gulf currently producing in excess of 170,000 tonnes a year. The Smelter operation includes Reduction and Casting Departments, a Carbon Plant, a Vehicle Workshop, a six mile Aerial Ropeway, its own Marine loading and discharging facilities and a 420 MW Power Station.

Metallurgist

BAHRAIN: c.£25,000 + BENEFITS

alba

. . . to have overall responsibility for a "Quantometer" operation. You will lead a team of metal inspectors working on a continuous 7-day 24 hour shift system and also be required to carry out important project work.

Preferably aged 30 to 45, you should be qualified to HND or degree level in Metallurgy/Metallurgical Engineering with a minimum of 3 years' practical experience ideally in the aluminium industry. A sound knowledge of Quantometer metal analysis and processing, D.C. casting, homogenisation, finished product metal inspection and Metallography, preferably in aluminium and its alloys, is essential.

Earnings, at present tax free and freely transferable, will be around £25,000, calculated at current exchange rates. The position is offered on a 3 year fixed term married contract basis.

In addition, substantial benefits include: • end of contract bonus and provident fund • 30 working days' annual leave plus 12 days' public holidays • rent free furnished air-conditioned bungalow • recruitment and repatriation expenses • annual return air fares for employee and family • children's education allowances • free medical care and life assurance.

Bahrain is a stable and attractive country in which to live. English is widely spoken and the Company is experienced in the rapid and smooth entry of expatriate staff into the local community. Extensive sports and social facilities exist.

Please write with full career details to: K. W. Rowe, Alba Smelter Services Limited, Standbrook House, 2-5 Old Bond Street, London W1X 3TB.

Young Marketing Professionals

S.E. MIDLANDS: TO £16,000 + CAR

. . . with an Engineering or Computer Service background

These two new appointments, reporting to a Divisional General Manager, form a key part in the further growth and development of a UK leader in advanced business communication systems. They offer candidates, with a technical background and proven marketing skills, the opportunity to help expand a division with plans for a pioneering range of new products for industrial, commercial, public sector and leisure markets.

Product Manager – Time Control Systems

£14,000-£16,000 + CAR

HAY-MSL CONFIDENTIAL ADVERTISING

Prime responsibility will be for defining a computer-linked product and its future development within the advanced data and time-recording equipment field. Whilst current systems employ microprocessor technology, further rapid expansion is sought in this exciting field.

Applicants, ideally aged late 20's/early 30's and qualified to HNC level in electronics, should have hardware and software experience relative to microcomputers, with a marketing bias.

Product Manager – Sound Broadcasting/Hotel Systems

c.£12,000 + CAR

The appointed candidate will again be responsible for defining products, aimed at sound reinforcement, hotel and leisure markets, and shaping their future development.

Whilst an HNC level engineering qualification would be an advantage, it is less important than work-related experience of sound systems. The preferred age is under 35.

Large company benefits will include relocation help, where appropriate; career prospects are both genuine and exciting.

Please write with full career and salary details, quoting the appropriate post. List on a separate sheet companies with whom your details should not be discussed. Andrew Russell ref. D.1903. HAY-MSL Confidential Advertising, Union Chambers, 63 Temple Row, Birmingham B2 5NS.

Cast House Manager – Aluminium

Three year renewable contract in stable part of the Gulf
. . . opportunity to accrue capital

MIDDLE EAST – GULF: £38,000-£40,000 TAX FREE

HAY-MSL CONFIDENTIAL ADVERTISING

Reporting to a General Manager, you will lead a team of superintendents, and have overall responsibility for all aspects of the day to day operations and further development of a large continuous process cast house facility, including I.R., safety and training.

You should have at least 10 years' experience in aluminium smelter or rolling mills operations including at least 3 years in the management of an activity of this nature. Experience and knowledge must cover the casting of rolling ingots, hard alloys and hot top billets together with in-line metal filtration degassing equipment.

Initial tax free salary is negotiable around £38,000-£40,000. Excellent benefits include car, free furnished accommodation, utilities allowance, 6 weeks' annual vacation, annual leave passages, free medical facilities, children's education plus allowances and holiday travel.

Please write with full details. These will be forwarded direct to our client. List separately any companies to whom your application should not be sent. R. L. H. Whitney ref. D.1900. HAY-MSL Confidential Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

Engineering Projects Manager

SOUTH EAST: c.£18,000 + CAR

M&B May & Baker

The May & Baker Group's turnover in 1984 was nearly £500m. and we are in the midst of an ambitious international investment programme in Chemical, Pharmaceutical and Agrochemicals manufacturing. A major part of this investment is at our principal Pharmaceutical manufacturing site at Dagenham, Essex.

The Engineering Projects Manager will play a major role in this activity as well as having broader responsibilities within Capital Engineering. He or she will accept responsibility and accountability for overall cost effective completion. There is management of a team of professionals.

Candidates, ideally in their mid-thirties, will be high quality graduate engineers with first class track records including wide experience in project engineering of batch processes typically found in the fine chemical industry. Their experience will also include working as the client of major contractors.

The Company has a progressive salary policy linked to achievement. Starting salary c.£18,000 but could be higher for extensive experience. There is a choice of cars, medical insurance and a contributory pension plan. There will be assistance with relocation if necessary.

Please telephone for an application form to Miss D. Hall, Group Personnel, May & Baker Ltd., Dagenham, Essex. Tel: 01-592 3060 ext. 2504, quoting ref. DT.02509R.

Marketing Financial Services

LONDON: UP TO £18,000

HAY-MSL CONFIDENTIAL ADVERTISING

Our client is one of the leading firms of international accountants, advisers and consultants and regards marketing to be fundamental to its future growth.

In a broad-ranging marketing environment, the job will include working in marketing research, marketing planning, advertising, preparation of new publications, undertaking marketing training and client seminars.

Candidates, aged under 35 and probably graduates should possess considerable marketing experience, some of which must have been gained in a financial services environment.

There are career development opportunities.

Please write with full details. These will be forwarded direct to our client. List separately any companies to whom your application should not be sent. Brian Woodrow ref. D.1902. HAY-MSL Confidential Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

Quality Monitoring Manager . . . Pharmaceutical Products

Chemists and Pharmacists

SPEKE, MERSEYSIDE: £15,500 TO £18,000

Glaxo Operations UK Limited — Glaxo

We are responsible for the UK manufacture of Glaxo pharmaceuticals and their sale in this country.

Based at our manufacturing site at Speke, located on the Merseyside/Cheshire border, you will manage a team responsible for sampling and testing new materials, packaging materials, bulk and packed products and the release of materials and products through the various stages of manufacture and to the market. Manufacture covers a wide range of pharmaceutical dosage forms including tablets, inhalation devices, oral liquids and suppositories.

Candidates will be graduate professional Analytical Chemists or Pharmaceutical Analysts, with experience of a wide range of pharmaceutical products and be eligible for naming as a qualified person.

Starting salary is negotiable and benefits are those associated with a company of Glaxo's standing and reputation, including relocation help in suitable cases.

Please write with brief career and personal details to: A. Winn, Personnel Manager, Glaxo Operations UK Ltd., Speke, Liverpool L24 9JD.

Production Manager – with further potential

Key post for a Graduate Engineer

E. ENGLAND: TO £15,000

HAY-MSL CONFIDENTIAL ADVERTISING

Our client is a well-established consumer products manufacturer, eight-figure turnover. Responsible to the Manufacturing Director, and part of a young management team, the appointed candidate will head-up a department of around 100 assembling electro-mechanical products in medium batches.

Production targets are demanding and the Manager will need to capitalise upon the resources of other departments as well as leading and exploiting the full potential of the production team. Proven supervisory skill and problem-solving ability is essential, gained ideally in an electro-mechanical environment. Above all, a "making things happen" approach is vital as initial success will lead to a wider role encompassing the total production management function. Familiarity with computer-based manufacturing control systems would be a district advantage.

Attractive benefits include relocation help to a delightful rural area.

Please write with full career details, stating clearly how these requirements are met. List on a separate sheet any companies to whom your application should not be sent. Andrew Russell ref. D.1901. HAY-MSL Confidential Advertising, Union Chambers, 63 Temple Row, Birmingham B2 5NS.

Planning Researcher

LONDON: c. £13,000

Reed International P.L.C. is seeking a young researcher, with a good Economics or Business Studies degree and 3 to 4 years' experience as a business researcher in a major company, to join the small Corporate Planning team at its London headquarters.

Reporting to the Director of Planning, the researcher will produce economic reports at the national, sectoral and market levels in which Reed operates. He/she will undertake specific investigations including any detailed market research in support of Reed's acquisition and other strategic planning programmes and will be involved in compiling some regular statistical reports. A practical approach to all these matters is essential.

Candidates, probably in their middle/late 20's, should be experienced in the use of computer-based models, data bases and analytical packages. Some knowledge of the important strategic planning techniques is desirable.

Please write enclosing a full c.v. to the Personnel Manager, Reed International P.L.C., Reed House, 83 Piccadilly, London W1A 1EJ.

Sales Executives – Non-Ferrous Semis

TO £15,000

HAY-MSL CONFIDENTIAL ADVERTISING

Our client is a small but fast expanding mill agent for aluminium, copper and copper alloy products. With an excellent supplier base, it is intent upon achieving continued sales growth and increased profitability. The appointment of two new Sales Representatives will play a significant part in these plans.

Candidates, aged around late 20's/early 30's although more mature professionals will be considered, must have a proven mill selling record as distinct from a stockist or extrusion sales background. As one post will concentrate on aluminium sales, and the other on copper and copper alloy, experience in one of these metals is essential. Extensive UK travel will be involved.

Salary in the range £10,000-£15,000, dependent upon experience; company car; relocation assistance to the South West Midlands, if appropriate. Career prospects are genuine . . . and exciting.

Please write with full career details. These will be forwarded to our client. List on a separate sheet those companies to whom your details should not be sent. A. D. Russell ref. D.1899. HAY-MSL Confidential Advertising, Union Chambers, 63 Temple Row, Birmingham B2 5NS.

Estimating/Cost Engineers . . . for Project Control

LONDON BASED

BP

. . . to work in the Projects Department of our Group Engineering and Technical Centre in London.

The work will mainly be concerned with major oil and gas production/processing capital investment schemes, but also with other schemes for coal, minerals, nutrition, etc. Opportunities will arise for travel and candidates must be prepared to be mobile as assignments to project teams arise both in the UK and overseas.

Duties will be to provide services for all phases of project activities, from first project sanction through to provision of close-out data. Sound knowledge of up-to-date techniques and procedures particularly application of computer systems is required.

Candidates, B.Sc. or Chartered Engineers, probable age 30 to 40, must have 8+ years' experience in their disciplines preferably related to oil/gas offshore and onshore and petrochemical industries.

Please write or telephone for an application form, quoting reference PRJ 791 to: Susan Skolar, Recruitment & Placement Branch, The British Petroleum Company p.l.c., Britannic House, Moor Lane, London EC2Y 9BU. Tel: 01-920 3484.

BP is an equal opportunity employer.

Export Sales

BASED EDINBURGH

MACDONALD GREENLEES LIMITED, a subsidiary of THE DISTILLERS COMPANY p.l.c. produces and sells Old Parr 12 year old de luxe Scotch whisky through a network of appointed distributors in export markets worldwide. The Company is now seeking to appoint two export sales executives who will be based in the Edinburgh area but required to make regular visits abroad.

Export Area Manager

Old Parr

The Area Manager will be responsible to the Senior Export Director for developing the Company's sales in South and Central America and the Caribbean. This will be achieved by monitoring sales performance, maintaining a close and effective relationship with distributors, providing first hand appraisals of the markets, making regular assessments as to the distributor's effectiveness, recommending changes in distribution arrangements as necessary, and assisting in the development of marketing plans.

Aged 28 or above, the successful candidate will have not less than five years' previous relevant experience in the marketing or sale of high quality consumer goods, and be fluent in Spanish. A working knowledge of an additional language would be an added advantage and, ideally, he or she also will have some experience of working in Latin America.

Export Sales Representative

The Sales Representative will be responsible, in support of the Company's Export Management, for maintaining and assisting in the development of sales in various export markets. He or she will monitor sales performance, visit distributors to assist them with the Company's marketing and sales strategies, and resolve any problems they may have in implementing these.

Aged 24 or above, candidates will have some relevant previous marketing or sales experience together with a sound working knowledge of Spanish. A second language, while not essential, would be an advantage as would some previous experience of working abroad.

In addition to a competitive salary for each appointment, there are 23 days' annual plus nine public holidays and relocation expenses will be paid where appropriate. The Company also operates a non-contributory pension scheme with life assurance and family BUPA membership.

Please telephone for an application form to Mr. M. G. Ward, The Distillers Company p.l.c., 21 St. James's Square, London SW1Y 4JF on 01-930 1040.

FBC Limited is an international company in the field of agrochemicals and livestock products, with a strong research base and certain industrial chemical interests. It has a leading position in the British market, associated companies in a number of overseas countries and an annual turnover in excess of £100m.

Senior Chemical Engineer

WIDNES

Reporting to the Technical Manager, you will be responsible for the process design and commissioning of new plants and plant extensions, and for technical problem solving, optimisation and improvement of existing plants and processes.

You must have an honours degree in chemical engineering and a minimum of 5 years' relevant experience.

Chemical Engineer

WIDNES

This post reports to the Production Manager of Chlor-Chem Limited – a company jointly owned by FBC Limited and FMC Corporation of America. You will be responsible for improvement to existing plant and processes and the work will include trouble shooting, layout, design and commissioning.

You must be a graduate chemical engineer with a minimum of 2 years' experience. A knowledge of chlorine handling technology would be advantageous.

These posts carry an attractive salary, generous relocation package and other excellent conditions of service associated with a leading company.

Please write or telephone for an application form to: Personnel Manager, FBC Limited, Gorsey Lane, Widnes, Cheshire WA8 0RN. Tel: 051-424 5681.

FBC Limited is a subsidiary of Schering AG, West Germany.

Marketing Manager and Export Sales Manager

. . . with a 'major force' in kitchen furniture

WEST YORKS: FIVE FIGURE SALARY + CAR

GEO. A. MOORE & CO. LTD. . . . we are a substantial private manufacturing company with a reputation for well-designed, high quality kitchen furniture and outstanding commercial success. Our position as the undisputed market leader in supplying kitchens to the public and private housebuilding sectors has been achieved by recognising and meeting the needs of the market both at home and overseas.

With a turnover of £20m. and rising, we depend on the versatility and drive of a highly talented management team. As an important element within our existing and future growth plans we are now seeking to further strengthen this management team by recruiting ambitious and resourceful professionals for the following key appointments, which report to the Managing Director.

Marketing Manager

This is a rare opportunity working at Director level to provide a full marketing role in relation to the company's various markets and products, and to implement your ideas in a professional and receptive environment.

Ideally in your late twenties with a relevant degree or professional qualification, you should be able to bring us several years' marketing experience, ideally gained in consumer durables. Some field sales experience would be an advantage.

Export Sales Manager

This is an excellent opportunity to build on the foundations of our sales success in Middle East and Far East markets.

Aged in your late twenties with a degree or professional qualification, you should be able to demonstrate a record of success in field sales, ideally in a competitive and fast moving environment. Some exposure to export sales would be useful.

The remuneration package will be supplemented by a full range of benefits which include a company car and, where appropriate, generous relocation assistance to this attractive rural Yorkshire location.

Please write with full career details, including current salary, to: The Personnel Manager, Geo. A. Moore & Co. Ltd., Thorp Arch Trading Estate, Wetherby, West Yorkshire LS23 7DD. Tel: Boston Spa (0937) 842394.

ELECTRONICS & SYSTEMS ENGINEERS

YOUR GUIDE TO THE FUTURE IN MISSILE SYSTEMS DEVELOPMENT

DESIGN AND ENGINEERING OFFICE, BOLTON

Hatfield/Lostock Division, Bolton

The Design and Engineering Office at Spa Road, Bolton, is part of the Hatfield/Lostock Division, which is the centre for the air launched weapon systems of British Aerospace Dynamics Group.

The facility provides a stimulating environment for engineers to work at the forefront of technological innovation. Investment, both in terms of human resources and advanced technological equipment, is at a very high level. An integrated network system for linking mini computers with an IBM mainframe at the Hatfield site is currently under development and extensive use is already made of CADAM work stations and mini computers.

The Dynamics Group has found considerable success in this exacting field of engineering; be part of our success and join us in one of the three disciplines detailed.

AIRBORNE EQUIPMENT SYSTEMS DESIGN

Systems Engineers to establish specifications for new airborne equipment such as missile power supply and control systems and particularly to link aircraft and missile computer systems.

Electronics Engineers to translate the above specifications into actual circuit designs and to develop the product through ground and flight trials into production.

TEST SYSTEMS

To ensure that today's sophisticated missile systems perform to specification, equally advanced Automatic Test Equipment, simulating strict operational conditions, has to be continually developed.

Electronics Engineers, to design and develop computer or microprocessor based automatic test equipment; to create and prove software programmes; to establish hardware interfaces between new products and test equipment, and to appraise test equipment for production use.

POST-DESIGN SUPPORT

Electronics and Systems Design Engineers to give high level technical assistance to the production factory and to generate product improvement.

The Bolton area enjoys the advantage of relatively low cost housing and relocation assistance would be considered for successful applicants.

Ideally, candidates should be experienced Engineers with a recognised qualification.

People who wish to apply for these positions should write giving brief details of experience and qualifications to Mr. J. Penlington, Personnel Officer, British Aerospace PLC, Dynamics Group, Bolton Design and Engineering Office, Spa Road, Bolton, BL1 4SS. Quoting Ref.D.T.2.

In addition to excellent conditions of employment, which include a contributory Pension Scheme with free Life Assurance, successful candidates can look forward to job satisfaction in a high technology environment and good career prospects.

Located in Bolton, the Design and Engineering Office is close to the M61 providing excellent motorway links to all parts of the country, and is ideally situated for access to the Lancashire Coast, Lake District and Yorkshire Dales.

BRITISH AEROSPACE

DYNAMICS GROUP

Contracts Administration

DEFENCE INDUSTRY

Situated in superb rural surroundings, our client—IMI Summerfield—is a highly respected and well established company with over 30 years' experience and a worldwide reputation in the field of rocket motor technology.

The company has recently formed a new Commercial Department, and as a result, is seeking a talented man or woman to play an important role in its establishment.

Working directly with the Commercial Manager, you will be responsible for pricing and servicing major contracts for the design and production of solid propellent rocket motors. The work will involve external liaison with Royal Ordnance plc, Government Departments at home and overseas, commercial customers, and internally with Accountancy and Production departments.

It's a key role requiring appropriate business or commercial qualifications and with several years experience in the commercial field. Previous involvement with Government contracts and general commercial administration is desirable. You should be self motivated, have good communication skills and be able to show proven success in a demanding administrative position.

On offer is an attractive starting salary depending on age and experience, up to 25 days annual holiday and a contributory pension scheme. For the right candidate the position offers good career prospects. Relocation expenses will be paid in appropriate cases.

Austin Knight have been retained to handle initial enquiries so please telephone Bob Townes at the address below for an application form.

Austin Knight Advertising UK Limited, Tricorn House, 51-53 Hagley Road, Edgbaston, Birmingham B16 8TP. Telephone: 021-454 7351.

RETAIL MARKETING MANAGER

North of England Based in West Yorkshire

A substantial Independent Oil Distributor requires a Manager to assume full responsibility for the expansion of Retail Petrol Operations throughout the North of England.

The Retail Marketing Manager would be responsible for the efficient daily operation of a petroleum wholesale company and will be expected to expand the network of retail site customers within the geographical area laid down and to maximise the company's sales of motor fuels and lubricants through this network in order to produce the optimum level of net profitability in the company.

This new appointment is at senior level and offers considerable opportunity and challenge for the right person.

The successful applicant will be ambitious and self-motivated — ideally having previous involvement in the retail petrol market.

An attractive remuneration package, including company car, will reflect a progressive company.

Apply in writing to:

M. A. N. Dugmore Esq., Personnel Manager,
HARGREAVES FUELS
Hargreaves Group plc,
Bowcliffe Hall,
Bramham, Wetherby,
West Yorkshire LS23 6LP.

HARGREAVES GROUP

APEX STORAGE SYSTEMS

NEW NAME ..... NEW APPROACH ..... LONG TRADITION

Apex Storage Systems Ltd traces its history back to the company which pioneered the concept of high-density palletised storage in the 1950's and is now exploring fresh ways to increase the efficiency and cost-effectiveness of its products which are being incorporated in some of the most ambitious warehousing and storage installations in the UK and overseas.

The new product range covers the spectrum from simple racking and shelving systems through to advanced mobile storage and rotary units with automatic shelf-selection.

Apex's Managing Director, Brian Walters, is looking for more men and women to join his team — hardworking professionals with vision who can contribute to and share in the company's expansion schemes.

SALES AND SALES MANAGEMENT

There are opportunities in many parts of the UK for people aged 23-40 years with experience in selling engineering capital equipment. Ideally, applicants will have some background in storage and materials handling — but the prime requirement is for good basic engineering knowledge combined with the ability to sell.

These roles will appeal to sales people capable of thinking 'outside the square' — who can analyse a prospect's situation and design the optimum solution to the problem.

Apex takes a realistic stance on salaries, initial guarantees, overall earnings potential and fringe benefits. The right applicants will not be disappointed.

DEVELOPMENT ENGINEER to £14,000 p.a.

This newly created position at Apex's head office near Uxbridge offers the successful applicant a key role for the future — introducing the next generation of storage systems.

The wide and flexible brief will include product reviews providing the opportunity for innovative ideas and original design/development concepts based on high-volume manufacture.

Applicants must indicate a lateral thinking ability suitably enhanced with a practical appreciation of modern manufacturing techniques combined with the academic qualifications to assess, quantify and project the right products to meet the company's envisaged investment plan.

The ideal person will be a graduate (probably in Structural Design), aged over 28, with experience of thin-gauge material sections.

The salary/benefits package is highly competitive and includes relocation if necessary.

In the first instance, please telephone Brian Hodges (Sales) or Phil Dungey (Engineering) on Epsom (03727) 41101; or write enclosing a brief but meaningful c.v. to:

Brian Hodges Associates

Software Professionals

Design – Implement – Test

A world leader in the design and production of advanced telecommunications equipment has recently established its first R and D laboratory in Europe.

The international reputation it enjoys in the areas of software engineering and digital technology has enabled it to maintain sustained business growth. This expansion has resulted in the need to recruit a number of experienced Software Designers to be based in the company's offices, west of London.

You are a graduate, preferably in electronic engineering or computing and between 22 and 30 years of age. A good communicator and possessing excellent analytical skills, you are familiar with one or more of the following disciplines:

- system software
- real time systems
- call processing
- maintenance systems
- distributed processing
- packet and circuit switched data
- voice/data network design
- network signalling systems
- international telecommunications standards.

This is a chance to join an aggressive, forward-thinking organisation which offers good opportunities for advancement and highly competitive salary packages.

If you meet the requirements then write (in complete confidence) to Laurence Harris of Cripps, Sears & Associates Limited, (Personnel Management Consultants), 88-89 High Holborn, London WC1V 6LH. Tel: 01-404 5701 (24 hours)

Engineering Opportunities in The Gulf

The Abu Dhabi Gas Liquefaction Company is one of the major companies engaged in the production of liquefied gases. Its plant, located on Das Island, is one of the most sophisticated in the Middle East, employs a multinational workforce and has a capacity of over 3 million tonnes per year. In order to strengthen the technical side of its organisation, the company has established a new Engineering and Technical Services Department based at its mainland Abu Dhabi head office.
Applications are invited for the following positions in this new Department:

Electrical & Instrument Engineer
Dhs 8,975–Dhs 11,070 per month
Reporting to the Engineering Development Superintendent, the post-holder will guide and co-ordinate electrical and instrument design work for all locally initiated projects. Regular liaison with development engineers and technical and process personnel on Das Island is required to ensure that sound technical advice is given based on full understanding of plant conditions and requirements. Applicants, ideally aged 30-40, should be qualified to first degree level in electrical engineering, and have 8 years' experience of chemical plant or petroleum refinery operations, including at least 3 in a supervisory position controlling electrical or instrument trades. A post-graduate qualification in electronics or instrumentation would also be valuable. **Ref: TE52/9140/DT.**

Senior Budget and Estimating Services Engineer Dhs 11,210–Dhs 13,885
Reporting to the Division Superintendent, the job-holder will provide a cost estimating service to plant maintenance and engineering functions in respect of both capital and revenue works on the plant. He will also provide advice and assistance on resource planning, and work performance monitoring and reporting systems
Applicants, aged 35-40, should have a degree in engineering together with some additional business or management training. You should have 8 years' experience, preferably covering both maintenance and engineering development activities in a related-plant environment. **Ref: TE52/9141/DT.**
Preference will be given to Arab nationals, but all positions demand a good command of the English language.
The terms and conditions of employment are excellent and include; married-status contracts; salary paid in local currency free of local tax; spacious, air-conditioned accommodation with generous allowance for furnishing; 42 days' leave per year with free passage home; an interest-free car loan, and educational assistance. The current exchange rate is approximately Dhs4.1 to £1.
Please telephone or write for an application form or send full cv to A E N Buckley, quoting the appropriate reference. Candidate details may be passed direct to ADGAS. **PA Personnel Services**, 6 Highfield Road, Edgbaston, Birmingham B15 3DJ. Tel: 021-454 5791.

Merchandise Manager Books
c.£20,000 + car + benefits

Our client, a major retail public company with prestigious high street outlets throughout the UK selling a wide range of merchandise, requires an experienced executive to fill the position of Merchandise Manager for Books.
Reporting to the Merchandise Director, the successful candidate, who will lead the existing team of buyers, must have a thorough knowledge of all sectors of the book trade and sound negotiating skills together with a proven ability in range selection, product development and marketing of bound and paperback books in a retail environment.
A highly attractive remuneration package is offered and includes a salary as indicated, car, BUPA, contributory pension, life insurance and, where necessary, full relocation costs.
Please send full cv which will be forwarded to our client unopened. (Address to our Security Manager if listing companies to which it should not be sent.)
Ref: G1912/DT, PA Advertising,
Norwich Union House, 73-79 King Street, Manchester M2 2JL.

Construction Director Designate
c.£20,000 + car

A medium-sized housebuilding company which has maintained an excellent profit record despite the vagaries of the market has resumed its growth pattern in the last two years. A Construction Director is now required to assume responsibility for all aspects of production including procurement, supervision of site foremen, and control of building progress and quality. In particular, he or she will work to agreed company plans and within financial guidelines and will ensure effective cost control.
Candidates, probably aged 35-45, should be professionally qualified and have several years' management experience related to housebuilding.
They should be accustomed to vetting and supervising subcontractors and should blend efficient administration with on-site involvement, all coming within the company's well-established system of budgetary three-year planning. Earnings are widely negotiable around £20,000 plus car, pension and BUPA. Location: Essex. A full Board appointment will be made on completion of the statutory 6-month trial period.
Please send cv, in confidence, to J J Jennings, **Ref: TE34/9128/DT, PA Personnel Services,**
Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Sales Manager
Car-refinish paints
negotiable to £20,000 + car

sikkens

Sikkens's reputation for quality ... of products, customer service, and people ... is unmatched within the UK car-refinish trade.
Already the fastest-growing company in the business, our plans are for still more growth and increased market-share in 1985 ... and beyond.
We set our sights high ... and when one of our highly prestigious sales management positions becomes available, we look for high skills to match the challenge involved.
We are currently seeking a Sales Manager to be responsible to the General Manager, Car Repair Division, for running a sales team and achieving revenue and turnover targets in our North of the Thames/Northern Home Counties/East Anglia region.
Aged 30-40, you must have a proven track record selling to the motor trade and national distributors, plus a thorough knowledge of the car-refinish business. Ambition, well-developed man-management and communication skills are, of course, essential.
The negotiable salary, in a range to £20,000, will depend upon experience and future progress is geared to performance. An excellent range of benefits, appropriate to a leading multinational group, includes a fully expensed car and relocation assistance where appropriate.
Please send full cv, including current salary details, to Martyn Wright, Personnel Manager, Sikkens UK Limited, Sikkens House, Station Road, Didcot, Oxon OX11 7NQ.

Operations Manager
Manufacturing
c.£17,000

Graseby Dynamics Ltd

Graseby Dynamics Limited, part of the Cambridge Electronics Industries Group, is a successful and expanding high-technology British company. Graseby Medical, an increasingly autonomous division with an exciting growth strategy, manufactures and markets worldwide, a range of health-care equipment.
Current plans include the relocation of the division to its own new manufacturing plant later this year.
We now seek an experienced manager to head this manufacturing activity. The position will report directly to the General Manager and interface strongly with the Technical Development and Design Departments.
Candidates will be aged between 28-40 and qualified to degree level in a science/engineering discipline, with a minimum of three years' experience at middle-management level, preferably gained in electronic or electro/mechanical production. A thorough appreciation of materials management including MRP techniques is essential.
We can offer a comprehensive benefits package and assistance with relocation where appropriate. Salary will not be a limiting factor for the right candidate.
Please write giving details of your career to date or telephone for an application form to: Terry Rogers, Personnel Department, Graseby Dynamics Limited, Units 3-4, Odhams Trading Estate, St Albans Road, Watford, Hertfordshire WD2 5JX.
Telephone: Watford (0923) 44464.

Home Computer Buyer
c.£15,000 + car + benefits

Our client, a major retail public company with prestigious High Street outlets throughout the UK selling a wide range of merchandise, requires an experienced senior Home Computer Buyer to lead an existing team.
Reporting to the Merchandise Manager, the successful candidate must have a thorough knowledge of all home computer allied products including hardware, peripherals and software together with sound negotiating skills and a proven track record of range selection, product development and merchandising in a retail environment.
The attractive remuneration package will consist of a salary as stated, car, BUPA, contributory pension, life assurance and, where necessary, full removal costs.
Please send full cv which will be forwarded to our client unopened. (Address to our Security Manager if listing companies to which it should not be sent.)
Ref: G1913/DT, PA Advertising, Norwich Union House, 73-79 King Street, Manchester M2 2JL.

Product Planning Manager
A major business opportunity in electronic demand publishing
c.£15,000 + car

A British multinational based in London is planning to embark on a new business venture in the field of in-plant electronic demand publishing.
An experienced Product Planner is required to spearhead the specification of, and search for, appropriate hardware and software in the UK and overseas.
Reporting to the Product Planning Director, the right candidate will be both creative and analytical, with a good degree and a proven track record in new product planning. Knowledge of reprographics or photo-typesetting is important as is a sound understanding of microcomputer systems and software.
This 'greenfield' opportunity offers exceptional career development. Salary is negotiable and the usual large-company benefits provided.
Please send a full cv which will be forwarded to our client unopened. (Address to our Security Manager if listing companies to which it should not be sent.)
Ref: R2009/DT, PA Advertising, Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Production Manager
North London
£15,000 + car

Our client is a leading batch-production manufacturer with multiple processes including sheet metal work, plastic forming and moulding, finishing and electrical assembly, employing a total of over 200 staff.
The firm needs a dynamic manager, reporting to the Group Production Director, to control and improve the production departments including management services and industrial relations.
An attractive package will be offered including car, pension, BUPA, etc. Experienced candidates, aged 27 upwards, should write with full details; these will be forwarded to our client unopened. (Address to our Security Manager if listing companies to which it should not be sent). **Ref: S3159/DT, PA Advertising,**
Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Production Management
Make the very best
24-27
£17,000-£23,000 to start

Production at Pedigree Petfoods means the highest standards and performance in the industry. Our pride in running a technologically advanced food canning operation, which is Europe's largest and fastest, is considerable.
Our achievement is based partly on processing, canning and control technology way ahead of the norm; but equally on an energetic, imaginative and highly motivational approach to man-management on the factory floor.
If you currently work in an environment where production is the 'Cinderella' management discipline.... or where it is dominated by a rigid traditional hierarchy.... or where it represents an unpromising career route, Pedigree Petfoods can offer you a refreshing change of direction.
We will assign into your care and control a team whose expectations and performance are already exceptionally high. Can you rise to the occasion of managing them even more effectively... of thinking and acting 'on your feet' to resolve ever-changing technical, resourcing and human problems with wit and wisdom?
If you can do all this, and see production in its broader business perspective, you may be another of the 'very best in the business' we want to join those already in our section management team. We wish to hear from you if you are of graduate calibre and, with a record of two years' success in production management, already demonstrate mature, responsive man-management skills, and an alert, accurate judgement of technological and operational situations.
The right people will be capable of advancing through our management structure: ultimately crossing functional, company and even national boundaries within the Mars Group.
The rewards for excellence are considerable: substantial starting salaries are backed by generous non-contributory benefits plus, if appropriate, assistance with relocation to the attractive rural East Midlands.
For more information and an application form, please telephone Penny Harwood on 0664 64141, ext. 4036.
Do not send a cv at this stage. Pedigree Petfoods, Melton Mowbray, Leicestershire LE13 1BB.
We are an equal-opportunity employer.

Technical Marketing Manager
Defence – sensor handling
Berkshire
£21,000 + car

This major British group in information systems involving both hardware and software, is rapidly developing into challenging areas of defence technology.
The technical marketing function identifies and creates opportunities that lead to jointly-funded feasibility studies and development contracts for specific defence needs incorporating the company's products, techniques and technologies. This requires the ability to establish good working relationships at all levels within the MOD and defence industry, and a specialist who is thoroughly familiar with likely developments in this field.
This appointment calls for a person with an excellent user knowledge of sensor handling. The product deals with signal/image processing associated with radar/infra-red/sonar sensors leading to the provision of the best command or control information available.
It will, therefore, appeal to either a technical person with a good user knowledge in naval or air applications, or an experienced end-user in ship command and/or military flying with a sound technical background.
Candidates are likely to be in their late 30s. Terms and conditions of service are excellent.
Please reply, in confidence, to G T M Hinds, **Ref: TE76/9119/DT, PA Personnel Services,**
Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

General Management
Building supplies
c.£20,000 + car

These key executive appointments are with a well-established builders merchants' company who are part of a £multimillion group. Reorganisation requires the appointment of profit-conscious, commercially-orientated General Managers to head up a number of trade centres and their satellite operations in Yorkshire and East Anglia.
Candidates, aged 28-40, should be highly motivated managers with proven entrepreneurial skills, ideally gained in a merchanting/distribution operation. A record of achievement in man-management, and the ability to plan and implement change are essential.
The jobs offer first-class opportunities to influence the company's development and future growth in this competitive and fast-expanding business.
Remuneration, including bonus, is expected to be around £20,000 pa, plus status car and other benefits. Relocation expenses will be paid where appropriate.
Please send full career details, including current salary, or apply for an application form to Tim Harney, **Ref: GM97/8832/DT, PA Personnel Services,**
73-79 King Street, Manchester M2 2JL.
Tel: 061-236 4531.

Regional Sales Management
Join a prosperous circle
c.£16,000 + car

THE LEISURE CIRCLE

Part of an international publishing group with a £1,500 million-turnover and seven years' experience in the UK, we are well-established as the second largest and most exciting company in our industry. Due to further expansion, we require two or three people age 25-30, to manage regions in the London area.
You will need a record of solid achievement in personal sales, and some experience of the recruitment, training and motivation of young sales people. After a comprehensive induction you will take responsibility for a region with 5 junior managers and 20 sales personnel. If you are not already living within easy reach of London, a willingness to relocate, (with assistance), will be important.
This is a demanding job where your efforts and success will determine your rewards. From your very first day you will receive a five-figure basic salary, company car, and a first-class package of benefits.
Upon appointment to full Regional Sales Manager status there will be an increase in the basic salary, enhanced by bonuses which together should total at least £16,000 pa.
Please write in the first instance giving details of age, experience and current salary to: The Sales Director, The Leisure Circle Limited, Raebarn House, Northolt Road, Harrow, Middlesex HA2 0NY.

Commercial Manager
Chemical distribution
East Anglia
c.£16,000 + car

The British subsidiary of a dynamic American biotechnology group is itself a leader in the manufacture and distribution of fine chemicals. The active restructuring of its management team calls for the appointment of a highly motivated young executive to superimpose commercial criteria upon a service operation.
Reporting to the Financial Director, the successful candidate will manage the total inventory, warehousing and distribution function; a task calling for creative management skills and organising ability.
Applicants, probably in their early 30s, should ideally have a chemical industry background biased towards the distribution function. They should enjoy working on a small close-knit management executive reshaping a company with enormous potential which, in its turn, will generate greatly enhanced rewards.
Please send a full cv, in confidence, to P A B Wemyss, **Ref: AA25/9132/DT, PA Personnel Services,** Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Component Manufacturing Manager
Excellent career prospects
North of England
to £16,000

This is a very progressive and financially successful engineering company; part of a substantial group and a world leader in its field. There is currently a vacancy for a top-flight Manufacturing Manager to take charge of all aspects of a complex machining operation.
Specifically, to take responsibility for producing a range of precision components within tight time, quality and cost constraints; for managing and motivating approximately 100 highly-skilled employees; for managing the introduction of significant new technology and associated work practices; and for liaising effectively with other departments to enhance overall efficiency and profitability. Applicants, ideally aged 35-45, apprentice-trained but with a minimum HNC qualification, should be seasoned production managers fully conversant with all aspects of precision batch-machining and man-management in a dynamic and change-oriented engineering environment. Needless to say, they should be highly motivated individuals with proven strong leadership and organisational ability, well-developed interpersonal skills and the clear potential to progress rapidly within this organisation. The initial salary is expected to be negotiable up to £16,000 with the usual large-company benefits including relocation assistance if required.
To apply please send full career details, including current salary, or telephone for an application form to Ross Monro, **Ref: W74/9138/DT,**
PA Personnel Services, 73-79 King Street, Manchester M2 2JL. Tel: 061-236 4531.

Stationery Buyer
c.£15,000 + car + benefits

Our client, a major retail public company with prestigious High Street outlets throughout the UK selling a wide range of merchandise, requires an experienced senior Stationery Buyer to lead an existing team.
Reporting to the Merchandise Manager the successful candidate must have sound negotiating skills together with a proven ability in range selection, product development and merchandising within a retail environment.
The attractive remuneration package will consist of a salary as stated, car, BUPA, contributory pension, life assurance and, where necessary, full removal costs.
Please send full cv which will be forwarded to our client unopened. (Address to our Security Manager if listing companies to which it should not be sent.)
Ref: G1911/DT, PA Advertising, Norwich Union House, 73-79 King Street, Manchester M2 2JL.

Export Sales Executive
Printing inks and consumables

Mander-Kidd

Mander-Kidd is a successful market leader, manufacturing and distributing a wide range of printing inks and chemicals in the UK and abroad.
The company now requires an experienced and dynamic export executive. Aged 30 to 50, we would expect the successful candidate to have a background in any aspect of the printing or packaging industries; but he or she must have some experience of selling to customers and through distributors in selected markets overseas. A strong personality, with good business acumen and a flair for identifying and exploiting new markets, is required. The salary includes a performance-related bonus, a car is provided and assistance will be given to relocate if necessary.
Please telephone or write for an application form or send detailed cv to D J Dewhirst, **Ref: SM55/9136/DT, PA Personnel Services,** 6 Highfield Road, Edgbaston, Birmingham B15 3DJ.
Telephone: 021-454 5791.

Sales Professionals – Electrical Industry
Home Counties

Our client, a leading manufacturer of advanced electrical accessories, is undergoing a phase of expansion and requires a number of professional salesmen/women for the following positions:

Major Accounts Executive c.£14,000
This is an outstanding opportunity for a first-class salesman/woman, who will be required to maintain and improve on sales to an impressive number of high-street multiples and department stores.
Suitable candidates must be of the highest calibre, articulate, possess a first-rate sales record, and have knowledge of the electrical industry and/or experience of selling consumer products. A high level of imagination, selling skills and stamina is required.

Field Sales Manager c.£14,000
Responsible for the performance and running of eight salesmen/women, who call on electrical wholesalers, contractors, retailers and electricity boards.
Suitable candidates should have a thorough knowledge of the electrical industry, a record of good sales achievement and be a good motivator. Sales management experience is desirable.

Sales Representatives c.£11,000
Opportunities have arisen in the Midlands, South-East, Northern England and Scotland.
Candidates must have the ability to sell in a competitive market and be capable of working on their own initiative under pressure. Knowledge of the electrical industry is preferable but not essential.
Company benefits include non-contributory pension scheme, company car, four weeks' paid holiday per annum and sick scheme.

To apply, please send full cv quoting Ref: S3158/DT, on the envelope, to PA Advertising, Hyde Park House, 60a Knightsbridge, London SW1X 7LE.
(Address to our Security Manager if listing companies to which it should not be sent).

PA consulting group : Management Consulting · Technology · Computers and Telecommunications · Personnel Services

Numerate Graduates

Kellogg's are seeking a young graduate in a numerate or business orientated discipline. The successful candidate will be given the opportunity to develop the necessary skills to co-ordinate the development of accounting and financial projects, with particular emphasis on computerisation. Another major involvement will be the control of sales and marketing expenditure, relating to allowances, advertising and promotion. The postholder will also examine methods used and recommend improvements where appropriate.

Candidates will be aged 21-27, with some commercial experience and possibly a qualification, in accountancy or marketing. An awareness of the latest computerised accounting procedures would be useful. The man or woman will also need excellent interpersonal skills and the ability to work on a number of projects simultaneously.

We are offering a salary of around £10,000, together with good working conditions and the range of benefits associated with a major organisation, including relocation expenses where appropriate.

Please ring Kate Howsley for a general discussion on the work and your career prospects, or, write to her with full personal and career details:- The Staff Personnel Department, Kellogg Company of Great Britain Limited, Park Road, Stretford, Manchester M32 8RA. Telephone 061-865 4411.

Team Managers
to run the telephone end of account settlement
Reading Up to £14,900

Yellow Pages is Britain's most successful classified directory with a massive customer list of business subscribers covering the whole of the country. Our administration, including computerised account control, is located at Headquarters in Reading, and we are now looking for Managers to supervise specialist teams engaged in account settlement and debt control – usually by direct customer contact over the telephone.

The work is challenging with responsibility for staff performance and efficiency in what is a highly sensitive and diplomatic role. Previous background in telephone collection work is essential in order to lead from experience. You will also need a good understanding of accounts, law and ideally advertising. Membership of the Credit Management Institute would be an advantage.

Starting salary will be up to £14,900 plus an excellent range of company benefits.

Please write with full career details, to: Jackie Matthews, British Telecom, 85 Watling Street, LONDON EC4M 9BN.

Climb Higher in Building Material Sales

If you're experienced in selling to architects, builders and builders merchants, here's a chance for you to do some career-building for yourself.

Thermalite, one of the U.K.'s leading manufacturers of aerated concrete building blocks, is offering two Area Sales Managership positions as a result of re-organisation and expansion. One to cover **SURREY**, the other **MIDDLESEX** and **N.W. LONDON.**

You will be supported by our Technical Advisory Service and full product training will be given.

The remuneration package reflects the seniority of these positions. A five-figure target salary, company car, five weeks' holiday plus many fringe benefits. Prospects within this thriving national company are excellent.

Interested? Then write or 'phone for an application form to Mr. E. Zanin, Personnel Manager, Thermalite Limited, Station Road, Coleshill, Birmingham B46 1HP. Tel: (0675) 62081. Applicants may be male or female.

THERMALITE keeps people warm

Career Opportunities in Personnel

The sheer variety of disciplines employed by a major oil company gives Britoil's Personnel Department its air of constant challenge. Add to that the competition that always exists for the top people and you'll see why Britoil's personnel specialists have to be as up and coming as the people they recruit. Only two years since privatisation, we are now firmly established as a major operator in the North Sea, with increasing interests overseas. To say it's an exciting time to join us is an understatement. It is a rare opportunity to stretch your horizons to the limits, building a great future for yourself within a young and expanding company.

Senior Personnel Officer Aberdeen

Here's your chance to perform a key function within a busy, committed team of personnel professionals. Probably already a Personnel Manager in a major company, you'll be in your early to mid 30s, with a degree, and have around ten years' experience, preferably some of it gained in the oil industry. A generalist, you will have specific knowledge of such areas as recruitment, selection and development, salary administration, job evaluation, and employee relations and counselling. You will also be a problem solver, capable of coming up with innovative answers to non-routine questions. These are the qualities that will win you first class career prospects throughout the company.

Personnel Officer (Compensation & Benefits) Glasgow

You will be involved in looking at input to salary surveys and analysing survey data, examining their implications on company policy and making recommendations for salary practice for both UK and international positions in Britoil. You'll hold a degree, be numerate and have good analytical skills, and have at least five years' experience in a professional white collar personnel environment, ideally in the oil industry or with another blue chip company. You will have direct knowledge in maintaining a formal job evaluation/salary administration structure, including senior jobs. International remuneration experience and familiarity with the HAY system of job evaluation will be an advantage.

Training Officer Glasgow

In your mid-to-late 20s and already grounded in general personnel activities, you are now ready to put your special flair for communication to work in the vital area of training. You may have a degree, probably an IPM qualification, and solid experience in a major company environment. Management development is a demanding field, requiring you to stay up with what's happening both at Britoil and on the outside. You'll see it as an on-going process, for yourself as well as others. Initially, you will help design and administer conferences and courses, discussing requirements with line managers and making recommendations accordingly. Eventually, you will lead specific sessions of established in-house development programmes as well as contributing to a range of related issues in personnel/training such as succession planning, manpower planning and graduate recruitment.

As part of Britoil's personnel team, you can expect a highly competitive salary, along with an attractive range of benefits including BUPA, share option scheme and Pension Plan. Where appropriate, generous assistance with relocation will be available.

To apply, write giving details of your background and experience and quoting reference P/AB/DT to: Adrian Blampied, Personnel Controller, Britoil plc, 150 St Vincent Street, Glasgow G2 5LJ.

Britoil

Energy at work for Britain

Quality Engineers FOR Quality Engines

and a better quality of life

Perkins continues to lead the world in the design and manufacture of high performance diesel engines. Still the industry pacesetters, our Engineers at Peterborough are currently developing two new engine families to further extend Perkins' technological dominance.

Here, Quality Engineering really does mean Engineering for Quality, where the work involves a high degree of challenge at the forefront of product development. It is in this crucial area that we now have outstanding opportunities for talented Engineers who are currently engaged in the development of diesel or petrol combustion/F.I.E. systems.

Why are these opportunities outstanding? Firstly, because of the enormous variety of work, interfacing with all sections of Manufacturing and Engineering and problem solving for customers (who could be anywhere in the world). Secondly, the opportunity to use and develop new techniques and technologies across a broad spectrum of disciplines including performance engineering using factorial test methods, power control, emission measuring and reliability testing (our computer facilities, an IBM 3081K mainframe backed by PDP 11's, are extremely sophisticated). Thirdly, we have a commitment to employee development which will ensure that your skills and abilities are regularly assessed, rewarded and developed.

We are particularly interested in graduate Engineers whose experience covers one or more of these areas.

- Use of computer aided engineering techniques.
- Automotive engine/emission testing and validation.
- Development and calibration of test facilities incorporating electronic control and sensing.

An added attraction is the fine quality of life to be found in Peterborough, an attractive town with one of the best shopping centres in the UK, excellent communications (London 50 minutes), yet low cost housing amid beautiful surrounding countryside.

Add to all that very competitive salaries, 5 weeks holiday, full relocation assistance and help with temporary accommodation where necessary and you can see why it all adds up to a very good move.

Send a full CV detailing your background and experience to A D Saunders, Personnel and Employee Relations Division, Eastfield, Peterborough, PE1 5NA. Or, if you want to discuss these vacancies informally, **ring us today on (0733) 582015/6 between 4.00 pm and 8.00 pm.**

Perkins Engines

MARKETING MANAGER

Harmo Industries Limited, a major U.K. manufacturer of exhaust systems and national distributor of automotive replacement component parts, is seeking a Marketing Manager.

The ideal candidate will be 25-35 years, educated to degree level in the relevant marketing disciplines, professionally qualified, have a good presence and possess above average communication and presentation skills.

It is essential to be able to demonstrate a proven track record of achievements in marketing techniques, preferably in an environment of a high volume, dynamic service industry where good customer service is the prime objective.

The successful person will possess the skills and ability to analyse the market-place quantitatively as well as qualitatively, and submit recommendations that can be effectively implemented in future market plans.

A unique opportunity to join a progressive management team in a key position with good prospects of future career development. Excellent financial package, company car, pension plan, BUPA and relocation scheme.

Please write with full career details and salary progression to date in strictest confidence, to:
R.W. Webster, Personnel Director, Harmo Industries Limited, Wharfdale Road, Tyseley, Birmingham B11 2DF.

HARMO

Senior Sales Position

Scada and Telemetry Systems

AEG-TELEFUNKEN is a major international engineering company involved in all aspects of electronic and electrical engineering.

To further our involvement on major projects involving United Kingdom based consultants and contractors, we have established a team to co-ordinate the activities of all AEG departments with regard to these projects. A SENIOR SALES ENGINEER is now required to join this team to work principally on SCADA and TELEMETRY systems, particularly with regard to public utilities and petro-chemical installations.

The position is one of considerable responsibility and interest.

The successful applicant will need to demonstrate an ability to establish and maintain a good working relationship with consulting engineers and major United Kingdom based contractors.

The job will involve regular contact and visits to Germany, and, therefore, fluency in German would be a distinct advantage.

We offer a competitive salary, company car and other benefits.

For consideration, please send full details and Curriculum Vitae to Mrs. S. Mullins at the address below or telephone her for an application form.

Eskdale Road, Winnersh, Wokingham, Berks RG11 5PF
Tel: (0734) 698330

DESIGN AND DEVELOP YOUR ENGINEERING FUTURE WITH PALL

The successful Pall Europe Group of Companies are foremost in the design and manufacture of filtration equipment for a wide variety of applications, which include Hydraulic, Pneumatic and Process Industries, Aerospace and Biomedical. In order to maintain our impressive growth rate and our place as technological leaders we now require additional Design Engineers and Development Engineers in our Research and Development activity.

DESIGN ENGINEERS

These are senior engineering positions, duties will include creating and working from design briefs, liaison with marketing, engineering and manufacturing activities, development testing of new products and provision of technical support.

Applicants should be qualified to Degree/HND level in Mechanical Engineering and they should have proven ability in original product design with experience in a position of responsibility for company products.

DEVELOPMENT ENGINEERS

These responsible and challenging positions will include the development of new ranges of filtration products, investigation into liquid and gas filtration techniques, performance analysis and design optimisation.

Candidates should be qualified to Degree/HND level preferably in Engineering or Materials Science, with the ability to communicate effectively. They should have developed innovative skills during at least five years of industrial experience.

We offer attractive salaries for these exciting opportunities, commensurate with qualifications and experience. Other benefits include an excellent contributory pension scheme, and 25 days holiday plus statutory holidays.

Please write giving your career history to date, to:

M. J. Bartlett, Personnel Manager, Pall Europe Group of Companies, Walton Road, Farlington, Portsmouth, Hants PO6 1TD. Tel: Cosham (0705) 370901.

Export Sales Professionals

Bradley & Foster

Competitive salary + bonus + car

West Bromwich

A world leader in the manufacture of wear-resistant high-technology engineering components and with one of the most up-to-date and best equipped foundries in Europe, Bradley & Foster are now looking for two export sales professionals who can combine a background in engineering or metallurgy with outstanding commercial abilities. Previous sales experience is essential, as are dedication and an ability to work in a commercial environment.

The successful candidates will join a small but already successful sales team and will be involved not only in face-to-face selling but also in the development of tenders and the creation of product literature. The people appointed will in particular have demonstrated an ability to both direct and support the company's agents and distributors in the field and will be fluent in either German or French.

This is neither a job for the faint-hearted nor for the individual who is frightened by challenge or competition, but if you think you are the person we are looking for then we would like to hear from you.

Please write with full details to:
Dr. R. W. Durman, Managing Director, Bradley & Foster Limited, Darlaston Iron Works, P.O. Box 4, The Green, Wednesbury, W. Midlands WS10 8JL.

Staveley Industries plc

Professional Opportunities...

...in three key areas at the British Nuclear Fuels' Power Station at Chapelcross near Annan in Dumfriesshire.

ASSISTANT MANAGER OPERATIONS

£12,790–£15,285

Management duties, investigations and planning associated with the operation of the site's nuclear reactors and their associated power plant, auxiliaries and cartridge cooling ponds. The selected person will also be trained for Shift Manager duties and undertake those duties when required. Experience in the operation or maintenance of nuclear reactors and their associated power plant would be an advantage, together with some experience in staff supervision.

ASSISTANT INSTRUMENT ENGINEER

£10,285–£12,170

Assisting in the operation of the Instrument Department, which is responsible for the maintenance, installation and commissioning of a wide range of instrumentation. Duties include investigating and solving any technical problems that may arise on specific instrument applications.

PHYSICIST

£6,945–£12,170

Plant safety assessments and/or the planning of reactor loadings and other technical assessments related to the operation of the reactors and their associated plant, involving the use of established methods and the development of new ones.

An ability to work with a high degree of initiative and a capability for clear and concise expression is necessary. Some industrial experience would be an advantage.

All applicants (male or female) should have a relevant good honours degree and/or corporate membership of an appropriate professional institution.

Salaries are within the ranges quoted together with a company productivity bonus and relocation expenses (where applicable) to this most attractive rural area.

Please apply by writing or telephoning for an application form to:- Mrs. Sheila Ramsey, Staff Office, British Nuclear Fuels plc., FREEPOST, Chapelcross Works, Annan, Dumfriesshire. DG12 6RF. Telephone Annan (04612) 2835 Extension 329.

BNFL

SAUDI ARABIA

Our client is a substantial and well respected construction organisation operating out of Al Khobar, with subsidiary offices in Riyadh and Jeddah. As part of continued expansion and in order to further improve their commercial effectiveness, they now wish to appoint the following key individuals.

SENIOR ESTIMATOR (Civils/E & M) — to £28,000

An experienced cost engineer or estimator aged 30/45 who has worked in the Middle East or similarly developing country and is capable of exercising his own initiative within a dynamic team framework.

COMMERCIAL ENGINEER (Prequalifications & PR) — to £28,000

A highly responsible position calling for experience in the preparation of prequalifications and public relations leading to tender acquisition and subsequent stages of contract acquisition.

Each of these positions offer, in addition to the tax-free salaries identified above, a full package of expatriate benefits including furnished accommodation, car and paid UK leaves.

To discuss either position and to arrange an interview during week commencing 18th February, please telephone Andrew Neatby-Smith or Tony Williams until 8.00 pm daily.

Previous applicants with relevant experience should reapply.

Field Sales Manager

Attractive 5 figure salary + car — ***Water Treatment*** — ***South East***

Applied Chemicals, part of a major international group, is a well established and highly respected market leader in the manufacture and marketing of speciality chemicals and systems.

Ambitious growth plans have led to the creation of a new Division to take advantage of the vast potential which exists for water treatment chemicals across a broad spectrum of industries. As a result, we're looking for a high calibre sales professional to establish sales areas in South East England and the West Midlands. You'll be involved in training, leading and motivating sales agents, setting targets and providing technical advice in the field.

This is an excellent ground floor opportunity for a man or woman with a proven track record in industrial water treatment and first class sales and management skills.

We offer an attractive salary together with a company car and a wide range of benefits.

Interested? Then phone Roger Sinnister on Uxbridge 37151 during office hours or 06284 5681 between 7 and 10 pm. Alternatively write to him at P.O. Box 43, Salisbury Road, Uxbridge, Middlesex UB8 2SW.

Manager — Purchasing

West Midlands

AM&S Europe Limited is a major zinc producer with strong links to the RTZ Group. Its subsidiary, ISC Alloys at Bloxwich in the West Midlands, specializes in the manufacture of zinc and other non ferrous products and requires a Manager to review and control its purchasing function.

The man or woman appointed will be responsible for the buying of primary metals (zinc and aluminium) and a wide range of other materials and engineering equipment. The position requires buying on behalf of overseas ventures and therefore a knowledge of outside UK procurement techniques is important.

A graduate probably aged between 27 and 40, you will preferably have a metal industry background in a purchasing role. The position requires a person with a strong systems orientation which, coupled with your all round business knowledge, will also be used to advise the Managing Director on general administration systems related to other sectors of the business. Buying from worldwide sources you will report directly to the Managing Director.

An excellent salary and benefits package is provided which includes a quality car and generous relocation assistance where appropriate.

Please write enclosing a comprehensive c.v. to: The Managing Director (Reference PMR-1), ISC Alloys Limited, Allows House, P.O. Box 34, Willenhall Lane, Bloxwich, West Midlands WS3 2XW.

Manufacturing Engineers

To be responsible for:-

ATE maintenance and programming, yield optimisation of existing and new products, liaison with design engineering, on-line fault analysis.

You are likely to be qualified to at least HNC level with experience of the manufacture of RF and/or microprocessor based equipment.

Sourcing Specialist

This is a new position offering scope to contribute to a worldwide strategy of local sourcing maximisation.

Your responsibility will involve the maximisation of European component sourcing, a role calling for 3 years' experience in a senior purchasing role and an aggressive approach to achieving *cost reduction roles. Some European travel is a feature of the job.*

As an internationally successful company, Motorola offer substantial rewards packages together with the first-class career prospects that only a major and fast expanding organisation can provide.

Telephone/write in confidence to: Tom Quigley, Personnel Manager, Motorola Limited, Communications Group, Jays Close, Viables Industrial Estate, Basingstoke, Hants RG22 4PD. Tel: Basingstoke 58211.

MOTOROLA Communications Group

Canning Town Glass is one of the market leaders in the glass container industry and part of Arthur Bell & Sons plc. Over £20 million has recently been invested in our future so as to secure a larger share of the market. Determined to build on this success, we are now seeking to fill the key position of:

Technical Service Representative

c.£11,500 + car + attractive benefits — ***Southern England Based***

The successful applicant's primary task will be to provide a comprehensive range of technical services to new and existing customers. Other duties will include being fully involved in new product design/development and providing technical support for an associated range of internal projects.

Aged 28+, you should have a degree or equivalent in a science subject and some knowledge of the glass industry, either in a technical or manufacturing role. Experience of QC work or glass technology would be advantageous, as would relevant experience in the packaging industry.

On a personal level you must ★ Be able to sell ★ Thrive on the demands our business creates and respond to the objectives we set ★ Have drive, flair and enthusiasm.

In return, we can offer you a salary of c. £11,500, a company car and other benefits, including a contributory pension and free life assurance scheme. Relocation expenses will be paid where appropriate.

This is very much a growth area, so if you are an ambitious man or woman who wants good career prospects then write today for an application form to: Mr. Leszek Marcinowicz, Canning Town Glass Limited, P.O. Box 2, Swinton, Mexborough, South Yorkshire S64 8BQ.

CTG Canning Town Glass

Manufacturing Manager

c.£18,000 + car — ***Wales***

A major fmcg manufacturing company is investing several millions over the next five years into its production facilities in Wales. At present the facility employs over 500 people and has product sales of £20 million.

The Manufacturing Manager reports directly to the Factory Director and will be a central figure in the senior management team. The major challenges of the position are to:

* Develop our staff into effective Cost Centre Managers through strong leadership and disciplined training.
* Implement and further develop effective cost control mechanisms.
* Introduce micro-processor technology to achieve greater productive effectiveness.

Candidates, aged 28-45, male or female, will be of graduate-level with a thorough training in production management. Work experience will include several years in a Production Management role gained in an fmcg manufacturing environment. Your management style will show a strong preference for a 'hands-on' approach.

Considerable opportunities for personal development exist within the UK Group.

Please write enclosing a full c.v. to: Confidential Reply Service, Ref: ASM 9162, Austin Knight Advertising Limited, London W1A 1DS.

Applications are forwarded to the client concerned, therefore companies in which you are not interested should be listed in a covering letter to the Confidential Reply Supervisor.

Austin Knight Advertising — LONDON

Field Sales Manager

Specialist Building Products

Cementation Chemicals Limited, part of Trafalgar House plc., manufactures and sells a range of specialist products and materials with wide applications in the construction industry. A commitment to continued research and development ensures that our products, which include cement admixtures, coatings, resin mortars and grouts, chemical fixings and industrial flooring compounds, maintain their reputation for technical excellence within the industry.

This is an opportunity for an experienced and highly motivated Field Sales Manager to lead our sales team working throughout the UK. Probably educated to degree level, he or she should already be active and successful in this work area. Someone presently working and living in the central Midlands would be best placed for the extensive travel required of the post.

An excellent salary and benefits package will be offered, with a company car and attractive career development opportunities within this major and successful Group of Companies.

Please apply in writing providing sufficient information to make an application form at this stage unnecessary to Mr. L. J. Smith, Personnel Manager, Cementation Chemicals Limited, Cementation House, Denham Way, Maple Cross, Rickmansworth, Herts WD3 2SW.

Cementation Chemicals

Area Retail Management

£Excellent + Car — ***DIY Superstores*** — ***South West England***

RMC Homecare Limited, trading as Great Mills D.I.Y. Superstores, is a fast expanding national retail chain. The management team is young and enthusiastic and career prospects are exceptionally good.

Your overall responsibility will be to manage and develop a number of Superstore operations with particular emphasis on sales maximisation cost control, corporate image presentation, staff management and business development.

Probably aged 27-35 you will have a very thorough understanding of modern retail management disciplines within a fast moving environment and currently hold a management position on a multi-outlet basis. Prime qualities sought are energy, an analytical mind and well developed team building and motivation skills.

Salary is unlikely to be a limiting factor and a range of attractive benefits include a company car. Assistance towards relocation costs will be made where appropriate.

Men or women please write briefly stating how you satisfy the above requirements (or telephone for an application form) to Mr. C. D. Gay, Personnel Services Manager, Group Personnel Department, RMC Group p.l.c., RMC House, High Street, Feltham, Middlesex TW13 4HA. Telephone: 01-890 1313.

GREAT MILLS DIY SUPERSTORES & GARDEN CENTRES

Depot Manager

c.£12,000 p.a. + bonus + car — ***Automotive Parts***

A leading multi-national automotive parts manufacturer requires to strengthen its distribution function in the Northern Home Counties area.

Their depot managers are independent, skilled and responsible — are you?

Male or female candidates, CPC holders and preferably of graduate or equivalent calibre, should be aged 25-35 and have a proven track record of man management within a distribution environment. The ability to manage for change within an increasingly sophisticated area is a prerequisite of the job.

Please write with full career history and details of current salary to Confidential Reply Service, Ref: ABD 865, Austin Knight Advertising UK Limited, Tricorn House, 51-53 Hagley Road, Edgbaston, Birmingham B16 8TP.

Applications are forwarded to the client concerned, therefore companies in which you are not interested should be listed in a covering letter to the Confidential Reply Supervisor.

Austin Knight Advertising — BIRMINGHAM

Dowty Boulton Paul Limited are world leaders in the design and manufacture of precision hydraulic equipment. As a major Company in the Aerospace and Defence Division of the Dowty Group, the Company is in the forefront of technology in an international market, and currently seeking to expand its product range into new areas.

Applications are invited from talented men or women for the following positions:

Sales Engineers

Applicants aged around 30, preferably qualified to degree level, with relevant experience in a sales or project environment.

Successful candidates will be based at the Company, and must be prepared to travel at home and abroad. A Company car will be provided.

Engineers

Engineers, qualified to degree level in engineering or one of the Science subjects, are required to form a team to work on high technology projects.

The team will consist of a Team Leader who possesses experience in Management or Project Leadership, together with Engineers who possess experience in one or more of the disciplines of Performance, Stress, Materials and Structural Design.

There will be an initial training period which includes location in the United States for a period of 6/12 months.

The Company is located in a rural area of South Staffordshire within easy reach of Wolverhampton, and offers attractive terms and conditions, including relocation assistance where applicable.

Applications with brief C.V. should be sent to Personnel & Training Manager, Dowty Boulton Paul Ltd., Pendeford Lane, Wolverhampton WV9 5EW. Tel: Wolverhampton 783191.

DOWTY

Sales Representative — Aluminium Extrusions

South East of England

R.T.Z. Extruders Limited, a member of the R.T.Z. Pillar Group and one of the country's leading aluminium extruders and finishers, is seeking a sales representative for the South East of England.

Candidates should be located in the area and preferably have proven selling experience in the aluminium extrusions industry, with particular success in selling to the aluminium home improvement market. Consideration will be given to other candidates from within the industry who are wishing to seek a sales career. Applicants (male or female) should be able to display a high degree of personal initiative and be capable of working effectively without continual supervision.

Salary is negotiable and an attractive range of benefits are available including company car and contributory pension scheme.

Applications in writing to: Sales Director, R.T.Z. Extruders Limited, Ditton Industrial Estate, Widnes, Cheshire WA8 8RB.

RTZ EXTRUDERS LIMITED
a member of the RTZ Group

Export Sales Manager — South America

Standby Power Batteries

Competitive salary + car — ***Manchester based***

At Chloride Power Storage, part of the worldwide Chloride Group, we have many exciting and innovative product developments under way, such as our recently-introduced revolutionary range of standby power batteries. This has opened up vast new potential and in order to identify and develop sales opportunities mainly in South America, and other Hispanic-speaking areas of the world, we're now looking for a young, ambitious sales professional to undertake this demanding role.

Reporting to the General Sales Manager, you'll undertake sales tours, of about three weeks' duration, involving spending at least 2 months per year abroad. Major tasks will include the appointment and training of overseas distributors as well as close liaison with OEMs and international buyers within the UK.

Ideally you'll have a formal Electrical qualification, although academic strengths are less important than technical sales ability and commercial acumen gained preferably in exports. Experience of the South American continent or a working knowledge of the Spanish language would certainly be an advantage, but is not essential as full product training and language tuition will be provided.

In return, we offer a competitive starting salary, supplemented by an overseas allowance, together with a company car and other large Group benefits. Relocation assistance is available where appropriate.

Male or female applicants please write, enclosing detailed c.v. and salary details, to The Personnel Manager, Chloride Power Storage, P.O. Box 5, Clifton Junction, Swinton, Manchester M27 2LR.

CHLORIDE

Customer Service Manager

Industrial Cleaning Products

Applied is a highly successful manufacturer of chemicals and suppliers of processes for industry and commerce. The product range is broad, including janitorial cleaners and polishes, solvent and alkali degreasers, paint strippers, metalworking products, vehicle cleaners and related products.

Reporting to the Technical Director you will be based at our Exhall Office, Coventry. Responsibilities will include managing and motivating a team who supply technical support to our existing and potential customers and to our field sales force.

As a career professional, the man or woman appointed will be a qualified scientist with considerable relevant experience and managerial ability, an effective communicator who can liaise with several other departments.

A very competitive salary and benefits which include a non-contributory pension scheme, a company car and relocation where appropriate, make this an attractive opportunity to join a go-ahead company.

Please write in the first instance, enclosing full curriculum vitae to: Dr. J. D. Dance, Technical Director, Applied Chemicals Limited, P.O. Box 43, Salisbury Road, Uxbridge, Middlesex UB8 2SW.

Applied

Packaging Engineer

Fast moving consumer goods — manufacturing

5 figure salary + Relocation — Rural Northumberland

This challenging opportunity exists with an international consumer goods market leader currently investing heavily in the latest technology at a key manufacturing site. Applicants aged 25-40 will be graduates with an impressive track record of implementing high speed packaging technology in a demanding production environment where exacting product quality standards are essential.

A negotiable salary is offered along with excellent fringe benefits. Career prospects are excellent.

Applications, from men and women, including details of age, qualifications, and experience to date should be addressed to Confidential Reply Service, Ref: NDT P850, Austin Knight Advertising UK Limited, Erick House, Princess Square, Newcastle upon Tyne NE1 8ER.

Applications are forwarded to the client concerned, therefore companies in which you are not interested should be listed in a covering letter to the Confidential Reply Supervisor.

Austin Knight Advertising — NEWCASTLE

Maintenance Engineers

South West Africa/Namibia

Rössing Uranium, part of the international Rio Tinto-Zinc Group, operates the world's largest opencast uranium mine near Swakopmund in South West Africa/Namibia.

Equipment Maintenance Engineer

We have an opportunity for a self-motivated mechanical/electrical or industrial engineer, qualified to BSc or BEng, to join us in maintenance and development work. Reporting to the Mine Maintenance Superintendent, you will be involved in the maintenance of heavy opencast mine equipment, computerised planned maintenance and the training and development of personnel within your own responsibility. You will be dealing with equipment that includes Wabco and Euclid 170T Haultrucks, P & H 2100BL shovels, GD 120 drills and caterpillar equipment.

In addition to your degree you must have practical experience of heavy industry and, ideally, of opencast mining equipment. Experience of project work, costing and computers would be an advantage.

Plant Maintenance Engineer

A vacancy exists for a Plant Maintenance Engineer within the Metallurgical Engineering Department. You should have a degree or diploma in Mechanical Engineering and must have been responsible for maintenance in heavy industry applications. Knowledge of crushing, screening and milling equipment and/or Acid Plant (H_2SO_4) would be useful as would experience of planned (preferably computerised) maintenance systems. You would report to the Superintendent, Metallurgical Engineering.

Our first-class rewards package includes excellent salary (cR35,000), subsidised housing, relocation assistance, holiday and holiday travel benefits, 42 days annual leave, free accident and health insurance and attractive pension and medical aid schemes.

Swakopmund is a pleasant coastal resort with first-class amenities including modern well-stocked shops, cinemas, restaurants and hotels. All sporting activities are catered for either in town or at the mine operated country club.

Please write with full cv to Mr. C. C. Machin, Manager, Personnel Services, The Rio Tinto-Zinc Corporation PLC, 6 St. James's Square, London SW1Y 4LD.

Rössing
a member of the RTZ Group

Engineering in Process

The STC Optical Fibre Unit at Harlow is a modern, results orientated product development and *manufacturing operation providing the world's telecommunication industries with high quality* optical cable.

Growth in the business has resulted in two professional engineering opportunities (male or female).

Section Head — Industrial and Plant Engineering

This is a key post in an expanding operation and will make a significant contribution to the business. A number of major projects are envisaged including the introduction of on-line manufacturing information systems and a thorough review of maintenance procedures.

To lead this 16 strong section you should be a Chartered Engineer with several years experience of a modern process engineering facility and a good knowledge of work study. A DMS would be an advantage.

Senior Engineer — Measurements

An experienced Engineer/Physicist is required to help define the specification, design and test methods for new generations of optical fibre. The improvement and automation of existing measurement techniques is also an objective.

Applicants should have an honours degree with some experience in optical or electronic design and development.

As a progressive employer we provide first class facilities and an excellent remuneration package including assistance with relocation where appropriate.

Phone for an application form or send a detailed c.v. including salary requirements to John Williams, STC Optical Fibre Unit, West Road, Harlow, Essex. Telephone: Harlow 39851.

STC

A Career Opportunity in Sales

We are celebrating our 11th year in the U.K. and have grown from one salesman to over 50, in that period. We now need 5 key salespeople to cover the following areas: West Yorks/South Lancs, Warwickshire/Leicestershire, Bedfordshire/Hertfordshire, Berkshire, Norfolk.

Our company sells top quality maintenance consumables to an unlimited market, that offers superb opportunities to the successful candidates.

You should be aged between 25-45, successful, not necessarily in sales, and have the ambition, sense of direction and overall the desire to be recognised and rewarded for individual performance.

With TRAINING at our SALES SCHOOL and in the field, YOU will have a rewarding, responsible and secure sales career.

You will have an excellent remuneration package and management opportunities are available for those who deserve them.

For interviews in your area please write with full c.v., quoting Ref. No. DT/1/85, to John Guest, U.K. Sales Manager, PARTSMASTER INTERNATIONAL LTD., 151 High Street, Southgate, London N14 6BL.

PARTSMASTER

Commercial Manager

Sales and Marketing Control

Road Haulage — **North East**

R. Rankin and Sons Limited, is a successful road haulier based on Tyneside in the North East of England. The company has built its business reputation on a record of high quality service and an ability to understand, and anticipate, its clients short and long term commercial needs. The company is now planning to broaden and develop its client base and services, and wishes to hire a Commercial Manager, who although involved in all aspects of trading, will be directly responsible for the sales and marketing activity.

The competitive nature of this industry strongly suggests that relevant experience is very important. Applicants are therefore likely to be working in an organisation involved in a related business sector such as freight, distribution or warehousing and already possess a successful sales and marketing record.

The company is part of Transport Development Group and this appointment is a secondment from the Regional Holding Company. The Commercial Manager, after proving him or herself, may, therefore, be asked to move to another position elsewhere in the United Kingdom. It is not anticipated that such a relocation will take place in less than 12 months.

Applicants, preferably aged between 35 and 40, should be of graduate calibre, and capable of quick progress into senior management. The terms and conditions of this appointment include an attractive remuneration package and appropriate benefits.

Applications should be sent to Mr. P.J. Brown, Managing Director, R. Rankin and Sons Limited, Chainbridge Road, Blaydon Haughs Industrial Estate (South), Blaydon-on-Tyne, NE21 5TA, and must include a comprehensive career history, current salary and benefits.

Operations Manager

OILS AND CHEMICALS DISTRIBUTION

North West based — Circa £20,000 + Car

This key position is with a long established independent company distributing oils and chemicals to an impressive range of manufacturing organisations throughout the UK. Accountability is to the Board for tight control of operations in a business geared to reacting rapidly to customer demand.

Applicants will currently be responsible, within a unionised environment, for the distribution of bulk liquids and packed goods on a national scale through regional depots. Experience of optimising storage and transport facilities must be backed by knowledge of relevant health and safety regulations. Candidates, aged 35-45, must be able to identify opportunities for improved efficiency and be decisive enough to implement positive change.

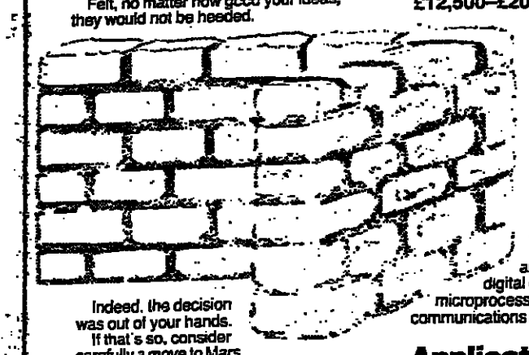
The attractive remuneration package indicated will be supported by a relocation package, where necessary. For a high calibre person, prospects are excellent as the company is committed to continuing profitable growth.

For a confidential application form, male and female candidates should ring or write quoting reference 737/DT. Telephone (24 hours) 0625 533364.

Wickland Westcott & Partners
LONDON • PARIS • BRUSSELS • DUBLIN
Executive Selection/Management Development
Eagle Star House, 16a Alderley Road, Wilmslow, Cheshire SK9 1QX.
Tel. (0625) 532446.

You won't come up against these with us

Banging your head against a brick wall.
Have you ever come across that kind of feeling with your present company?
Felt, no matter how good your ideas, they would not be heeded.



Indeed, the decision was out of your hands.
If that's so, consider carefully a move to Mars Electronics – where you'll find the working environment refreshingly different.
We thrive on innovation, both technical and commercial.
Which means, far from raising barriers against new ideas; we encourage open communication. Giving our staff the freedom to make their own decisions in an informal yet highly professional working environment.
It's this progressive outlook that has led to Mars becoming the leading company in electronic coin handling technology and a respected name in new areas such as marine radar and instrumentation, automatic test equipment and PCB assembly.
Currently we can offer opportunities to men and women in the following areas:

Project Engineers (Electronics)
£12,500–£20,000

We are keen to hear from Electronics Graduates or equivalent, aged 24–32, who wish to have the freedom and responsibility to manage electronics projects. You will be involved in product design from concept through to completion. We particularly welcome applications from engineers with experience in the following areas: analogue circuit design, digital circuit design, microprocessor applications, data communications techniques. Ref: J/10/A.

Applications/ Sales Support Engineers
£12,500–£18,000

These positions would be ideal for engineers who are keen to take on a commercial challenge while using their technical expertise. You would be involved in the technical specification of new products and in providing pre and post sales support to our customers. Aged 24–35, you should be qualified to HND or degree level in Electronics. As the role involves interface not only with customers but also marketing specialists and design engineers, you should be able to demonstrate excellent inter-personal as well as technical skills. Ref: J/10/B.

Personnel Professional
c. £16,000 to start

If you are a personnel professional in your mid to late 20s and of graduate calibre, we can offer you a challenging role in management recruitment and training. You would also have the opportunity to gain broad-based personnel experience or to increase your management skills in other areas of our business. A background in managerial training or recruitment would be advantageous, as would a working knowledge of foreign languages. Ref: J/10/C.

Manufacturing Systems Analyst
£12,500–£18,000

As part of our Systems and Automation team, you will be involved in development projects for our advanced manufacturing systems. You will have the freedom to carry out projects from analysis to implementation working throughout in a high-visibility function. Our network of computers includes two HP3000's, an HP1000, and VAX-based CAD/CAM, plus various minis. Aged 23–30, and degree qualified you will have experience of mini-computer projects and some hardware experience. Ref: J/10/D.

Management Opportunities

We also wish to talk to graduate engineers (electronic and mechanical), aged 23–30, who want to move on to more challenging roles and to broaden their experience, possibly by transferring to a different function.
There are opportunities in production management, industrial engineering, sales support, quality, manufacturing systems development and training. We're keen to hear from you if you believe you have the potential to contribute in any of these functions – direct relevant experience may not be essential. Ref: J/10/E.

Salaries are outstanding. Benefits comprehensive. Your package will include (where appropriate) full relocation to Berkshire.
Phone our Personnel Department on Reading (0734) 697700 for an application form, or send your full c.v. to:
The Personnel Manager, Mars Electronics, Eskdale Road, Winnersh Triangle, Wokingham, Berks RG11 5AQ.

MARS ELECTRONICS
one of the fastest growing electronics groups in Europe.

AMBITIOUS PERSONNEL PROFESSIONAL

ADVANCE YOUR CAREER IN HIGH TECHNOLOGY

Home Counties — neg. five figure salary

An internationally successful company with a growing reputation in an area of advanced electronics technology is essentially people orientated in its philosophy and regards the Personnel function as particularly important to its continued progress.

Following recent internal reorganisation, a new opportunity has arisen for a first-rate career minded personnel officer to become closely involved with the personnel requirements of a newly formed autonomous division of the company. Working within a central function and reporting to the Personnel Manager, you will provide a complete divisional personnel service for a business sector employing up to 500 people. This will include aspects such as recruitment, welfare and career counselling and grievance/disciplinary procedures. This is a challenging opportunity offering plenty of scope for someone able to accept responsibility and apply initiative to occupy a key position supporting the divisional management team. Proven success in this role — the ability to anticipate and overcome potential problems — will open the door to real career prospects within this major UK company.

You will be working in a high technology environment, so related experience and a dedication to the personnel function are essential requirements. A personal record of effective recruitment at all levels, including senior appointments, across sales and marketing, technical, manufacturing and administration will be particularly relevant.

Our clients offer an attractive salary and benefits package reflecting your abilities and qualifications and including relocation where appropriate.

For more information and a discussion of your background with relation to this appointment, please call Maureen Hobbs on (0494) 25128 or write to her in strictest confidence, quoting reference 1120/DT.

DA David Anthony (Management Selection) Ltd
23 Easton Street, High Wycombe, Bucks HP11 1NU.

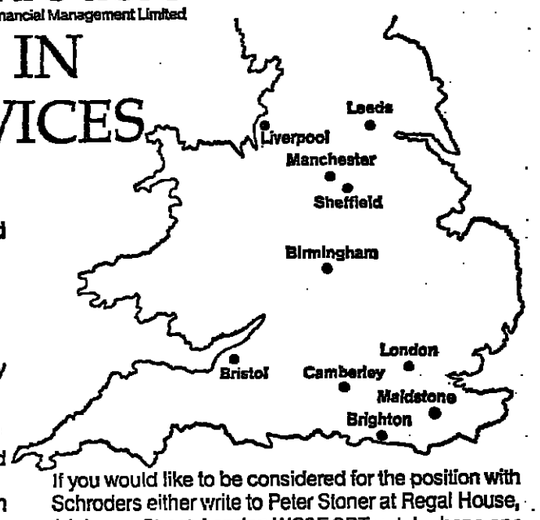
Schroders

Schroder Financial Management Limited

OPPORTUNITIES IN FINANCIAL SERVICES

Prospects £20,000 +

Following completion of the first phase of their expansion plans, Schroders are now seeking to expand the teams of financial consultants based in their regional centres.
Successful applicants will be required to advise potential new clients, both private and corporate on all aspects of personal financial planning. Corporate marketing of the Company's services, together with fully supportive technical advice and administration, will enable consultants to offer a professional service.
This exciting career opportunity will include a period of in-depth training. Within two years, remuneration should exceed £20,000 per annum.
Ideally candidates will be aged between 25 and 50 with evidence of previous success but, not necessarily, in the financial services field.



If you would like to be considered for the position with Schroders either write to Peter Stoner at Regal House, 14 James Street, London WC2E 8BT or telephone one of the branch offices below.

EXPORT SALES MANAGEMENT

Devro Ltd. is the leading manufacturer and supplier of protein collagen sausage casings in the U.K., with two modern manufacturing plants in West Central Scotland. In addition, we also supply our casings to sausage manufacturers throughout Europe, and are now seeking an energetic person between the ages of 25 and 35 to join our Export Sales Team.
Applicants must be able to speak fluently in German. In addition the ability to converse in French would be an advantage. As the job involves dealing with distributors and East European foreign trade organisations, experience in Eastern Europe and German speaking areas of Western Europe would be an advantage. The successful applicant will be one of Graduate calibre who has entrepreneurial flair, along with the ability to work independently as a member of a small export team. The position is based at our Moodiesburn factory, situated in pleasant surroundings to the North East of Glasgow, but extensive travel throughout mid-European countries will be involved.
Salary and conditions of service are excellent, as are opportunities for personal advancement.
Applications giving details of previous experience, present salary, etc. should be sent to:
THE PERSONNEL SUPERVISOR, DEVRO LTD., BELLSHILL INDUSTRIAL ESTATE, BELLSHILL, near GLASGOW ML4 3LD, SCOTLAND.

Newly Qualified Accountants or PE2 Finalists

Ipswich

We have immediate need for newly qualified staff or PE2 Finalists to work in our expanding office in Ipswich.
Those joining the office will be involved in a wide variety of assignments ranging from national to private family companies, and will be part of a small but active unit. Salaries are attractive and are negotiable according to experience.
Those interested in the opportunity to gain experience and develop their careers within the framework of a large international firm while retaining the advantages of working in a small and expanding office environment should write to:

Barry Peek, Peat, Marwick, Mitchell & Co., 17 Arcade Street, Ipswich IP1 1EX. Tel: 0473 54655.

PEAT MARWICK

Welding Process Manager

Turbine Services is a successful member of the billion dollar Chromalloy American Corporation and a world leader in the repair and manufacture of gas turbine engine components.
Our commitment to advanced technology is supported by a significant investment in new processes and applications.
Increased demand for our products and services has now created a new position, reporting directly to the Process Project Manager.
Suitable applicants, aged 25-40 years, will have:
Experience of welding super alloy materials, with knowledge of modern methods such as plasma welding and laser techniques.
It is likely that the successful candidate will have a degree or equivalent in Metallurgy or appropriate engineering science.
The post is to provide technical support to all welding activities and to concentrate on the development of new repair processes including the introduction of modern welding techniques and systems to add to the Company's already established range for Aero Engine Hot Section component repair schemes.
The position offers:
- Five figure salary
- Company car
- Career opportunities
- Profit sharing scheme
- Package which includes Free Life Assurance. Relocation where applicable.

Join Our Increasing Success
In The Growing U.K. Wine Market

Trainee Sales Managers

Throughout U.K.
to £8,000 + commission

Bring us a good education and an appetite for work, and we'll train you in sales and sales management. You'd hardly believe how fast your career could develop.
We are looking for men and women aged under 28 who will be trained to sell our top quality wines direct to the public, and to motivate agents. Our intensive marketing programme produces all the leads you can handle, and our reputation stretching back 275 years provides the basis for your success.
Call 01-903 9500 for an application form or send a brief c.v. with a passport photograph to us at 451 Sunleigh Road, Wembley, Middlesex HA0 4NB.

Jakob Gerhardt Wines Ltd.

Donaldson Filter Components Ltd.,

a subsidiary of Donaldson Company Inc., U.S.A. with European Headquarters located in Belgium and manufacturing facilities in France, Germany and the United Kingdom (Hull), markets a wide range of heavy duty air filtration and acoustic products and systems in the United Kingdom. In order to handle our industrial and agricultural machinery markets, we are looking for a

Territory Sales Manager — O.E.M. (m/f).

Based in Hull, he/she will be responsible to the U.K. Sales Manager for prime O.E.M. customers and developing new and profitable business. The candidate will have a technical education (H.N.C. minimum) with a sound economic background and at least 5 years' relevant experience in the U.K. O.E.M. market.

Applicants should send curriculum vitae to the attention of Nicholas Edbrooke, Donaldson Filter Components Ltd., Oslo Road, Sutton Fields Estate, Hull HU8 0XN.

COMBS DITCH DISTRESSED: 7-1 FOR GOLD CUP

By HOTSPUR (Peter Scott)

BURROUGH HILL LAD'S grip on the Tote Cheltenham Gold Cup tightened yesterday, when Combs Ditch showed distress signs after finishing second in Ascot's Fernbank Hurdle and Forgive 'N' Forget was beaten in the Whitbread Trial 'Chase.

Burrough Hill Lad was top-priced at evens for the Gold Cup after short-heading Combs Ditch in Kempton Park's King George VI 'Chase on Boxing Day. His odds now vary between 6-4 on and 2-1 on for Cheltenham on March 14.

Combs Ditch had to receive veterinary treatment in the saddling boxes after yesterday's race and his Gold Cup price has lengthened from 9-2 to 7-1.

I understand his distress period did not last as long as after the 1983 Cheltenham Gold Cup but his trainer, David Elsworth, must be worried about this recurrence.

After looking likely to overtake Rose Ravine in the Fernbank Hurdle, Combs Ditch failed by a length to beat this courageous mare. Play Boy was half a length away third after a mistake at the last.

Shortage of oxygen may be the problem with Combs Ditch but nothing was apparent straight afterwards in the unsaddling enclosure where Elsworth suggested that the Jim Ford Challenge Cup at Wincanton on Feb. 21 might be the nine-year-old's last race before Cheltenham.

Plans are now obviously far more uncertain and I doubt whether he would run at Wincanton if Burrough Hill Lad were to tackle that trial. Burrough Hill Lad may well do so because Saturday's Compton 'Chase at Newbury should be little more than an exercise gallop and he would no doubt benefit from another preliminary.

Forgive 'N' Forget, 16-1 for the Gold Cup, misjudged the last fence of yesterday's Whitbread Trial 'Chase. Greenwood Lad, receiving 15lb, took advantage of that mistake to beat him by one and a half lengths. They had been left to fight it out after Gambir lost the lead with a blunder two jumps from home.

Greenwood Lad ruined the chance of a big-race success at Ascot last season when coming down at the last fence of the Embassy Premier 'Chase final but he made no mistake yesterday.

Before tackling the Gold Cup, Forgive 'N' Forget will seek to repeat last season's victory in the Timeform 'Chase at Haydock Park on March 2.

The 32 Cheltenham Gold Cup entries — 10 more than last year — also include Greenwood Lad, Drumadowney and Half Free, who has an easy but uninformative test in today's Wincanton Challenge Cup.

Bajan Sunshine, who is among 37 Champion Hurdle entries, will miss Saturday's Schweppes Gold Trophy at Newbury to oppose Ararun in Leopardstown's Wessel Cable Hurdle seven days later.

Wing and a Prayer and Out of the Gloom, are four-year-olds among the Champion Hurdle nominations. Just Alick, second to Wing and a Prayer at Sandown Park last month, is napped for Huntingdon's Sidney Banks Memorial Novices' Hurdle today.

TONY STAFFORD.—Sheer Gold (3. 0)

Course Notes & Hints

WARRIOR IS BEST OF DAY

By Our Course Correspondent

ABANDONED WARRIOR,* who probably needed the run when a disappointing favourite at Leicester last week, may make amends in today's Long Stanton Handicap Hurdle (4.30) at Huntingdon.

Buckminster Boy, a creditable fourth in a novices' event on the same Leicester card, should take advantage of a drop in class in the Glatton Selling Hurdle (Div. II, 2.0).

Chalet Waldegg is expected to take Div. I (1.30) at the expense of My Friend, and Castle Warden, who also held an engagement at Wincanton today, may make the most of his light weight to complete a hat-trick in the Whittlesey Handicap 'Chase (2.30).

RACING RESULTS

ASCOT. — 1.30 : Ten of Spades (7-4F) 1; El Gitano (25-1) 2; Terrunah (5-2) 3. 2.0 : Sula Bula (4-1) 1; Very Promising (11-2) 2; Destiny Bay (6-1) 3; The Reject 3F. 2.30 : Rose Ravine (100-30) 1; Combs Ditch (13-8F) 2; Play Boy (9-1) 3. 3.5 : Greenwood Lad (10-1) 1; Forgive'n Forget (7-4F) 2; Ardent Spy (9-2) 3. 3.40 : Drumadowney (3-1) 1; Rhyme 'n' Reason (5-2F) 2; Jimbrook (5-1) 3. 4.10 : Mister Pitt (12-1) 1; Chalsea Maid (15-8F) 2; Fine Tale (33-1) 3.

LUDLOW. — 1.15 : Wingborn (33-1) 1; Hurricane Hill (3-1) 2; Belle Vue (15-2) 3; Clever Angle (14-1) 4. Pethstree 11-4F. 1.45 : Ten Peg (8-1) 1; Romules (2-1JF) 2; Hooded Crow (33-1) 3. Pine King 2JF. 2.15 : Miranac (4-1) 1; Ballycrackers (5-2F) 2; Car Gee (33-1) 3. 2.45 : Stoto Sogner (20-1) 1; Wise Words (5-1) 2; Deep Moppet (11-2) 3; Come On Sonny (8-1) 4; Papararer 4F. 3.15 : Ring Lou (10-1) 1; Sandwalker (8-1) 2; Space Bridge (10-1) 3; Dromin Anburn 9-2F. 3.45 : Time-See (2-1F) 1; Gilted Gift (33-1) 2; Gun-Carriage (14-1) 3.

Ski-ing

Americans sweep Swiss aside

By ALAN SMITH in Bormio

DIANN ROFFE led a charge of United States skiers that obliterated the Swiss domination of the world ski championships in Santa Caterina yesterday. Americans filled three of the top four places.

Only Elisabeth Kirchler, of Austria, spoiled their clean sweep of the medals, coming in ahead of Eva Twardokens and Sarajevo gold medallist Debbie Armstrong.

Maria Walliser, who finished eighth, was the best of the Swiss after both Erika Hess and Michela Figini, both previous winners at these championships and strongly fancied again, had put themselves out of the medal hunt in the first run.

Miss Roffe, 17, was only fifth after the first run, though from a start number of 19 that was no mean achievement, down a course set by the U.S. women's trainer Brad Ghent. The second course was set by an Austrian.

Missed a gate

With the first five going in reverse order down the second run, she had to lead the way. "From fifth place I had nothing to lose, so I just went for it," she said.

In the Sarajevo women's giant slalom the Americans also filled three of the top four places, Miss Armstrong beating the now-retired Christin Cooper, with the unlucky Miss McKinney fourth.

Lesley Beck, Britain's only starter, was disqualified yesterday for missing a gate on the second run.

WOMEN'S GIANT SLALOM. — D. Roffe (U.S.) 2min. 18·58sec., 1; E. Kirchler (Austria) 2-19·13, 2; E. Twardokens (U.S.) 2-19·21, 3; D. Armstrong (U.S.) 2-19·26, 4.

HOCKEY

REPRESENTATIVE — Cambridge Univ 4, R Navy 1—Oxford Univ 0, RAF 0—Paughbourne 2, Hockey Assn 1. BPSA CUP.—Otr-final: Kingston Poly 4, South Bank 2.

OTHER MATCH. — Broxbourne 4, Cambridge Univ Wands 0.

SCHOOLS.—Alleynes 2, St Albans 3—R Russell 0, Caterham 4—St George's, Weybridge 6, Dulwich 0—Seaford Cod 1, KCS Wimbledon 1.

WOMEN. — UAU Ch'ship. Semi-finals: Loughborough 1, Exeter 0—Newcastle 5, Manchester 0.

Hockey

HARBORD IS LEADING LIGHT

By CHRIS MOORE

EXETER UNIVERSITY, knocked out of the U A U Cup by Nottingham University last year, obtained their revenge at Bisham Abbey yesterday.

The fast-moving Exeter, hoping to regain the title they held two years ago, won 3-0 to reach the final again.

Harbord on the left wing did most of the damage, playing a major role in all three Exeter goals. After only 15 minutes he was obstructed by Bunce, the Nottingham goalkeeper, and Skinner, recently called into the England training squad, opened the scoring from the penalty spot.

It was Harbord again, this time forcing a short corner, who paved the way for Davies to add the second just before the interval. Ten minutes from the end Harbord himself made it 3-0 in a goalmouth scramble.

In the final Exeter will meet Durham, 2-1 winners over Surrey at Lilleshall with second half goals from Bell and Wall after Covil had put Surrey ahead.

At Motspur Park, London University were two down to the Ladykillers at half-time but recovered well to draw 2-2.

Allan Border . . . third hundred in 15 days.

Cycling

Doyle joins Moducel

By PHIL LIGGETT

Mike Doyle, 22, from the Isle of Man, became yet another of Britain's inter-riders to turn professional when he joined the Moducel Air Handling squad based in Stoke-on-Trent yesterday.

Doyle, who during a short amateur span represented Britain on 14 occasions, has been attracted to one of the most successful teams of 1984.

Steve Joughin, 25, the British road race champion and the Isle of Man's sportsman of 1984, will still lead the squad.

Banbury renews

Ian Banbury, a former Olympic bronze medallist who also renewed his contract, gave Moducel their other title last year when he won the 5000 metres pursuit at Leicester.

The team's most interesting signing yesterday was Sid Barras, the sport's most prolific winner. Barras has won almost 300 races during a magnificent career as both amateur and professional.

One-Day International

West Indies slump after Border 127

By ALAN SHIELL in Sydney

A MARVELLOUS unconquered 127 by their captain, Allan Border, followed by some spirited speed bowling, inspired Australia to an unexpected 26-run win over the West Indies in the first leg of the Benson and Hedges World Series Cup final in Sydney last night.

Border's third century in 106 one-day internationals hauled Australia to 247 for six off 50 overs, then the West Indies, unbeaten in their 10 preliminary games, were dismissed for 221 off 47·5 overs.

A crowd of 29,568 was shocked by the manner of the West Indies' demise at the hands of Australia's five quick bowlers: Lawson, McCurdy, Hogg, McDermott and O'Donnell.

Only Richards, with a belligerent 68 off 88 balls, and Marshall and Garner, in a ninth-wicket stand of 63 in 10 overs, threatened to deny Australia their seventh victory in 10 day-night matches against the West Indies staged in Sydney since 1979-80.

Garner's blows

An Australian total in excess of 240 seemed just a dream when Garner removed Wood and Smith in his first and second overs, and when Wessels and Jones followed in the 17th and 18th overs.

Border and Phillips were left with a massive responsibility of building a score, and how they succeeded, though Border should have been out at 66, with the total 132 for four. But Richards, standing over the stumps at the bowler's end, failed to take a return from Logie while Border was still short of the crease.

Phillips, cutting and driving daringly, gave his captain sturdy support as their fifth-wicket stand climbed to 105 in 21 overs. Then Phillips, having hit 50 off 71 balls, gave a straightforward catch to Garner at wide mid-wicket but Border, O'Donnell and Lawson took 68 off the last 10 overs.

PAKISTAN GO DOWN: QADIR SENT HOME

WITH Abdul Qadir being dismissed from the tour for disciplinary reasons, Pakistan's tale of woe continued yesterday when they went 3-0 down in the one-day international series against New Zealand at Lancaster Park, Christchurch.

While New Zealand were beating the tourists by 13 runs, Qadir, the team's leg spinner, was claiming he was the victim of the Pakistan Cricket Control Board's internal politics.

In yesterday's game — the fourth and final match is in chasing New Zealand's 264 for Auckland on Feb. 16—Pakistan, eight, were all out with two balls of their allotted 50 overs left. A thrilling 108-run seventh-wicket partnership between Rameez Raja and Anil Dalpat had been all in vain.

Earlier John Reid with 88 runs, and John Wright, 65, had put on 92 for the second wicket to set New Zealand on their path to victory.

Zaheer Abbas, Gloucestershire's former Pakistan Test captain, is giving up county cricket because he is fed up with playing seven days a week. Zaheer, 37, announced his decision in New Zealand.

LES BERRY DIES

Les Berry, one of the finest cricketers to ever play for Leicestershire, has died at the age of 78. Berry's record of 30,145 runs at an average of 30·32 during a career of 605 appearances between 1924 and 1951, is still unrivalled. His tally of 45 centuries is also the best in the club's history.

Other obituaries—P16

Cricket

England recipe for tour triumph

By MICHAEL CAREY in New Delhi

IF anything can be more satisfying than England's achievement in coming from behind to win the Test series in India, it is the way it was done.

There was a reversion to some old-fashioned qualities and methods that had semed in danger of vanishing from English cricket forever at this level.

Two of these were high-class slow bowling by Phil Edmonds and Pat Pocock, usually when they were operating in harness, and the eventual ability by most of the recognised batsmen to play long innings, without which Test matches are difficult to win anywhere, but especially in India.

The third but by no means least important was a wonderful and genuine cameraderie, on and off the field, which developed under David Gower's leadership and which, with no disruptive element in the side, enabled them to discuss and plan their cricket and then put their tactics into operation in a way that has not often been detectable in the past few years.

Developed resilience

All this, plus other individual contributions — especially from the manager Tony Brown—enabled the side to develop the resilience and self-belief required to overcome a start that was fraught in the extreme because of the frequent changes to the itinerary which followed the assassination of the Indian Prime Minister on the day they arrived.

When the tour proper got under way, that other bogey of visiting cricketers—fears about the quality of umpiring—reared its head.

The hearts of those of us who had seen what had happened to Keith Fletcher's side three years ago sank when an innings defeat at the hands of the Indian Under-25 side was quickly followed by defeat in the first Test.

At that point, however, the message about disciplined batting was driven firmly home by captain and manager. Tim Robinson's eight-and-a-half hours' innings at Delhi, which was remarkably flawless for a batsman in only his second Test, was the cornerstone of a victory after which England were never again easily bowled out.

More important, they also scored their runs quickly enough to put India under pressure, helped in no small measure by the minimum 80 overs a day, but mainly by the emergence at long last of Mike Gatting as a genuine Test match batsman.

Gatting never looked back after breaking his personal mental barrier with a century at Bombay. Suddenly, after the years of doubt, his burly figure was a reassuring sight emerging at No. 3 and a wicket that the Indians probably prized most of all.

If Gatting's form was one plus, the "discovery" of Robinson was another. He seems to have not only an imperturbable temperament, but the ability to blunt the new ball without allowing bowlers to escape with lapses of line and length — qualities which could make him an England opener for years.

Of the quicker bowlers Cowans lost some consistency towards the end, but invariably took at least one wicket with the new ball and his pace undoubtedly made some Indian batsmen tentative.

Ellison's four wickets, all taken in one innings at Delhi, do not reflect the times he beat the bat. Which brings me, not before time, to Messrs Edmonds and Pocock. Between them they bowled some 600 overs in the series at slightly more than two runs an over, an admirable effort considering the mild nature of the pitches.

Edmonds, indeed, was the key performer of all as far as many England players were concerned. He overcame problems with his run-up and his accuracy, day in and day out, was arguably the fulcrum of England's attack. Overall, though, England proved that it was the sum of the parts that counted.

THOMAS SENDS CHELSEA ON AT LAST GASP

By MICHAEL CALVIN

Chelsea ... 2 Sheffield Wednesday ... 1

MICKY THOMAS provided a tumultuous Milk Cup tie with a fitting climax when he scored in the last minute at Stamford Bridge last night to give Chelsea a semi-final place against Sunderland at the expense of Sheffield Wednesday.

The latest instalment of the competition's compelling serial was again played at a lung-bursting pace which ensured that stamina seemed more important than subtlety.

The purists may have blanched at the physical nature of the challenge yet a large crowd was captivated by the sudden swing in fortunes they have come to expect during three closely-fought ties.

Wednesday seized the initiative as early as the 12th minute when Varadi salvaged a poor cross by Sterland. Marwood touched the ball to Blair who set up Shelton's superb curling drive from 25 yards.

That goal increased the urgency of Chelsea's need to break down the finely-tuned offside trap

Niggly play

Speedie, who succumbed to the niggly nature of the game by being booked for a foul on Worthington, twice had close-range opportunities, but it was the intelligence of Nevin that provided a 51st minute equaliser.

Collecting the rebound from a Thomas free-kick he chipped the ball over the advancing defence before heading it wide of Hodge and although off balance, he fashioned a far post cross which was met by Speedie's desperate diving header.

Logic demanded that Chelsea would eventually be overwhelmed by the physical demands of their sixth match in 12 days.

Yet, with Speedie, clearly on a personal crusade to erase the memory of the penalty miss which led to Chelsea's F A Cup exit, they were by far the more positive force in the second half.

Indeed, they should have taken the lead in the 67th minute when Dixon, created space for himself on the left, before providing a cross for Canoville, who, unmarked at the far post, needed to only touch the ball into an unprotected net, but contrived to completely miss his kick.

Chelsea. — Niedzwiecki; Lee, J. Jones, Pates, McLaughlin, Canoville, Nevin, Spackman, Dixon, Speedie, Thomas.

Sheffield Wednesday. — Hodge; Sterland, Shirtliff, Madden, Lyons, Worthington, Marwood, Blair, Varadi, Chapman, Shelton.

David Speedie . . . seized chance created by Nevin.

BLOWS FOR SPURS AND LIVERPOOL

By DONALD SAUNDERS

THE heavy burden League clubs shoulder by regularly supplying players to five British Isles international teams was re-emphasised this week, when Mark Lawrenson and Tony Galvin were injured during Eire's friendly against Italy.

Liverpool's defence are not nearly as well organised without Lawrenson. Yet, there are now doubts about whether he will recover from a dislocated shoulder in time for their difficult European Cup visit to Vienna three weeks next Wednesday.

Tottenham will also be inconvenienced during the next two Saturdays, against Sheffield Wednesday and West Bromwich, by the loss of Tony Galvin, who pulled a hamstring on Wednesday, and failed to finish a game for the Irish for the eighth time in nine appearances.

Still, if League soccer has cause to complain about having to spread its talent over five nations, England are now beginning to benefit from the export of players to Europe.

English makes good

Enzo Bearzot, the shrewd manager who guided Italy to their 1982 World Cup triumph, is satisfied that Ray Wilkins and Mark Hateley have improved significantly since joining A C Milan last summer.

"I told Don Revie years ago that Wilkins was good," recalled Mr Bearzot in Dublin this week. "Now he has become a highly-skilled playmaker, the sort of man needed in the heat and altitude of Mexico during the next World Cup finals."

The manager has also been impressed by Hateley's progress in the Italian League. "Mark has learned to play with either foot," he commented.

Talking with Mr Bearzot some hours after Italy's 2-1 victory, I gained the impression he did not enjoy their overall performance — which deteriorated into very negative defence — any more than I did. Nevertheless, he believes his 1986 World Cup squad is "coming together, bit by bit."

ULSTER'S FORWARDS DOMINANT

Ulster ... 13pts, Middlesex ... 3

A MARKED dominance in the forward sector allied to slick opportunism took Ulster to their 10th successive victory at the expense of a plucky Middlesex side at windswept Ravenhill, Belfast, last night.

Ulster swept into an eighth-minute lead from a Brown penalty goal and consolidated their advantage when Brown added a fine try after Ulster had won a lineout.

It was not until midway through the first half that Middlesex came to life and a sustained bout of pressure brought a penalty from Ebsworth.

Despite a marked dominance in the lineout, through Butcher and Deare, Middlesex were unable to breach the solid Ulster cover and instead it was the home side who provided the highlight of the first half with a spectacular try by Crossan.

A quick throw at a lineout caught Middlesex napping and Duncan and Irwin both handled before Crossan darted in behind the posts. Brown added the points to give Ulster a 13-3 interval lead.

Lively assault

Middlesex launched a lively assault on the resumption but the tenacious Ulster back row of Matthews, Duncan and Anderson, the latter having moved to No. 8 when Morrow went off injured, kept the visitors at bay.

Middlesex missed a fine opportunity to get back into contention when Ebsworth missed a simple penalty chance with 16 minutes remaining and, despite the fact that Ulster lost a second player to injury, McCoy being replaced by Miller, Middlesex were unable to impose any authority in the loose.

Ulster, instead, finished strongly, and Crossan came close to scoring after a sweeping attack involving backs and forwards. Middlesex, for all their tenacity and effort, gained little reward, and Ulster emerged deserving winners.

ULSTER.—P. Rainey (Lansdowne); T. Ringland (Ballymena), D. Irwin (Instonians, capt), J. Moles (Ards), K. Crossan (Instonians); I. Brown (Malone), R. Brady (Queens); P. Kennedy (London Irish), J. McDonald (Malone), J. McCoy, W. Anderson (Dungannon), B. McCall (London Irish), W. Duncan (Malone), P. Matthews (Ards), D. Morrow (Bangor).

MIDDLESEX.—M. Ebsworth (London Welsh); W. Jefferson, J. Salmon, A. Thompson (Harlequins), S. O'Reilly, M. Boyd (Wasps), L. George (London Welsh); P. Rendall (Wasps), G. Reece, P. Curtis (Harlequins), L. Adamson (Wasps), S. Deare (Richmond), K. Moss (Wasps), D. Cooke (Harlequins, capt), C. Butcher (Harlequins).

Referee.—M. Rea (Bangor).

KELLY RESIGNS

Alan Kelly resigned yesterday as manager of Preston, who are in danger of being relegated to the Fourth Division for the first time in their history.

The former Eire goalkeeper, who graduated to the coaching staff after making a club record 447 League appearances, will continue his 25-year association with Preston until his successor is appointed.

NEWBRIDGE IN CONTROL

By DAVID GREEN

Newbridge 12pts Newport 6

A match marred by continuous drizzle, a slippery ball and sporadic outburst of ill-temper brought victory to Newbridge.

Newbridge drew first blood in the fourth minute, when Oliver—who played grittily under severe pressure—bounced out of a couple of tackles to send Turner over at the posts. Turner himself converted.

Turner put Newbridge further ahead with a 40-yard penalty. Newport, using Rendall and Powell to drive close to the scrum, got into the game and Callard kicked a simple penalty when Jones was penalised for fighting.

Turner's long, left-footed, dropped goal and Callard's second penalty were the only second-half scores. But Newbridge had to sustain some heavy pressure in the last quarter and must have been grateful for some enormous touch-finders from Turner.

Newbridge. — P. Goodfellow; A. Glasson, C. Manley, S. Crandon, J. Howells, P. Turner, M. Oliver, K. Weaver, J. Stokes, L. Sims, M. Short, S. Harris, P. Jones, A. Morgan, N. Wilks.

Newport. — J. Callard; M. Batten, C. Williams, P. Daniel, C. Wood, K. James, R. Stewart, J. Rawlins, M. Watkins, J. McCreedy, R. Young, M. Roberts, R. Collins, R. Powell, W. Rendall.

Referee.—K. Parfitt (Port Talbot).

Rugby Union

Teague ready for Cardiff test

By JOHN MASON

MIKE TEAGUE, a replacement cap in the final 27 minutes of England's stubborn struggle to secure a draw against France last Saturday, is retained on the blind side flank against Wales in Cardiff on Saturday week.

No other changes are made in the team that started the match at Twickenham. Teague, the sixth Gloucester forward to be capped in seven months, went on for John Hall, who was concussed.

Teague, who remained in South Africa briefly after England's summer tour, is a No. 8 by inclination. But he has covered the blind side as a reserve —and played there for his division as well as for England in tour matches.

For English forwards the match against Wales tends to make most demands in all respects, irrespective of the previous achievements of either team. The thought does not perturb Teague, who is well versed in Welsh attitudes, tactical schemes and personnel.

Hard school

Gloucester have considerably more matches against Welsh opposition than all but a handful of other English senior clubs. Teague has grown up in a hard school. Nor is that a euphemism for mindless violence: there is respect for capable opponents.

An early telephone call yesterday following the team announcement — the replacements will not be decided until after Saturday's matches—was from Richard Greenwood, the coach, to Richard Harding, the scrum-half whose brisk commonsense was so important against France.

I do not pretend to know what was said on the telephone. But in the interests of team spirit as well as continuity in the plans of a team seeking a first victory in Cardiff for 22 years, I imagine the emphasis was that Harding is first choice and has every selectorial confidence.

The need among the replacements is to be sure about the fitness of Stuart Barnes, who is due to play for Bristol against Cardiff this Saturday, and to reassess who covers who in the back row now that Teague, 25, has won full promotion.

Scotland make two changes for the challenging trip to Paris in addition to switching the captaincy from Roy Laidlaw to David Leslie, an inspiring leader in the President's match at Twickenham in September.

Leslie, 32, has scarcely played since because of a complicated knee injury. Recollecting his part in the Grand Slam last winter, it is easy to understand why Scotland are so anxious to recall him.

Milne back

A fit Iain Milne, the Harlequin, resumes at tight head. The French bring in Jerome Bianchi, who played in the recent B international against Scotland, at fullback so that Serge Blanco can operate from the right wing. Beware Scotland! Esteve moves to the left and Lavigne is dropped.

ENGLAND (v Wales, Cardiff, Feb. 16).—C. R. Martin (Bath); S. T. Smith (Wasps), K. G. Simms (Cambridge Univ), P. W. Dodge (capt), R. Underwood (Leicester); C. R. Andrew (Cambridge Univ), R. M. Harding (Bristol); P. J. Blakeway (Gloucester), S. E. Brain (Coventry), G. S. Pearce (Northampton), J. Orwin (Gloucester), W. A. Dooley (Preston Grasshoppers), M. C. Teague (Gloucester), D. H. Cooke (Harlequins), R. Hesford (Bristol).

FRANCE (v Scotland, Paris, Feb. 16).—J. Bianchi (Toulon); S. Blanco (Biarritz), P. Sella (Agen), D. Codorniou (Narbonne), P. Esteve (Narbonne); J-P Lescarboura (Dax), J. Gallion (Toulon); P. Dospital (Bayonne), P. Dintrans (Tarbes, capt), J-P. Garuet (Lourdes), F. Haget (Biarritz), D. Condom (Le Boucau), J. Gratton (Agen), L. Rodriguez (Mont de Marsan), J-L. Joinel (Brive).

SCOTLAND.—P. W. Dods (Gala); G. R. T. Baird (Kelso), K. T. Murray (Hawick), K. W. Robertson (Melrose), I. Tukalo; J. Y. Rutherford (Selkirk), R. J. Laidlaw (Jedforest); G. M. McGuinness (West of Scotland), C. T. Deans (Hawick), I. G. Milne (Harlequins), A. J. Campbell (Hawick), T. J. Smith (Gala), J. H. Calder (Stewart's-Melville), D. G. Leslie (Gala, capt), I. A. M. Paxton (Selkirk).

Replacements.—N. A. Rowan (Boroughmuir), G. J. Callander, J. Jeffrey (Kelso), I. Bunter (Selkirk), D. S. Wyllie (Stewart's-Melville), P. D. Steven (Heriot's).

Luddites' pressure tests Cambridge

By MICHAEL AUSTIN

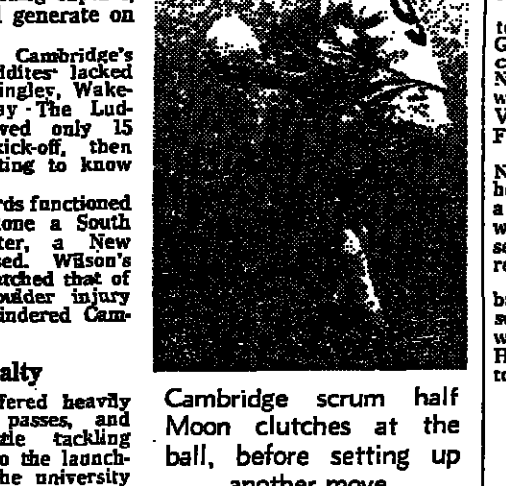
Cambridge University ... 13pts, Luddites ... 11

THE LUDDITES, a Yorkshire-based invitation club with Barbarian principles of open play and sportsmanship, fully tested and duly acknowledged the elasticity of Cambridge defence in a crescendo of pressure at Grange Road yesterday.

Cambridge, who led 13-3 at half-time, needed all the inspiration Moon, their acting captain, and Andrew, could generate on a misty afternoon.

Injuries diluted Cambridge's side and the Luddites lacked players from Headingley, Wakefield and Roundhay. The Luddites, having arrived only 15 minutes before kick-off, then spent an hour getting to know each other.

When their forwards functioned smoothly, Featherstone a South African, and Cotter, a New Zealander, impressed. Wilson's line-out jumping matched that of O'Leary whose shoulder injury after 55 minutes hindered Cambridge's cause.



Cambridge scrum half Moon clutches at the ball, before setting up another move.

Easy penalty

The Luddites suffered heavily from misdirected passes, and initially, from brittle tackling which contributed to the launching of Harriman, the university sprint champion, for a 45-yard try, and to a vigorous try-scoring thrust by the excellent Clough.

Andrew kicked Cambridge's goal for a victory by a goal, a try and a penalty goal to two tries, by Cayzer and Walker, together with Cayzer's easy penalty goal in the club's first meeting.

Fletcher, the Luddite hooker, helped create Walker's try by over-lapping improbably outside the wing. Cayzer's try followed a scrum pick-up by Featherstone, but Moran marred the remarkable length and accuracy of his passing by missing two, crucial dropped goal opportunities.

Cambridge University.—F. Clough; A. Harriman, G. Wyllie, K. Sims, P. Michelson; R. Andrew, R. Moon; N. Bunt, P. Combe, J. Simpson, S. O'Leary (A. Hobbs, 69), J. Palombo, P. Hobbs, P. Green, M. Eberlin.

Luddites.—K. Rooke (Bradford & Bingley); G. Melville (Otley), N. Sheard (Headingley), B. Booth (Harrogate), G. Walker (Roundhay); A. Moran (Bradford & Bingley), S. Cayzer (West Park, Bramhope); M. Wright, J. Fletcher, R. Stead (Otley), M. Porisse (Huddersfield), P. Wilson (Otley), C. Holliy (Roundhay) (V. Cotter, Huddersfield, 69), B. Willie (Roundhay), R. Featherstone (Bradford & Bingley).

Referee: R. Ballingall (Eastern Counties).

UNLIKELY WIN FOR ARMY

By VICTOR SWAIN

Civil Service ... 27pts — The Army ... 29

A try by left-wing Peter Lockett in the last two minutes enabled the Army to snatch victory over the Civil Service at Chiswick yesterday after the lead had changed hands eight times.

The Civil Service were ahead on the try count, but more successful goalkicking by Bentley, who contributed 13 points, clinched victory for the Army by two goals, three penalty goals and two tries to two goals, one penalty goal and three tries.

The Civil Service looked formidable with Welsh internationals Adrian Hadley and Mark Ring in the side.

Hadley and Hewer scored their first-half tries and Ring kicked a penalty and added a conversion. But Travers and Beazley crossed for the Army and Bentley's two penalties and one conversion put them 16-13 ahead.

The Civil Service forged ahead after the interval and tries by Weir, Hadley (converted by Ring) and Hewer appeared to have the game safely won.

But Bentley's third penalty goal and a storming last ditch effort in the final seven minutes, with tries by Beazley and Lockett and a conversion by Bentley, brought an unlikely victory.

Civil Service.—P. Snoddy; A. Hadley, M. Ring, K. Gamble, M. Hewer; C. Carter, M. Weir, W. Dickenson, J. Martin, P. Lewnford, J. Davidson, P. Wood, J. Simpson, M. Longstaff, G. Lewis.

The Army.—Capt. C. Bentley; Col P. Lockett, Lt N. Beazley, Lt P. McKenna, Cpl H. Tucker; Lt J. Steele, Gnr A. Vicary, Capt. C. Harvey, Lt R. Bedford, Cpl N. Kessell, Sgt R. Travers, Sgt S. Peacock, Sgt G. Williams, Sgt M. Lewis, Lt N. Castleton.

Referee: J. Rees (Hampshire).

Bowls

Smith rocks Sutherland

By Our Bowls Correspondent

NIGEL SMITH, 20, last year's surprise runner-up, yesterday scored a staggering 21-5 victory over Bob Sutherland, the 1983 champion, in the First round of the World Indoor Bowls Championship at Coatbridge.

Totally destroying the finger flick which had been ruining his delivery for almost a year and perhaps stimulated by his omission from the England team, Smith chanced his necessary change of grip after a solo practice on Tuesday evening.

He was rewarded immediately when his first two bowls nestled less than six inches from the jack, so forcing Sutherland to attempt two drives, both missing their target.

Evans through

Smith followed with a series of excellent shots for the next eight end to run up a 15-0 lead. Sutherland did not bowl badly; he was simply outplayed. But at this point Smith conceded a four before gaining a fortunate single which helped him to victory.

Earlier, Russell Evans, the Welsh champion, beat Keith Slight, 29, the left-handed New Zealand champion of champions, 21-9.

Recent research extracted some reasons why being left-handed benefits the player. There were glimpses of this in Slight, but they were not supported by indoor experience. So Evans clustered bowl after bowl into the theoretical "dustbin lid" circling the jack.

1st Rd.—N. Smith bt R. Sutherland (Scotland) 21-5; R. Evans (Wales) bt K. Slight (N. Zealand) 21-9.

SHAW'S FIGHTING VICTORY

By JOHN PARSONS

STEPHEN SHAW, whose game steadily grew in confidence and stature as he became more comfortabe, scored a fine, fighting victory in the first round of the Lipton's Players' International at Delray Beach yesterday.

Although a set and 4-2 down, Shaw recovered to beat Eddie Edwards, of South Africa.

He levelled the match by playing a handsome 7-2 tie-break and then, after breaking in the ninth game of the final set, served out the match and finished with an ace.

By stark contrast, the forlorn Jo Durie, British women's No. 1, suffered another disastrous set-back when she lost 6-3, 6-4, to the Russian qualifier, Larissa Savchenko.

Miss Durie pulled back from 1-4 to 4-4 in the second set, largely by courtesy of her opponent's double faults, and coach Alan Jones admitted: "That was just dreadful."

It was Amanda Brown's turn to disturb room-mate Sarah Gomer with an early wake-up call this time, to prepare the Norwich girl for her 9 a m match with the vastly more experienced Virginia Ruzici, the former French champion.

Playing her first match since November Miss Brown pushed her opponent much harder than a 6-1, 6-3 defeat would imply, but was too often let down by her service in several games she really ought to have won.

Overnight Virginia Wade, 39, battled with an adventurous, sometimes reckless mixture of winner and blunders to beat the Hungarian qualifier, Csilla Bartos, 6-5, 4-6, 7-5.

LENDL UMPIRE STALKS OFF

Luigi Brambilla, a widely-travelled Italian umpire, stalked off court when Ivan Lendl and Larry Stefanki pretended he was not there towards the end of their first round match in Delray Beach.

After disagreeing with Mr Brambilla over a call the players ignored a penalty point against Stefanki, keeping their own score. The umpire departed and Lendl went on to win 6-2, 6-0.

I'M SORRY, SAYS BALE

By BILL EDWARDS

After time to reflect over his disqualification in the L T A Satellite Tennis Circuit tournament at Telford on Tuesday, Stuart Bale will be back for the fourth and final leg at Bramhall next Monday, chasing a possible place in the Masters the following week.

He apologised to Paul Hutchins, the national team manager, yesterday, and said he is determined to mend his ways.

Two Dutchmen have reached the semi-finals at Telford, Menno Oosting, who beat a discontented and noisy Jason Goodall 6-5, 7-5, and Marc Albert, who dismissed Bruce Derlin, of New Zealand, 6-4, 6-4.

In today's semi-finals, Jeremy Bates meets Oosting and Albert faces Stefan Eriksson, of Sweden, who beat Rusidek 6-2, 6-1.

L T A SATELLITE CIRCUIT T'MENT (Telford). — Qtr-finals: S. Eriksson (Sweden) bt L. Rusidek (U.S.) 6-2, 6-1; M. Albert (Holland) bt B. Derlin (N. Zealand) 6-4, 6-4; J. Bates (Surrey) bt L. Alfred (Wales) 6-3, 6-2; M. Oosting (Holland) bt J. Goodall (Yorks) 6-5, 7-5.

Ice Skating

One-way traffic for top pairs

By HOWARD BASS in Gothenburg

THE three couples expected to share the medals dominated the first day of the European Ice Dance Championship in Gothenburg in a way to suggest that none of the other 13 entries are likely to trouble them.

After the three compulsory dances — blues, Yankee polka and Viennese waltz — Nicky Slater and Karen Barber held third place behind both the Soviet twosomes who outpointed them last season.

The leaders are Andrei Bukin and Natalia Bestemianova, last year's runners-up to Torvill and Dean, and the 1983 champions when Jayne Torvill could not compete because of an injured shoulder. Sergei Ponomarenko and Marina Klimova are second.

To many purists, Bukin and Bestemianova, though technically efficient, were less elegant than their main rivals in manner of performance. A superior free leg alignment of Ponomarenko and Klimova was particularly evident in the blues.

Bukin and his partner are not the force they were and their compatriots may well overhaul them later in the week. How the judges will regard the Richmond couple's subsequent appearances cannot be assessed from yesterday's deliberations.

Weakest department

The compulsories are their weakest department and their fortunes could improve during today's set pattern quickstep and the final free dance on Saturday.

Miss Barber's vivacious personality shone through in the lively Yankee polka and this was reflected by higher marks than they received for the blues.

Paul Askham and Sharon Jones from Altrincham, who are trained by Joan Slater, Nicky's mother, are overnight 11th.

ICE DANCE (after compulsories): A. Bukin & N. Bestemianova (USSR) 0.6 pts, 1; S. Ponomarenko & M. Klimova (USSR) 1.2, 2; N. Slater & K. Barber (GB) 1.8, 3; R. Schoenborn & P. Born (W Germany) 2.4, 4; G. Sretenskiy & N. Annenko (USSR) 3.0, 5; R. Pelizzola & J. Michelli (Italy) 3.6, 6. Other British: P. Askham & S. Jones 7.2, 11.

South African Golf

McNULTY, 65, LEADS BY TWO STROKES

By ADRIAN FREDERICK in Johannesburg

MARK McNULTY picked up where he left off in Swaziland last week when he scored a seven-under-par 65 for the first-round lead in the South African Charity classic at Randpark, yesterday.

McNulty, a winner last week, played the Windsor Park layout with nine birdies that included five in six holes from the eighth. He finished two strokes ahead of David Feherty, Warren Humphreys and Fulton Allem, all of whom also played Windsor, and Mark McCann who had a six-under 67 on the Championship Randpark layout.

Humphreys, fourth last week, drove the ball well. He said: "On this course it's a big bonus to keep the ball in play and I was very pleased with 67."

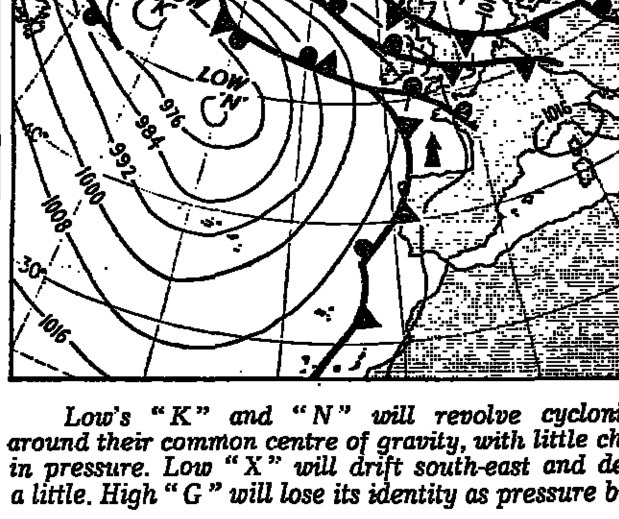
Feherty has been battling with a loss of distance in his driving but hit a couple of drives that went more than 300 yards in his six-birdies round.

On 68 were Paul Way, who had seven birdies and two dropped shots on the Randpark course, Ian Mosey who was four under after seven and stayed that way on Windsor, and Derrick Cooper.

LEADING SCORES

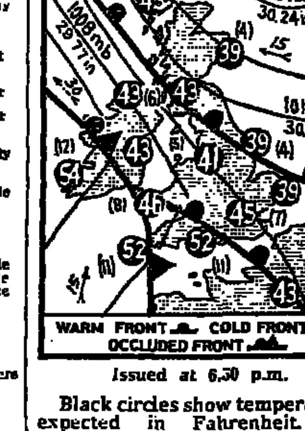
65—M. McNulty. 67—W. Humphreys, D. Feherty, F. Allem, M. McCann. 68—D. Cooper, I. Mosey, P. Way. British & Irish: 69—M. Johnson. 70—S. Bennett, D. Durnian, R. Lee, D. Smyth. 71—N. Burch, A. Chandler, M. Sharman. 72—N. Godin, R. Joyce, P. Parkin. 74—I. Young. 75—D. Blakeman, A. Sherborne. 76—P. Harrison. 77—M. Green.

ATLANTIC WEATHER—Noon Feb. 6



Low's "K" and "N" will revolve cyclonically around their common centre of gravity, with little change in pressure. Low "X" will drift south-east and deepen a little. High "G" will lose its identity as pressure builds.

BRITISH ISLES



Issued at 6.30 p.m.

Black circles show temperatures expected in Fahrenheit. The equivalent temperature in Centigrade is given alongside in brackets. Arrows indicate wind direction and speed in m.p.h. Pressures in millibars and inches.

TELEVISION — THURSDAY

GUIDE BY RONALD HASTINGS

BBC-1

6.30 a.m.-9 Breakfast Time, with Frank Bough and Selina Scott. 10.30-10.50 Play School, rpt. 12.30 News, Weather. 12.57 Regional News (London and South East only: Financial Report and News). 1 Pebble Mill at One, including Jill Crawshaw on holidays and Bill Evkyn on the house project. 1.45 Bugpuss, rpt. 2-2.40 The Afternoon Show, with Child Abuse; Psychic Messages; and Contraception. 3.48 (not London) Regional News. 3.50 Play School. 4.10 The Family-Ness. 4.15 The BFG, read by Bill Oddie, rpt. 4.30 Dogtanian and the Three Muskehounds. 4.50 John Craven's Newsround. 5 Blue Peter: Doll's Delight! Janet Ellis with furniture for dolls. 5.20 European Figure Skating Championships from Gothenburg. 5.58 Weather.

6 00 NEWS.

6 30 REGIONAL MAGAZINES.

6 55 TOMORROW'S WORLD—New scientific ideas and their applications.

7 20 ODD ONE OUT—Game show with Paul Daniels.

7 50 TOP OF THE POPS — Introduced by Richard Skinner and Gary Davies.

8 30 A QUESTION OF SPORT—David Coleman and his latest pullover in the chair. (Ceefax sub-titles.)

9 00 NEWS, WEATHER.

9 25 CHARTERS AND CALDICOTT — Northern Lights. They decide that their old school cricket statistics are the key to the Jock Beevers code. After the early episodes this has dropped away disappointingly. C. and C. becoming, through less inspired writing, just a couple of rather boring old duffers. (Ceefax sub-titles.)

10 15 QUESTION TIME—Sir Robin Day and Dr. Elizabeth Cottrell, John Gunnell, Chris Patten and David Penhaligon.

11 15 EUROPEAN FIGURE SKATING CHAMPIONSHIPS —From Gothenburg. Featuring The Ladies' Free Programme, plus earlier highlights. 11.55 Weather.

BBC-2

9.20 a.m. Daytime on Two, a sequence of 15 short educational programmes. 3 World Bowls: Indoor Championship from Coatbridge. 4.55 World Ski-ing Championships: Men's Giant Slalom from Bormio, Italy. 5.25 News, Weather. 5.30 Speak Out, this last in the series which has linked young people in London with New York and Moscow now has a studio discussion.

6 00 MONKEY—The Minx and the Slug. Japanese legendary adventures. Repeat.

6 40 CARTOON TWO—Tales from Hoffnung: Birds, Bees and Storks.

6 45 "THE SEVEN YEAR ITCH" (1955) — Mild and middle-aged Tom Ewell suffers from it in this Billy Wilder comedy when Marilyn Monroe moves in upstairs just when he is free from his wife and children, ushered in by all those familiar fantasies for which men are incorrectly said to wait seven years. Amusing, though far less explicit than it would be now. With Evelyn Keyes and Sonny Tufts.

8 30 OUT OF COURT—Looking at the present jury challenging system.

9 00 THE MISTRESS — Helen, the wife, is worrying about her marriage; Maxine, the other woman, finds the strain too much. Luke dithers between them.

9 30 FORTY MINUTES—The Outcasts. Following last week's end of pier show at Cromer, this series moves south along the Norfolk coast for a very different view of Yarmouth to observe and explain this group of black-leathered, long-haired motorcyclists, starting with a selection of introductory quotes: "We just do what we want", "The more sex and drugs the better", "We don't wreck seasides or cut up old ladies, in actual fact we are past that", "We're not animals", "Court fines for thieving are less than the money stolen, and they say crime doesn't pay!" Every now and then a police van carts a load of them off for DHSS frauds, fearsome, hairy objects. The film takes no point of view, though the tone is generally sympathetic contradicted by most of the action film!

10 10 WORLD BOWLS—World Indoor Bowls Championship from Coatbridge.

10 50 NEWSNIGHT—Including the Popielszko murder: a special report on the day the trial of the Polish priest's killers ends.

11 35 WORLD BOWLS—Highlights.

12 05-12.40 OPEN UNIVERSITY.

ITV Thames

6.15 a.m. Good Morning Britain. 9.25 Thames News Headlines. 9.30 For Schools. 12 The Little Green Man. 12.10 Mooncat and Co: Grumpy, rpt. 12.30 The Sullivans. 1 News. 1.20 Thames News. 1.30 Falcon Crest: Ashes to Ashes. 2.30 Daytime, with Sarah Kennedy. 3 Gems. 3.25 Thames News Headlines. 3.30 Sons and Daughters. 4 The Little Green Man, rpt. 4.15 The Moomins. 4.20 Sooty: Beauty Contest. 4.40 Words, Words, Words. 5 Dangermouse. 5.15 Skating: The European Figure Skating Championships, from Gothenburg.

5 45 NEWS.

6 00 THAMES NEWS—With Andrew Gardner and Tina Jenkins.

6 30 THAMES SPORT—Introduced by Steve Rider and including The European Figure Skating Championships; and football's Sir Stanley Matthews.

7 00 KNIGHT RIDER — Custom-made Killer. Knight fights for right with KITT. As usual, that's all we are told, or words to that effect.

8 00 DUTY FREE—Bedroom Farce. David and Linda's midnight swim makes Amy suspicious. Repeat.

8 30 HOTEL—Ideals. Once again, they have given up paraphrasing the plot, or plots.

9 30 TV EYE.

10 00 NEWS AT TEN; followed by Thames News Headlines.

10 30 KOJAK—Marker for a Dead Bookie. His elaborate plan to put it around that he can be bought over a drugs investigation is blown when an undercover cop is recognised by one of the crooks. Both sides are baiting traps. Repeat.

11 30 SKATING—The European Figure Skating Championships. Featuring the Ladies' Free Programme and Ice Dance.

12 25 NIGHT THOUGHTS—With Monsignor John Crowley.

Channel 4

2.30 p.m. The British at War: three more WW2 films starting with "Burma Victory" (1945, b/w): a widely admired documentary filmed with the 14th Army in Burma, directed by Roy Boulting, and covering the campaign from 1942 up to the victory; then "Partners in Crime" (b/w): Basil Radford and Naunton Wayne in a Ministry of Information "short" about the war-time black market; lastly "A Diary for Timothy" (1944, b/w): a documentary picture of Britain during the last months of the war, looking at a possible future, an experimental film which was well received. 4.25 Countdown. 5 "The Man Between" (1953, b/w): Carol Reed directed cold war thriller which turned out to be a fairly cold entertainment, well below Reed's "Third Man" four years earlier and moving the scene from Vienna to West Berlin. A good cast, with James Mason, Claire Bloom and Hildegarde Neff.

6 50 MADELEINE—Cartoon set in Paris.

7 00 CHANNEL FOUR NEWS—At 7.50 Comment and Weather.

8 00 DISCOVERY—A look at the Cambridge Science Park which is proving an outstanding success in gathering together new high-tech industries with a science base, a link-up between industry and the academic world which could be copied elsewhere.

8 30 TREASURE HUNT—Somerset. The contestants are two Royal Navy aircraft engineering mechanics from Gosport.

9 30 THE PRICE — Episode five in which the violent potential of the kidnappers takes unpleasant form. Carr finally agrees on the amount to be paid and where, but the problem is to avoid the police.

10 30 BILLIARDS—Fred Davis v Alex Higgins—Court Report is planned to follow, in which case other programmes will run late.

11 15 ASSAULTED NUTS — The regular team with comedy and satirical sketches.

11 45-12.10 HALL OF MIRRORS—Reformed Christianity. Professor James Mackey talking with Methodist minister, Rev. Dr. Colin Morris, head of BBC religious broadcasting.

★★ Outstanding. ★ Recommended.

Donations if wished may be sent to the Imperial Cancer Research, c/o Barclays Bank, Newmarket.

(Continued on Column Seven)

'TAKE THE MEN BACK' CALL TO NUM LEADERS

By JOHN RICHARDS Industrial Correspondent

MINERS' leaders meeting in Sheffield today may be urged to consider taking their men back to work without an agreement to end the 47-week pit strike.

Some observers suggested that such a decision could lead to the strike ending by next Monday, but the position was not that cut and dried last night.

Many of the N U M leaders still believe that a negotiated settlement may be possible.

They believe that the apparent hard line taken by the coal board in demanding undertakings that the union accept pit closures on economic grounds as a condition of entering peace talks has hardened feelings among strikers.

Some of the leaders also detect a groundswell of public opinion against the tactics of the Government and the board.

This could suggest that the union might still be prepared to sit tight and allow the dispute to continue, in the hopes of renewed negotiations, at least for another couple of weeks until the 24-man N U M executive holds its next scheduled meeting on Feb. 21.

Fraught with risks

The possibility of an organised return without a deal originated in the strongest of the strike-bound coalfields, South Wales, but South Wales members of the executive were not considering raising the matter at today's meeting.

Instead, it was thought that one of the N U M moderates might put the point forward for discussion.

This could be with a view to having the prospect ruled out. Some of the union chiefs representing areas where men have already gone back to work are suspicious that the "no deal" plan could be a Left-wing ploy to maintain a semblance of opposition to pit colsures.

The proposal was also felt to be fraught with risks of misinterpretation and to have a major disadvantage if the 600 men dismissed in the course of the dispute were not covered by any sort of "no victimisation" agreement which the union is seeking to have them reinstated.

This was just one of a number of motions facing the executive whose meeting was originally postponed as it was considered there was "nothing to discuss" but reconvened when the board made it clear that, in its view, the current round of peace moves was at an end.

The miners' representatives may decide to call a special delegate conference to decide their strategy. One said last night: "Everything is in a state of flux."

Positive moves

They are seeking a consensus over whether to continue the strike despite the drift back to work in some coalfields and fears that its crumbling might split the union, or to take more positive moves to hasten a conclusion of the dispute.

This could entail modifying the NUM's position so that the union agrees, after all, to discuss uneconomic closures.

There will, however, be strong opposition reflecting the views of staunch strikers still prepared to carry on disruption.

Alternatively, the NUM could opt to allow a totally uncoordinated end to the strike, letting the return to work carry on but with strong pit branches reserving their right to battle for the reinstatement of dismissed men; a policy of non-co-operation and work-to-rule which would hamper coal output; and local opposition to closures and job losses.

Mr Jack Taylor, president of the Yorkshire NUM, said last night he thought the executive would seriously discuss the back-to-work-without-a-deal proposal, but he added: "I don't think it's a runner at this time."

Editorial Comment—P14

£1m FINE

By JAMES O'BRIEN

Continued from Page One

their own funds. The companies are now seeking to recover the money in a worldwide hunt for the rest of the misappropriated funds.

Mr Dixon is alleged to have personally received £8,400,000 c fthe misappropriated money. He is reported to have used £2 million of the money to buy a villa at Cap Ferrat in the South of France, purchased in the name of a Geneva-based company.

Insurance sources said yesterday that Mr Dixon lived in Spain after leaving Britain, but was now believed to be in the United States.

He was dismissed from the chairmanship of P C W Underwriting Agencies after alleged improprieties to the running of the company led to a Department of Trade investigation into the affairs of its parent Minet Holdings, in November, 1982.

His dismissal was followed by High Court actions against him for the alleged misappropriation of millions of pounds. His bank account was frozen pending the outcome of the action.

£1,000 a week

A High Court judge allowed him to draw £100 a week living expenses from the frozen account, but the amount was increased in January 1983 to £1,000 a week.

Mr Dixon then lived at the Grosvenor House Hotel, Park Lane. He needed £750 a week for himself and his family of five children, and £250 a week for nursin gcare for his elderly mother.

In May 1983, Mr Dixon put his country home, the Salutations, Sandwich, on the market for £350,000.

The £1 million fine on Mr Dixon is believed to be the largest ever recommended by the Lloyd's disciplinary committee. But the ability of Lloyd's to enforce it was questions by City observers last night.

The committee has also recommended a two-year suspension for Mr Adrian Hardman, who underwrote for P C W Underwriting Agencies, and one year's suspension for Mr Colin Davies, who underwrote for an associated company, W M D Underwriting Agencies.

Still working

Both are working for brokers at Lloyd's. Mr David Hill, who also underwrote for P C W Underwriting Agencies, has been reprimanded by the committee. He is also still working at Lloyd's.

Costs have been awarded against Mr Hardman, Mr Davies and Mr Hill, who are considering an appeal against this.

The disciplinary hearing took place against a background of police inquiries. The Director of Public Prosecutions has received a report from the fraud squad.

MINER BLOCKED ROAD WITH POLE

A striking miner involved in placing two sections of a telegraph pole across a road to delay a coach carrying working pitmen was given a suspended three-month prison sentence by magistrates at Llanelli, Dyfed, yesterday.

A tinplate worker drove into the road block but was unhurt. Stephen John Rees, 26, a colliery electrician, of Arthur Street, Llanelli, who admitted his part in damaging the car, was ordered to pay £25 compensation.

PIT STRIKE CUTS DRUNKENNESS

The miners' strike cut the number of convictions for drunkenness in the Wakefield area last year, to its lowest level since 1979, the annual meeting of the city's magistrates heard yesterday.

Chief Supt Adrian Feaster said the total fell to 377, down 69 on the previous year. "The industrial dispute has reduced the spending power of those dependent on the mining industry and this is reflected in the figures," he said.

Razor wire

By JOHN SHAW

a member of the CND national council. She said she had been alerted "on the grapevine" and had travelled to Molesworth from her home in London.

Mr Heseltine, wearing a camouflage jacket and gum boots, arrived by helicopter in the morning for a tour of the muddy airfield. He told reporters that the most important thing was to avoid another Greenham Common.

A Cambridgeshire police spokesman said last night that ten people had been arrested, five for public order offences and five fro criminal damage. The latter group had attempted to cut through the newly-erected fence.

Local people celebrated the departure of the campers enthusiastically.

Mr and Mrs David Forad, who ran the Red Lion at Clopton, draped the Union flag outside their restaurant.

Mrs Ann Ford, a member of the action group Ratepayers Against Molesworth Settlements, was "absolutely delighted" and said "It's a victory for law and order and I am sure we will have a celebration party later on."

We've been liberated

Mrs Jean Beaumont, of Brington, who signed the movement's petition calling for the removal of the camps, said: "I have been up all night. It was blissful. I feel as though we have been liberated.

"This was a very peaceful place up to three years ago and we now hope it will return to peace and quiet."

Mr Melvyn Latchford, who runs the village shop and post office at Old Weston, was "very pleased" and 'said he and his wife were reconsidering their decision to close their two businesses because of the peace camp. The village is three-quarters of a mile awar from the main Rainbow Village camp.

CRUISE RAID

By JAMES WIGHTMAN

Continued from Page One

have been faced with civil disobedience not just for days but for months on that site."

In a typical response from the Conservative backbenches, Sir Anthony Grant, M P for Cambridgeshire South-West, said the lives of people in Huntingdon had been made a misery by "these pests" and they welcomed the firm and efficient way the operation had been carried out."

Mr Wedgwood Benn, Labour M P for Chesterfield, said the decision to build "a Berlin Wall" around the camp, associated with the Minister's readiness to shoot those who might try to get inside," was an indication that the Government was prepared to use the full apparatus of the State to obliterate opposition to its policies.

Mr Benn, who also claimed that the "peace camps" in Britain were respected throughout the world, was told by the Defence Secretary: "What is respected about this country throughout the world is our love of law and order and respect for democracy."

Parliament—P6

DR RAE TO QUIT AS HEADMASTER

By Our Education Staff

Dr John Rae, head of Westminster School since 1970, is leaving the school at Easter next year. The 44-year-old founder member of the SDP is now open to offers of employment.

"I would like to work in the Third World," he said yesterwrite and go on television more. In fact there are all sorts of possibilities. But I definitely don't want to be a headmaster. I've done that."

Commons Sketch

HESELTINE BLITZED BY LABOUR

By GODFREY BARKER

IT was Saturday night in Colditz Castle when Oberleutenant Heseltine came to the Commons yesterday.

The morose depressives facing him in the dungeons of exile knew what he had been up to—inspecting the barbed wire and the observation towers at the Molesworth concentration camp.

Their duty was clear.

"Jackboot!" they screamed at the hated Kommandant (Mr Jeremy Corbyn, Islington, negotiator with the I R A).

"Iron fist!" (Mr Richard Caborn, Sheffield Central). "Police state!" (Mr Peter Pike, Burnley). "Fest European operation" (Mr David Winnick, Walsall N).

From the Labour Front Bench, Dr Kevin McNamara asserted in tones that implied no overstatement that more British troops were used at Molesworth than against the Argentines at Goose Green.

Grinning Tories

Mr Heseltine, who had shed his flak jacket for this civvy occasion, sighed.

He attempted to inject some facts—e.g. that the 1,500 Royal Engineers were not deployed against the protesters, but to build the barbed wire fence.

The Molesworth demo had left peacefully, of its own accord: at the behest of the M o D (Civil) Police.

Oh, Ho, Ho! shrieked the prisoners of the Opposition.

"Nazi!" they shouted. "Fascists!" they yelled at the Heseltine supporting party of evil, grinning Tories. Mr Corbyn, especially, knew about the British Army. "Paranoia! brutality!" he bellowed.

The Opposition negotiator with the hated Heseltine on military matters is the Rt Hon Denzil Davies.

Prisoners' chorus

Contemptuously, he reminded the kommandant that he had threatened to shoot unarmed demonstrators only three months ago.

"Did he realise," he threw at him, "as he strutted round Molesworth, that he was not evicting some wild Baader-Meinhof gang but harmless protesters, most of them Quakers, with a long record of peaceful resistance?"

Noises like the Prisoners' Chorus from Fidelio backed him up.

"All he has done"—he he struggled to keep control in face of the impassive, nerveless gaze of Herr Heseltine—"is sow 100 dragons' teeth."

It took Mr Benn, however, as a man who knows from inside every evil trick of the ruling class, to square up to the full enormity of the Moleworth evil.

Harsh cackles

"The peace camps in Britain, founded on the Gandhian principle of non-violence, are respected throughout the world," he orated.

"The decision to build a Berlin Wall along with the Government's determination to shoot people, indicates its willingness to obliterate all opposition!

The Defence Secretary responded with an infuriating evenness. What Britain was respected for was love of liberty and law and order, he replied.

Those shouting about Eastern Europe should reflect on the fate of occupiers of nuclear bases in Russia. The protesters were not Gandhian. They planned to occupy Molesworth by the 10,000 and prevent development.

"What we have heard today," he gritted, "is the petty response of a party frustrated in one more attempt to support lawlessness."

Labour howled. Would he never lose his temper?

Parliament—P6

INDIA DENIES BIG MOVEMENT OF TROOPS

India last night denied that it had concentrated about 100,000 troops close to the border with Pakistan without telling Islamabad. Earlier a Pakistani official had claimed that New Delhi had deployed a "menacing concentration near the border."

The Foreign Ministry official, who asked not to be named, said New Delhi had not followed practice and informed Islamabad before moving five divisions including an armoured division, to the Rajastan state town of Suratgarh, only 75 miles from the border.

In New Delhi an External Affairs Ministry spokesman said the report was "baseless." He added that there was an agreement to inform each other about special troop movements. —Reuter.

ZAMBIA DROUGHT NEARS END

By Our Lusaka Correspondent

The drought which had cut Zambia's food production for three seasons was showing definite signs of having ended and there were prospects of a a bumper maize harvest, it was reported in Lusaka yesterday. The maize should appear by June.

Meanwhile the E E C had assured Zambia that it would help finance the importation of maize to cover the present shortfall. Some two million bags will be needed between now and June.
